(a) REVENUES NOT TO DECREASE.—The total amount of the revenue received by any possession referred to in section 671(a) pursuant to its tax laws during the implementation year and each of the 4 fiscal years thereafter shall not be less than the revenue (adjusted for inflation) which was received by such possession pursuant to tax laws for its last fiscal year before the implementation year.

(b) NONDISCRIMINATORY TREATMENT REQUIRED.—Nothing in any tax law of a possession referred to in section 671(a) may discriminate against any citizen or resident of the United States or of any other possession.

(c) ENFORCEMENT.—

(1) IN GENERAL.—If the Secretary of the Treasury (after consultation with the Secretary of the Interior) determines that any possession has failed to comply with subsection (a) or (b), the Secretary of the Treasury shall so notify the Governor of such possession in writing. If such possession does not comply with subsection (a) or (b) (as the case may be) within 90 days of such notification, the Secretary of the Treasury shall notify the Congress of such noncompliance. Unless the Congress by law provides otherwise, the mirror system of taxation shall be reinstated in such possession and shall be in full force and effect for taxable years beginning after such notification to the Congress.

(2) SPECIAL RULES FOR REVENUE REQUIREMENTS.—If the failure to comply with subsection (a) is for good cause and does not jeopardize the fiscal integrity of the possession, the Secretary may waive the requirements of subsection (a) for such period as he determines appropriate.

The CHAIRMAN. Pursuant to House Resolution 343, the amendment is considered as having been read.

Under the rule, the gentleman from Arizona [Mr. UDALL] will be recognized for 10 minutes, and a Member opposed will be recognized for 10 minutes.

The Chair recognizes the gentleman from Arizona [Mr. UDALL].

Mr. UDALL. Mr. Chairman, I yield myself 3 minutes.

Mr. Chairman, the old Brooklyn Dodgers who moved to Los Angeles later on, the baseball team, for a decade would lose the pennant in the last week and blow it to the Giants or somebody, and they had a loyal fan who ran a store. He put up a banner after they lost the pennant every year and said: "Wait Until Next Year."

Finally, the Dodgers put it all together, or somebody else lost, and they backed into the pennant, and the storekeeper put up a banner which said: "That Is Next Year."

Well, for me tax reform has been a passion I have had for 20 years. I doubt, as was said by the previous speaker, we will ever get to a situation where you will have a Republican President, a Democratic House, a Republican-controlled Senate where we can move on it. It would be a great shame if, after all the work that has been done, not to pass this bill today.

I have just a few words on my minor amendment which is not very controversial.

When the President sent up Treasury I to the Hill, it had attached to the President's proposals to revise the Federal tax system a proposal to revise the local tax systems of the smaller insular areas.

These local tax systems were provided for by laws within the jurisdiction of the Committee on Interior and Insular Affairs which established our relationships with the islands. They were not established by Federal revenue laws and do not directly affect the Federal tax system.

Included are the Guam and Virgin Islands Organic Acts, the Northern Mariana Islands Covenant, and the Samoan Islands Cession. What is known as the mirror tax system was established under these laws.

I had initially planned to request a sequential referral of the provisions which would revise the mirror system. However, to facilitate the desire to bring this bill to the floor and because I generally approve of the provisions, I am, instead, simply offering an amendment.

My amendment would accomplish the insular tax revisions that the President and the Committee on Ways and Means seek. It has bipartisan support in the Committee on Interior and Insular Affairs and has been worked out with Chairman ROSTENKOWSKI and Ranking Republican DUNCAN and the representatives of the insular areas.

Under the mirror system, insular tax systems are identical to—but separate from—the Internal Revenue Code. Federal Tax Code changes are automatically reflected in the local tax codes.

A number of problems have arisen with the mirror. Unintended loopholes have been created. Lower Federal rates have resulted in insular deficits. Its complexities are difficult to administer.

The bill attempts to rectify these problems. It would revise the Virgin Islands mirror system. It would authorize Guam and the Northern Marianas to replace the mirror system with local laws. It would standardize American Samoa's existing authority to write local tax laws.

The amendment is intended to both accomplish insular tax revisions and protect the integrity of Federal-insular relationships.

Ensuring fiscal responsibility in the replacement of the mirror code with local laws is an important aspect of the amendment. Islands would not be permitted to raise less revenue without good cause, such as changed economic conditions or reduced expenses.

Additionally, the amendment ensures that the Northern Marinas are not forced to change their tax system if Guam changes its system. Currently, the Commonwealth's system actually mirrors the Guam system which mirrors the Federal system.

The amendment also ensures that the Interior Department, which has insular responsibilities, helps the Treasury Department develop the agreements which will govern the relationships between the Federal and insular tax systems. Chairman ROSTENKOWSKI and I expect that the Treasury and Interior Departments will consult fully with the insular legislative and executive branches in developing these agreements.

Further, the agreements themselves can specify consultation on issues such as determining the bona fide residence and source of income of taxpayers. We expect a good faith effort on both sides to reach agreements so that insular tax objectives can be obtained while protecting the Federal Tax system.

The amendment makes a technical change to the bill intended to ensure that all Federal collections which are required to be rebated to insular areas continue to be rebated and are rebated as they are now. This means, for example, that Guam would be rebated all collections on the income of persons receiving Federal pensions and their survivors and of Guam residents in the military stationed abroad.

The cover over these funds is in addition to the cover over of taxes on Federal employees as required by the Organic Act of Guam. Our intent is also that such rebates are paid on advance estimates, as required by the 1978 Omnibus Insular Areas Act.

In this connection, certain inconsistencies in the authority to cover over Federal collections to various insular areas became apparent during the Committee's hearing on this bill December 9. It is important that we resolve these inconsistencies which question the principle of no taxation without representation and our insular relationships.

One inconsistency is that the authority to use collections for public services in American Samoa is more limited than in any other insular area. Even though almost no revenue is involved, this authority ought to be conformed to the authority regarding the other islands.

Another inconsistency is that, despite the original intent of the Virgin Islands Organic Act, a Senate amendment to last year's tax act prevents all collections on products of the territory from being rebated. Chairman ROSTENKOWSKI and I have agreed that this is a problem that should and will be addressed, recognizing our longstanding fiscal commitment to the Virgin Islands.

Similarly, last year's tax act created significant problems by not fully honoring the longstanding practice of rebating all excise taxes collected in Puerto Rico. The Puerto Rico Federal Relations Act expressly continued this practice.

Because our relationship with the Commonwealth was adopted in the nature of a compact, the limitation raised questions about an unwitting repudiation of the relationship. Moreover, Puerto Rico—like the Virgin Islands—is very reliant on the use of these collections.

During debate on last year's tax act, the chairman and ranking Democrat of the Ways and Means Committee agreed that careful consideration and a fair hearing would be given this matter and remedial action would be taken if necessary to correct any inequities. This situation should be dealt with when it is opportune to do so.

In sum, my amendment is imperative both for accomplishing insular tax revisions and protecting the integrity of Federal-insular relationships. It does not affect the Federal tax reforms the bill is primarily designed to make.

Finally, let me say that I appreciate the recognition by Chairman ROSTENKOWSKI and ranking Republican DUNCAN of the need for my amendment. I also appreciate their recognition of the continuing jurisdiction of the Interior and Insular Affairs Committee regarding the insular systems.

Essentially, this is a noncontroversial amendment to correct or to rectify some errors in putting the bill together. I know of no opposition to the amendment.

Mr. Chairman, I yield 30 seconds to the distinguished Delegate from the Virgin Islands [Mr. DE LUGO].

Mr. de LUGO. Mr. Chairman, I thank the gentleman.

Mr. Chairman, I rise in support of Chairman UDALL'S amendment to the tax bill. With regard to the U.S. Virgin Islands, the amendment would retain the mirror Tax Code and make certain adjustments to the mirror thereby avoiding unfair results which have yielded a higher tax burden for some, such as denying the full benefit of joint returns and dependent deductions to certain taxpayers. While allowing others to take advantage of unintended loopholes. Most importantly, the Virgin Islands will now be able to take advantage of the industrial incentive program enjoyed by the other territories and commonwealths under section 936 of the Internal Revenue Code. This should help the territory's efforts to attract mainland business investment. First, because application of section 936 is better understood by the business community than is the current incentive under section 934(B) of the code which is unique to the Virgin Islands. Second, under section 936, investors can benefit from the dividends received deduction when income is repatriated to the mainland parent; under section 934 such transactions are fully taxed. These changes are based on a package negotiated by Governor Juan Luis of the Virgin Islands and the Department of the Treasury.

Furthermore, I appreciate the opportunity provided by the amendment for input by the insular governments in the development of certain of the tax regulations directed at their jurisdictions. This input is important if the mirror system, or any other tax relationship with our territories and commonwealths is to be effective.

I commend the Chairman of the Interior and Insular Affairs Committee, Mr. UDALL, for his leadership in proposing this amendment for the insular areas. I also thank the ranking minority members of that committee, particularly Mr. YOUNG, Mr. LUJAN and Mr. LAGOMARSINO, for their role in bringing this amendment to the floor. The committee's expertise is needed in developing tax legislation directed at the insular areas since such legislation plays a major role in the economic development of these jurisdictions, a priority in the Federal relationship with the Territories and Commonwealths.

I thank the Chairman of the Ways and Means Committee, Mr. ROSTENKOWSKI, for his interest in working with the Interior and Insular Affairs Committee on this amendment. I also thank certain members of the Ways and Means Committee who took a special interest in tax reform as it affects the U.S. Virgin Islands. I especially thank the gentleman from New York, Mr. RANGEL for his help, and the gentleman from Georgia, Mr. JENKINS. Additionally, I appreciate the help of the gentleman from Tennessee, Mr. DUNCAN, the gentleman from Texas, Mr. ARCHER, and the gentleman from Pennsylvania, Mr. SCHULZE.

I urge my colleagues to vote in support of this amendment.

Mr. UDALL. Mr. Chairman, I yield 30 seconds to the distinguished Delegate from American Samoa [Mr. SUNIA].

Mr. SUNIA. Mr. Chairman, I thank our committee chairman for yielding time.

□ 1835

Mr. UDALL. Mr. Chairman, I yield myself such time as I may consume, and I yield to the gentleman from Illinois [Mr. ROSTENKOWSKI].

Mr. ROSTENKOWSKI. I thank the gentleman for yielding.

Mr. Chairman, I rise in support of the Udall amendment.

Under the House rules, the Committee on Ways and Means has jurisdiction over revenue measures relating to the insular possessions. The Committee on the Interior has jurisdiction over other matters relating to those same insular possessions.

The tax bill allows the possessions to modify their internal revenue laws. Under the Udall amendment, the possessions will be required to raise the same amount of revenue as they now raise under the mirror system of taxation. In addition, the amendment includes several technical and conforming changes.

Mr. Chairman, the Committee on Ways and Means has worked with Mr. UDALL and the Interior Committee on this perfecting amendment. I urge Members to support it.

Mr. UDALL. I thank the gentleman.

Mr. Chairman, I yield to the gentleman from Tennessee [Mr. DUNCAN].

Mr. DUNCAN. Mr. Chairman, as far as I know, the amendment is not controversial, and all parties with interest in the legislation in this body have agreed to its provisions, according to all of the information that is available to me, and I support the proposal.

Mr. UDALL. I thank the distinguished gentleman for his help.

Mr. Chairman, I yield to the gentleman from California [Mr. LAGOMARSINO], a member of our committee.

Mr. LAGOMARSINO. I thank the gentleman for yielding.

Mr. Chairman, both H.R. 3838 and the Republican alternative contain the same language regarding the U.S. territories and commonwealths. The Udall amendment to H.R. 3838 could apply to either proposed tax reform bill.

I think we would all agree that our tax laws—even reformed tax laws—are complex. That complexity extends to the insular areas as well. The territories and commonwealths have local tax systems which mirror the Internal Revenue Code. So, as we change the LRC, those changes are also reflected in insular area's tax codes, although the impact there is often different than here. Several of the insular areas would like to have the option to set up their own tax systems. I agree that they should have that option within certain parameters. We recently held a hearing on H.R. 3838, where representatives of the areas affected by this legislation testified of their concerns.

I believe that we have been able to address their concerns in the amendment to H.R. 3838 which is before us now.

I am particularly proud of the process that was used in producing this amendment. We consulted with the representatives of the territories and commonwealths, the Ways and Means Committee and the Department of the Treasury regarding changes necessary in this bill. There exists a broad spectrum of support for the amendment.

Knowing that this amendment is substantively and technically better than the existing provisions, I urge the Members of this body to join with me in voting for this improved provision.

If the Udall amendment is adopted to H.R. 3838, I will ask unanimous consent to apply it to the Republican alternative.

Mr. UDALL. I thank the gentleman.

Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. There being no Member appearing to oppose the amendment, the question is on the amendment offered by the gentleman from Arizona [Mr. UDALL].

The amendment was agreed to.

Mr. LAGOMARSINO. Mr. Chairman, I ask unanimous consent that the Udall amendment be added as an amendment to the Republican alternative.

The CHAIRMAN. Is there objection to the request of the gentleman from California?

There was no objection.

"Sec. 112. Credit for contributions to candidates for Congress."

The CHAIRMAN. Pursuant to House Resolution 343, the amendment is considered as having been read.

Under the rule the gentleman from New York [Mr. MCHUGH] will be recognized for 10 minutes, and a Member opposed will be recognized for 10 minutes.

The Chair recognizes the gentleman from New York [Mr. MCHUGH].

Mr. MCHUGH. Mr. Chairman. I yield myself 2 minutes.

Mr. Chairman, I am offering this amendment on behalf of the gentleman from [Mr. TAUKE] and myself. It is bipartisan initiative, and I believe the Members on both sides of the aisle can and should support the amendment. It deals with a problem which afflicts the political candidates in both political parties. It goes to the heart of the political process itself. And that problem is the increasing influence of political action committees [PAC's] in the financing of political campaigns.

The corresponding problem is the diminishing influence of small contributors, individual contributors in congressional campaigns. This trend has been going on for some years now, and it is getting worse. And it has been going on at a time existing law provides a 50-percent tax credit for small contributions.

The Ways and Means Committee bill would repeal all of the tax credits, 50-percent tax credits, for small contributions. This is the only financial incentive in the law for the small contributor.

Our amendment would try to rectify that problem, at least with regard to congressional campaigns. The amendment specifically provides for a 100-percent tax credit for a contribution to a congressional candidate up to $100 per year, $200 on a joint return.

The contribution, to qualify, would have to come from a resident of the candidate's home State. It would be available on the short form as well as the long form, and it would be effective in 1987.

Mr. Chairman, this is the only opportunity we are going to have to increase the incentive for small individual contributions. We are all political professionals. We know how political campaigns are financed has a great deal to do with the integrity of our political process. It relates to who has influence in this process. It relates to the perception of who has influence and, therefore, it goes to the confidence which the average citizen has in our political process and in our Government.

I urge the Members to support this amendment.

The CHAIRMAN. Does any Member rise in opposition to the Amendment?

The Chair recognizes the gentleman from Tennessee [Mr. DUNCAN] for 10 minutes.

Mr. DUNCAN. Mr. Chairman, I yield 4 minutes to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. Mr. Chairman, of all the amendments that the Rules Committee could have chosen to make in order, this one is I think the most insulting to the people of the United States that could have been approved. Here we have a bill where we are reducing the amount of charitable contributions poeple can make, we are reducing pension contributions, we are reducing the opportunities to create low-income housing, we are reducing the amount of tax exempt bonds that can be issued. But, what does this amendment suggest? That we raise a particular tax credit, by 100 percent. And guess who is benefited by this tax credit. Members of Congress are benefitted by this tax credit. And guess who gets othe other benefit. Their rich friends who can afford the contribute $100.

Today the tax credit is $50. The Ways and Means Committee, in a show I think of some strength and some character, agreed by a vote of 20 to 6 to eliminate the current $50 credit. The committee said, "As long as we are taking hits at charities, we are taking hits at pensions, we are taking hits at historic rehabilitation, we are doing all of these things that people like and we are reducing them so we can cut taxes, we are going to get rid of this tax credit too." It did it by an overwhelming vote.

Now the Democrat study group come before us and say, "Not only are we going to reinstate this discriminatory tax credit, but also we are going to double it."

Why? Because it would be easier for us to raise money for our campaigns.

Who are going to be the beneficiaries? The incumbents.

Will their challengers be the beneficiairies? To a lesser extent they will.

This covers only Federal candidates. It does not cover political parties.

Now, remember that the one element in elections that seems to be getting lost, the group that now contributes the smallest percentage to the

election campaigns, are political parties. But this amendment, of course, eliminates political parties.

It is also discriminatory because it only goes to Federal candidates. It is against small States and low-income States who may not have average fund raising potential.

Remember that the largest agglomerations of political funds come from small contributors. The Teachers Political Action Committee, for instance, collects $10 to $20 bucks from thousands of members to create a political force so that they can try to elect people they support. Here we are not encouraging small contributions. We are encouraging $100 givers. I have some $100 givers, and they are wonderful people. More or less, they do not need that incentive. They have discretionary funds to contribute.

I see no reason why low-income Americans should be obliged under this bill to finance the political contributions of high-income Americans. It may make sense to the Democrat study group. I do not think it will make any sense to the people of the United States.

It is not going to lower the amount of money spent in politics because most of the money is now raised through direct mail fund-raising. Those contributions continue to come in small amounts and will continue to come in small amounts.

It is estimated by the joint committee to cost $500 million. When we can't allow full charitable deductions for short-form tax filers, we can afford to fund a goodie for Congress and its friends. So we are not going to shuffle the cards very much. What we are going to do is give a special preference to rather affluent contributors and a special preference to Federal candidates, namely, us. We are going to do it in the name of reform in the very same bill where we are cutting back charitable contributions, cutting back pension contributions, cutting back capital gains, cutting back low income housing, cutting back historic rehabilitation, removing many of the historic preferences that Members in this House like.

Do not do it in the name of ourselves and our rich friends. Defeat the amendment.

Mr. McHUGH. Mr. Chairman, I yield 2 minutes to the gentleman from Iowa [Mr. TAUKE].

Mr. TAUKE. I thank the gentleman for yielding.

Mr. Chairman, certainly this is not the most critical issue that could have been brought to the attention of the House when this bill was debated. But it nevertheless, is an issue that merits our consideration, and I urge my colleagues to pay close attention to what this amendment does.

Understand that this bill, without this amendment, totally eliminates the tax credit for individual contributions. Consequently, this bill removes incentives for individual contributions and increases the reliance of Members of Congress upon political action committees to finance their campaigns.

Now, my colleague, the gentleman from Minnesota, who I respect greatly and whose opinion I generally parallel on this bill, I think is off base on this amendment, because he suggests this will somehow give assistant to those who are wealthy or who have interests. Just the opposite is true. Because this is a 100 percent tax credit, any individual who pays taxes, no matter how wealthy or how poor, can participate in the political process and receive 100 percent credit for doing so.

That will encourage individual contributions. It is a way that we can shift our reliance away from political action committees toward individuals who voluntarily decide to participate in the political process.

Surely, as part of reform, which this bill theoretically is, we should not allow ourselves to do away with the incentives for individual contributions and rely more on the special interests. And without this amendment, that is what will happen.

Let me say to my Republican colleagues that we have a history of greater reliance on individual contributors. We should embrace this kind of an amendment, which again encourages individuals to participate in the political process.

Moreover, if we do not adopt this amendment, we shift reliance to PAC's where our Democratic brethren do substantially better than we do.

So I urge the Members to vote for this amendment.

Mr. DUNCAN. Mr. Chairman, I yield 1 minute to the gentleman from Illinois [Mr. FAWELL].

Mr. FAWELL. Mr. Chairman, I rise in opposition to the McHugh amendment to the committee's tax reform bill. This amendment is a good example of what many of us feel are more strenuous efforts to achieve "tax revisions" rather than "tax reform."

Current law grants tax credits of $50 for political contributions for individuals and $100 for couples in a joint return. The current provision applies to political contributions to all candidates for public office, State, local, and Federal. The committee bill repeals all tax credits for political contributions in the Internal Revenue Code.

The McHugh amendment would reinstitute the concept of tax credits for political contributions to candidates for public office, but with two substantial differences: First, the amount of the political contribution tax credit would be increased to $100 per individual and to $200 per couple filing a joint return. This would add $500 million to the deficit because the amendment's sponsors provide no new revenues to offset this provision. That's reason enough to defeat this amendment. That's quite a substantial increase of tax credits.

Second, and most important, these tax credits for political contributions would be restricted to contributions to congressional candidates. Selfishly speaking, such an amendment has a lure. But that's about as positive as I can get about the matter.

It seems to me to be an audacious request. It is tax revision, not tax reform.

We would simply build a bigger tax shelter, specially designed for people who contribute to congressional campaigns.

If this amendment were to pass, we all would be, in effect, telling potential contributors that they should ignore giving scarce tax revenues to the Federal Government, no matter how bad the national debt and annual deficits may be, and, instead, give them to Congressional candidates at $100 and $200 lots for our political causes. We are taking money out of the Federal treasury in order to finance our campaigns.

It seems to me that our No. 1 political cause should be to reduce deficits, even more than tax reform. But if we are involved in tax reform we should, wherever possible, be removing tax deductions or tax credits which have relatively modest or no basic taxpayer support.

This is especially true since we will be adding one-half billion dollars to the deficit over 5 years with this amendment. In addition, one cannot realistically assume that this provision will not be expanded to include State and local candidates in the Senate or in a conference committee when word gets out on what the Congress is up to here.

Our national debt is over $2 trillion and growing. During the next 3 years about one-half trillion more will be added to that debt. We have $200 billion annual deficits and we have had to resort to the drastic measures in Gramm-Rudman, which I support to finally come to grips with our deficit.

I am personally embarrassed by this kind of a request. Considering our national debt and the deficits, and probable more deficits which will come as a result of tax reform, as well as the basic unfairness of limiting tax credits to congressional races only. I urge a no vote on the McHugh amendment.

Mr. McHUGH. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. OBERSTAR].

Mr. OBERSTAR. Mr. Chairman, perhaps the most disagreeable part of elective office is fundraising. This amendment will not make fundraising easier, it will make it less disagreeable.

It is not the $100 contributor that my colleague from Minnesota talked

about that I worry about. It is the $1,000 and the $5,000 contributor that is causing this downward spiral of contributors.

The number of small contributors to congressional campaigns is declining and the number of big contributors is raising. And that is what this amendment is intended to stop, to put the little guy back into the political picture. It puzzles me that a few years ago my colleagues from Minnesota testified in favor of a 75 percent tax credit, up to $100, to political contributions, and today he is opposed to the straightforward proposal.

Finally, you do not have to give 100 bucks. You can give $10 or $15 or $25 and qualify for 100 percent contribution. We think that that makes good sense, and that helps spread out the reach of political campaigns to those who we are supposed to represent, the people from the districts from which we are elected and the States in which we reside.

I think that the proposal before us is a reasonable one, and a vote against it is an incumbent protection vote. If you really care about the political process, you will widen it and make it possible for more people to contribute, not fewer.

□ 1850

Mr. DUNCAN. Mr. Chairman, I yield 1 minute to the gentleman from Texas [Mr. BARTON].

Mr. BARTON of Texas. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in opposition to the McHugh amendment because I think it is a classic case of what is wrong with the Ways and Means Committee bill. This is not tax reform; this is a special tax exemption for Members of Congress.

We need to be reforming the code. One of the good things about H.R. 3838 right now is that it eliminates the deduction all together. We should not come back and double it. My colleague, Mr. OBERSTAR, talked about the amount of individual contributions that are declining. That is a true statement. But they are declining because we as Members of Congress are not out soliciting and staying in touch with our people. We are coming to depend more and more on political action campaign contributions.

I think that we need to repeal this. We should not put in a special exemption, a special tax credit exactly for us, Members of Congress. This thing is bad; it is terrible. I think it is a disservice to the American people to try to attach something that helps ourselves onto the overall revision bill.

I would hope that we will reject this amendment.

Mr. McHUGH. Mr. Chairman, I yield 1 minute to the gentleman from North Carolina [Mr. WHITLEY].

Mr. WHITLEY. I thank the gentleman for yielding me this time.

Mr. Chairman, as one who has announced that he will not again seek reelection to this body, I believe I can speak from the perspective not of one who will personally benefit by this measure should it pass, but one who has watched in dismay in recent years as increasingly larger percentages of campaign financing have come not from individual contributions but from political action committees, many of whom are located far from the State or district to be represented by the congressional candidate.

I think one of the best things that this Congress can possibly do is to take any step possible to try to concentrate on getting the financial support of congressional candidates put back in their districts and in their home States. The best thing that this amendment does is to say that this tax credit will be limited to contributions made to congressional candidates in the home State of the contributor. There are too many political action committees in this country located in the oil States. There are too many political action committees located far from the States and districts to be represented that are having too much influence on the election of Members of Congress.

Mr. DUNCAN. Mr. Chairman, I yield 1 minute to the gentleman from Virginia [Mr. OLIN].

Mr. OLIN. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in opposition to this amendment. With all due respect to my friends in the Democratic Study Group, I cannot imagine why this amendment is coming before us tonight. It should not be in this tax bill. If our problem is that we are getting too much money from PAC's then we can deal with that problem all by itself.

There is no reason in the world why we ought to set up a 100-percent tax credit plan to get small contributions to finance the campaigns of Congressmen. It is ridiculous. It does not take much imagination to figure out what the slick boys and their slick mail campaigns will do with this.

I have been watching the antics of a slick group under the name of "Jimmy Roosevelt," raising $10 or $15 from poor people to finance a program that he defines. I am told that that program on one of the early mailings got 1 million responses at $10 each. Ten million dollars. It was to save the Social Security system. It would not take much imagination to figure out that when somebody gets hold of this $100 tax break what could happen.

I hope that everybody here with good sense will vote this amendment down and get on with the main portion of the bill.

Mr. McHUGH. Mr. Chairman, I yield 2 minutes to the gentleman from Ohio [Mr. REGULA].

Mr. REGULA. I thank the gentleman for yielding me this time.

Mr. Chairman, Aristotle said:

> If liberty and equality as is thought by some are chiefly to be found in democracy, they will be best attained when all persons alike share in the government to the utmost.

What we are talking about on this amendment is to get more people to share in the responsibility for electing Members to this House. A congressional seat belongs to the people in each of the congressional districts, and they should be given incentives and be encouraged to participate in the financing of those campaigns.

I think this amendment as proposed here is a giant step in the direction of involving more people in the political process. The alternative is to go eventually to public financing. I think that this proposal is a far more desirable way to approach the problem of financing campaigns. It addresses the problem that today we are getting only 20 percent of the receipts in House races coming from small contributions as compared to 50 percent not too many years ago.

By the same token, PAC contributions, as a percentage of receipts, have gone from 17 to 38 percent. I am sure that all of us hear our constituents deplore what is happening in the financing of campaigns, large contributions as opposed to small, individual contributions as a means of support.

I urge my colleagues to support this amendment as a way of broadening the base, as a way of getting far more people involved in the political process, and as a way of keeping the responsibility in the private sector in terms of contributions rather than to go the direction of public financing.

Mr. DUNCAN. Mr. Chairman, I yield 3 minutes to the gentleman from California [Mr. THOMAS].

Mr. THOMAS of California. I thank the gentleman for yielding me this time.

Mr. Chairman, one of the things about this amendment that saddens me the most is that it simply fails to recognize the role of political parties in our system. I guess we could look at it from the Ways and Means approach, and that is, we examined the $50 tax credit in committee and although it was extended to political parties, to political action committees, to candidates at any level, the problem that we discussed most was the fact that you could not enforce it. People could claim it but you had no ability to prove that they actually offered the money to those various groups.

The exact amendment that we have in front of us was offered in committee, and discussed extensively and

voted down; 21 to 14. There were eight Democrats who opposed this amendment in committee. It has been said in some of the literature that has been circulated on the floor that this is a device that is offered to offset PAC contributions. If that is the reason it is being offered, it simply will not succeed.

If it was targeted only to congressional candidates to save costs, as was argued, I think it is sad that left out of the Tax Code of the United States is some formal recognition of political parties. I wish I had more time to talk about the institution of the political party in this country. It is not mentioned in the Constitution, as we know, but it has become a key structural device by which we organize our political activity in this country.

The two great parties, the Democratic Party and the Republican Party, have a long tradition and a long history. They also play a very fundamental role in terms of the organization of this body. They are not recognized in this amendment. You can get a $100 contribution, and it goes to a Federal candidate, but the political parties are left out. Not one cent to political parties.

Mr. FRENZEL. Mr. Chairman, will the gentleman yield?

Mr. THOMAS of California. I yield to the gentleman.

Mr. FRENZEL. Does the gentleman know how much this amendment costs when we are trying to save money? I understand it is a half-a-billion dollars, and we cannot meet the other requirements of the bill.

□ 1900

Mr. THOMAS of California. It is as much as a half-billion dollars. There are other estimates that place it slightly less than that, and that was why they argue it was targeted for congressional candidates, but that targeting in itself is onerous, and if it was done to save money, it is obvious that they are trying to create a device which looks cheaper, but it is not.

I believe it will be closer to a half-billion dollars than some of the estimates I have seen of around $200 million. So there is not 1 cent for political parties in the tax code of the United States; 100 percent for candidates for office, and most of those candidates for office will be incumbents. If you want an incumbent-protection provision which fails to recognize political parties even to the point that they are not worthy of allowing you 1 cent of tax credit, then vote for this amendment. If you believe political parties are important in the system, vote it down.

Mr. McHUGH. Mr. Chairman, I yield 1 minute to the gentleman from Washington [Mr. SWIFT].

Mr. SWIFT. Mr. Chairman, we heard earlier in the debate that this was to the benefit of ourselves and our rich friends. How misleading can you be? Ourselves? Well, perhaps our campaigns, but perhaps the campaign of our opponent, or perhaps of the Senator from our State, or perhaps another congressional district in our State.

And our rich friends? Our rich friends do not need the tax break; our rich friends can contribute directly.

What this does, however, is let the average guy get in where he can compete with our rich friends in those poltical contributions, dollar for dollar, up to $100.

Why can he do that? Because he is either going to pay that money to Uncle Sam, or he can contribute it to us, or our opponent, or a Senate race, or another congressional race in our State, because this money will not come out of the mortgage, it will not come out of shoes for the children or school supplies or food; it will come out of what he is going to have to pay in taxes anyway.

No, it is not for our benefit, nor our rich friends. This is for the American people.

Mr. McHUGH. Mr. Chairman, I yield such time as he may consume to the gentleman from Massachusetts [Mr. MAVROULES].

Mr. MAVROULES. Mr. Chairman, I rise today in strong support of the amendment to H.R. 3838, which has been offered by my colleague from New York.

This amendment would provide for a 100-percent tax credit for small individual contributions to candidates for Federal office. If passed, the credit will result in the return of thousands of individual contributors to the electoral process.

It is important to remember that the tax bill before us today would repeal the existing tax credit for political contributions. It is estimated that in this fiscal year, the existing credit will result in a revenue loss of $280 million. On the other hand, individual contributions of less than $100, which would be subject to a credit under the McHugh amendment, currently amount to less than $40 million per year. At a time when we are all concerned with the issue of revenue neutality, I believe this to be an important consideration.

Mr. Chairman, some opponents of this amendment have voiced the opinion that this tax credit will be used by various single interest lobbies to direct millions of dollars to like-minded candidates. Frankly, I share their concern.

However, our party has long prided itself on the abililty to develop grassroots support, and to build from within. If we as Democrats are not willing to assume the challenge of expanding our donor base with individual contributions, then what are the alternatives?

Failure to enact this amendment will serve to widen the gap between individual contributions and contributions by political action committees. In the past 10 years, contributions by individuals to Federal candidates have decreased nearly 30 percent while at the same time, contributions from PAC's have increased more than 20 percent. Without a tax credit, the level of PAC spending will certainly increase even more.

Mr. Chairman, the 100-percent credit will increase the aggregate amount of small contributions and the number of individual contributors.

If we are serious about reducing the influence of PAC's in Federal elections and raising the level of individual participation in the electoral process, we should pass the small contributor tax credit. By doing so, we will be taking a major step forward in restoring public confidence in our Federal elections.

Mr. ANNUNZIO. Mr. Chairman, I rise in support of the amendment. As chairman of the committee that writes our election laws, I take this opportunity to commend those Members, on both sides of the aisle, whose efforts have brought this amendment to the floor.

There are two ways individuals can vote for their candidate. They can vote with their ballot and they can vote with their pocketbook. This amendment is an invitation to our constituents to participate more actively in the financing of our elections.

This is a modest reform. Incumbents and challengers are treated alike. It makes our constituents welcome guests in our campaigns. It does not correct all of the problems but it is a step toward redressing the imbalance between small individual home-State contributors and out-of-State special interest groups.

I can assure the Members of this body that the Committee on House Administration will continue to seek out ways to curb excesses in financing Federal elections.

I support passage of this amendment and urge each of you to do likewise. By voting for this provision, we will be sending a message to all of our individual constituents that their contributions, no matter how small they are, do indeed count in our electoral process.

Mr. McHUGH. Mr. Chairman, I yield myself the balance of my time.

The CHAIRMAN. The gentleman from New York [Mr. McHUGH] is recognized for 1 minute.

Mr. McHUGH. Mr. Chairman, a number of opponents of this amendment have suggested that this amendment takes away a tax credit for political parties or other types of political contributions. That is wrong. This amendment takes away nothing. The bill itself has taken away any existing tax credits for political contributions small in nature.

What this does is focus on the problem that we in congressional races have of encouraging participation by individual small contributors. Make no mistake about it: the alternative to this amendment is increasing dependence by congressional candidates on political action committees, something which is distorting the process in this country, something which we have to

stop today, and this is our only opportunity.

Mr. Chairman, I urge a yes vote on this amendment.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from New York [Mr. McHUGH].

The question was taken; and the Chairman announced that the ayes appeared to have it.

Mr. FRENZEL. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The CHAIRMAN. Pursuant to House Resolution 343, the amendment in the nature of the substitute is considered as having been read.

Under the rule, the gentleman from Tennessee [Mr. DUNCAN] will be recognized for 1 hour, and a member opposed will be recognized for 1 hour.

The Chair now recognizes the gentleman from Tennessee [Mr. DUNCAN].

Mr. DUNCAN. Mr. Chairman. I yield 8 minutes to the gentleman from Texas [Mr. ARCHER].

Mr. ARCHER. I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise as a longtime supporter of the concept of tax reform. For the 2 years prior to the Treasury unveiling its first recommendation, I spoke continuously about the defects in the current code, a code so complex that I, as a lawyer and a member of the tax-writing committee, had reached the point where I could no longer do my own return without outside help; and, sadly enough, where the outside help could no longer tell me with a certainly that the advice that they gave me could be depended upon with certainty.

Yes, this code cried out for change and reform, true reform. But to label "reform" without concern for the substance of the bill is, in my opinion, worthless. It is purely change for the sake of change. True reform should embody the 3 characteristics that the President has highlighted: Simplicity—and, yes, when I go back home, what do most of the people tell me? "When are we going to get tax simplification?" They do not talk reform. They talk tax simplification—fairness and growth.

Members of the Committee, does the committee bill measure up? I say after excruciating analysis that, in my opinion, it does not. Admittedly, there are good things in it. Rate reduction is good, but at what trade-off and what price?

Does it simplify the current Tax Code? I say to the people of America: Do not be deceived that this bill is simplification, it is not. The current code is 3973 pages. The committee bill is an additional 1379 pages that does not replace the current Code but adds to the current code. It will necessarily require the addition of many thousands of IRS agents above the current level and thousands upon thousands of tax practitioners in the private sector. It is not simplicity. It adds additional complexity to an already arcane Tax Code.

We were told that we were moving toward at the beginning of tax reform, a return-free system where taxpayers would not even have to file a return; that they could just be billed by the IRS. The return-free system, ladies and gentlemen, went out the window early on in the process and the addition of the amendment that was just adopted for political tax credits puts us even farther away from a return-free system.

So we can no longer argue simplicity with any validity whatsoever. I defy any member of the committee to stand before this body and claim that this bill is more simple than the current law. Yes, it drops some people from the rolls who would currently be taxed, but those people are already in the most simple form imaginable.

For almost everyone left on the tax rolls it is made more complex than current law. It rewrites the pension code for the third time in 3 consecutive years, creating many additional complexities. It will mean that pension plans throughout this country will

have to be completely redrafted and rewritten, at a cost of hundreds of millions of dollars, wastefully and unnecessarily; and as a result, many of those plans will be dropped and people will not have benefits they need in their retirement years, particularly those provided by small businesses and professional organizations.

If the committee bill passes, half of middle-income Americans will have their taxes increased in 1986. That is not what most people are expecting out of what is called tax "reform." In the area of foreign-source income so vital to the ability of this Nation to trade and compete against its foreign competitors, this bill makes it far more difficult and far more complex than the current law. We could spend 2 hours today on the floor talking only about that segment, but it will lean against exports and lean toward imports in the future years for this country. The result will necessarily be fewer jobs for Americans.

Is the Committee bill fair? Fairness is in the eye of the beholder. To some, I am sure it will be considered to be fair. But to me, fairness means that it must be conducive to growth and job creation. I have checked with major economists of various persuasions in the last 2 days across this country and there is not a single one of them, liberal, moderate or conservative, who said that this bill will bring growth. At best, they say it will be flat or neutral in the long term, and in the short term the majority of them say it will be negative in its impact on the gross national product.

□ 1935

Perhaps in the out years, some Americans will receive an individual tax reduction, but if they do not have their jobs, it will be a pyrrhic victory for tax "reform."

The Committee bill is clearly antigrowth, antiinvestment, and that flaw cannot be remedied in the other body. There are too many dollars involved.

It is proconsumption, and perhaps we should encourage our people to eat their seedcorn so that they cannot plant the crops in the years to come. I do not think so. I think we should be encouraging more savings and more investment.

In the long run, the pieces in this substitute and the committee bill compared to the current law have got to be weighed in the aggregate. There is good and bad in all three. I believe that the substitute is an improvement over the committee bill, and as an amendment to the bill, I intend to vote for it.

But I must say that when I put in the balance compared to the current law, the proposals we are permitted to consider today, the risk of loss is far greater than the chance of gain for the entire U.S. economy.

Should we at this time, when the market is telling us we are going to have an excellent economic year in 1986, play "Russian roulette" with the jobs of Americans? I think not. I think it is time to talk about phasing in massive changes instead of creating dislocations which potentially jeopardize national interests vital to all of us.

I am reluctant to take the well to speak against, in effect, our committee chairman and my President whom I respect. Both have expended great effort to move this process along. But I do not in my heart believe that the other body can improve what, in my opinion, is overall a bad bill for America. I must stand here and oppose that bill, and I urge the other members of the committee to do likewise on final passage.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield 3 minutes to the gentleman from Alabama [Mr. FLIPPO].

Mr. FLIPPO. Mr. Chairman, I rise in support of the committee bill and in opposition to the Republican substitute.

I would like to make a few remarks about the guiding principles that were guiding the committee bill in its preparation. We have heard of those principles mentioned as revenue neutrality. I think it is important to talk about, to understand this bill from what it does not do, what it is not.

The committee bill is not a vehicle for tax increases, either backdoor or front door. The committee bill does not contribute to the Nation's deficit. Its principle is revenue neutrality, and one I think we need to retain.

The second principle is to reduce the rates. This bill, if the committee bill is passed, will have the lowest rates we have had in 30 years, going from 50 percent to 38 percent for individuals and 46 percent to 36 percent for corporations.

If you are going to maintain revenue neutrality and cut the rates, you must find the revenue in some area. Notice that there is no claim this time for some supply-side growth to pay for these tax cuts. These cuts must be paid for by reducing tax preferences, and our committee first of all looked at the tax preferences or tax loopholes, if you will, and we imposed a very strong and I think fair minimum tax to make sure that the social objectives that people who make income must pay some kind of taxes. That is the first principle that I believe was very important.

The committee, after it turned to the minimum tax and raised those revenues, began to look at those companies and individuals that paid the lowest effective tax rates, and we began to increase those. I think that is a fair and equitable approach.

The committee bill reduces those rates to their lowest in 30 years. The committee bill preserves incentives to save and invest by restoring 401(k) and 403.

The committee bill preseves the deductability of State and local taxes, which the Republican substitute does not do. We retain the deductability of home mortgages and the mortgages on second homes. The committee bill does not tax fringe benefits, and the Republican alternative would.

So I think that for the first time ever, our bill continues to make IDBs, not for the first time, but IDB's were set to expire, and we will be able to continue to have IDB growth as a tool for jobs.

In regard to simplification in growth, we have had our tax preferences and our Tax Code oriented toward preferences for equipment and buildings where the growth sectors of our economy have been on people, small, innovative businesses that use creative minds and human resources.

I think the committee bill is far preferable, and much more in line with the changing economy that we face today and in the future, and I encourage your support of the committee bill.

Mr. Chairman, I rise in strong support of H.R. 3838. The Tax Reform Act of 1985 represents sound public policy, prudent Federal tax policy and is consistent with needs of our changing economy.

H.R. 3838 merits the support of everyone in the House because it provides tax incentives for the working poor, a significant reduction of the tax burden of middle America, a substantial reduction in the marginal tax rates of all taxpayers, for horizontal equity among corporations and contains a strong minimum tax that significantly reduces the probability that any corporate or individual taxpayer will escape paying their fair share of taxes.

There is one very important sector of the economy that receives special consideration in the Tax Reform Act of 1985. The Committee on Ways and Means carefully shaped this tax bill to reflect the needs of the small business community.

H.R. 3838 is the first tax reform bill in my memory that specifically addresses the needs and concerns of the small business community about fairness and equity.

The studies conducted at MIT and elsewhere have demonstrated that small businesses are the key factor in the growth of the economy. The small business sector has been the prime source of new jobs and creative new products that have fueled the growth of the U.S. economy in recent year.

The key role that small business plays in the economic development of our Nation requires fair tax treatment for the small business community. H.R. 3838 carefully addresses the need of small businesses for a simple and fair Tax Code.

The bill before you today reduces the corporate tax rate by more than 20 percent from 46 percent to 36 percent. Just as important, the bill would provide for a greater

degree of horizontal equity among all corporations.

The number of corporate tax rates is reduced from 5 to 3 under the provisions of H.R. 3838. The tax rate applied to small businesses with taxable income of $25,000 or less would remain unchanged at 15 percent. The rate applied to taxable income between $25,000 and $50,000 would be reduced from 18 percent to 15 percent and the rate applied to taxable income between $50,000 and $75,000 would be reduced from 30 to 25 percent.

The reduction in the rates for small businesses will help to nurture growth in this sector of our economy. There are, however, numerous other provisions in this bill that will encourage and support the growth of small businesses. At every opportunity the Committee provided for special treatment for small businesses that will simplify the application of the Tax Code to this important segment of the economy, reduce the cost of compliance and encourage growth.

The bill would resolve the serious problems small businesses have encountered in accounting for inventory. H.R. 3838 provides businesses with annual gross receipts of $5 million or less the opportunity to use a simplified dollar-value LIFO method in accounting for their inventories. The LIFO method generally is considered to be an advantageous method of accounting for inventories, particularly when costs are rising. The small business community, however, has been reluctant to use the LIFO inventory accounting system because it is complex and the costs of compliance are high.

The Committee on Ways and Means recognized that the complexity and compliance costs discouraged small businesses from adopting LIFO despite its advantages. The bill before you today provides for a simplified dollar-value LIFO method for small businesses. This provision resolves a longstanding problem by allowing small business to use the LIFO method long available to large business.

The simplified dollar-value LIFO will enable small businesses to improve efficiency, increase productivity, and accurately compute taxable income. It will improve their competitive standing in the market place by reducing costs and strengthening financial statements.

The small business community has long sought recognition of their unique inventory accounting problem. The bill meets the needs of this important segment of our economy. This is one important reason why the bill is supported by the small business community.

The bill would repeal the completed contract method of accounting for "long-term contracts" and redefine the definition of a long-term contract. The small business community, however, would be exempted from this substantial change in the tax laws. Under the provision of H.R. 3838, small firms with gross receipts of $10 million or less would be permitted to continue to use the completed contract method of accounting under a contract for the construction of real property that is expected to be completed within a 2-year period.

The bill would require that the costs of producing timber including interest costs, be capitalized using the uniform capitalization rules. Small timber producers, however, would be allowed to elect to amortize over a period of 5 years, amounts required to be capitalized under the provisions of the bill which are currently eligible to be expensed. The bill once again clearly provides for preferred treatment for the small business operator.

The bill would require most businesses not already doing so, to shift to the accurual method of accounting. The motive for this provision is the belief that the cash method of accounting frequently fails to reflect accurately the economic results of a taxpayer's trade or business over a taxable year.

The bill, however, recognizes that the cash method generally is a simpler method of accounting and that simplicity justifies its contined use by small business. Thus, H.R. 3838 would allow businesses with gross receipts of $5 million or less to continue to use the cash method of accounting in order to avoid the higher costs of compliance which would be entailed in switching to the accrual method.

The bill would repeal the reserve method of accounting for bad debts now presently used by all commercial banks. There are numerous justifications for repealing the reserve method. The committee recognized, however, that the repeal of the reserve method for smaller banks could endanger the viability of the small institutions already under considerable market pressures. Thus, the bill under consideration today retains present law regarding the use of reserves for banks with assets of $500 million or less. This provision will allow approximately 90 percent of the commercial banks in the country to continue to use the reserve method of accounting for bad debts.

Small businesses generally do not have sophisticated mechanized accounting systems or access to the necessary expertise except at considerable expense to deal with the complexities of the corporate tax laws. The tax laws should be developed and designed to reflect the special needs and circumstances of the small business community for simplicity and fairness. H.R. 3838 addresses the needs of the small business community. It provides special treatment for small businesses that will simplify the application of the tax laws to small businesses and reduce the cost of compliance. In doing so, the bill encourages economic growth and the creation of new jobs.

I urge my colleagues to support small business and vote for the Tax Reform Act of 1985.

Mr. DUNCAN. Mr. Chairman, I yield 30 seconds to the gentleman from Nebraska [Mr. DAUB].

Mr. DAUB. Mr Chairman, I would like to enter into a colloquy with the chairman of the Committee on Ways and Means, Mr. Rostenkowski, if I might.

I will be very brief.

Mr. Chairman I want to clarify the committee's intent with respect to a provision of the bill making a technical correction to the Deficit Reduction Act of 1984. Under this technical correction, a transition rule is provided to certain employers who maintain vested vacation pay plans for their employees. An employer is eligible for this transition rule if payments under the vacation pay plan are required to be made during the taxable year in which the vacation pay is earned or in the following taxable year. The committee intended that this transition rule would also be available to employers who maintain plans in which payments are, in fact, made in the current or following taxable year, even if the payment is not required in such years.

Mr. ROSTENKOWSKI. Mr. Chairman, will the gentleman yield?

Mr. DAUB. I yield to the gentleman from Illinois.

Mr. ROSTENKOWSKI. The gentleman is correct.

Mr. DUNCAN. Mr. Chairman, I yield 5 minutes to the gentleman from Illinois [Mr. CRANE].

Mr. CRANE. Mr. Chairman, we have before us an exciting piece of legislation that has attracted so much attention that there are probably at least 50 Members of this body present to listen to this scintillating debate. We are talking about a reformation of our entire Tax Code.

One of the criteria that the President enunciated early on was simplification. Right? I mean, this document is simplification. We have real simplification in this code, Mr. Chairman, approximately 1,400 pages of simplification.

I read recently that in the 1984 Tax Reform Act that we passed, one paragraph alone has already produced 126 pages of IRS interpretation. Exciting, isn't it, to contemplate what they can do with this document? This is real simplification of the code, Mr. Chairman.

I calculated that approximately 100 of these documents, if you are only assuming 100 pages of interpretations per page of this weighty document, that ought to give us interpretations that easily would reach to the ceiling of this Chamber.

I have introduced a flat tax bill. It is all of seven pages and would totally reform this code. I contrast it with the 1,400-page committee bill. You tell me which one comes closer to tax simplification in your judgment.

One of the concerns I have about this bill is its implications in terms of capital formation. We have had a number of studies, independent studies done in terms of what this bill would do with regard to GNP, the deficit, the unemployment rate, and the cost of capital. One of these was done by Laurence H. Meyer Associates with

regard to GNP. The other was Wharton Econometrics, and the third one was Chase Econometrics, all reputable authorities that have been invoked many times in all of our debates on these esoteric tax and economic questions.

Listen to their estimates. Meyer Associates estimates that the real GNP would decline by two-tenths of 1 percent in 1986 relative to current law. Wharton Econometrics estimates a 1.1-percent decline in 1986. Chase Econometrics estimates a two-tenths of 1 percent decline in 1986.

In order words, there is unanimity on that point: There would be a real decline in GNP.

On the question of the deficit, Meyer estimates the budget deficits would rise by $16 billion in 1986 over current levels. Wharton estimates the deficit would increase by $14.1 billion in 1986. Chase puts the figure at $7 billion, a modest $7 billion. But when you are talking $200 billion deficits, every one of these economies that we can effect is obviously in the best interest of the eocnomy and the country.

On the question of unemployment, Meyer estimates that the unemployment rate would be 2.9 percent higher in 1987, and listen to this figure, 24.1 percent higher unemployment in 1991 as result of the assault on capital formation in this bill. Wharton puts the figure at a 5.7-percent increase in unemployment in 1986 over what will be the case under current law. Chase estimates a modest 1.3-percent increase over current law in 1986.

But I think the point is well taken. Every one of these economic assessments of this bill says we are going to have escalated unemployment, and it could be astronomically escalated.

On the question of capital, listen to these figures.

This should really grab you. You know it is a good thing there are folks back home watching C-SPAN that are listening to this debate too, because we have a lot of Christmas parties going on, and I do not think too many Members are all that enthused about this whole subject matter anyway.

But listen to these estimated costs of capital. In the Meyer study to the producers of durable equipment, the cost of capital in 1986, up 18.3 percent; nonresidential structures up 11.3 percent; multiple-family housing up 7.3 percent. Wharton says manufacturing capital costs in 1986 will be up 11.8 percent, mutiple-family housing up 35.8 percent. Chase Econometrics says producers' durable equipment will be up 25.2 percent and industrial and commercial equipment up 30.6 percent.

The fact of the matter is that the Republican alternative attempts to address these questions dealing with the preservation of at least a portion of the investment tax credit, the indexation of depreciable assets and a more preferential treatment with regard to capital gains.

Mr. Chairman, I urge our colleagues to give serious thought and consideration to this. We need the Republican alternative, and we must reject the committee's bill, notwithstanding the yeoman efforts of our distinguished chairman.

Mr. Chairman, the Ways and Means tax bill will obviously have a dramatic negative effect on capital formation. If we are to stimulate growth and allow the economy to create jobs, we must not strike down the very reforms in the Tax Code which have strengthened the economy over the last few years. The Ways and Means bill strikes these reforms. The most significant stimulus to the mobility of capital achieved during the Carter administration, the reduction in the capital gains rate, is washed aside; the very cornerstone of the 1981 tax bill which stimulated the dramatic job-creating growth in the economy, Accelerated Depreciation and the Investment Tax Credit, is eliminated, the economic reality proclaimed by the President in 1983, that the corporate tax is a regressive tax which is transferred directly to individuals, is ignored, and the realization that the Tax Code must encourage savings and discourage debt financing if we are to achieve a significant decline in the interest rate is given a severe blow by the increased taxation of retirement savings.

The tax bill before us will raise the effective tax rate on capital gains to a maximum 22 percent. That is an increase from the present 20 percent capital gains rate, and a large increase from the President's proposal of a 17.5 percent maximum rate.

As history has clearly shown, higher taxes on capital gains decrease capital formation, new business ventures, and entrepreneurial activity. Throughout the 1970's, capital gains were taxed at an effective rate of between 42.5 percent and 49 percent. This was a period of stagnation for American entrepreneurial activity. Associated with the abrupt rise in the taxation of capital gains was a sharp decline in new funds raised by venture capital firms. As funds for venture capital firms dried up, the development of new and growing companies was nearly stopped in its tracks. This is reflected in the massive decline in new capital raised by emerging companies. Then, in 1978, the Congress reduced the capital gains rate to 28 percent. The capital gains rate was again reduced to 20 percent in 1981. The amount of money dedicated to organized venture capital rebounded from an average of $70 million per year in the years 1969 through 1977 to an average of just under $1.5 billion per year between 1978 and 1983, with total dedications of $1.7 billion in 1982 and $4.1 billion in 1983. The reduced capital gains rate is the Nation's seed capital, from which thousands of new companies and new jobs are started each year. The Ways and Means bill kills this seed by increasing the capital gains tax rate at a time when it should be further decreased.

Ironically, this provision will actually prove to reduce tax revenues at the same time it is eliminating jobs. The figures on tax revenues are remarkable. When the capital gains tax rate was raised in 1969, tax revenues from capital gains stood at $5.5 billion. However, even though the maximum tax rate had been doubled after 1969, tax revenues averaged only $5.3 billion per year from 1969 to 1978—the period of high capital gains taxes. In stark contrast, after the capital gains tax rate had been sliced by nearly half in 1978, tax revenues from capital gains averaged $11.1 billion per year. This provides substantial evidence for Adam Smith's dictum that moderate taxation often provides government with more revenues than do higher levels of taxation.

The cornerstone of the 1981 tax bill was the ACRS—Accelerated Cost Recovery system, and the Investment Tax Credit. These two reforms provided the stimulus to investment in plant and equipment which fueled the economic growth in job-creating industries. Now, the Ways and Means tax bill eliminates the Investment Tax Credit and stretches out the period which real property can be depreciated from 18 years, in the current ACRS system, to 30 years. This dramatically increases the costs to business of investment in plant and equipment by greatly reducing the annual deduction a company can take for the depreciation of these costs of production. While the supporters of the Ways and Means tax bill argue that the changes in the depreciation schedules and the elimination of the Investment Tax Credit are compensated by the reduction in the top corporate rate from 46 percent to 36 percent, this fails to recognize the point recently made by Martin Feldstein, which is that reduced corporate rates only help already existing investment, while investment incentives stimulate new investment. And new investment is what is needed if the economy is to continue to create jobs.

During the debate we have heard that the Ways and Means bill is a good bill because it has a stiff corporate minimum tax that guarantees that corporations will all pay their "fair share" of taxes. But this argument ignores the economic fact realized by economists on both the right and the left, such as Lester Thurow and Joseph Peckman at the Brookings Institution, Martin Feldstein and Nobel laureate, Milton Friedman, and articulated by our own President in March 1983, when he stated his conviction that corporations do not pay taxes, rather they pass them on to individuals.

The corporate income tax is an indirect tax on individuals. It is another cost to business, such as wages, advertising, and investment in equipment, which must be passed on to individuals in the form of higher prices and reduced dividends to stockholders. To the extent it is passed on to individuals in the form of higher prices, it is a regressive tax, hitting the poor hardest. Remember, that the poor spend all of their money on consumption: food, cloth-

ing, and shelter. The tax on food processors, clothing manufacturers, and homebuilders is contained in the high cost of these items. A corporation is only a paper agreement between individuals to produce goods and services. And when this paper agreement is taxed it passes that tax on, like it passes everything else on, to individuals. The result of the tax, however, is increased costs which only burden the ability of that corporation to provide jobs and sell inexpensive merchandise to its customers.

Then there is the issue of saving's rates. America has the lowest saving's rates in the industrialized free world. Only 2 weeks ago we found out that the saving's rate in the thrid quarter of 1985 was the lowest rate in about 10 years. America has a history of having the lowest saving's rates in the world. And it is no wonder. Our Tax Code favors debt over savings. It punishes savings by taxing the same dollar when it is earned, and again when it is saved. The crime is, that if we do what our parents teach us to do, that is save instead of spend, our tax system penalizes that act. If, however, we spend that hard earned dollar, there is no tax penalty. That is absurd.

The Ways and Means bill further penalizes saving. America needs savings to increase, not decrease. Savings make the economy grow. Savings provide the capital needed for business investment. Savings provide the means for creating jobs. And this bill is antisavings.

This bill denies the $2,000 spousal IRA deduction called for by the President. That is not only discriminatory against women, it is antifamily. This bill severely limits the most popular tax deferral retirement program in the land, the so-called 401(k) plans, perhaps the most successful savings incentives in the entire Tax Code. Given the bleak future for the Social Security system, it is utter folly to reduce incentives for private retirement plans. The committee bill also forces those who choose to use 401(k) plans to reduce their IRA contributions on a dollar-for-dollar basis. That further restricts savings incentives. That threatens capital formation. That threatens the well-being of future retirees. This bill moves in the wrong direction.

In conclusion, the committee bill moves the Tax Code in the wrong direction. Although I strongly favor the reduction of rates, the price exacted in this measure is too great to accomplish that goal. The bill moves away from encouraging savings and investment. Without enhancing that type of incentive, American businesses cannot hope to meet and best the increasingly fierce international competition of the 1980's and beyond.

I hope those members who support this measure are prepared to explain their votes to the businesses that will go bankrupt as a result. For the owners and their employees, lowered individual rates will produce little succor. I urge you to vote no on the Ways and Means bill.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield 3 minutes to the gentleman from Illinois [Mr. DURBIN].

Mr. DURBIN. Mr. Chairman, one of the important elements in the tax reform debate is the question of economic growth previously mentioned by the speaker from Illinois who supported the Republican substitute. I stand today in support of the Ways and Means bill for several reasons.

Where I hail from in central Illinois, we are concerned about the farm economy. One of the aspects of this tax reform bill which is very important to the Midwest is the fact that the committee has preserved the ethanol excise tax exemption. This not only means jobs in my area, but it means more farm income for farmers across the Midwest, and in fact, across the Nation.

One of the aspects of the Caribbean Basin Initiative relative to ethanol is being considered by the House Ways and Means Committee at this time, and I have been advised by the chairman that at a date in the spring of next year, the House Ways and Means Committee will be considering hearings on the question of the CBI. I would like to salute in particular some members of the House Ways and Means Committee, the gentleman from North Dakota, BYRON DORGAN, and the gentleman from Nebraska, HAL DAUB, for their efforts in the ethanol portion.

I would like also to speak particularly to an element brought up in the debate, and that is whether or not the House Ways and Means Committee proposal is antibusiness and antigrowth. Rather than take the words of some association or lobbyist, I contacted businesses in my district. I did a telephone survey of local businesses over the last several weeks to ask them whether or not they supported the tax reform bill. There were two major businesses which opposed the Ways and Means bill.

□ 1950

Without exception, every small- and medium-size businessman in my district that was contacted said that he supported it, even though some acknowledged it would cost them some income. They have acknowledged the fact that when it comes to small- and medium-size businesses, this Tax Code is onerous, it is regressive, and it needs change.

I believe the House Committee on Ways and Means' proposal is the more progressive in terms of helping small- and medium-size businesses, the source of over 95 percent of our new jobs in America. I will support the committee bill. I urge my colleagues to do the same and to resist the Republican substitute.

Mr. DUNCAN. Mr. Chairman, I am pleased to yield 9 minutes to the gentleman from Pennsylvania [Mr. SCHULZE], a member of the Committee on Ways and Means.

(Mr. SCHULZE. Mr. Chairman, I rise in opposition to H.R. 3838, the Tax Deform Act of 1985. This measure fails to achieve the goals for tax reform which President Reagan outlined earlier this year—fairness, economic growth, and simplification. On the other hand, the Republican alternative comes much closer to these goals. The Republican alternative addresses the issue of America's position in international trade; and this an issue both the administration and our committee failed to consider.

From a standpoint of fairness, the Republican alternative stands far above the committee bill. A major litmus test of fairness is the bill's effect on jobs. Will the Rostenkowski bill stimulate the economy and provide employment for American workers and the opportunity for upward mobility, or will this bill result in a downturn in the economy and in an increase in unemployment? H.R. 3838 will cost America jobs and this certainly is not fair tax policy. How can anyone argue that rate reduction will help those who earn no wages because their jobs have been eliminated?

Another indication of fairness is where the individual rate cuts are targeted. A recent analysis by the accounting firm of Ernst & Whinney revealed that all average families below $75,000 of income receive higher itemized deductions and have lower taxable income under the Republican alternative than the committee bill. Those earning more than $75,000 receive a larger tax cut under the Rostenkowski bill. Another test of fairness is the effect of both bills on the poor. Under the Republican alternative, the poor are much better off.

First, the poor will keep their jobs under the Republican alternative. Second, those making under $10,000 per year will receive almost a 98 percent tax cut in 1986 compared to 64 percent under the Rostenkowski bill. In 1987, our alternative will continue to be more generous to the poor. At the other end of the scale, the Rostenkowski bill gives those making over $200,000 per year a larger tax cut than the alternative. As a matter of fact, the committee bill gives a larger tax cut to those making over $200,000 a year than it does to those making $75 to $100 thousand.

Is this fair tax policy? Is this horizontal or vertical equity? The answer is "No."

On the business side, the committee bill once again fails when it comes to fairness.

Is it fair to take away tax incentives for our manufacturers and our basic industries at a time then they are on their knees as a result of unfair or subsidized foreign competition? Is it fair to give IBM and General Motors, two of our largest and most profitable cor-

porations, a large tax cut and pay for it by increasing taxes on our steel companies, our machine tool industry, and our oil and gas industry? The committee bill essentially will tax our basic industries into oblivion in order to reduce the rates for some of our most profitable companies in the country.

Finally, is it fair to terrorize the business community year after year by changing the way in which they are taxed? Is it fair to blackmail our property and casualty companies with horrendous tax provisions to force them to tell us how to better tax them? It seems the committee tax bill is following a "Darwinian" principle. Our ailing basic industries will be allowed to die in order that the greediest will survive and pick up the slack.

The trouble with this approach is that a large portion of our manufacturing base will be lost forever. On the issue of fairness, the Rostenkowski bill strikes out. It costs jobs, it unfairly applies the rates, it is prejudiced against manufacturing, it puts our industries at a competitive disadvantage with those overseas and it changes the rules all over again. The Republican alternative is at bat in the bottom of the ninth trying to save the initiative for true tax reform. But on the issue of fairness, a vote for the Rostenkowski bill is strike one.

Simplification? Strike two against the committee bill. The Gipper is at bat now and a vote for the Rostenkowski bill opposed every principle of simplification the President and the public demand. The committee decided that everything was up for grabs and in most cases the bill attaches new law or new provisions to areas where our Tax Code needs none. And it differentiates between large and small. It taxes small banks one way, and it taxes large banks another. Small timber growers one way and large ones another.

It throws a knuckleball at individuals planning their tax returns. When it comes to simplification, the committee bill should be reentitled, "the Tax Accountants and Tax Attorneys Relief Act of 1985."

Try to look at this bill from the standpoint of an ordinary taxpayer. Is the 401K and IRA linkage provision easily discernible? Is the personal exemption easy to figure out, No, it is not.

Does the Rostenkowski bill, all 1,379 pages of it, truly simplify our Tax Code? Again, the answer is no. On the other hand, the Republican alternative is simpler. It eliminates new taxes and regulations in the pension area, an area which the Ways and Means oversight subcommittee is now examining closely. Our alternative simplifies sections on foreign tax, trusts and estates, and one of the most complicated sections of our Tax Code, bonds. State and local governments have just learned how to implement the changes Congress made last year to bond taxation. Everyone will have to learn all over if the committee's bond provisions are accepted. While the Republican alternative clearly simplifies the tax reform process, the committee bill swings again and misses on simplicity, and that is two strikes against the Rostenkowski bill.

What this entire process boils down to is what effect tax reform will have on our budget and trade deficits. What will it do to the economy? Will it stimulate savings over consumption? Will this bill create employment opportunities? Many well known and highly respected economists and experts believe this measure will cause a recession. Martin Feldstein, for one, has indicated that the loss of the investment tax credit alone will reduce the incentive to invest in plants and equipment and lead us into a recession. A report to the President by the Council of Economic Advisers advised that the committee bill would cause a steep economic downturn over the next 2 to 3 years. A study by St. John's University recently indicated that with the repeal of the ITC, America would lose 1.5 million jobs in the industrial sector alone. A study by Arthur Anderson indicated that the United States would drop from 3d to 13th among industrialized nations in capital formation incentives—and this was before the committee raised the corporate tax rate from 33 percent to 36 percent.

What do the experts tell us? They tell us that the committee bill is dangerous to our economy.

From a regional standpoint, the older, industrialized Northeast and Midwest take the hardest hit under this bill. We have already taken more than our fair share of abuse from unfair foreign trading practices. My State of Pennsylvania is heavily dependent on basic industry.

While we have been making great progress in diversifying our economic base and in moderizing and retooling our industrial plants, State manufacturing employment has still been falling. This tax reform package would cut our efforts off at the knees. The loss of the investment tax credit will deal a crippling blow to manufacturing in the Northeast. Repeal of the ITC is ludicrous. Since enacted in 1962 at the request of President John F. Kennedy, the ITC has had, and I'll quote DANNY ROSTENKOWSKI on this one, "more lives than a cat."

Each time it was repealed, once in 1966 and again in 1969, it was brought back quickly. It seems that every time ITC was repealed the economy took a turn for the worst.

The Republican alternative includes a targeted ITC for domestically produced equipment and machinery. This 5 percent ITC would alleviate some of the bias of the bill against manufacturing. Mark my words, if the committee bill passes, the ITC will be reinstated faster than you can say, "strike three." And that's where the committee bill stands now.

With the repeal of the ITC, the chairman and Ways and Means Commitee have struck out. There will be no joy in Mudville. Nor Mansfield, OH, or Joliet, IL, or Pittsburgh, PA, or Mobile, AL, or Richmond, VA, or Houston, TX, or Albany, NY. There will only be people out of work.

According to a leading economist, the committee bill will "ensure that capital stock will go abroad or into less productive uses at home" with repeal of ITC.

If we pass the Rostenkowski bill, Congress will be forcing domestic companies to go overseas in search of better tax incentives and lower wages. Additionally, with incentives for purchasing productive equipment gone, sheltering of income will become more active in nonproductive assets. How many shelters are really closed in the committee bill? Will our manufacturers decide to move into another line of work? Perhaps, but more likely they will be forced to move overseas or close down altogether.

While concentrating on economic growth and repeal of the ITC, I did not mention the committee bill's return to pre-1981 depreciation. And I didn't mention that taxes were raised on capital gains. And what of the onerous minimum tax which will tax our steel industry out of existence? I could go on and on about the committee alternative minimum tax. You see the minimum tax is the spitball in this bill. It leaves the impression that the committee bill will be fair because it will tax those taxpayers who have failed to pay their fair share.

To some extent, this is true. But the minimum tax will also tax those who lose money—and heavily. It creates the illusion of simplification, but the minimum tax will force itemizing taxpayers to figure out their tax liability not once, but twice. Is this simplication? Again, the answer is no.

In conclusion, the Rostenkowski bill strikes out on all three counts of simplification, fairness, and economic growth—the cornerstone of President Reagan's call for tax reform.

The committee bill strikes out on increasing savings incentives for Americans—an essential goal in moving America away from debtor Nation status. The committee bill threatens to increase our spiraling trade deficit. All-in-all, this bill is a dangerous vehicle for the deindustrialization of the United States. The Republican alternative may not be perfect, but it addresses the concerns which I have highlighted.

A vote for the Rostenkowski bill is a vote to deindustrialize America and is

a vote to bring about economic dislocation in the United States of America.

I urge my colleagues to support the Republican alternative, and if that fails, vote against the committee bill.

□ 2000

Mr. COUGHLIN. Mr. Chairman, will the gentleman yield?

Mr. SCHULZE. I yield to the gentleman from Pennsylvania.

Mr. COUGHLIN. Mr. Chairman, I want to associate myself with the remarks of the gentleman in the well.

Mr. Chairman, I rise this evening to express my support for the Republican alternative to the Ways and Means Committee bill.

The Republican alternative, while not perfect, is—in my opinion—a more equitable package than that envisioned in H.R. 3838. The Republican alternative is fairer and reserves the committee proposal's bias against economic development. Quite frankly, the committee bill is antigrowth, antiinvestment, antijobs, and antisavings.

The committee bill has an antisavings disposition.

Despite the fact that Americans are currently saving at the slowest rate in 35 years, the committee bill sets up several savings road blocks. Curbs on Individual Retirement Accounts, 403(b) arrangements, and 401(k) plans are established.

On the other hand, the Republican alternative curbs our slow savings rate by retaining the independence of IRA's, by providing for a full $2,000 spousal IRA, and by allowing an annual $12,000 401(k) contribution for both private nonprofit employees and for profit employers.

But the Ways and Means Committee didn't stop its meddling into private retirement system when it establishes various contribution limits. Rather, it provides for extensive, and in some cases, incongruous modifications to the existing maze of statutory tax restrictions governing our private retirement system.

Have not the extensive revisions enacted with three separate pieces of legislation since 1982 curbed perceived abuses? Are the on-going committee reviews of retirement income policies now underway not needed?

Apparently the committees feel more revisions are needed and that the on-going committee examinations are unnecessary.

Taking a different position, the Republican alternative provides for only minimal changes in this area.

The Ways and Means Committee bill is also anti-investment. But the Republican alternative proposes to moderate this shift by retaining a 5-percent investment tax credit for domestically produced machinery and equipment, allows for real property to be depreciated over a 28-year period (rather than 30 years in H.R. 3838), and retains the current law capital gains rate for individuals at 20 percent (rather than the 22 percent rate established in the Ways and Means Committee bill).

The anti-investment thrust of H.R. 3838 goes even further in that it severely hampers the efforts of State and local governments to invest in vital infrastructure improvements. The committe bill imposes new and complex restrictions on public and private purpose tax-exempt bond financing—a prime source of financing for needed public improvements. The Republican alternative to the contrary basically retaining existing law for public and private investment development bonds.

It is through economic growth and investment that new jobs are created. But with the Ways and Means Committee antigrowth and anti-investment provisions coupled with the proposed restrictions on the Targeted Jobs Tax Credit, new job creation will be hampered at best.

During this debate we have all heard about fairness and I stand second to none in my desire to make the existing Tax Code fairer.

Certainly working families living in poverty must be removed from the Federal income tax rolls. Lets be clear about one thing. The Republican alternatives, like the committee bill, eliminates the Federal income tax liability for these individuals.

But I fail to see how the Ways and Means Committee meets the test of overall fairness when it denies the full $2,000 personal exemption to individuals who itemize their tax returns.

In essence, the committee has patted itself on the back and told Americans that it preserved the income tax deduction for State and local taxes, that is saved the tax deduction for mortgage interest, and that it retained deductions of charitable contributions.

What the committee does not advertise is the simple fact that if a family avails itself of these preserved deductions, the value of the personal exemption is reduced. Specifically, if a family of four takes these deductions as it is permitted to do through the panel's largesse, it will lose one full $2,000 exemption. By disallowing the first $500 of itemized deductions for each personal exemption claimed, the committee bill penalizes taxpayers for claiming deductions it is entitled to.

The Republican alternative does not play this hoax on the American public. The Republican alternative provides the full $2,000 personal exemption for all taxpayers whether they itemize or not.

I also fail to see how the committee can say the legislation is fair to the 19 million Americans who will be forced to pay double taxes if the measure is enacted as currently written.

By eliminating the initial tax-free period for pension benefits received under a plan to which both employees and employers contributed, 19 million Americans will be taxed twice.

First, when they make their own contributions from their taxable wages and second when they begin to receive annuity benefits. Firemen, public employees, teachers, and policemen to name a few will pay higher taxes when they retire because they will be taxed twice.

The Republican alternative will not do this. The Republican alternative rather retains current law for public pensions and in this respect as well it is vastly more equitable.

In conclusion I want to reiterate my support for tax reform. And in my opinion the Republican alternative meets the tests of tax reform and does so in a fair and equitable manner.

But the Ways and Means Committee bill should be opposed. Unlike the 1,379 double-spaced text or the 1,068 single-spaced explanation of H.R. 3838, I oppose the bill for several simple reasons.

H.R. 3838 is antigrowth, anti-investment, antijobs, antisavings, and anti-Pennsylvania. It should be defeated.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield 5 minutes to the gentleman from New York [Mr. DOWNEY].

Mr. DOWNEY of New York. I thank the gentleman for yielding.

Mr. Chairman, my colleagues, there have been over 20 major changes of tax law in the last 22 years, and I hope, I know all of us do, that this will be one that we can be proud of and one that will last a long time. I believe that the committee bill qualifies under all of the elements that we look for in good tax reform.

There is a holy trinity that has been talked about here on the floor that we try to follow with respect to tax reform. It is the effort to make the Code more simple, to make it more fair, and to make it more economically neutral.

In fairness to the Republican substitute, I would say that theirs qualifies in many of the same respects as our bill does. Both attempts make the bill for taxpayers more simple; 6 million people are removed from the rolls, some 13 million will no longer have to itemize. That is good. The 1,379 pages, frankly, is something that we have to live with in a complicated society. Clearly, if we want to be fair to people—and we do—there are times when we are going to have to be somewhat complex. Also in a $4 trillion economy let us not be naive. It is not easy to be simple, and in some instances it would be downright mistaken.

Second, the idea of revenue neutrality or economic neutrality, rather, is an important one. What we have attempted to do, and succeeded, is to reduce the number of times that people make economic decisions based on tax reasons. That is just no good.

Those of you on the other side, my Republican colleagues, have preached to us for a long time that we should let the marketplace determine economic activity. You are 100 percent right. Our bill does that, frankly, I believe a little bit better than yours. But where our bill succeeds immeasurably over the Republican substitute is in the question of equity and on the question of governance.

When the President started this proposal, what he did was, in attempting to fashion lower rates for individuals and businesses, eliminated the deductibility of State and local taxes.

There was a hue and cry that was audible across this land about tax reform. People may not have cared a whole lot about what we were doing, but they did not want that deduction touched. All of us are politicians, all of us know that in the next election we do not want to give our opponent the opportunity to say, "Well, Congressman so-and-so found a way to make sales taxes, property taxes, and State income taxes more expensive to you." That is the political argument. A powerful one.

The federalism argument should be abundantly clear. We have systematically over the last 5 years emasculated the role of the Federal Government in State and local government. We have said to the States, "It is your responsibility now to govern, to care for the poor and indigent, and do more to educate our children." What the Republican substitute says is, "While we are giving you more responsibility, we are going to make it harder for you to pay for it." They eliminate the ability to deduct State sales tax and personal property taxes, they reduce by 30 percent the deduction for property tax and State income tax. That will only be the first step, my colleagues, because as we are standing here today, debating tax reform, next year we will be debating how to raise revenue. And if you go after State and local tax deductibility, as you do, it will be very easy once that firebreak has been breached to go back and get more and more and more. It will be chaos for school districts, it will be disastrous for local governments.

We have wisely understood the political realities that exist in this land as well as the very foundation of our federalism.

Mr. Chairman, I want to tell you that the political realities are clear, all the polls suggest it, but, more importantly, the governmental realities speak even louder. The Republican substitute opens the door to double taxation. It is shut by the Democratic proposal. We understand that, and for that reason alone the Republican substitute deserves to be defeated and the Democratic alternative deserves to be passed.

Mr. DAUB. Mr. Chairman, will the gentleman yield?

Mr. DOWNEY of New York. I would be happy to yield to the gentleman from Nebraska.

Mr. DAUB. I thank the gentleman for yielding.

Mr. Chairman, does the gentleman recognize, however, that while 50 States enjoy that setting of that deduction and the federal system does not control it that there is a certain fairness that we are trying to appeal to you about when we talk about taxing some portion of State and local taxes?

Mr. DOWNEY of New York. No, I see no fairness in that whatsover. The States created the National Government, the States have enormous responsiblities to govern. We have made it more difficult for the States and localities to do that. Let us not make it any harder.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield 3 minutes to the gentleman from Michigan [Mr. LEVIN].

Mr. LEVIN of Michigan. Mr. Chairman, the question of economic growth has been raised, and appropriately. Let me give you an answer as one born and raised in an industrial State and who represents one. We have suffered these last years. Employment in heavy industry is down; down in machine tools, almost a third in machine tools, over a third in steel, about 10 percent in autos.

But the problem is there is no clear correlation between the investment tax credit that the Republican proposal wishes to preserve and economic growth.

Let me just give you some of the past history. In 1962 a 7-percent investment tax credit was enacted; in 1967, the investment tax credit suspended; 1969, investment tax credit reinstated; 1970 investment tax credit removed; 1972, investment tax credit was reinstated; in 1975, the investment tax credit raised to 10 percent.

What has happened the last 5 years with the present system? The answer is there has been static, yes static fixed business investment.

So I suggest that this investment tax credit does not clearly correlate to economic growth and it is better to drop it.

There are other factors more clearly related to economic growth than these tax proposals: inflation, budget deficits, exchange rates. What I have heard from business people througout Michigan is that these are the factors that related to profitability; these are the factors that really count. Not primarily whether a business can claim a tax credit.

What does the Duncan proposal suggest? Not saving the ITC altogether; it hedges; it wants to save about half of it. How does it do it? It does it in part by keeping corporate tax rates higher than under the Ways and Means bill until 1988. That is how it maintains this investment tax credit.

There have been all kinds of reference to economists here. Let me quote the former chief economist for the Council of Economic Advisers during the Ford administration:

Our fundamental belief in the inherent efficiency of free markets should continue to push us to a more equitable and undistoring system, irrespective of the always-iffy guestimates of the forecasters.

That is what the Ways and Means Committee bill does under the leadership of the chairman, and I am proud to stand here and urge that we adopt the Ways and Means proposal and not the Duncan proposal.

I care most of all about economic growth; I support the Ways and Means Committee bill.

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. LEVIN of Michigan. I will be glad to yield to the gentleman.

Mr. VENTO. I thank the gentleman for yielding. I want to commend the gentleman for his statement with regard to the record of the ITC, what it does and does not do, as well as the depreciation asked. That is why we have empty buildings coast to coast that are not providing productive capacity for our economy.

Mr. Chairman, I want to commend the Member from Michigan for his statement and his analysis of the investment tax credit, it along with the overly generous depreciation schedule in place these past years have not resulted in economic growth or reinvestment. Rather these provisions are responsible for the see-through buildings that demonstrate the wasted tax dollars.

The substitute proposed by Mr. DUNCAN supported by the minority continues and even brags about these provisions—provisions that even the President of their own political party has objected to.

This Duncan Republican substitute increases $35 billion more taxes on individuals and reduces oil and business corporate taxes by $35 billion than the committee bill.

In other words $35 billion more in taxes from people in the next 5 years and $35 billion more tax cut goodies for corporate America.

These tax breaks in the GOP substitute are indeed for special interests at the expense of our constituencies.

This Republican substitute will cause significant new deficits in the 1990's back loading the tax policy which will cause a new deficit nightmare in the 1990's.

It deserves to be defeated.

I rise in support of H.R. 3838, the Tax Reform Act of 1985. I want to commend the chairman and members of the Ways and Means Committee for their fine work. They have taken the President's directive to reform our Tax Code and have produced a bill worthy of our support. The Ways and Means bill is, in almost every respect, an improvement over the current law and the President's own proposal. This bill closes major special interest loopholes and nonproductive tax shelters which have been abused in the past. Most importantly, this bill unlike the President's proposal does not shift a large share of our Nation's tax burden on working men and women by taxing fringe benefits and eliminating the State and local tax deductions.

I do, however, want to point out a problem area in the bill and urge the chairman, his committee and colleagues, and the Members of the other body to seek modifications as the legislation moves forward. I'm referring to the bill's provision which places tax-exempt single and multifamily housing bonds under the per capita limitation applicable to all tax-exempt industrial development bonds [IDB's]. The bill provides for a $175 per capita limitation for all IDB's, with $25 per capita available for 501(c)(3) hospital and educational facilities, and of the remaining $150, 50 percent—is set aside for housing, although the set-aside may be changed or eliminated by State legislatures.

Tax-exempt multifamily rental housing bonds under current law are not subject to a volume limitation. Single family mortgage revenue bonds are subject to a separate volume cap in each State equal to the greater of $200 million or 9 percent of the average annual mortgage activity within the State during the previous 3 years.

My concern with housing being included in the cap can be illustrated in its impact on my city of St. Paul. In 1985, the city issued a total of $63.5 million in single and multifamily housing bonds. Under a per capita distribution included in the committee bill, its 1985 allocation would have been $10.1 million, 16 percent of its actual 1985 activity. Under existing law the city could have issued $48.5 million in bonds for urgently needed housing in 1986. This legislation limits St. Paul to only $10.1 million or 20 percent of its projected 1986 activity.

This allocation assumes that the 50 percent set aside will not be altered by our State legislature. I'm concerned that it will be, as pressure is brought to shift more of the authority to other IDB purposes.

Mr. Chairman, we are all painfully aware of how drastically Federal funds for lower income housing programs have been cut over the last 4 years. This reduction of more than 60 percent since 1981 makes tax-exempt housing bonds one of the few remaining tools for responding to lower income housing needs.

In addition, there are other serious problems in the committee bill which need correcting: an effective date of January 1, 1986 when there is no possibility that Congress will enact the legislation by that time and allowing the Mortgage Revenue Bond Program to sunset in 1987. Tax-exempt bonds have been the subject of extensive congressional scrutiny over the last 5 years. Congress has made many changes in these areas, as recently as 1984. It is now time to give those changes a chance to work.

I strongly urge my colleagues who serve on the Ways and Means Committee and the other body to see that the legislation is changed as it moves forward to remove housing bonds from the IDB cap.

Mr. Chairman, I would also like to state my firm opposition to the provisions in the committee legislation which changes the income tax basis for employee pension contributions. This proposed change unfairly denies the individual taxpayer the right to recover his or her contributions, for which they have already paid tax, in the initial years of their retirement. The committee measure averages out this tax for the expected life of the retiree, significantly increasing the taxes paid and diminishing the value of the individual's pension benefits. This is clearly inappropriate and undermines the pension programs upon which workers depend.

With all the Federal tax benefits provided, for example, in 401(k), 403(b) Keogh, most of which are exclusively or have a strong noncontributary element as well as the noncontributary pension programs, it is ironic that we have to single out the one small tax benefit that contributary pension programs possess for elimination.

If there is abuse, that can and should be addressed, but these employees should be able to obtain their contribution out up front, tax free rather than being put through an actuarial wringer.

While this measure has other shortcomings, it nevertheless is a major step toward U.S. Tax Code reform—a major improvement over the Reagan submitted legislation.

I commend it to this House its a major step towards a fair tax program for our Nation.

This tax measure will put in place a rational tax policy governing private sector decisions regarding investment. Too often the existing overly generous depreciation and investment tax credits have skewed decisions towards tax benefit rather than profitability and competition, the landscape from coast to coast is replete with empty office buildings as monument to the 1981 tax law in all its shortcomings, the promoters and developers earned handsome tax returns, but I suggest our economy and Nation were the losers.

Similarly I am pleased to note the committee measure has effectively dealt with numerous tax shelters, using an at-risk test criteria to judge the legitimate nature of such ventures. The special rules and policy that have governed military hardware contractors have also been reformed in this law and I offer my support and hope that this effort will be effective in making taxpayers out of these profitable entities. The special limitations in this tax measure to curtail the tax benefits shopping which has influenced and propelled mergers and acquisitions.

Business decisions and takeover attempts are disruptive and frequently not helpful in our economy. These actions and decisions should not be encouraged by our tax laws. Frankly we should not permit the U.S. Tax Code to be utilized in this manner. This is a good bill basically and deserves our support.

Mr. SCHULZE. Mr. Chairman, I yield 5 minutes to the most distinguished member of the Committee on Ways and Means, the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. I thank the gentleman for yielding.

Mr. Chairman, it is painfully apparent that the committee bill is fatally flawed. I believe the Republican substitute on which we are soon to vote is far superior in all respects to the committee bill.

Now it has been pointed out that there is a better distribution of tax cuts according to income, particularly if you want to benefit low-income taxpayers. It has been pointed out that it cuts more for those people, particularly under $10,000, than the committee bill. In addition, ours creates cuts on January 1, not in the middle of the year. The committee bill, of course, means that for many taxpayers there will be no cut in the first year that the bill is in being.

Our bill is a profamily bill. The heart of the profamily focus is on the $2,000 personal exemption and the spousal IRA. Ours gives that exemption to far more taxpayers than the Democratic committee bill, and creates the spousal IRA while the committee bill does not.

With respect to charities we are more generous because we do not let the alternate minimum tax attack the appreciated value of contributions, and we provide better tax deduction for short form filers.

Our bill is not perfect, nothing is perfect. It is just so much better than the Rostenkowski bill that the difference is almost infinite. I want to talk particularly about two sections, actually three, and I can dispatch one very quickly. That is the alternative minimum tax. Our tax in the Duncan substitute raises more from corporations than the Ways and Means bill. The alternate minimum tax for individuals makes more taxpayers or catches more nontaxpayers than the committee bill. The committee of course, misses the largest class of income earners who do not pay taxes, that is, recipients of tax-exempt bonds.

Let's talk for a minute about foreign tax provisions. We have a few present incentives to put American firms and individuals overseas. Those are foreign tax credit, tax deferral, FSC, section 911. The committee bill wrecks them all. It costs $11.3 billion more than the Republican substitute in lost incentives to those Americans who would like to sell our wares overseas.

Our bill maintains $11.3 billion more of incentives. Now this is a time when we are doing terribly in international trade and have a record trade deficit.

Finally, I want to talk about the pensions section—or maybe I guess I want to talk about the trust section first.

The committee bill has a large number of pages of totally unnecessary changes in the trust sections of our law which are complicated, specialized, not understood, and on which there were no hearings. They do not raise a lot of money, but they totally louse up that particular section of the law.

With respect to pensions, the Republican substitute again is clearly the superior version. The Democrats will give up about $8.9 billion of personal savings incentives.

□ 2015

Those will relate, basically, to qualified pension programs, 401(k)'s, 403(b)'s and IRA's.

On the 401(k)—and there are 20 million participants in these programs—the Democrat bill reduces that from $30,000 contribution to $7,000. The Republican bill takes it up to $12,000.

For the spousal IRA's, for instance, the Democrat committee bill ignores them. The Republican bill takes the spousal IRA out to the $2,000 recommended by the President in the final year.

The net difference is $9 billion. If you want personal savings—and I do, the Republican has $9 billion more in incentives. The United States has the lowest rate of personal savings in the industrialized world. After the 1981 act, when we cut taxes, personal savings went down. They have continued to go down. They reached a bottom last month, the lowest in history. We need more personal savings incentives so that we don't have to go abroad to borrow. When we borrow offshore, our interest rates go up, the cost of our dollar goes up, and the U.S. trade balance goes down. All are undesirable aspects. All of them undersirable aspects. All of them going to be affected by the committee bill.

If I were starting fresh, I would not start fresh with the Republican substitute as a matter of tax reform. But it is certainly infinitely better than the competition and should be supported strongly by this Committee.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield 3 minutes to the gentleman from Michigan [Mr. WOLPE].

Mr. HAYS. Mr. Chairman, will the gentleman yield?

Mr. WOLPE. I yield to the gentleman from Illinois.

Mr. HAYES. Mr. Chairman, I rise today to give a different view of tax reform. I rise, not as an expert on tax policy. I strongly oppose this Republican alternative to the tax reform proposals of the Ways and Means Committee. Being one of the most junior Members of this body, I do not expect to be selected as a member of the conference committee.

However, there are some things that I must say before my colleagues tonight about this tax reform legislation that we are now considering. I voted for the rule which allowed us to debate this measure. I voted for it both today and last Thursday, when the Republican leadership targeted it for defeat. I also plan to support final passage of this bill today. But I must speak out about some things which seem to me to be of great importance, and which are not addressed by either this legislation, or this debate.

I am heartened, as many Members are, at the removal from the tax rolls of over 6 million poor people. Representing a district such as mine, which has so many poor people and one with the lowest per capita income, the real way to help these people is to help them find employment. What they really want are jobs that will enable them to take care of themselves. Then they could pay into the tax system as self-supporting, self-sufficent taxpayers. The charity we give them by removing them from the tax rolls is nothing compared to the dignity we could give them by letting them earn their own way.

Next year, these same people will have to battle not only unemployment, but a deficit reduction measure called Gramm-Rudman, which will only make their plight worse.

Mr. Chairman, the President does a great disservice to the entire legislative process when he says that he will veto this bill if it were brought before it in this present form. What we have here is by no means a perfect product, but it is a great deal better than the original proposal he sent to this body. We did not declare his tax reform dead on arrival in this Chamber when he sent it. We have worked with, grappled with it and changed it, and I believe that we have improved it. I hope that he will look at it with an open mind, and examine the good things that it does for our Nation's people. I also call upon my colleagues who will be conferees to hold on to the good parts of this bill, to stand strong, and to not negotiate away the real reform that is in this bill and bring back a so-called tax reform bill where these provisions, benefiting the poor will be eliminated.

I am glad to see some of the improvements that the Committee on Ways and Means has made. I was bitterly opposed to some of the President's proposals, like eliminating the deduction of State and local taxes and taxing the hard-won benefits of working people. At the same time, I am still bitterly opposed to Ways and Means provisions which will change the way that the pensions of Government employees are taxed. While I am encouraged by the committee's proposals to provide for a minimum corporate tax, I am not convinced that it is strong enough. The biggest sense of unfairness in our present tax system is that the most wealthy corporations and individuals in our society escape paying even the minimum tax, while the poor and working class people bear the burden of financing our Government. This bill takes a step in the right direction it will make our tax system fairer, but it will not make it equitable.

Mr. WOLPE. Mr. Chairman, I rise in strong support of the Ways and Means Committee bill and in opposition to the Republican alternative.

The Republican alternative is very similar to the Ways and Means bill. In fact, some 80 percent of the provisions of the Republican alternative are identical with those advanced by the Ways and Means Committee. But there are some key differences. And almost every instance, in my judgment, the alternative offered by the gentleman from Tennessee [Mr. DUNCAN] moves us away from, rather than toward, the goal of greater fairness in the Tax Code.

Let it be very clear: Under the Republican alternative individual taxpayers will pay some $30 billion more over the next 5 years. There will be a particularly negative impact upon middle-income taxpayers.

There are two provisions of the Republican alternative that I find especially troublesome. The first is that which reduces by some 30 percent itemized deductions in excess of $1,000, except for the home mortgage interest and charitable contributions. That amounts to nothing less than partial repeal of deductibility of State income and property taxes.

The second provision that is troublesome, from the standpoint of fairness, is the total elimination of the deductibility of State and local sales taxes and personal property taxes.

Let it be very clear, as the gentleman from New York [Mr. DOWNEY] observed a few moments ago, those provisions have nothing whatever to do with reform. The deductibility of State and local taxes was part of the original income tax system, going back to 1913. That was made part of the original 1913 Tax Code out of recognition that it simply made no sense to tax people doubly on the taxes that they pay the State and local governments if we were to remain faithful to the principle of fairness.

To do so has nothing to do with reform. And now the suggestion that we begin to move away from the retention of deductibility comes precisely at a time when State and local governments are under infinitely greater pressure because of all of the Federal cutbacks that are the consequence of the budgetary crisis we are facing.

So, from the standpoint of tax fairness and from the standpoint of allowing local and State governments to continue their mission in a Federal system, the Republican substitute must be rejected.

I support the committee bill because it has, in fact, succeeded in lowering tax rates not only for middle-income Americans and for low-income Americans, but also for corporations with high effective tax rates. And it is important to understand that that lower-

ing of tax rates for both individuals and for many corporations has been accomplished without touching the deductibility of State and local taxes whatsoever.

The committee bill has lowered tax rates for middle-income Americans by closing those unjustifiable loopholes that have allowed numerous profitable corporations and wealthy individuals to escape paying their fair share of the tax burden.

I urge my colleagues to oppose the Republican substitute and support the committee's tax reform bill.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in opposition to the Republican alternative to the Ways and Means Committee tax bill. My principal objections are first, that the Republican alternative is not fair to individuals and second, that the Republican alternative threatens future deficits by "backloading" an enormous tax cut for corporations in the out years. The alternative is far better for corporations than the Ways and Means Committee bill, but far worse for middle income working families.

Let's take a closer look at the revenue losses from this amendment. By backloading tax cuts for wealthy individuals and corporations, the substitute attempts to hide an enormous tax cut for corporation which will cause enormous revenue losses in years after 1990. For example, in 1991 the maximum rate on individuals falls from 37 percent to 35 percent. The maximum corporate rate is phased down from 42 percent in 1986 to 33 percent in 1991. Full indexing for capital gains and depreciation deductions becomes fully available in 1991. It is clear that after 1990 this amendment will further fuel the already large Federal budget deficit.

My other significant concern with the Republican alternative is that it's simply nor fair. The Ways and Means Committee bill provides tax relief for individuals, the Republican alternative provides tax relief for corporations. Under the Republican alternative, individuals will pay $30 billion more in taxes over 5 years, and corporations $30 billion less, than under the Ways and Means Committee bill.

The Republican alternative is not fair to middle income taxpayers. The amendment cuts back by 30 percent those itemized deductions in excess of $1,000, except for home mortgage interest and charitable deductions. The deductions that have been cut back include those of most importance to middle income families, including State and local property taxes, State and local income taxes and medical deductions.

For Members concerned about the deductibility of State and local taxes, the Republican alternative is a disaster. The Republican's substitute repeals State sales taxes, personal property taxes, and other miscellaneous State and local taxes—and cuts back by 30 percent the value of State and local real property taxes and State income taxes. These cutbacks will have a dramatic impact on the quality of services provided by State and local governments in each of our Congressional Districts.

The amendment also repeals the exclusion for employer-provided life insurance, which is probably the most important insurance protection available to families of low and middle income workers.

The Republican alternative would strike from the bill all rules ensuring adequate and fair fringe benefit coverage to rank and file employees.

The list goes on and on. As a result, the substitute provides far less tax relief for moderate income families than does the Ways and Means Committee bill.

While providing inadequate tax relief to middle income taxpayers, the Republican alternative is excessively generous to the wealthy. The alternative drops the maximum rate to 35 percent after 5 years and repeals the generation-skipping tax, which Congress enacted in 1976 to prevent the wealthiest families from avoiding the estate tax for several generations.

Rather than reforming the taxation of corporations, the Republican alternative creates new distortions and new complexities.

For example, the amendment provides a 5-percent investment tax credit, but only for domestically produced capital goods. The deductibility of interest on auto loans would be restricted to loans for domestically produced cars. These provisions are a blatant violation of the GATT agreement, and would certainly invite retaliation from our trading partners.

The Republican alternative leaves open many corporate tax loopholes the Ways and Means Committee bill would close. The Ways and Means Committee bill ensures that multinational corporations will pay their fair share of tax, but the Republican alternative allows large multinationals to continue to pay little tax by artificially moving income into low tax countries. Similarly, the Republican alternative allows the property/casualty insurance industry which pays very little tax under present law to escape paying their fair share.

Finally, I would like to emphasize that the Republican alternative eliminates the public financing of Presidential election campaigns by repealing the $1 checkoff that funds the election fund. The creation of the checkoff system was an important victory in our longstanding battle to reduce the importance of special interests in financing Presidential campaigns. Repealing the checkoff represents an enormous step backwards in the progress of campaign financing reform.

For all these reasons, I urge my colleagues to vote against the Republican alternative. The Ways and Means Committee has worked long and hard to produce a bill that is fair, that benefits low and middle income families, and that makes corporations pay their fair share of taxes.

I urge you not to be distracted from real reform by this substitute. I urge that you not support an amendment that puts the interests of corporations and the wealthy above the interest of middle income working families, and that promises to increase the deficit in future years.

I urge you to vote down this substitute, and to support the tax reform bill approved on a bipartisan basis by the Committee on Ways and Means.

Mr. SMITH. of Iowa. Mr. Chairman, will the gentleman yield?

Mr. ROSTENKOWSKI. I yield to the gentleman from Iowa.

Mr. SMITH of Iowa. We have a special problem out in Iowa of selling some bonds to finance a retraining program for the unemployed, and we have had a problem with the gentleman's bill because it had a date in it of December 31, 1985.

I understand and I would like to get the gentleman to tell me about this, that the gentleman is going to take steps to ensure that that date will be a year from now, so that whatever happens will really be determined in the final bill; is that correct?

Mr. ROSTENKOWSKI. The rule provides that a measure, a House resolution, offered by Mr. MICHEL will be considered immediately after passage of this legislation, which will address the problem that the gentleman is addressing with respect to bonds in Iowa.

Mr. SMITH of Iowa. We can be assured that the final decision will be made in the final bill, then?

Mr. ROSTENKOWSKI. Well, the final decision will be made—as I understand what the resolution calls for—in a year or so.

Mr. SMITH of Iowa. I thank the gentleman.

Mr. DUNCAN. Mr. Chairman, I yield 4 minutes to the gentleman from South Carolina [Mr. CAMPBELL], a valued member of the committee.

Mr. COURTER. Mr. Chairman, will the gentleman yield?

Mr. CAMPBELL. I yield to the gentleman from New Jersey.

Mr. COURTER. Mr. Chairman, over the past several years many Members of this body have committed themselves to supporting comprehensive tax reform that would reduce tax rates across the board, take a substantial number of the working poor off

the tax rolls and provide incentives for economic growth and job creation.

Today we are considering a tax plan which is far from ideal but which lives up to many of the goals we have set. The Ways and Means tax plan would remove over 6 million poor and low income taxpayers from Federal income tax liability. It has always seemed illogical to me that low income individuals who want to work and own a home and build a better life for their children should face high Federal tax rates. The expanded earned income tax credit and the increase in the personal exemption and the standard deduction proposed in H.R. 3838 will relieve the poor and families earning up to $20,000 from 30 billion dollars' worth of taxes they would otherwise pay.

The bill would obviously reduce income tax rates although not by as much as I had hoped: 14 brackets would collapse into 4 with a 12-percent reduction in the top rate. And the marginal tax rate on corporations would be significantly reduced, encouraging economic growth by increasing the rate of return on investment.

There are a number of industries, important sectors of the economy that will not benefit from this bill. Capital intensive businesses are especially hard hit by provisions which include the lengthening of depreciation of plants and equipment and repeal of the regular investment tax credit. But, frankly, I think these are areas that are likely to be improved upon in the Senate.

There are other tax proposals that are, in my opinion, more beneficial for the overall economy, such as Treasury II and Kemp-Kasten. But this is only the beginning of the process—H.R. 3838 will not become law without significant modifications, and those who are working for full employment will be back again next year and the year after that seeking further tax rate reductions.

The question is whether the bill is better than present law. Clearly, many individuals will think so, especially low-income individuals. The National Federation of Independent Businesses, and the small businesses it represents also thinks so, as do hundreds of major corporations, and incentivist economists like George Gilder, Art Laffer, Alan Reynolds, and Jude Wanniski.

If the House fails to pass H.R. 3838 today we will effectively cut off any chance of instituting tax reform, at least for the foreseeable future. An imperfect tax reform is better than none. I urge my colleagues to vote for what is positive about this plan.

Mr. CAMPBELL. Mr. Chairman, we have come through a very long and difficult task of trying to draft tax reform legislation. Chairman ROSTENKOWSKI has, in my opinion, done a remarkable job. The fact that I do not think that the product that he has produced is as good as the one that is offered here is no reflection of that effort.

But let me point out to the Members, if I might, some of the things that are of real concern to me. As we talk to the American people about tax fairness, let us remember, as we are talking about the fairness issue, as we are talking about lower rates, as we are talking about revenue neutrality, let us not compare apples and oranges.

The Republican substitute cuts the rates on January 1, not July 1. That is a major difference of 6 months. That means that a lot of people would have a tax increase under the committee bill in 1986. And I do not think people should be fooled by that.

I have listened to the debate here tonight about the State and local tax issue. Do not be fooled that the committee bill does not take away from State and local taxes. You may ask me how this is done. Let me point out to you that if you are a family, a man and a woman, both of you working, you have two children, and you buy your first home, and you decide that for the first time you want to itemize your deductions and you want to take off your property tax and you want to take off your interest deduction from your home, you first have to give up $500 per person for your individual exclusion. That is $2,000 you lose for claiming your right to deduct under the bill of the committee.

Now, that means that you are losing part of your property tax and your home mortgage interest deduction.

So do not be fooled by that. The fact is that the Republican alternative treats itemizers and nonitemizers the same way. You do not lose that deduction if you choose to exercise your rights under the law. We penalize in the committee bill anyone choosing to exercise their rights under the law. We have a two-tiered law, those who choose to exercise their rights and those who abdicate. That is no way to legislate. That gives me an awful lot of trouble with this.

And let us talk about the federalism issue that I heard mentioned a while ago. Did they tell you that under the committee bill that they go back and tax the interest on your tax exempt State and local government bonds under the minimum tax of the committee bill?

□ 2030

Well, they do. You go home and find about those bonds in Iowa that you are going to issue or those bonds in South Carolina that you are going to issue. Then you find out how that interest that you thought was tax free all of a sudden is rolled back into the minimum tax and you have to pay for it. That is how you are going to get at your States, and that is how you are going to pick their pockets. You are not out front with it, but the truth is you are denying the deductions and you are going back and taxing tax-exempt bonds that the States and local governments issue. Do not forget that. That is the reason the Republican alternative is better. Not to mention the arguments that we have had on competitiveness around the world.

The fact is that the capital gains rate is higher under the committee bill than the Republican alternative. Those things are reason enough to vote for this alternative.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield 3 minutes to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. I thank the gentleman. I rise to strongly support the Ways and Means Committee product before us this evening.

Mr. Chairman, let me say that without bipartisan effort we would not even have a tax bill here, and as someone who has spent many hours in the classroom talking about the benefits of base broadening and lower marginal rates for both economic efficiency and taxpayer fairness, I am very proud to participate in this historic effort. I certainly hope we move forward. I commend the chairman of the Ways and Means Committee and the bipartisan basis on which that committee that worked so hard to bring to this body the product we have here today.

Now let's discuss several points about the bill.

First, let me mention the question of length. Many opponents of the bill have been criticizing the length of this document. Mr. Chairman, if the Republican substitute were adopted, the length will be almost identical. The Republican substitute amends the Ways and Means version and there would not be much reduction in pages, if any. I hope we can dispose of the constant drumbeat of criticism.

Regarding the substance of the bill, I think the other speakers have adequately discussed the question of continuing deductibility of State and local taxes and continuing nontaxing of fringe benefits. Those are two very important distinctions between the Ways and Means bill and the Republican substitute. I know that many people, labor unions and others, consider that taxing of fringes in any form is a nose under the tent which will only expand, and as you know, they are very strongly against it. We would be crossing that Rubicon if we adopt the Republican substitute.

The same is true of State and local taxes. The Republican substitute would cross that Rubicon too. It must not happen.

An even more important issue for me between the versions before us is the issue that the chairman men-

tioned earlier, namely, the question of revenue neutrality and deficit neutrality. There is no way that the Republican substitute can be revenue neutral. All the revenue estimates that we have for this bill cover only the period of time 1986 to 1990. But a number of things happen in the Republican bill, my colleagues, that do not take full effect until 1991 and then they take effect beyond that. The effect of these phase-in effects beyond will all lose revenue. For example, the top personal rate under the Republican substitute would be cut down to 35 percent, but not until 1991, so there would be another revenue drop in 1991 that is not included through the 1990 calculations. Similarly, the top corporate rate would be dropped to 33 percent, but not until 1991—again, beyond the period of revenue estimation. Also, inflation adjustments for capital gains would not be fully phased in until 1991. And the inflation adjustments for depreciation would not be phased in until 1991.

There is also the phasing in of the $2,000 spousal IRA and the tax treatment of property casualty companies which are basically only through the window period. So we know that there would be serious revenue losses that would come due after the revenue estimates that we have looked at.

We simply cannot afford to let the deficit grow any more and, having just gone through the Gramm-Rudman exercise, I know all of us agree with that. In fact, many people complain that this bill does not raise revenues. The last thing we want to do is adopt a version that enlarges the deficit.

I urge my colleagues to reject the Republican substitute and adopt the Ways and Means substitute.

The CHAIRMAN. The Chair will inform the Members that the gentleman from Illinois [Mr. ROSTENKOWSKI] has 34 minutes remaining and the gentleman from Tennessee [Mr. DUNCAN] has 28½ minutes remaining.

Mr. DUNCAN. Mr. Chairman, I yield 1 minute to the gentleman from Virginia [Mr. PARRIS].

Mr. PARRIS. I thank the gentleman for yielding me this time.

Mr. Chairman, although many of us have serious reservations about the Ways and Means Committee tax bill and the Republican alternative, I am delighted that both bills clarify that military housing allowances and parsonage allowances for members of the clergy utilized to pay home mortgage expenses should not result in a reduction of the mortgage interest or real property tax deductions for members of these two professions who own a home.

The effect of this amendment is to overrule Internal Revenue Ruling 83-3 which would have provided that home mortgage interest and real property tax expenses paid by members of the clergy and of the military would be reduced by such allowances. Because of the unfairness of the IRS ruling, Congress has delayed the effective date of Revenue Ruling 83-3 on several occasions.

Over 70 of my colleagues in this body joined with me as a cosponsor of H.R. 385, which would preserve the tradition in our Tax Code that our clergy and military personnel receive a tax incentive for buying a home for themselves and families. Senator WARNER and others have lead a similar effort in the other body. To their credit, my friends, the distinguished gentleman from New York, Mr. RANGEL, and the distinguished gentleman from Nebraska, Mr. DAUB, lead the effort in the Ways and Means Committee to preserve this home buying incentive. Irrespective of the outcome of today's deliberations on the tax bills, the clear message to the IRS is that Congress has reaffirmed its commitment to providing a home-buying incentive for those who unselfishly serve as members of the ministry or our Armed Forces.

I thank the gentleman for yielding to me his time.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield such time as he may consume to the gentleman from Washington [Mr. LOWRY].

Mr. STALLINGS. Mr. Chairman, will the gentleman yield?

Mr. LOWRY of Washington. I yield to the gentleman from Idaho.

Mr. STALLINGS. I thank the gentleman for yielding to me.

Mr. Chairman, I rise in support of the Ways and Means Committee bill, acknowledging its imperfections and understanding that it is not ideal tax reform.

So why support it?

First, because President Reagan has asked me to do so. Tax reform is the President's major policy initiative of his second term. I have to believe that the voters of the Second District of Idaho support the major policy initiative of a President who received 8 out of every 10 votes cast.

Second, because I support tax reform. I agree with the President that a vote against final passage is a vote to kill the tax reform movement. In contrast, a vote for final passage is a vote to keep the process moving. We can improve this package. Like the historic Gramm-Rudman deficit reduction legislation signed into law last week, tax reform is an issue that will require continual negotiation. It is not time for the President or the House to sit back. Each step of the way, there must be input, cooperation, and consensus. That is the process that must be maintained, and it is the key to progress.

Over the next few months, I intend to work to make the changes I believe are needed. I will work to increase the personal exemption to all taxpayers to $2,000. I will make further efforts to eliminate the unfair treatment nonworking spouses face in contributions to IRA's. In addition, I am concerned about changes in the Tax Code that could discourage saving and capital formation. But these problems are not insurmountable, and I am confident that agreement can be reached on each of these provisions.

Moreover, there is much in the committee bill that needs to be preserved, and I will work to see that these provisions are retained in future versions. Many loopnoles which had been used by the wealthy and large corporations to avoid paying taxes were eliminated. Tax rates for the ordinary taxpayer were substantially lowered. Specifically, I support the committee's decisions not to tax employer-provided health benefits and the inside buildup of life insurance. In addition, I am especially pleased that the mortgage deduction for homeowners was retained.

Mr. Chairman, I urge my colleagues to support the committee bill. We all agree that reform is needed. We will never be in complete agreement about every detail. But we are closer today to comprehensive tax reform than we have been in the last 40 years. Let's not lose this opportunity. Let's give it a chance.

Mr. LOWRY of Washington. Mr. Chairman, I rise for the purpose of entering into a colloquy with the gentleman from Illinois.

Mr. Chairman, a matter of concern relating to the drafting of the language of section 801(b) of this bill has come to my attention. This section modifies the bad debt reserve deduction available to thrift institutions under section 593 of the Internal Revenue Code [IRC]. I would ask the gentleman from Florida [Mr. ROSTENKOWSKI] if he would respond to a few questions concerning the intent of the amendment accepted in committee

Mr. ROSTENKOWSKI. If the gentleman will yield, I would be happy to respond to the gentleman's questions concerning the intent of the amendment.

Mr. LOWRY of Washington. It is my understanding that the amendment was intended to modify the percentage of income method of reserving for bad debts of thrift institutions by reducing the percentage deduction available from 40 percent to 5 percent for those institutions keeping 60 percent of their assets in qualifying assets as defined under section 7701(a)(19)(C) IRC.

Mr. ROSTENKOWSKI: Yes, that is the intent of the amendment.

Mr. LOWRY of Washington. It is also my understanding that the committee intended that the experience method of reserving for bad debts be applied under this bill for thrift insti-

tutions as it is under current law for banks.

Mr. ROSTENKOWSKI. The gentleman is correct.

Mr. LOWRY of Washington. Under current law, savings banks are not required to meet an asset test in order to use the experience reserve under section 593. Unfortunately, the language of the committee bill has been drafted to apply a 60 percent qualifying asset test to the experience method of reserves. Would the gentleman agree that the Ways and Means Committee did not directly discuss the appropriate treatment of savings banks which do not meet the 60 percent qualifying asset test, but nonetheless does not operate like a commercial bank.

Mr. ROSTENKOWSKI. Yes; the Ways and Means Committee did not address the appropriate bad debt treatment of mutual savings banks. Savings banks have attributes which are similar to both commercial banks and thrift institutions. It may be that special bad debt rules for savings banks would be appropriate and I will be happy to work with the gentleman from Washington during the consideration of this tax legislation to develop appropriate bad debt rules for savings banks.

Mr. LOWRY of Washington. Mr. Chairman, I thank the gentleman, and again I compliment the chairman of the committee for a job very well done and ask for support of the committee bill.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield such time as he may consume to the gentleman from Florida [Mr. MICA].

Mr. MICA. Mr. Chairman, I rise to engage the chairman of the committee in a colloquy.

Mr. Chairman, I want to ask the chairman a question about section 203(d)(2) which grants transition relief for property that is part of a project that the Federal Energy Regulatory Commission [FERC] certified, before September 26, 1985.

Often, a project developer must have the certificate amended to reflect minor design changes and cost savings. For example, a cogeneration project with which I am familiar was originally certified by FERC on April 24, 1985, as a facility that would burn culm to generate steam and electricity. Culm is a waste byproduct of coal mining. The FERC order indicates that the facility will have a net electricity output of 17.27 megawatts. The successful builder showed how the project could be built at a lower cost using roughly the same quantity of culm to produce more steam and electricity. The facility will now have a net electricity output of 20.2 megawatts. The developer will have to have the original certificate amended to reflect the higher electricity output.

The committee report addresses what happens if a developer must return to FERC to have a FERC certificate amended. It says that a project will not lose its status as transition property as long as the amendments amount to "minor modifications."

The case I have described seems to me to fit into the category of minor modifications. My question is whether the chairman agrees.

Mr. ROSTENKOWSKI. Mr. Chairman, if the gentleman will yield, the committee felt that a project should not lose its status as transition property if a FERC certificate is amended after September 25 as part of routine modification that occurs as a project moves from the drawing board to construction. On the other hand, the committee did not want a project to remain transition property if it became significantly more expensive or it is no longer physically the project originally contemplated.

The amendments to the FERC order that you describe seem to me to fit into the category of minor modifications.

□ 2040

Mr. DUNCAN. Mr. Chairman, I yield such time as he may consume to the gentleman from Maine [Mr. MCKERNAN].

Mr. MCKERNAN. Mr. Chairman, I rise in support of the substitute.

There is little disputing the need to make our tax system fairer for American taxpayers. Many changes could be made which would help to ensure that all taxpayers contribute a fair share of taxes, and that some taxpayers are not unduly burdened.

However, I am concerned about the effect of some of the provisions in the Tax Reform Act of 1985, H.R. 3838, on various segments of society. One of my concerns is the effect which various provisions would have on our ability to provide decent and affordable housing for our citizens.

In particular, the proposal to include tax-exempt bonds for housing under the State volume cap would severely limit the issuance of bonds for this purpose. For example, in my State of Maine, the issuance of bonds for housing would be cut nearly in half, drastically reducing the number of families who could be assisted.

Since 1982, the Maine State Housing Authority has provided $370 million worth of low-interest-rate financing through the sale of tax-exempt bonds under a State housing assistance program. Another $35 million in tax-exempt financing was provided by the Maine State Housing Authority under the Federal section 8 program. These programs have provided or improved housing for almost 15,000 households in my State. When these figures are multiplied by the experiences of other States across the country the effect is to greatly expand housing opportunities for low- and moderate-income individuals.

While I feel that some additional restrictions may be appropriate to ensure that tax-exempt financing is not misused, I am concerned about the overly restrictive proposals in the Tax Reform Act of 1985.

The substitute being offered by Mr. DUNCAN, however, takes the right direction by maintaining existing law as it pertains to the issuance of tax-exempt bonds for housing.

While H.R. 3838 has many merits, I feel that the changes in tax-exempt bond financing, coupled with other changes, such as new targeting requirements, would have a severely negative effect on our ability to provide safe, affordable housing for all Americans.

I hope that as this legislation moves through the legislative process, we can work to seek improvements which will enhance, rather than impede, our ability to provide housing for our citizens.

Mr. DUNCAN. Mr. Chairman, I yield 4 minutes to the gentleman from Wyoming [Mr. CHENEY].

Mr. CHENEY. Mr. Chairman, first of all I would like to direct a comment to the distinguished chairman of the Ways and Means Committee, the gentleman from Illinois [Mr. ROSTENKOWSKI]. We have said some difficult things about his bill in recent weeks, but that in no way reflects our view of him personally. He is a gracious and dignified Member of the body. He deals with one of the most difficult assignments this House has, and he does it with considerable grace and good humor and tenacity. The House is a better institution for his service in it.

Mr. Chairman, some believe that this is a good bill, and they ought to vote for it. Tonight I would like to address my remarks to those who share my view that this legislation, in spite of the best efforts of the Ways and Means Committee, is flawed.

When we were first visited a year ago by the then Secretary of the Treasury, Mr. Regan, and presented with Treasury I, many of us asked what the economic consequences would be if that bill were adopted. At the time we were told that the administration did not know what the economic consequences would be, they had not had time to analyze them.

Now, a year later, we find ourselves here tonight considering legislation which in my view fails the basic, fundamental test that has to be applied to any tax-reform legislation; specifically, it fails to provide the kind of stimulus for capital formation and incentives for savings and investment that are such a vital part of economic growth and prosperity. For that reason I have to oppose the bill on its merits, as do most of my fellow Republicans.

How did we get to where we are today? We had the best of intentions. The President believed in tax reform. Nearly everyone here does. We ended up with a situation in which, as the chairman suggested earlier, the Democrats believe we have had a bipartisan

process, but I must say, Mr. Chairman, that on the Republican side of the aisle the perception is decidedly different. I emphasize "the perception" because we are obviously both talking about the same reality.

We began the process with a committee, the Ways and Means Committee, that is stacked, and does not fairly reflect the Republican share of seats in the body. The administration took a pass on participating in the drafting of the legislation. They said they would not criticize the committee product.

The bill went through the Rules Committee, stacked 9 to 4 against us, and then to the floor on a take-it-or-leave-it basis, no amendments allowed to the committee bill.

Maybe if the two major committees that handled this legislation more nearly reflected the makeup of the House, then a majority of the Members of this body would not have rejected this legislation 1 week ago.

Now comes the moment of truth, and we Republicans find ourselves in the uncomfortable position of having to oppose the bill and of having to oppose our President. That is an unusual and uncomfortable position for me. I am proud to have been a part of the Reagan coalition these past 5 years, and I look forward to rejoining it in the future. But tonight I rise in opposition to my President because on this matter I believe he is in error.

He has indicated repeatedly that he would veto this bill if it landed on his desk in its present form, and yet he has asked me to vote for it. He shares my view that this bill is flawed and requires fundamental change; yet he has asked me to vote for it. He has indicated he will not sign it unless it is changed, but his administration has pursued a strategy in the House that forces us to accept it on a take-it-or-leave-it basis, with no changes, and he wants me to vote for it.

Mr. President, I cannot do that. Frankly, I do not believe any of us who are opposed to this bill should vote for it in the vain hope that the other body will clean it up, and frankly, I have my doubts whether or not the President's advisers are really prepared to recommend a veto if they cannot take the heat of opposing a Ways and Means Committee bill in the House.

Mr. President, this is a proud institution. We take seriously our obligations and responsibilities, just as you do yours, and we should vote our convictions here tonight; we should not cast our vote for bad legislation merely because our President has asked us to do so. Far better that we keep faith with the American people and with the principles that have made our party great and give this bill the resounding defeat it deserves.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield 3 minutes to the gentleman from Massachusetts [Mr. BOLAND].

Mr. BOLAND. Mr. Chairman, I support H.R. 3838, the Tax Reform Act of 1985—and oppose the Republican substitute.

I want to extend my congratulations to Chairman DAN ROSTENKOWSKI and his colleagues on the Ways and Means Committee for the job they have done on tax reform. In spite of a task that at times, must have appeared overwhelming, and in the face of odds that must have seemed insurmountable, they have given this House a chance to vote on meaningful tax reform. All of us owe the committee a debt of gratitude, for the job it has done over the months of hearings and marathon markup sessions. I want to particular commend Chairman DAN ROSTENKOWSKI for his leadership. Quite simply, without his commitment to the cause of tax reform, no bill could have been produced.

We have all heard from the naysayers about the committee bill. They point out objections to this provisions or that, as though they would have us believe that it is possible to draft a tax bill that everyone would like. I've been in this House for awhile and I have seen many, many tax bills. I know that it is impossible to satisfy everyone in this area of legislation. The most that you can do—and the only standard by which the final product should be judged—is whether the bill, on balance, will leave the country in better shape than it is in, under the existing tax system. The test is not whether each and every special interest is protected, but whether the national interest is advanced. The committee bill clearly passes that test.

H.R. 3838 will provide individual Americans and American corporations, with the largest tax rate reductions, since the administration of Calvin Coolidge. It will provide tax relief to the American middle class, while ensuring, that the Tax Code does not penalize 6 million of our impoverished citizens for choosing to work, rather than to exist on welfare. In addition, the bill will require some corporations, which have skillfully avoided paying taxes in spite of achieving record levels of profits, to join, with millions of ordinary taxpayers, in financing the programs which defend this Nation and improve the lives of its people. The Republican substitute makes some changes in corporate taxation but it does not go far enough. I believe that is its greatest shortcoming. Under the Republican alternative, some $30 billion in tax relief, that will go to ordinary taxpayers under the committee bill, will be redirected. That money will be used to maintain special tax breaks that serve no purpose other than to reduce the tax bills of their corporate champions. That is not a tradeoff which will impress most individual taxpayers as an example of either tax reform or sound tax policy.

Mr. Chairman, by broadening the tax base and toughening minimum tax provisions, the committee bill will ensure that the most favored individuals and businesses in this society start paying their way. That, in combination with overall rate reduction and the relief it will bring to most taxpayers, is what I thought the tax reform effort was all about. That effort has been immeasurably advanced by the committee bill. We have a choice to make this evening on tax reform, a choice between two different approaches. The Rostenkowski proposal, the Ways and Means bill, is the right choice.

Mr. DUNCAN. Mr. Chairman, I yield 4 minutes to the gentleman from New York [Mr. KEMP].

□ 2050

Mr. KEMP. Mr. Chairman, no one has worked harder over the past several years on behalf of tax reform for the American family and for progrowth economic policies than this Member of Congress.

For that very reason, Mr. Chairman, because I know what can be accomplished, I would say to my Republican colleagues, no one is more disappointed than I in the substance of the committee bill. I would not vote for this bill on final passage if I did not believe that we have the assurance of the President of the United States of America, our President, that we can make substantial improvements in the bill. I am going to vote for the Republican substitute, but I am also going to vote on final passage for the committee bill to keep the process alive of reforming our Tax Code and lowering the rates. It is my conviction that this bill can be and will be improved, and indeed has to be.

Our President has solemnly promised to us, personally and by letter, that he would veto a bill that does not include the $2,000 exemption for every family in America, itemizer and nonitemizer alike, veto a bill that does not get the top rate down to no more than 35 percent, and expand the tax bracket threshold for middle-income taxpayers so their rates go down, not up; and increase the incentives for investment in plant and machinery and equipment.

I want to say to my colleagues, we will have another chance to vote on tax reform when it comes back from the Senate. Some of you think it would be impossible to make a change. I do not think we should rule that out here tonight. If the bill that comes back does not meet the criteria that the President has outlined, I announce tonight that I will help lead a fight against that bill, if it is a bad bill for goals that we outlined in our Republi-

can platform of 1984 in Dallas, and as outlined in the President's letter to our colleagues today and which I include at the conclusion of my remarks.

There are those who say that in voting on that basis we are taking a risk. But I am willing to take that risk because I think the reward of true reform is commensurate with that risk. I am willing to rely on the President's word.

We all know the words of Shakespeare that:

> There is a tide in the affairs of men which when taken at the flood leads on to fortune; omitted, all the voyage of their life is bound in shallows and in miseries. We must take the current when it serves, or lose our ventures.

Many of us are disappointed that the bill does not contain that $2,000 exemption for all. But I would say to my colleagues, there is no way we are going to get a $2,000 exemption for those families in America if this bill is killed here tonight. The time for action is now.

I want to remind my colleagues how far we have come. A few years ago, we were looking at a 70-percent top tax rate on both earned and unearned income. Tonight the debate is over 35, 37, or 38 percent. A few years ago, I say to the gentleman from Texas [Mr. ARCHER], we came to Congress and the corporate income tax was 48 percent. We are debating whether it ought to be 33, 34, or 35 percent. When the gentleman from Texas [Mr. ARCHER] and I were in the Congress in the seventies, the capital gains rate was 49 percent; tonight the debate is whether it ought to be 22, 20, or 17 percent.

Is the Republican Party going to be a party of low tax rates on capital and labor and on entrepreneurs and on working people, or are we going to be the party of special interest tax breaks for some and tax credits for business and confusion for the taxpayer?

In my view the bill should be supported, as well as the Republican bill, but we must, in my view, support this process so we can get from here, the status quo, to realize a better vision of America that will provide jobs and growth and opportunity for all Americans, and take the working poor off the tax rolls totally; because they should not pay income taxes up to about 130 percent of the poverty level, at least in my view of what we want for the poor in this country.

I ask my colleagues to support the Republican substitute but then support the committee bill so we can work for those goals we all share for America: fairness and simplicity and lower tax rates on American workers, savings, investors, and entrepreneurs.

Letter from the President follows:

THE WHITE HOUSE,
Washington, December 16, 1985.

Hon. JACK KEMP,
House of Representatives, Washington, DC.

DEAR JACK: In my recent letter on tax reform, I strongly urged all members "to vote for tax reform—the Republican alternative or, should it not preveail, the Ways and Means bill." I stated then what seems to me to to be the straightforward case: A vote against moving a House bill forward would doom our efforts to achieve real tax reform for the American people. We must not allow that to happen.

I understand the concern that many members have with a strategy that depends upon improvement of the House bill in the Senate. From my perspective, it would be totally inappropriate to give up at this stage—to fail to seek improvement in the Senate. But in order to help reduce concern about this approach, let me state my position with respect to the type of bill I might ultimately accept.

Like you, I believe that increasing incentives for economic growth and jobs, and fairness for individual Americans and their families, are fundamental objectives toward which our tax reform deliberations must be oriented. I will veto any tax bill that fails to meet these objectives.

In order that there can be no misunderstanding concerning my views on any ultimate bill, let me say that the minimum requirements for a tax reform bill I am willing to sign are as follows: a full $2,000 personal exemption for both itemizers and non-itemizers, at least for those individuals in the lower and middle income tax brackets; basic tax incentives for American industries, including those which depend upon heavy capital investment in equipment and machinery; effective dates which erase doubt and apprehension in the minds of those who must begin now to plan for 1986 investments; a minimum tax which allows no individual or business to escape paying a fair share of the overall tax burden; a rate structure with a maximum rate no higher than in my proposal; and tax brackets that are fully consistent with our desire to reduce taxes for middle-income working Americans.

These requirements can be met, and should be met as the legislative process moves forward. Getting a bill out of the House is now the essential step we must take in order to keep the process alive, and preserve the chance to achieve true tax reform. I ask for your support.

Sincerely,

RONALD REAGAN.

Mr. ROSTENKOWSKI. Mr. Chairman, I yield 2 minutes to the gentleman from Tennessee [Mr. FORD].

Mr. FORD of Tennessee. Mr. Chairman, I would like to commend the chairman of the Ways and Means Committee and also my colleagues, both Democrats and Republicans alike, who serve on the Ways and Means Committee for reporting the tax bill out of the committee and thus having it here on the House floor today.

Mr. Chairman, in November 1984 we received the Treasury I comprehensive tax reform package calling for simplicity, fairness, as well as saying in May 1985 that they modified that same Treasury I that finally we called or referred to it as Treasury II.

I think we also realize that in that bill they called for simplicity, fairness, and also revenue neutral. They talked about neutrality must be a part of the bill.

I think that today we here on the House floor with a bipartisan bill being reported from the Ways and Means Committee, both Democrats and Republicans reported that bill out and I think when we think in terms of what we are really saying and what we are really trying to accomplish for the taxpayers of this Nation, I think the House-reported version of the bill from the Ways and Means Committee is the one we should take and not the substitute being offered by the Republicans today.

I think what we are really trying to say is that we are making taxpayers out of the rich and wealthy of this Nation. What we are saying is that what is good for American families is that we are calling on fairness, which the President called for in Treasury I, Treasury II, and even the option by the chairman of the committee in a bipartisan bill, which we have before us today.

What is good for American children is fairness, fariness in the Tax Code is what we want and what we have today in the House version of the bill.

I would hope that we would reject and vote down the Republican substitute and say yes to the bill that is before the House today, that has been reported from the committee by both Democrats and Republicans.

Two issues should be clarified with respect to section 1508(d), the technical amendment to section 108 of the Tax Reform Act of 1984. First, if an individual owned a seat on a commodities exchange, such individual will be treated as a "commodities dealer." Further, if a securities trading firm also regularly trades commodities in connection with its business, the commodities trading will be deemed to be part of its trade business. This only applies to the securities trading firm itself. It does not apply to separate individual trading of its partners, principals, or employees, nor to partnerships or other organizations formed for the principal purpose of marketing tax straddles.

Mr. DUNCAN. Mr. Chairman, I yield 7½ minutes to the gentleman from California [Mr. THOMAS], a member of the committee.

Mr. THOMAS of California. Mr. Chairman, first of all, I would like to thank my colleagues for allowing me the privilege of serving on what I consider the most important committee in the House. I believe that committee has the finest chairman in the House, but no chairman is a free agent.

What I am asking you to do tonight is to vote for the Duncan substitute. This is the Duncan substitute, which

if you vote for it will take the place of this bill.

One of the reasons this bill is so thick is because it required a sufficient amount of pork to get it thus far. There is more pork in this bill than in this piggy.

When you examine the specific provisions that have been provided for Members, not just on the committee, not just on the Rules Committee, but for other Members of the House, you begin to appreciate why no one can be a free agent, including the distinguished chairman of this committee.

I might add, one of the reasons this bill is so thick is that it has no pork in it.

I want to make five statements tonight that are not going to be challenged. They are not going to be challenged, because they cannot be challenged. There has been a lot of rhetoric about what these various bills contain. There have been a lot of numbers and statistics, but I want to give you a couple statements which cannot be challenged.

One, the Duncan substitute takes more of our working poor off the tax rolls than the committee bill. That is a fact. The Duncan substitute takes more of our working poor off the tax rolls than the committee bill.

Second, next year many modest income taxpayers will pay more in taxes under the committee bill than under present law. More modest income taxpayers will pay more in taxes under the committee bill than under present law.

Three, when you compare the committee bill to the Duncan substitute, everybody with a taxable income of less than $50,000 does better under the Duncan substitute. Everyone with a taxable income above $100,000 does better under the committee bill.

Some people and the corporations with sizable incomes will pay no taxes under the committee bill. Despite the argument that the committee bill contains a minimum tax, this statement will go unchallenged. Some people and corporations with sizable incomes will pay no taxes under the committee bill.

Any person with a sizable income and any corporation with earned income will pay some tax under the Duncan substitute.

Finally, in the Duncan substitute, private savings can accumulate tax free at better than twice the amount than the committee bill.

Now, the reason that I can say that more working poor will be taken off the tax rolls under the Duncan substitute than the committee bill is very simple. Speaker TIP O'NEILL in addressing the Ways and Means Committee in June said, "Reducing the tax burden of the working poor is the very heart and soul of tax reform."

He went on to say, "Important to this group are the factors that determine at what income they begin to pay taxes, the standard deduction and the personal exemption."

Under the committee bill, improved standard deductions do not take effect until January 1, 1987.

The Speaker also referred to the personal exemption under the committee bill is only for nonitemizers. If you want to be an itemizer, it is going to cost you $500 off that $2,000 for each personal exemption.

The two most important factors that the Speaker referred to, the standard deduction and the personal exemption, are phony under the committee bill.

Therefore, the Duncan substitute removes more working poor than the committee bill.

Because the committee bill plays games with effective dates, you know there is a nonbinding resolution which says we are going to alter the dates. Why did the committee not accept altered dates as part of their bill? Very simple. If they accept the dates as part of their bill, that are included in the nonbinding substitute, it would cost them $30 billion. That is why they do not accept those dates. It would cost them money. That is why they put the dates there in the first place.

If you believe that some corporation that makes money or someone who receives the benefit of this system and utilizes the services in this system should pay some tax, you have no choice but to vote for the Duncan substitute, because the committee bill, as does present law, allows some folks who live quite well in this economic system to pay no tax.

I will repeat that. The committee bill allows some folks who make sizable incomes in this system to pay no tax.

Finally, if you really believe it is good public policy to let those who can help themselves do so, you really need to know that with a $2,000 IRA in the Duncan substitute, not only for working spouses, but also for nonworking spouses and for the IRA that is allowed to accumulate on a nondeductible basis, including other adjustments in the bill, that the Duncan substitute allows individuals to accumulate tax-free savings at twice the rate of the committee bill.

So if you want to remove more working poor from the tax rolls and not make some modest-income people pay more taxes next year than under present law, have a real minimum tax and create needed savings for individuals who can do so, your choice really is the Duncan substitute.

Now, I believe that the role of the minority is more than just opposition. What we have tried to do is to provide a creative alternative. When you examine the option in terms of the way it is structured, it is not only a credible option, it is one that if you read the option and weigh the choices, you will support it.

I urge Members as they come in, please do not look at the people at the door with their thumbs up or their thumbs down; do not follow the guide of someone else. Take a look at the real choices between these two alternatives and I think if you look as most people would look in terms of where they are going to be next year on taxes, there really is a difference between the two alternatives, and the better of the two, despite the rhetoric, on the basis of the statements I have made which will go unchallenged is the substitute and I urge its support, because if it passes we do not need to worry about urging folks to vote for the committee bill. We will have a substitute which is thinner, better, and really contains less pork.

Mr. RANGEL. Mr. Chairman, I yield 3 minutes to the gentleman from New Jersey [Mr. GUARINI].

Mr. GUARINI. Mr. Chairman, I ask my colleagues to support the Ways and Means Committee bill and reject the Republican alternative.

I would like to address for a moment the issue of capital formation and balancing taxes for our people.

Those who have studied the tax changes that were made in 1981, ERTA, realize that the combination of the 10-percent ITC and accelerated depreciation resulted in negative tax rates for many corporations.

□ 2105

The system was far too generous and in need of pruning. Even the President, in his proposal, reached the same conclusion and advocated repeal of the investment tax credit and lengthening of depreciation schedules.

The Republican alternative gives a 5-percent tax credit for domestically produced goods. Clearly, this is in violation of GATT. It is difficult to administer. And it invites retaliation by our trading partners. A very poor choice.

The Ways and Means Committee bill strikes a fair balance. It still provides incentives for investments such as rehab tax credits and a realistic depreciation schedule, and the best incentive of all is that it lowers the individual and corporate taxes now, without delay, without waiting for several years for it to happen.

As for accumulation of capital long-term investment, the committee continues the popular 401(k) plans which have been repealed and asked to be repealed by the President. It permits continuation of other significant savings incentives through pensions reachable by our workers.

Where our proposal diverges from the Republican alternative is who benefits. The Republican substitute provides more tax breaks for corporations

and the wealthy. It sets up the prospect of enormous revenue drains after the first few years of enactment by phasing in provisions with staggering revenue losses once we get past 1990.

The backloading is not revenue neutral and it is not reliable as the revenue losses are calculated for more than 5 years out.

Who will be the beneficiaries of this generosity of top rates of 35 percent for individuals and full IRA's and full indexing and depreciation and capital gains after 1991? Clearly, major corporations and wealthy individuals.

Just to give my colleagues one example, our research shows the IRA's are used most exclusively by those with incomes over $50,000, while 401(k) plans are used more by middle-income workers. Who is going to pick up the tab? Middle-income working families, because individuals will pay $35 billion more in taxes under the Republican alternative and corporations will pay $35 billion less.

It cannot be all things to all people. The Republican substitute cuts back by 30 percent itemized deductions and those deductions will be eroded in the future.

The CHAIRMAN. The time of the gentleman from New Jersey [Mr. GUARINI] has expired.

Mr. RANGEL. Mr. Chairman, I yield 30 additional seconds to the gentleman from New Jersey.

Mr. GUARINI. I thank the gentleman for yielding this additional time to me.

Mr. Chairman, all in all, the tax package approved by the committee gives hard-working, tax-paying citizens a fair shake. It is not pro oil or pro gas or pro multinationals or pro-Cadillac health plans. It eliminates tax shelters, loopholes, excess and abuses that large corporations and the wealthy have traditionally benefited from.

We can take great pride in reducing individual rates back to 1931 and corporations back to 1941.

I strongly urge rejection of the Republican alternative.

Mr. RANGEL. Mr. Chairman, I yield 3 minutes to the gentleman from Ohio [Mr. PEASE].

Mr. PEASE. I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise to oppose the GOP substitute, but first I would like to commend some people who have worked on the bill, first and foremost the chairman of our committee, the gentleman from Illinois [Mr. ROSTENKOWSKI], who I think has turned in a virtuoso performance over the last several months in bringing this bill to the floor tonight.

Second, to the staff of the Committee on Ways and Means and the Joint Committee on Taxation, who have done an unparalleled amount of work on this bill over the last few months. My hat is off to them.

Third, to the Republican minority. Their numbers may be smaller than they would like on the committee, but I have detected over the last months no shortage of talent, expertise on taxes, energy, or dedication when it came to working on this tax bill that we have before us tonight. My hat is off to them as well.

The GOP alternative which is before us now is in many respects an excellent bill. Indeed, 80 percent of what is in the Republican bill is in the House Committee on Ways and Means bill. Some features which are unique to the GOP substitute are well thought out provisions which deserve the attention of this House, but the GOP substitute is not perfect; it is not as good as it could be. Members of the GOP, in fashioning their alternative, were forced to make compromises in order to keep the package revenue neutral, and some of those compromises make the substitute not as good as our committee product.

For example, the GOP substitute cuts back by 30-percent itemized deductions in excess of $1,000. That means that the GOP substitute denies part of the deductions for State and local taxes, for medical expenses, and for consumer interest. What, I ask my colleagues, is profamily about that?

The GOP substitute repeals altogether the deduction for sales and personal-property taxes. What is profamily about that?

The GOP substitute provides $35 billion less in tax relief to individuals than the committee bill. What is profamily about that?

And the GOP bill phases in—remember this—phases in the corporate tax rate cuts over 5 years instead of dropping the rate to 36 percent in the first year. What, I ask my colleagues, is probusiness about a 5-year phase in for the reduction of corporate taxes?

The GOP substitute is a good bill, but not good enough. I urge support for the committee bill.

The CHAIRMAN. The Chair will state that the gentleman from New York [Mr. RANGEL] has 17½ minutes remaining and the gentleman from Tennessee [Mr. DUNCAN] has 12 minutes remaining.

Mr. RANGEL. Mr. Chairman, I yield 3 minutes to the gentleman from Arkansas [Mr. ANTHONY].

Mr. ANTHONY. I thank the gentleman for yielding this time to me.

Mr. Chairman, before I go into the real reason that I am for the committee bill and against the Republican substitute, I would just ask my colleague, the gentleman from California [Mr. THOMAS] to say whether or not there is no pork or a little pork in the Republican substitute. His opening statement said "no pork." In his closing statement he said "a little pork."

It is my understanding that only the Republican pork was contained in the Republican substitute.

Mr. THOMAS of California. Mr. Chairman, will the gentleman yield on that point?

Mr. ANTHONY. I would be happy to yield to the gentleman from California.

Mr. THOMAS of California. I thank the gentleman for yielding.

Mr. Chairman, there are no transition rules in terms of providing Members any pork whatsoever in the substitute, just as there is no deduction on contributions, as the gentleman from Ohio mistakenly said.

Mr. ANTHONY. Mr. Chairman, reclaiming my time, it is certainly not my understanding that that is correct, so I would challenge the Members to take a look at that.

Later tonight Members will have a simple question to answer: Is current law better, or is the plan endorsed by the Committee on Ways and Means, despite its acknowledged flaws, better? I think the committee bill is better. I will work to improve it in the other body and in the ensuing conference.

There is one glaring mistake that is made in the Republican alternative, and that is the provision to repeal the 1984 ESOP or employee ownership incentives as of January 1, 1986. This is part of the 20 percent of the committee bill that the Republican alternative does not pick up. In brief, the incentives provide for a tax deduction on dividends paid to employees who own their own company stock in an ESOP and exclusion of 50 percent of the interest on a loan used to purchase employer stock for employees, a tax-free rollover of an employee's proceeds from the sale of an employer's stock to an ESOP is the ESOP owns 30 percent or more of the employer's stock after the sale and if the proceeds are reinvested, and an ESOP to assume the estate tax liability in certain very limited circumstances.

The original staff proposal to the Ways and Means Committee recommended that these ESOP incentives be repealed as of January 1, 1986. On October 27, the Ways and Means Committee, by a bipartisan voice vote, rejected the staff proposal, and instead voted to accept my amendment to continue these incentives for 3 more years.

Now, in a move contrary to the bipartisan position of the committee, and contrary to the position of President Reagan, who has endorsed these incentives, the Republican alternative repeals the 1984 ESOP incentives.

It is my understanding that the justification given by the drafters of the Republican alternative is that the repeal of these incentives raises $6 billion, which is needed to reduce individual and corporate rates.

This justification is just not correct. These 1984 ESOP incentives cost the Treasury approximately $100 million per year—a small price to pay to encourage more capitalism and less concentration of wealth.

Anyone who says that the 1984 ESOP incentive cost $6 billion is not checking the facts carefully.

It is unfortunate that the Republican alternative takes this negative position on employee ownership because for over 15 years, Congress has supported ESOP's in a bipartisan fashion. Now, at the last minute, the Republican alternative strikes a partisan note against ESOP's. I only hope that the Republicans in the House will desert their position on ESOP's in the future, and return to a position similar to that of their President, Ronald Reagan, and their Republican colleagues in the other body.

A vote for the alternative is a vote against ESOP's. A vote for the Ways and Means bill is a vote for ESOP's.

Mr. DUNCAN. Mr. Chairman, I yield 3 minutes to the gentleman from Louisiana [Mr. MOORE].

Mr. MOORE. Mr. Chairman, I support reform. I think the choice here between the Duncan substitute and the bill is a choice between reform and revision. I want to say that again, a choice between reform and revision.

The Duncan substitute comes far closer to a reform bill. The bill brought out of the Ways and Means Committee is a political revision of who is going to pay the taxes of this country.

I want to give you two points to prove that conclusion. First, the bill does not do as much for families and, therefore, is antifamily, as compared to the substitute. It does not do as much for savings and, therefore, is antisavings as compared to the substitute. The bill does not give the full $2,000 personal exemption, as we have heard over and over again in this debate. I want you to understand that fully.

It says it gives it, but then if you itemize your tax returns, in the very small print, it takes back $500.

Thirty-five percent of the taxpayers, from the latest information we have, in 1983 itemized their tax returns. So those 35 percent do not get a $2,000 personal exemption, they get $1,500.

And do not make the mistake of thinking that only wealthy taxpayers itemize. Sixty-three percent of the people in this country who earn between $25,000 and $30,000 on a joint tax return, and that is middle income, 63 percent of those people itemized their tax returns in 1983. That means that they and their children are worth $500 less than their neighbor next door making exactly the same amount of money who does not itemize his tax return. That is antifamily. That is treating families differently without any other compensation.

Ask yourselves why. There has been no reason yet to come from the supporters of this bill as to why. I am going to give you the reason.

It was not a matter of tax policy. The reason was simply they had spent the money on other things. They had spent the money on full deductability of local and State tax deductions, or whatever it was to get the political coalition to get the bill out of committee, so they did not have the money to give full $2,000 exemptions. They simply said, "Well, let us create a sham, a mirage, a shell game. Let us look like we give it, and let us take it back, and maybe nobody is smart enough to know the difference."

My colleagues, the American people are a lot smarter than we are if you think they are not going to catch on to that. I personally think that is a disgrace in the bill. The Ways and Means Committee normally performs much better than that, and I think it is wrong to fool the people or try to. And if you vote for the bill, that is what you are doing, you are voting for a political revision, and a mirage instead of reform, because the Duncan substitute does give the $2,000 personal exemption to everybody but the very highest income. Ninety percent of the taxpayers will get it whether you itemize or do not, and therefore, that is the first point of why the Duncan substitute is reform as compared to the political revision of the committee bill.

Do not think this is unimportant. I happen to think the American family is very important. I think it is important that they not be thrown on relief or on to Government programs. I believe they lose their dignity and it puts strains on the family.

What we are saying is we are going to let you keep $2,000 for every member of your family of the money that you work so hard to earn before the Government takes anything. Now what could be more fair or better or more profamily than that? Let us not force you to go ask for some Government program.

If we simply took the original $600 exemption and updated it for inflation it would be somewhere in the neighborhood of $3,500 today. So we are still not giving the American people the relief that they are entitled to.

The second point: Antisavings. Let me tell you something. The Japanese are beating us today and it is not because they are cheating, it is because they have got a better running economy than we have. One reason is they save money; we do not; 17.5 percent of their earnings they save. We are saving something like 2.9 percent, close to the historic low which was 2 months ago of 1.9 percent, the lowest we have been in recorded history. We are not saving money.

We know that the foreign capital in this country that is financing our borrowing is going to be leaving pretty soon as we bring down the value of the dollar. Where are you going to get the money to finance this country? Consumer borrowing, business borrowing, where is it going to be coming from? You are going to see crowding out, increasing pressure on capital and increasing interest rates if we do not do something to increase savings.

So in the face of that, what does the bill do? The bill takes action that reduces savings. First of all, it reduces the 401(k) plans that the speaker from the other side just said is so popular from $30,000 down to $7,000.

The second thing it does is it wipes out an IRA for those same people who have 401(k) plans if they have at least $2,000 in a 401(k) plan, and it does nothing for spouses or homemakers. It says their services are worthless because we have spent the money on something else.

Meanwhile the substitute restores the 401(k) plans to $12,000, allows a 401(k) holder to still have an IRA, provides a $2,000 spousal IRA and contains my provision to allow nondeductible contribution to an IRA of $2,000. The substitute is decidedly more prosavings than the bill.

Therefore, the choice is for reform or for revision. Vote for the substitute and if it fails, against the bill.

Mr. RANGEL. Mr. Chairman, I would ask how much time we have remaining?

The CHAIRMAN. The Chair announces that the gentleman from New York [Mr. RANGEL] has 4½ minutes remaining, and the gentleman from Tennessee [Mr. DUNCAN] has 7 minutes remaining.

Mr. RANGEL. Mr. Chairman, I yield 3 minutes to the gentleman from California [Mr. MATSUI].

Mr. MATSUI. Mr. Chairman, the Republican substitute just demonstrates, as I said earlier in my remarks, how difficult tax reform really is.

The gentleman from Louisiana [Mr. MOORE] talked about some of the problems with our bill. Let me just state a few of the problems with the Republican substitute.

First of all, it shifts some $35 billion onto the individuals and takes it off of the corporate side at a time when we try to give relief to individuals in our particular bill. But that is just not all of it.

The Republican substitute also taxes fringe benefits which have historically been nontaxable. It only gives 70 percent of the deduction for State and local taxes.

In addition to that, all that they give back is 5 percent on the ITC. It violates GATT, mainly because it applies

only to domestically made goods, and that could put us in a noncompetitive position if you buy goods from overseas and they are not available in the United States.

Fourthly, which is very interesting, the way they pay for their 5 percent investment tax credit is by starting with the corporate rates at 42 percent. That is why they have not had any support from the service industries and the high-tech industries. They start at 42 percent, and over 6 years, they try to get down to 33 percent.

Let me tell you, at the end of 6 years, I can guarantee you that the Republican substitute will no longer be revenue-neutral, because they do not make up the revenues by going down to 33 percent in any way, and as a result of that, in 5 years, the Republican substitute will have massive deficits in addition to being a proposal that is much less fair than the House Ways and Means Committee bill.

I yield back the balance of my time.

Mr. RANGEL. Mr. Chairman, I yield myself 4 minutes.

Mr. Chairman, a lot of praise has been given to the chairman of the Ways and Means Committee for being able to bring together a bill with Republican and Democratic support, fashioned after what the President of the United States has suggested to our Congress. Of course, we first heard word from Treasury in November of 1984, and we immediately started to hear witnesses and take testimony, working 7 days a week, around the clock, in order to fashion a bill to bring to this House.

But I think a lot of praise ought to be given to our Republican colleagues, because even though we were able to get their expertise and parxigipation in the bill that we are presenting to the House, none of us were able to be invited to participate in the bill that they bring to the House, and they were able to do this in probably two nights and a couple of days. So I think our Republican colleagues ought to be complimented for being able to patch together the bill that they bring us today, and also for their ability to not put so much pork in their bill since their Members found it so easy to lean upon the chairman for them to be accommodated in our bill since we consider it to be a House bill.

Nevertheless, I think those that come to the floor and drip with hypocrisy suggesting that in the Republican bill which finds itself so pure, I would suggest that they check with the Members that drafted the bill and perhaps they can see that there was some compassion on the Republican side of the aisle for some of the Members who found themselves with political problems.

In any event, I would like to believe that if the Republicans did have enough time, perhaps when they got to the question of the earned income tax credit that they would have listened more closely to their President and the Treasury Department, and they would have indexed it as the Democrats have done with Republican support, because none of the good things that we did on the Ways and Means Committee did we do without the help of our hard-working Republican colleagues.

It would seem to me on the question of sales and property tax, too, perhaps if the staff had time enough, they would have allowed this to be deductible, because they fully appreciated that it smacked of being unconstitutional, and certainly it was inequitable to keep those provisions in the Ways and Means Committee bill.

But I think one of the proudest points that we had in our deliberation, and again we are talking about Republicans and Democrats, unlike the Republican alternative where it is Republican, Republican, that we tried to make the fringe benefits that were provided for the rank and file, to make certain that the rank and file were treated equitable and fair, and unfortunately, because of a lack of time, in a 2-day span that you had, you were unable to take care of the rank and file on fringe benefits. And I am certain that somewhere along the line, you would even manage to tax the fringe benefits to provide health services for the hard-earned benefits that the unions have gained through management/labor contracts.

Nevertheless, I am satisfied that you did not take your bill too seriously, because that is probably why you only had 14 Republicans voting for the rule that would have ordered your bill before the House so we would have been able to discuss it.

In any event, it would seem to me that as we vote down the Republican bill that we should still extend our hand and our friendship to the Republicans that are trying to do now the courageous thing, after our President was forced to come down here, embarrass himself and ask for the support of our colleagues on the other side of the aisle, I am convinced that now we both will be working toward the same goal. Perhaps the bill is not everything we want it to be, but working together, we can make it just that.

Mr. Chairman, I yield 3 minutes to the gentleman from California [Mr. MILLER].

Mr. AuCOIN. Mr. Chairman, will the gentleman yield?

Mr. MILLER of California. I yield to the gentleman from Oregon.

Mr. AUCOIN. Mr. Chairman, last April I held hearings throughout the First Congressional District on the issue of tax reform. At that time, the issue of tax reform was just a gleam in the eye of Ways and Means Chairman DAN ROSTENKOWSKI. But through his incredible persistence and the hard work of his colleagues on the committee, we are considering today one of the most significant pieces of legislation to face the Congress in years.

The testimony I heard last spring strengthened my long-held conviction that an overhaul of the Tax Code was overdue. In school gymnasiums and employee lounges, I heard testimony from people who couldn't understand why a working woman making only $12,500 a year paid more than some of our largest oil companies. I heard from people who couldn't fill out a tax return or who couldn't begin to guess what tax breaks were available to them without the help of an accountant.

The message I received was clear: The U.S. Tax Code is unfair—and it is a mess.

I couldn't agree more.

It is unfair when 129 corporations earning $66.5 billion in pretax domestic profits pay no taxes at all. It is unfair when nearly 30,000 individuals, with incomes greater than $250,000, including 3,000 millionaires, pay less than 5 percent of their income in taxes. It is unfair when people with incomes below the poverty level are forced to pay any taxes at all.

The bill that we are considering today constitutes a significant step in the right direction toward tax reform.

For example, the bill cuts $140 billion in taxes for individuals, giving most Americans an average tax cut of 9 percent. The ones who need it the most—the lower and middle-income taxpayers—would receive the largest tax cuts. In fact, more than 50 percent of the tax relief would go to taxpayers earning between $20,000 and $75,000. Meanwhile, the bill would remove about 6.5 million low income workers from the tax rolls.

What's particularly appealing is the fact that, while the bill slashes tax rates, it retains several tax deductions or credits that are extremely important to the average taxpayer. I commend the committee for, among other things, retaining the deduction for State and local income, sales and property taxes, for increasing the earned income credit, for extending the research and development credit, for continuing the targeted jobs credit and for insuring the tax-exempt status of fringe benefits.

Mr. Chairman, it is easy these days to get caught up in the spirit of holiday giftgiving. And, like many of my colleagues, I am eager to give hard-working Oregonians a present in the form of a well-deserved tax break. But while everyone wants to play the role of Santa Claus, I must examine how this bill will affect Oregon after the holiday season.

While I support the general thrust of the bill, I am convinced that the bill provides short-term happiness in exchange for long-term economic disaster.

In deciding whether or not to vote for this bill, I have four tests that must be met: first, it cannot increase the deficit; second,

it must be fair—following the principle that those who earn more pay more and the people with equal incomes pay about the same; third, it must offer the lowest possible tax rate for the largest number of people; and fourth, it must encourage innovation, productivity, growth, jobs and payrolls.

Upon close examination I've concluded that this bill fails the fourth test. It does not encourage economic development in Oregon.

Tax reform which wipes out the gimmicks, insures that profitable corporations pay their fair share, produces fewer distortions in business deductions and doesn't shortchange the needy or middle income is commendable. But the message I received during those April town meetings was: "Don't support a tax bill unless it encourages innovation, productivity, growth, jobs and payrolls."

Passage of this bill, no matter how well intentioned, will do nothing to encourage economic development in Oregon and, in fact, will make matters worse in a State that is still reeling from the throes of the 1981 recession.

And a tax cut is no good to a person with no paycheck.

WHAT IS THE ECONOMIC SITUATION IN OREGON?

As attractive as the tax bill might be, I cannot examine it in an economic vacuum. Few people realize that, while the Nation as a whole is on an economic upturn, the State of Oregon is still trying to climb out of the depths of the 1981 recession.

My decision to vote against this bill is determined by its affect on Oregon's major industries: timber, high tech, agriculture, and trade. I am also very concerned about its affect on education and its lack of incentives for savings.

TIMBER

Passage of this bill would destroy the lifeline of Oregon's economy—timber.

Oregon is the single largest producer of Federal and private timber in the Nation. A report prepared by the Forest Industries Committee on Timber Valuation and Taxation estimates that nearly 90,000 Oregonians are employed by the forest products industry, and that another 25,000 Oregonians own private woodlands. This same report estimates that the total annual wood products industry payroll in Oregon is $1.4 billion.

During the 1981 recession, Oregon's timber industry lost thousands of jobs. Our State, and the timber and lumber industries in particular, suffered economic dislocation from which it still has not completely recovered. Dozens of mills have shut down. Meanwhile, many of the remaining timber operators have fought back. They have tightened their belts, trimmed the fat from their operations, and struggled to climb out of the depths of those terrible economic times.

Congress has played a helpful role as well. In 1984, Congress passed, and the President signed, the Federal Timber Contract Payment Modification Act, which gave holders of Federal timber contracts an opportunity to buy out some of their high-priced, inoperable timber harvest requirements.

But as Oregon's timber operators struggle to get off their life support systems, I am being asked to support a bill that proposes to pull the plug altogether.

WHAT PROVISIONS OF THIS BILL AM I CONCERNED ABOUT?

Timber management expenses and interest for private forest lands of more than 50,000 acres would no longer be deducted on a current basis. Instead, they would have to be capitalized over the life of the tree. Think about it. Trees grow for 40 to 75 years before they may be commercially harvestable. That is a very long time for a timber owner to wait before being able to write off the cost of properly maintaining forest land. Even small woodlot owners would lose much of their ability to expense management costs each year.

There are economic and environmental consequences to this change that are, in my view, unacceptable. Requiring that expenses be capitalized will result in a "cut and run" liquidation of private forestland. The short-term effects of this drastic change will be a depression of lumber prices. The long-term impact will be no reforestation, no conservation of industrial forestlands, and increased pressure of Federal timber supplies to meet softwood lumber demand.

Timber harvested by corporations would no longer be given capital gains treatment when harvested. In addition, public timber income would lose capital gains treatment as well. Over the years the Tax Code has recognized this unique nature of timber, that is, its long growing period and its susceptibility to uncontrollable disease or destruction.

Small woodlot would lose the reforestation provision that has served as an incentive to replant after a harvest.

It is estimated that approximately 5,000 jobs would be lost in my State alone if this bill passed. And that doesn't account for the inevitable ripple effect that will occur when this industry starts to go down the tubes. In fact, some studies estimate that there would be a loss of 180,000 jobs nationwide, $4 billion in payroll taxes and $17 billion in sales.

The provisions in this bill requiring capitalization of current management, protection and carrying costs for all owners would spell disaster for the timber industry. And this bill threatens not only the employees and plants, but the forest resources themselves and the Oregon communities dependent upon them.

I believe the current tax system has treated timber resources fairly. And, as much as Oregonians would like to have a few extra dollars in their paycheck, they are not willing to let the single most important industry in the State be destroyed. In fact, the strong feelings of my constitutents on this issue were recently demonstrated in an informal poll taken by my office. When recently asked "Would you favor a bill that lowers your tax rate, but poses a threat to Oregon's timber industry?," approximately 60 percent of those polled said "no".

Oregonians will not sacrifice timber at the alter of tax cuts.

HIGH TECH

Dozens of electronic companies have made their home in Washington County which is just west of the city of Portland. Dubbed "Silicon Forest," this area has brought not only hope but jobs to the residents of the First Congressional District.

Infortunately, most of these companies are facing difficult economic times at the moment. Hit by dwindling backlogs, the high level of the dollar and declining orders, high tech executives are now being forced to trim back as much as possible just to survive. For example, the Intel Corp. has eliminated almost 1,200 jobs from the company's Portland-area payroll since February. The most recent layoff occured in November when 520 employees were asked to leave at the company's Aloha plant. Their third quarter report showed a loss of $4 million. Other companies are going through the same hard times.

One of the main reasons for the woes of the high tech industry is competition from overseas markets. And, while I am adamantly opposed to protectionism, I do believe that we should be encouraging American firms to invest in new, competitive technologies. As our national trade deficit looms around the $150 billion level, I question whether this is an appropriate time to take away incentive for new investment.

I also question whether this is the time to cut back on the tax credit for research and development. Currently, the credit is 25 percent for R&D expenditures, but the Ways and Means bill would reduce it to 20 percent. Again, at a time when we need our high tech firms to do more research, is it appropriate to cut back on Federal incentives?

TRADE

It's no secret that the economy of the Pacific Northwest depends on a robust international trade. And while our national trade deficit is predicted to be $150 billion for this year, Oregon continues to run a trade surplus.

But I am very concerned that the changes proposed in this bill would discourage those capital investments that are necessary to make American industries more productive and competitive. Faced with stiff, often subsidized, competition from around the world, American industry has to invest heavily in the latest technology and machinery to keep jobs in this country.

Just a few weeks ago I voted against giving the textile industry protection against foreign imports, protection in the form of import limitations. However, I also believe that we should be encouraging such industries to compete through the modernization of their plants and equipment. At a time when foreign competition is intense and foreign governments are doing everything they can to encourage manufacturing, I question the timeliness of scaling back drastically on certain investment incentives.

FARMING

Agriculture is vital to the economic well-being of Oregon. This is evidenced by the fact that in 1984 the Farm Gate Value from the 1,900 farms in Washington County alone amounted to over $92 million.

While agriculture in Oregon is faring better than in other parts of the United States, the State faces some serious problems. Last year the Oregon Crop and Livestock Reporting Service recorded a 17 percent decline in the value of farmland in Oregon. Farm exports, have fallen dramatically. Pacific Northwest wheat exports, for example, are off 34 percent and white wheat exports are off 51 percent from the same period last year.

The reasons for these problems are many: the strong dollar makes American products noncompetitive on the world market, federal farm policies need to be revamped and we need to get serious about promoting exports.

What we don't need are some of the provisions contained in this tax bill. The elimination of income averaging, for example, could have a very adverse effect on farmers because farm income can fluctuate dramatically from year to year due to changes in weather and other uncontrollable factors. Additionally, elimination of the investment tax credit will make it more difficult for farm families to modernize and expand their operations.

EDUCATION

Changes in the committee bill regarding tax treatment of appreciated property and the capital gains rate for charitable contributions will hamper the ability of colleges and universities to attract contributions from private donors.

While the changes will affect private schools most dramatically, state schools are going to feel the bite. Oregon's colleges and universities receive only about a third of their funding directly from the State. The remainder comes from tuition, Federal grants and private gifts. As Federal money becomes more scarce, private dollars are becoming more important.

The bottom line is that endowments often spell the differences between a good school and an outstanding school. Private funds and gifts of equipment are important for attracting quality staff and quality students.

A good higher education system is important for attracting new business to Oregon, and expanding existing firms. By reducing the incentive for private donations, this bill would undo part of the work that has been done in Oregon to upgrade our schools.

SUMMARY

However well-intentioned and despite some commendable provisions, the passage of this tax bill would spell disaster for Oregon's major industries. For timber—the bulwark of our economy—it would be the final nail in the coffin. Thus, today I am casting a vote in Oregon's interest.

Tax reform is necessary and desirable—but not at the expense of Oregon jobs and paychecks.

Mr. MILLER of California. Mr. Chairman, the President asked us to reform this Nation's outdated tax laws, and especially to make them more fair for American families.

That is exactly what H.R. 3838 accomplishes. And the reason I rise in strong support of its passage.

Months ago, I asked the staff of the Select Committee on Children, Youth and Families to analyze all the tax reform proposals then before Congress. At that time, the second Treasury proposal proved fairest to families.

The staff has just completed a new analysis, however, evaluating the bill before us today. Let there be no doubt: The proposal coming from the Committee on Ways and Means is the fairest tax reform package for families so far. It provides the most tax relief for low- and moderate-income families, treats one-earner and two-earner families more equitably, and distributes tax burdens across income levels more fairly.

FAIR TAXES FOR AVERAGE INCOME FAMILIES

The average income of families with children in 1983 was about $32,000, yet rising costs make it increasingly difficult for these families to maintain a desired standard of living. The Ways and Means plan understands the pressures these families are facing.

The plan clearly is best for average-income families with children because it taxes them least. By nearly doubling the personal exemption to $2,000 for those who do not itemize deductions and increasing the standard deduction to $4,800, an average-income, four-person family would see their tax bill drop by over $1,000 under current law.

For those families who do itemize, this bill fully protects their most valuable deductions: the interest on their home mortage, the taxes they pay as responsible State and local residents, and charitable contributions they make as compassionate citizens.

FAIR TAXES FOR LOW-INCOME FAMILIES

There are over 5½ million families with children in poverty. And many of them have been taxed into poverty under our current tax laws. The Ways and Means bill reaches out to these impoverished families.

The bill raises the tax-paying threshold to about $14,400 in 1986, nearly $5,000 above the level at which poor families must now begin to pay income taxes. This will eliminate taxes for millions of poor families.

The bill also greatly expands the earned income tax credit, which will increase the number of families eligible for, and the value of, the credit. By 1987, when this provision is fully implemented, a poverty level family of four would receive a cash credit nearly twice as great as they would in 1986.

FAIR TAXES FOR SINGLE-PARENT FAMILIES

Twenty-two percent of all U.S. children now live in single-parent families, nearly double the number since 1970. Single parents will have far greater resources for raising their children under the Ways and Means proposal.

Taxes for single-parent families would be reduced more under H.R. 3838 than under any other plan. By raising the standard deduction for single parents to $4,200, the highest among any major reform bill, a single-parent household with 3 children, earning about $21,000 would see their taxes drop by over 38 percent from current law.

FAIR TAXES FOR FAMILIES USING CHILD CARE

Over 50 percent of mothers with preschool-age children are now in the labor force, creating a tremendous need for affordable child care. H.R. 3838 is clearly sympathetic to working families' needs.

The Ways and Means bill retains one of the best provisions for families under current law. The child care credit. Low- and moderate-income parents would continue to receive a payment of up to $1,200 to help them pay for the child care they need to work and provide for their families.

FAIR TAXES FOR LARGE FAMILIES

The tax burdens for large families have increased far faster than those of small families because of the tremendous erosion in the value of the personal exemption. H.R. 3838 balances the tax burden faced by large families.

A married couple with four children, earning about $27,000, would see their taxes go down by nearly $1,000, from about $2,500 to just over $1,500.

FAIR TAXES FOR TWO-EARNER FAMILIES

The number of one-earner families has declined steadily since 1970. While the number of two-earner families has grown rapidly. The Ways and Means bill keeps pace with these trends.

The bill does not penalize families where both parents want, or need to work. While the deduction for two-earners is repealed, as it is in all of the other reform plans, the Ways and Means bill significantly lowers these families' tax bill compared to what they pay today.

Also, while two-earner families taxes are reduced at a somewhat slower rate than one-earner families, the gap between the two kinds of families in the rate at which taxes are lowered is not nearly as great as under other reform proposals.

These examples show that H.R. 3838 is by far the most equitable, most progressive, and fairest bill for this Nation's families. Because this is true, it is also the fairest bill for children.

Children's voices have not been heard in the great national debate on tax reform, but they will be the ones who, for decades to come, will bear the brunt of the decisions we make here today.

After all, the average American family with children pays $7,000 in taxes each year, more than half of which goes to Federal income taxes, of

their remaining disposable income. The same average family spends more than $5,000 for each child, mostly on food, housing, transportation, and other necessities.

Taxes greatly influence the final resource level available for family functioning. And these resources are spent largely on children. Consequently, tax policy has become a de facto family and children's policy.

We have a chance to do better by our children and families. Let's vote for H.R. 3838.

Mr. Chairman, I would like to conclude by submitting for the RECORD the highlights of the Select Committee's most recent analysis of tax reform proposals, "a family tax report card: round II":

HIGHLIGHTS OF FAMILY TAX REPORT CARD: ROUND II

ALL PLANS

All plans, including Ways and Means, lower taxes for single-parent families, but Bradley-Gephardt actually increases the disparities in tax burdens between single parents and married couples.

Ways and Means and Treasury II maintain one of the best features of current law, a tax credit for child care expenses. The greatly increased numbers of single-parent families and two-earner families would at least be able to maintain current resource levels to meet this expense. Bradley-Gephardt changes the credit to a deduction, lowering its value for low- and average-income families, while the credit is eliminated entirely under Kemp-Kasten.

All plans, including Ways and Means, significantly reduce the tax burden of the working poor, although Bradley-Gephardt clearly leaves room for improvement. *By 1987, Ways and Means increases more than any other plan both the number of families eligible for, and the value of, the Earned Income Tax Credit.*

All plans, including Ways and Means, provide greater tax relief for one-earner families than for two-earner families. Because Treasury II increases the maximum IRA contribution for a nonworking spouse to $2,000, the greatest disparity occurs under that plan.

BRADLEY-GEPHARDT

Relative to the other plans, Bradley-Gephardt, as currently designed, is excellent in its treatment of the marriage penalty, good for average-income families and average for two-earner families. It is below average for large families, low-income families and families using child care, and poor for single-parent families.

KEMP-KASTEN

Relative to the other plans, Kemp-Kasten, as currently designed, is excellent for large families, single-parent families and families with two earners. It is average for poor families, below average for average-income families and poor for families using child care and in its treatment of the marriage penalty.

TREASURY II

Relative to the other plans, Treasury II, as currently designed, is excellent for poor families and families using child care. It is good for single-parent families, average for large families and average-income families, and below average for families with two earners and in its treatment of the marriage penalty.

WAYS AND MEANS

Relative to other plans, Ways and Means, as currently designed, is excellent for low-income families, average-income families and families using child care. It is good for large families and families with two earners, and average for single parent families and in its treatment of the marriage penalty.

CONCLUSION

All the reform proposals, including Ways and Means, are better for families than current law.

Averaging the seven grades for each plan, Ways and Means heads the class with a 3.14 average; Treasury II is next with a 2.43 average; Kemp-Kasten has a 2.14 average. Bradley-Gephardt has a 1.71 average; and current law has a 1.14 average.

*Treasury II originally proposed changing the child care credit to a deduction, which would have reduced its value for low- and average-income families. This analysis is based on Treasury II as amended to retain the credit in its current form.

Mr. DUNCAN. Mr. Chairman, I reserve the balance of my time.

Mr. RANGEL. It is my understanding, Mr. Chairman, that we have 5½ minutes remaining.

The CHAIRMAN. The gentleman is correct.

Mr. RANGEL. I yield the remaining time to the gentleman from Georgia [Mr. JENKINS] to close debate.

Mr. JENKINS. Mr. Chairman, my colleagues from both sides of the aisle, this is truly an historic moment, because tonight for the first time in some 25 or 30 years, we have the opportunity to truly reform a massive Tax Code.

I want to pay special tribute not only to my chairman, but also to the minority ranking member, from Members on both sides of the aisle who have truly made their mark and contributed to this bill, the committee bill.

It is true that we have a rather large bill; but we have a rather large Tax Code. This bill is large and massive for many reasons. We have touched every section of the Tax Code. We do have transition rules in this particular proposal. So does the Republican substitute.

Transition rules for a hydroelectric project in Mississippi, in the Republican substitute. It probably is well-deserved, but it is a special transition rule. A special transition rule for a printing company in the Republican substitute. It probably ought to be there. They are the same.

All of us have the need for transition rules when companies or individuals find themselves in unique circumstances with a massive Tax Code change.

This committee, Mr. Chairman, and notice that I say committee—not Democratic—this committee bill that we will ultimately vote on is an excellent bill that deserves support from both sides of the aisle. This bill does more than has been done in decades for the individual.

Let me compare for a moment, and I do so without being overly critical, because you have many good provisions in the Republican bill; but I want to point out to you and to my colleagues on the Democratic side, that many of the benefits that are in the Republican substitute unfortunately are light years away, beyond the revenue requirements that we have in the first 5 years.

It is easy, you could have even gone beyond what you did and take the corporate rate down to 10 percent, if you wanted to, make it effective in 2010, or some other year. That would be extremely easy, and you took the easy way out.

Let me say that in the fringe benefit area and in the deductibility of State and local taxes, I have talked to people on both sides of the aisle. I do not come from a high tax State, but my public education is supported by property taxes; and 84 percent of some 15,000 people that responded to a questionnaire to me from my district said that they wanted the full deductibility and did not want to do away with it.

You only permit 70 percent of deductibility. That is not right.

On medical expenses, some of the most terrible expenses in the world, you limit the deductibility to 70 percent. I do not believe that that is right.

On the little group life insurance, where you pick up $9½ billion for your bill, that money—used many times for the family, for burial expenses, much below $50,000, should not be taxable to the employee. It will be taxable under the Republican substitute. I do not believe that that is right.

Even in capital gains, because of the way that you have structured the substitute, it can go as high as 29 percent under the Republican substitute. Why? Because of the way that you phase out the personal exemption, it can and will in some instances go as high as 29 percent. I do not believe that that is conducive to a good tax bill.

No, this bill is not perfect on the Democratic, the committee side, nor is your bill.

I believe that with your contributions from the Republican side, we have made the committee bill a good bill.

I also want to pay tribute to the President, our President, to Jim Baker, the Secretary of the Treasury, for the work that he has done because he indicated to the committee that in 1981 we were excessive on the corporate side, and that we needed to shift some of the burden away from the in-

dividual and onto some of the corporations.

I remind my colleagues tonight that $30 billion is the difference in the two bills; the individuals in the committee bill get that $30 billion.

Some of my colleagues from particular States have problems with oil. I understand your problems with oil and gas, but there are more people that live even in your States that must be listened to.

I urge you to defeat the Republican bill and to support the committee product.

Mr. DUNCAN. Mr. Chairman, I yield such time as he may consume to the gentleman from California [Mr. PACKARD].

Mr. PACKARD. Mr. Chairman, I rise in strong support of the Duncan substitute, and in opposition to the committee bill.

Mr. DUNCAN. Mr. Chairman, I yield such time as he may consume to the gentleman from Nebraska [Mr. DAUB].

Mr. DAUB. Mr. Chairman, I rise in support of the Duncan substitute.

Mr. Chairman, without question the most controversial provision in the tax reform effort was the various proposals to limit the itemized deduction for State and local taxes. This singular issue had more to do with the product of the months of hearings and markup activities in the House Ways and Means Committee, than any other particular issue. Indeed, when all such limits were eliminated from the committee's bill the committee was left with few good choices on many other important capital formation and savings incentive issues.

The itemized deduction for State and local taxes should be limited. Then Congress can make real, rather than cosmetic tax policy changes. The itemized deduction for State and local taxes is a significant source of the erosion of our Federal tax base and creates unacceptable inequities in our tax system. Absent some limitation of the deduction, this current tax reform effort will fail to deliver the real reform which is needed for the long-term viability of our Federal tax system.

The deduction for State and local taxes is a significant contributor to the erosion of our Federal tax base. Deductible State and local taxes have grown from $32 billion in 1970 to $100 billion in 1983. During recent years, State and local taxes have grown overall at a rate of over 8 percent. This fact and the growing number of itemizers in this country guarantees that the existing individual income tax provisions cannot insure a stable revenue base.

The total deficits of all State and local governments combined do not effect the prime rate, but each of us can be assured that our Federal deficit will continue to dominate our economic climate. Suggestions of the problems limitations may pose for State governments pale in comparison to the fundamental Federal fiscal problems currently caused by the erosion of our Federal tax base in the face of excessive spending.

More importantly, however, the itemized deduction for State and local taxes raises fundamental questions of fairness. The deductibility of State and local taxes is largely a tax break for the wealthy. Approximately two-thirds of the benefits from this deduction are provided to taxpayers with taxable incomes of over $50,000. Given the fact that little more than 5 percent of all taxpayers have taxable incomes over this amount, it seems strange to me that anyone concerned with fundamental fairness could support a deduction where two-thirds of the benefits are directed at only 5 percent of the wealthiest American taxpayers.

Additionally, the deductibility of State and local taxes forces the low tax States to subsidize the high tax States. The deduction is a tax expenditure for the benefit of these high tax States and income distribution between similarly situated taxpayers with the exception of only their geographic location. How do I justify this deduction to Nebraskans when only 35 percent of Nebraska taxpayers itemize their deductions and 50 percent of taxpayers in high tax States itemize? How do I suggest that there is anything fair about tax reform that discriminates solely on State borders?

In considering alternatives and amendments, I would hope that the other body would seriously consider some limitation of the itemized deduction for State and local taxes. Such a limitation makes tax policy sense and will provide the revenues necessary to make capital formation and savings incentive changes. Tax reform necessarily involves tradeoffs. We should gladly trade the benefits given the affluent from the State and local tax deduction for some real tax reform directed at fundamental fairness and economic growth.

Mr. DUNCAN. Mr. Chairman, I yield the balance of my time to the gentleman from Michigan [Mr. VANDER JAGT].

Mr. KASICH. Mr. Chairman, I make the point of order that a quorum is not present.

The CHAIRMAN. The Chair will advise the gentleman from Ohio that the Chair cannot entertain that point of order at this time, a quorum having been established during the amendment process.

Does the gentleman want to ask unanimous consent for a quorum call?

Mr. KASICH. Mr. Chairman, I ask unanimous consent for a quorum call.

The CHAIRMAN. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The CHAIRMAN. A quorum call is ordered. Members will record their presence by electronic device.

The call was taken by electronic device and the following Members responded to their names:

The CHAIRMAN. Four hundred sixteen Members have answered to their names, a quorum is present, and the Committee will resume its business.

The gentleman from Michigan [Mr. VANDER JAGT] is recognized for 6½ minutes.

Mr. VANDER JAGT. Mr. Chairman, I rise in strong support of the Republican alternative, and I apologize to my colleagues in the House that I cannot find more adequate words to fully explain its contents because I believe that if I could that the vast majority of this body on both sides would comfortably vote for it, maybe even including the distinguished chairman of the Ways and Means Committee, who has labored so mightily and so well on behalf of the cause of tax reform and rate reductions for average Americans.

Now, that is not going to happen because the best kept secret in America is the contents of the Republican alternative.

Last week the Wall Street Journal earned the applause of my Democratic friends by labeling this product an undistinguished product, and then it listed three changes that were essential to making the committee bill a good bill. And this product does all three of them, which leads me to the inescapable conclusion that the editorialists, like many others, do not really know what this bill does and how it gets there.

President Reagan, in his historic meeting with the Republican conference yesterday, described the kind of bill that he would sign, and essentially he was describing the Republican alternative.

I first began to see a glimmer of how politically speaking this is a Machiavellian masterpiece and substantively speaking it gets us in the Tax Code to where we would all like to go when I had a debate last week with a very good friend and a Democratic colleague on the Ways and Means Committee. And I began to see the first outlines of the theme of next fall's campaign as the committee bill was described as going after those rich corporations that are not paying any taxes and using that revenue to deliver significant tax cuts for the American people.

The only opposition to that apple pie proposal, according to that characterization, were the Republicans who, as usual, were defending big business and rich corporations. Even though I did not agree with that characterization, because that particular audience was predisposed to think that way, I was so happy that I was able to take that debate by the nape of the neck and say, "Let's move it over here to another battleground where the Republican alternative beats you at every step of the way."

Democrats are so proud that 6 million Americans are removed from the rolls. Our alternative removes 6½ million from the rolls.

Democrats are so proud that their bill delivers a 76-percent rate reduction to the working poor. This alternative delivers an 86-percent rate reduction to the working poor.

Whatever you can do, we can do better, and we have done it in this product.

Democrats are so proud that they reduced the individual rate down to 38 percent, and justifiably proud, because rate reduction is the heart and soul of tax reform. But we take the rate down to 35 percent in our alternative.

Democrats are proud that they have a minimum tax, and they should be proud, but their own staff has testified that even with that toughened minimal tax, rich corporations and wealthy individuals will still get away without paying any tax. That is why we have a super minimum tax where nobody gets away.

And Democrats are so proud that with one hand they give a $2,000 personal exemption, but if you itemize State and local taxes with the other hand, they take $500 away for every dependent, and the more kids you have the more they take away.

Our bill puts in the full $2,000 exemption for itemizers and for nonitemizers, and at that point in the debate, my good Democratic friend said, "Hey, wait a minute, hold the phone. That can't be. We give $30 billion more in tax rate reductions to individuals than you do. You can't possibly beat us at every step of the way. It is a mathematical impossibility." And it is a mathematical impossibility if—but only if—you refuse to do what the Democrats refuse to do, and that is make the very, very rich pay their fair share of the tax.

The fact of the matter is that 80 percent of the benefits of State and local tax deductibility goes to the top 20 percent of the taxpayers, and unless you put in some sort of cap, there is no way to deliver fairness and equity throughout the code. And that is why the committee staff produced the figures that show that even when taking into account State and local itemization that the average American family that itemizes is better off under the Republican alternative than under the Democrat until you get to $75,000 a year of taxable income. Is that not astonishing, that the one income group that the Democrats favor better than the Republicans are $75,000 and over? I am telling you, if the word "Republican" were not on this alternative, liberal Democrats would be clamoring to get on board this particular bill.

But the beauty is that because by fairness we can deliver more tax relief with less loss of revenue, we place $30 billion less of a load on the back of an expanding economy, and if you look at ITC, at depreciation, at capital gains, at the corporate rate, at pensions, at spousal IRA's, savings, investment, timber, oil and retiring public and private employees, the Republican alternative solves the problem better and is more pro growth than the committee bill.

The CHAIRMAN. The question is on the amendment in the nature of a substitute offered by the gentleman from Tennessee [Mr. DUNCAN].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. DUNCAN. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 133, noes 294, not voting 7, as follows:

NOT VOTING—7

Dymally	Nelson	Young (MO)
Gray (IL)	Price

□ 2220

Mr. CONTE changed his vote from "aye" to "no."

Mr. RALPH M. HALL and Mr. RITTER changed their votes from "no" to "aye."

So the amendment in the nature of a substitute was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. Under a previous agreement by unanimous consent, the gentleman from Tennessee [Mr. DUNCAN] will be recognized for 3 minutes and the gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 3 minutes.

The Chair now recognizes the gentleman from Tennessee [Mr. DUNCAN] for 3 minutes.

Mr. DUNCAN. Mr. Chairman, I am pleased to allocate the last 3 minutes of my time to the Republican leader, the gentleman from Mississippi [Mr. LOTT].

Mr. LOTT. Mr. Chairman, the snake is out of the hole after all, and it looks like it is going to sprout wings before this night is over.

As we go now to the final votes on recommital and on final passage, I just have to leave a few thoughts with you here tonight. It has been a very confusing and interesting week for me, to say the least, over the past few days, and I feel a little bloodied perhaps, but not broken.

I have tried to listen to the plea of our President, and I have listened to the other side of the Capitol, hoping maybe I would hear something that would make me feel better about the future. But I hear an uncertain trumpet coming from the other body and about the future of this tax bill. So while I tell you, and you all know it, from my actions over the past 5 years and my votes, when the President has called for help, I have almost always been there.

It strikes to the bottom of my heart not to be there this time, but in this case I cannot support the President in this initiative because I feel the Rostenkowski bill is not right for the economy of this country.

□ 2230

Let me list the reasons why not, just going down the items that really led me to the conclusion I could not support the Rostenkowski bill and why I think we should vote no on this bill.

The full $2,000 personal exemption is not in the bill; the spousal IRA is not there; the break points for the middle income are far too low. Some people, believe me, more than you would ever expect, are going to get a tax increase.

This bill, at best, may be tax change. It is not tax reform. And for a lot of Americans, individuals and businesses, they are going to get a tax increase, and I am sure that you are aware of that.

The brackets, they are not 3, they are 4. They are not at 35 percent. We have raised capital gains. The depreciation schedule needs a lot of work done on it. The timber industry in this country would be decimated, steel would be damaged, industrial development bonds would be more difficult, particularly in those areas like my own State, which is a poor State that needs it, and it is going to cost us jobs. I have seen estimates of as much as 1.5 million. I am telling you when you have had your rates reduced some, you are not impressed if you just lost your job.

This bill, Mr. Chairman, is not in the best interests of the country. We should stop it here. We still do not have to kill it tonight. But the thing that I have looked at over the past few days is the argument of simplicity. Do any of you think this is simple, fairness when you get your taxes raised? Is that fair? And if you lose your job, is that fair?

But as I thought about this this morning at 2 a.m., I could not help but for my own self recall something that I have said many times over the past 12 years as I was wrestling with my own conscience on this issue, a quote from Peter Marshall when he was Chaplain of the United States Senate. In one of his last prayers, he said, "Oh, God, give us the strength to stand for something lest we fall for anything."

I think we should stand against this Rostenkowski bill because it is not in the best interest of the economy of this country. I ask you to vote no on this bill.

Mr. ROSTENKOWSKI. Mr. Chairman, much ado has been made about the size of the bill. This is the 1985 code.

This is the 1954 code. We are replacing this with this, and there are 700 pages of transitional rules so that we can be fair to the American people.

But I do not want to talk about the size of the legislation. I think we would all have to agree that when you want to be fair, it really is difficult to be simple, and that is what the Ways and Means Committee tried to do, to be fair in the revising of the code that is known as the 1985 Tax Code.

Let us talk for a minute about where this bill came from. It came from Bradley-Gephardt. It came from Kemp-Kasten. It came from Dutch Reagan, who stood up on the gallery, and it came from the American people.

Why did it come and why are we here this evening discussing it? It is because there is a doubt in the minds of the constituents that we serve. They think that they are being cheated. They are discouraged and frustrated because they feel that those of us who serve in Government are not doing our job.

They cannot understand why somebody does not pay taxes.

You know, you have got to love the American people. They write that check out on April 15, maybe a little grudgingly, but they give us the most voluntary effort that really has been created by man.

And what are we doing to those people? We are faking them out. We are asking others with wealth who can afford an attorney or an accountant to figure out how they can avoid paying the taxes that the American middle-income earner whose taxes are withheld is paid. That is what this whole debate is about. It is getting fairness into the Code.

Let me tell you something. As a Democrat, whenever a Republican offers an opportunity for us to revise the Code to get simplicity and fairness into the Code, this Democrat will take advantage of them every time around the clock.

I do not want to conclude on a sour note. I think the debate has been lively and educational.

I want to compliment the Committee on Ways and Means. My members, Democrats and Republicans, worked together for a long time. I do not think anyone will stand up in the committee and say that it was easy. Arguments and debates were vigorous, sometimes almost feisty enough to think that fists were going to fly; but we have got a document here tonight that we can begin the trail of reform for the American people.

I never said that that document was perfect. There are a lot of things in that bill that I do not like, but as chairman of the committee I made a commitment to be fair. There are people that would love to see me wink at them, knowing that I as chairman could take care of them. That did not happen and I do not think a member of my committee can stand up and say there was anybody that came before our committee that I treated more favorably than anyone else.

Let me just conclude by saying thank you for the cooperation that I have received. It has been a long journey, but I have enjoyed it.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly the Committee rose; and the Speaker having resumed the chair, Mr. NATCHER, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 3838) to reform the internal revenue laws of the United States, pursuant to House Resolution 343, he reported the bill back to the House with sundry amendments adopted by the Committee of the Whole.

The SPEAKER. Under the rule, the following amendments are considered as having been agreed to in the House:

(1) An amendment to strike line 23 on page 840 through line 12 on page 841 and insert in lieu thereof the following:

"(2) REPEAL OF SPECIAL RULE FOR EMPLOYEES' ANNUITIES.—The amendments made by paragraph (1) of subsection (c) shall apply where the annuity starting date is after July 1, 1986," and

(2) An amendment to strike out subtitle C of title XV and the corresponding portion of the table of contents.

Under the rule, the previous question is ordered.

The question is on the amendments adopted in the Committee of the Whole.

The amendments were agreed to.

The SPEAKER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. CRANE

Mr. CRANE. Mr. Speaker, I offer a motion to recommit. I think it is flawed and it should go back to the committee for reformation.

The SPEAKER. The gentleman obviously is opposed to the bill.

Mr. CRANE. Yes, Mr. Speaker.

The SPEAKER. The Clerk will report the motion to recommit.

Mr. CRANE. Mr. Speaker, may I make a unanimous-consent request at this point?

The SPEAKER. The gentleman may state his request.

Mr. CRANE. Mr. Speaker, my unanimous request is that the distinguished Chairman of the Ways and Means Committee would be entitled to discuss this recommittal motion for 2 minutes and then I might have 2 minutes—or 5, would the gentleman prefer 5?

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

Mr. ROSTENKOWSKI. Mr. Speaker, I object.

The SPEAKER. Objection is heard.

The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. CRANE moves to recommit the bill, H.R. 3838, to the Committee on Ways and Means.

The SPEAKER. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER. The question is on the motion to recommit.

The question was taken; and the Speaker announced that the noes appeared to have it.

Mr. CRANE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 171, nays 256, not voting 7, as follows:

CONSIDERATION OF HOUSE RESOLUTION 335

Mr. MICHEL. Mr. Speaker, pursuant to House Resolution 343, I call up the resolution (H. Res. 335) to express the sense of the House of Representatives with respect to the effective date of certain provisions of tax reform, and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 335

Whereas the prospect for significant revision of the Tax Code has been pending for over a year and may continue for the greater part of next year;

Whereas because of the possibility of significant tax changes occurring with an effective date of January 1, 1986, many individuals and businesses have been unable to determine with certainty how to plan their investments in the near future and for the long term;

Whereas such uncertainty over the prospects of tax reform and its effective date may result in an adverse economic impact on the country as a whole;

Whereas it is necessary to minimize the economic impact of any delay or uncertainty which major tax reform may create; and

Whereas some provisions of current tax law will expire in 1986, creating the necessity for their extension in order to prevent an adverse effort on economic growth: Now, therefore, be it

Resolved, That it is the sense of the House of Representatives that the chairman and ranking member of the House Committee on Ways and Means are hereby instructed, in conjunction with the Secretary of the Treasury and the chairman and the ranking member of the Senate Committee on Finance, to make public not later than December 31, 1985, an agreed upon statement which would have the effect of postponing the effective date until January 1987, of those selected items of tax reform the delay of which would reduce the adverse economic effects which might otherwise be caused by the uncertainty as to the date of final enactment which still recognizing the need for some retroactive dates for certain expiring provisions.

The SPEAKER. The gentleman from Illinois [Mr. MICHEL] is recognized for 30 minutes.

Mr. MICHEL. Mr. Speaker, I yield myself such time as I may consume.

PARLIAMENTARY INQUIRIES

Mr. SHAW. Mr. Speaker, could I ask for a parliamentary inquiry?

The SPEAKER. Will the gentleman from Illinois [Mr. MICHEL] yield for a parliamentary inquiry?

Mr. MICHEL. I yield to the gentleman from Florida.

Mr. SHAW. Mr. Speaker, there are some of us on both sides of the aisle who are a little confused at this particular point.

Mr. Speaker, you got up earlier today and told about what a revolutionary type of bill was before the House. Then we found that it passed on a voice vote.

The SPEAKER. The gentleman will state his parliamentary inquiry.

Mr. SHAW. My parliamentary inquiry, Mr. Speaker, is: Did this revolutionary tax bill pass on a voice vote tonight?

The SPEAKER. The Chair would answer in the affirmative. There were no Members on either side that stood to ask for a rollcall.

Does the gentleman want to challenge the Chair? The Chair would say

that he looked with deliberation and there was no Member that was standing there, and your aide was standing down there in the well and looked for a Member. Now do not suggest to the Chair that he did not try exceptionally to be fair and honest.

Mr. WEBER. Mr. Speaker, nobody accused the Chair of that.

Mr. ARCHER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state his parliamentary inquiry.

Mr. ARCHER. Would it not be within the rules and appropriate at this time to move to vacate the proceedings so that we can have a recorded vote?

The SPEAKER. The gentleman needs unanimous consent.

Mr. ARCHER. Mr. Speaker, I make that unanimous-consent request.

Mr. BONIOR of Michigan. Mr. Speaker, I object.

The SPEAKER. Objection is heard.

The Chair resents Members talking to the Speaker of the House in the manner in which they did, when he very deliberately looked down there, and at your own staff people there, and nobody rose.

Mr. WEBER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state his parliamentary inquiry.

Mr. WEBER. I just want to say to the Speaker on behalf of this Member, no one questions the Speaker's fairness in the application of this decision.

The SPEAKER. The Chair appreciates that.

Mr. WALKER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman from Illinois [Mr. MICHEL] has the time.

Mr. MICHEL. Mr. Speaker, I yield to the gentleman from Pennsylvania.

The SPEAKER. The gentleman will state his parliamentary inquiry.

Mr. WALKER. Mr. Speaker, is it not appropriate, though, that the House should be in order at the time that the question is put on final passage?

The SPEAKER. The House was in order at that particular time. The gentleman was in his seat.

Mr. WALKER. Mr. Speaker, I was in the back of the Chamber and I did not even hear the question being put.

The SPEAKER. The Chair would say that with deliberation he looked at the Republican side and was awed that there was not a rollcall requested.

Mr. WALKER. Yes, I was, too, Mr. Speaker.

I thank the Speaker.

The SPEAKER. The Chair recognizes the gentleman from Illinois [Mr. MICHEL].

Mr. MICHEL. Mr. Speaker, now that the House has passed the tax reform bill, it is important that we clarify the issue of effective dates.

When the bill was drafted in committee, I'm sure the expectation was that it would become law yet this year and therefore the provisions taking effect in 1986 would be prospective in nature.

However, that obviously is not going to happen. In fact, it is likely to be late next year before a tax bill is ultimately enacted. Under such circumstances, leaving a bill hanging loose with effective dates that would end up being retroactive in nature cannot help but leave a cloud hanging over our economy.

We do not want businesses and individuals canceling or delaying planned investments because of uncertainty as to whether those investments will be tax deductible. Reduced investment will weaken the economy and cost us jobs.

The American economy is strong and resilient. It can withstand inflation and recession and come bouncing back.

What it cannot withstand is constant anxiety and fear and boubt. And that is exactly what it will be faced with for months and months—if we fail to pass a resolution with respect to the effective dates.

That is why I have introduced a resolution that will do just that.

Mr. BADHAM. Mr. Speaker, point of order.

The SPEAKER. The gentleman from Illinois [Mr. MICHEL] must yield for a point of order.

Mr. BADHAM. Mr. Speaker, the House is not in order, and I perceive that we must listen very, very carefully so that the House might know everything that does transpire.

Mr. MICHEL. Mr. Speaker, the resolution makes it the sense of the House that the chairman and ranking member of the House Committee on Ways and Means, in conjunction with the Secretary of the Treasury and the chairman and the ranking member of the Senate Committee on Finance are to make public, not later than December 31, 1985, a statement which would have the effect of postponing the effective date until January 1987, of selected items of tax reform.

The resolution identifies those selected items as those—and I quote—"the delay of which would reduce the adverse economic effects which might otherwise be caused by the uncertainty as to the date of final enactment."

Now that is the language of a resolution. Let me put it in plain English.

What we are talking about is relieving every worker, every businessman, every investor of the uncertainty that would come if we put the American economy on hold for almost a year while the other body debates tax reform.

What are we talking about when we say provisions that need to be moved to January 1, 1987? Let me give you one big example:

We are talking about ACRS/ITC. The kind of job-producing, industry-building, investment-attracting provisions that can be at the heart of economic progress.

But we also realize that there is a need for retroactive dates for certain expiring provisions, such as research and experimentation credit, targeted jobs credits, and exclusion for employer-provided group legal service. The resolution provides for the recognition of such retroactive dates.

We understand the complexity of the tax bill. We know that there are certain provisions that need to be "date of enactment" such as any change in trusts and real estate provisions.

So my resolution provides for the chairman and ranking members and the Secretary of the Treasury to meet, deliberate and come up with certain dates for these various provisions.

I am reminded of the question from Scripture:

> If the trumpet gives an uncertain sound, who shall prepare himself to the battle?

This resolution makes certain that tax reform will have the ringing clarity of certainty, that it will give American workers and American businessmen a sense of confidence as they do battle for growth and expansion and progress, here at home and in the world market.

I was not on the floor at the time the measure was passed by voice vote. I was in my own office. I would have said that I voted against the bill because it did not meet my goals for reform or simplification. I voted against it to accurately reflect the needs of my constituents and their priorities. They need jobs. Their priority is making enough money to pay taxes. They would be hurt by the committee bill. They will be hurt worse if there isn't some certainty over effective dates. Don't penalize them and millions of others because we couldn't get the job done on tax reform this year.

Those who were part of the process know that passing the tax reform bill was a difficult and at times excruciating process.

That work will come to nothing if we leave the American people uncertain as to when provisions take place.

We owe it to the American people not to leave them dangling in uncertainty and doubt.

I urge passage of this resolution because it gives the tax reform measure we just passed the kind of direction and stability it needs if it is going to capture the support and the confidence of the American people.

Mr. JONES of Oklahoma. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I am happy to yield to my distinguished friend, the gentleman from Oklahoma [Mr. JONES].

Mr. JONES of Oklahoma. Mr. Speaker, for clarification on the gentleman's resolution, as the distinguished gentleman from Illinois is aware, there are a number of provisions of H.R. 3838 which affect tax-exempt bonds issued by State and local governments. The bill makes numerous significant changes in the rules which affect tax-exempt bonds. These bonds are the principal source of funds for State and local government's capital construction projects and economic development programs. Uncertainty created by the threat of retroactive loss of tax exemption would substantially inhibit the sale of tax-exempt bonds thus making this source of capital more costly or even unavailable in some instances.

Given these facts, am I correct in assuming that provisions of H.R. 3838 which affect tax-exempt bonds fall into the category of selected items of tax reform described in the distinguished gentleman's resolution the delay of which until January 1987 would reduce the adverse economic effects caused by uncertainty over the date of final enactment of H.R. 3838?

□ 2310

Mr. MICHEL. I recognize what the gentleman has said. The distinguished gentleman from Oklahoma is correct. I regard the provisions of H.R. 3838, which affect tax-exempt bonds as an item of tax reform where uncertainty over effective dates would have adverse economic effects unless such dates are postponed, and I know that the chairman and ranking member of the Committee on Ways and Means will consider postponing the effective dates of these provisions as well as other items.

Mr. JONES of Oklahoma. I thank the gentleman.

Mr. PICKLE. Will the gentleman yield?

Mr. MICHEL. I yield to the gentleman.

Mr. PICKLE. I am glad the gentleman has introduced his resolution, and I support the resolution.

Mr. Speaker, I do want to add my colloquy, though, to the words just exchanged between the gentleman from Oklahoma and the minority leader.

With respect to the tax-exempt bonds, we do not want to put, we need to extend these dates so that we can remove some uncertainty, but neither do we want to in the area of tax-exempt bonds have an open invitation for cities or counties throughout the country to rush out and issue more and more of these bonds, because if they do, the cap which we have placed in order is going to be breached, but sooner than would.

We ought to be careful that we are not giving carte blanche authority to just extended these bonds indiscriminately.

Mr. MICHEL. I certainly agree with the comments of the gentleman, and that is one of the reasons, obviously, for my having introduced the resolution.

I would be happy to yield to the gentleman from Illinois.

Mr. ROSTENKOWSKI. If the gentleman will yield, I think that at this time it is very difficult for any one of us to make any commitment on any specifics; but as I understand what the resolution calls for is that the Secretary, the chairman of the Finance Committee and ranking members of the Committee on Ways and Means will sit down and discuss; but to be specific about any bonds at this point in time I think is unfair to the American people and to the bond market.

If the gentleman will yield, I would like to make a statement.

Mr. MICHEL. I am reminded of the distinguished gentleman's predecessor managing a bill a few years back, and the same question arose. I recall also, I think there was a vote in the other body of 93 to 3, thinking that would allay those misapprehensions out there on the part of the bond market, and it went crazy. I mean, people did not know where they were, and that is the kind of thing I certainly do not want to see have happen, and that is the reason for the introduction of the resolution.

As the gentleman says, we are not defining it clearly here; what I am saying is, we have got to have confidence in the chairman, the ranking member here, same over in the other body, with the Secretary of the Treasury, and because of this being December 17, by the end of the month, coming to some kind of general consensus whereby we can make a declaration to the American people out there.

Mr. ROSTENKOWSKI. Will the gentleman yield to me to make a statement?

Mr. MICHEL. Mr. Speaker, I reserve the balance of my time. The gentleman has 30 minutes on his own time.

The SPEAKER. Does the gentleman from Illinois [Mr. ROSTENKOWSKI] desire his time?

Mr. ROSTENKOWSKI. Yes, I do, Mr. Speaker.

The SPEAKER. The gentleman from Illinois [Mr. ROSTENKOWSKI] is recognized for 30 minutes.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the rule under which we have considered H.R. 3838 allows the House of Representatives now to consider House Resolution 335 expressing the sense of the House regarding the effective dates of certain provisions contained within this tax reform legislation.

House Resolution 335 states that it is the sense of the House of Representatives that Congressman DUNCAN and I, along with the Secretary of the Treasury and the chairman of and the ranking member of the Senate Committee on Finance, make public by December 31, 1985, a statement postponing the effective date until January 1987, of selected items of tax reform. The items selected for delay are unspecified but would be selected to reduce adverse economic effects that might otherwise be caused by uncertainty regarding the date of final enactment of this major legislation. The statement would continue to recognize the need for some retroactive dates, particularly for expiring provisions.

Mr. Speaker, I support this resolution. When considering such major revisions as those contained within H.R. 3838, the House and Senate tax-writing committees in the past have issued statements regarding proposed effective dates. In fact, two statements were issued earlier this year regarding the effective date of certain tax reform changes.

Pending legislation should not cause unwarranted economic disruptions. However, in determining which effective dates are appropriate for postponement, those involved in the negotiations must consider the revenue impact of any chance as well as the effect upon tax compliance.

The statement also must consider any adverse effect of a delay in effective dates for individual provisions. For example, a delay for some provisions could result in a rush to market for transactions that are purely tax motivated. This adverse effect must be weighed against the need for certainty provided by a deferred effective date.

I will work closely with Mr. DUNCAN, the Treasury Secretary, and the Senate Finance Committee leaders to develop an appropriate statement regarding these important effective dates.

Mr. Speaker, I support this resolution.

Mr. MICHEL. Mr. Speaker, I yield myself such time as I may consume, and I yield to my friend, the gentleman from Arizona [Mr. MCCAIN].

Mr. MCCAIN. I would like to have the intent of this resolution clarified as it applies to section 903 of H.R. 3838, relating to the recognition of gain on mortgages collateralizing homeowner or builder bonds. This section would change the manner in which the gain on mortgages collateralizing these bonds would be recognized, depending upon the dates on which the pledges of the mortgages are made. Subsection (c)(3) of section 903 provides for a 3-year phase-in, beginning on January 1, 1986, of certain

secured indebtedness to which this section would apply.

These bonds are issued on an ongoing basis. There would therefore be uncertainty among those issuing the bonds if they did not have an assurance of the effective date of this new provision. I would therefore ask the minority leader if it is his intention that the discussion noted in this resolution would apply to section 903.

Mr. MICHEL. I would advise the gentleman from Arizona that I share his concern over the effective date of section 903. I can only reiterate what has already been said with respect to my resolution; namely, we are directing the principles involved in tax reform to make public by the end of this year a statement outlining the effective dates on the provisions of the tax bill.

I do agree, however, with the gentleman from Arizona [Mr. MCCAIN] that this provision, along with many others in this bill, should be given every consideration with respect to postponing the effective date to January 1987.

I would be happy to yield to my friend from Maine [Mr. MCKERNAN].

Mr. MCKERNAN. I thank the gentleman for yielding.

Mr. Speaker, I would just like to follow up on this, because many of us who, had we had the opportunity, would have voted for final passage of this bill, would have done so because of this particular resolution which we feel will take care of the uncertainty in the marketplace, as we try to finally come to a consensus over the next year on tax reform.

We have one industry in Maine that is particularly important; the timber industry. I wonder if the changes in that particular industry are the types of changes that we are talking about in this particular resolution.

Mr. MICHEL. Well, there are varying changes throughout, for whatever industry, and they are at different times in any given year, expiration dates and all the rest.

What I am trying to get here, Mr. Speaker, is a consensus on all those appropriate dates; and that is what we have chosen; the chairman, the ranking member, and the principles here, to work that out together so that everybody knows exactly where we are.

□ 2320

Mr. MCKERNAN. And I take it this would also apply to situations where there have been investments that have been started that perhaps the historical tax credit might apply to but with the current 1986 date would adversely affect those projects and we would be pushing that off as well to 1987?

Mr. MICHEL. The gentleman is absolutely correct.

Mr. Speaker, I yield to my friend from California [Mr. THOMAS].

Mr. THOMAS of California. I thank the gentleman for yielding.

It is my understanding that the purpose of this nonbinding resolution is to minimize the adverse economic effects that might otherwise be the case in terms of any particular dates that are in the committee bill that has just been passed by voice vote. I would ask the gentleman from Illinois that if there are certain dates in the bill which would add to the deficit if they are not changed, does that fall under the adverse economic effects as defined by this resolution?

Mr. MICHEL. Well, I would suspect it would.

Mr. THOMAS of California. In the bill just passed the reduced rates are not scheduled to go into effect until January 1, 1986. The individual standard deduction change is not scheduled to go into effect until January 1987. Is it the assumption of the gentleman from Illinois that those dates will be pushed back to the middle of 1987 and to January 1, 1988, because if we do not do otherwise there will be, in fact, an increase in the deficit?

Mr. MICHEL. As I understand what the gentleman is saying, that, of course, is going to be one of those decisions that will have to be determined by the principals, and I think there are no more appropriate ones than those who have to deal with this subject.

Mr. THOMAS of California. So in terms of the standard deduction, it is entirely possible that to make sure there is no deficit because of the carefully picked dates in the bill, that it is possible that the standard deduction would not go into effect until January 1, 1988.

Mr. MICHEL. That is a possibility.

Mr. THOMAS of California. I thank the gentleman for yielding.

Mr. MICHEL. Mr. Speaker, might I ask how much time remains for this gentleman from Illinois?

The SPEAKER. The gentleman from Illinois [Mr. MICHEL] has 12 minutes remaining.

Mr. MICHEL. And the gentleman from Illinois?

Mr. ROSTENKOWSKI. Mr. Speaker, I yield back the balance of my time.

Mr. MICHEL. Mr. Speaker, I yield such time as he may consume to the gentleman from Nebraska in order to make his point.

Mr. DAUB. Mr. Speaker, I am sorry, but I am not going to be able to speak very loudly, and I would like to be heard.

I do wish, Mr. Speaker, that every Member of the House could read this because it is a resolution and it is designed to express the sense of the House with respect to certain effective dates in the bill just passed. Now since the finality of what we did tonight may have been somewhat diluted by the voice vote on final passage of the bill, the gentleman from Illinois has a resolution that is extremely important to the way in which every Member of this House will take what we did here tonight home to explain to our constituents. I would like us to remember the earlier importance attached by the gentleman from Illinois [Mr. ROSTENKOWSKI], and the chairman of the Finance Committee in the other body, and the Secretary of the Treasury with respect to a year ago making a similar announcement with respect to effective dates. It seems to me that that precedent makes in order the favorable consideration of this resolution at this time because it is possible that there could be some delay in the other body in their consideration of this matter.

So I would think that it is most genuinely in order that we act in a bipartisan way and pass this resolution.

The SPEAKER. The gentleman from Illinois [Mr. MICHEL] has 10 minutes remaining.

Mr. MICHEL. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. I thank the minority leader for yielding.

Will the gentleman tell me what force and effect this resolution has? It directs four individuals to make decisions——

Mr. MICHEL. Five.

Mr. FRENZEL. Five individuals to make decisions for the rest of us, and when they make that decision then all of the world out there, the people who are going to issue bonds, build factories, or do whatever else they are going to do are going to be fully assured that these four or five wonderful people have been exactly right in their prediction of the dates, or does it mean the world is still going to be uncertain and just have some modest hopes that it will come out the way the gentleman suggests?

Mr. MICHEL. Well, it is quite obvious that the five gentlemen that we are talking about here, the two members of the Committee on Ways and Means, and the Senate Finance Committee, and the Secretary of the Treasury, on their own, cannot legislate on their own but I think as significant individuals as they are can at least give some expression as to where we are and what the prospects are for a really bona fide effective date, assuming, for example, that the bill being passed here now could not possibly be passed by the other body, from all indications, until next May or June. There has to be some kind of expression made by these individuals, it seems to me, to give a measure of confidence to those out there who are withholding investing, or planning, or expanding, or whatever, and particu-

larly in the bond market where we have so many things in a state of disarray until some declaration is made by these five individuals.

Mr. FRENZEL. If the gentleman would yield further.

Mr. MICHEL. I yield to the gentleman.

Mr. FRENZEL. I think the gentleman's resolution is a good one, but it does seem to me that it is trying to make a swan out of a very ugly duckling. And the resolution really has the full force and effect of a cloakroom rumor. I would hope it would do more for us, but it certainly reveals some of the clay underpinning of the bill just passed.

I thank the gentleman.

Mr. MICHEL. Well, I would simply say too that, frankly, it does not have the full force and effect of law other than to bring those five parties together and force some kind of declaration. In my judgment, that will be helpful.

Mr. Speaker, unless there are further requests for time, I move the previous question on the resolution.

The SPEAKER. Pursuant to the rule, the previous question is ordered on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. EDWARDS of Oklahoma. Mr. Speaker, I ask unanimous consent that the record show that had I been able to vote on the tax bill I would have voted "no."

PERSONAL EXPLANATION

Mr. RUDD. Mr. Speaker, I wish to have the record show that had I been able to vote on the tax bill I would have voted "no."

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Marks, one of his secretaries.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. When the House adjourns tonight, the House will adjourn to meet at 10 o'clock tomorrow morning.

TEXTILE AND APPAREL TRADE ENFORCEMENT ACT OF 1985—VETO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 99-137)

The SPEAKER laid before the House the following veto message from the President of the United States:

To the House of Representatives:

I am returning herewith without my approval H.R. 1562. It is my firm conviction that the economic and human costs of such a bill run far too high—costs in foreign retaliation against U.S. exports, loss of American jobs, losses to American businesses, and damage to the world trading system upon which our prosperity depends.

At the same time, I am well aware of the difficulties of the apparel, textile, copper, and shoe industries, and deeply sympathetic about the job layoffs and plant closings that have affected many workers in these industries.

As I stated in my trade speech in September, I will not stand by and watch American businesses fail because of unfair trading practices abroad. I will not stand by and watch American workers lose their jobs because other nations do not play by the rules.

I am directing Secretary of the Treasury Baker, as Chairman Pro Tempore of the Economic Policy Council, to investigate the import levels of textiles and apparel to determine if these imports have exceeded those limits agreed upon in international negotiations. I have directed that he report back to me within 60 days and recommend changes in existing administrative and enforcement procedures, if necessary, so that corrective action is taken.

Also, I am directing the Office of the United States Trade Representative to most aggressively renegotiate the Multi-Fiber Arrangement (MFA) on terms no less favorable than present. Our trading partners must be put on notice that we will not allow unfair trading practices to continue. I am further directing Ambassador Yeutter to closely consult with the U.S. textile and apparel industry to ensure that their views will be fully represented during the negotiations.

Finally, I have directed Secretary of Labor Brock to work with the Congress to provide an additional $100 million increase in funds appropriated to help retrain and relocate displaced workers under the Job Training Partnership Act. The Job Training Partnership Act is a more effective way than Trade Adjustment Assistance for the Secretary of Labor to target those American workers and geographic areas most affected. This is the way we can best help dislocated workers—and without pitting one American worker against another.

Free and fair trade policies have helped create nearly 9 million new jobs in the last 3 years and given us the highest rate of employment in our Nation's history. Still, for some workers in troubled industries, these are difficult times. The personal distress of those who lose their jobs is very real. None of us wants to see American workers lose their jobs or American businesses suffer. I pledge to you to do everything possible to combat unfair trade practices. But in so doing we must take wise and positive steps to redress wrongs. To do otherwise would be counterproductive.

Unfortunately, H.R. 1562 would invite immediate retaliation against our exports resulting in a loss of American jobs in other areas. Because this bill is so sweeping in its provisions, we could expect that retaliation to be extensive. The United States exported tens of billions of dollars worth of goods to the countries which would be most affected by this measure, including approximately a third of our farm exports. Workers in agriculture, aerospace, high-tech electronics, chemicals, and pharmaceuticals would be the first to feel the retaliatory backlash, but the damaging effects would soon be felt by every American in the form of lost jobs, higher prices, and shrinking economic growth.

We are pursuing an aggressive trade policy, based on the knowledge that American know-how is still number one and that American industry thrives on fair competition. Where U.S. industries are hurt by unfair practices, we will continue to take vigorous actions. Where foreign trade barriers lock out U.S. exports, we will do everything in our power to knock those barriers down. Our philosophy will always be to increase trade, increase economic growth, and increase jobs. We want to open markets abroad, not close them at home. In a fair and open world market, we know that America can out-produce and out-compete anybody.

RONALD REAGAN.

THE WHITE HOUSE, *December 17, 1985.*

□ 2335

The SPEAKER. The objections of the President will be spread at large upon the Journal, and the message and bill will be printed as a House document.

Mr. JENKINS. Mr. Speaker, I ask unanimous consent that further consideration of the veto message of the President on the bill, H.R. 1562, be postponed until August 6, 1986.

The SPEAKER. Is there objection to the request of the gentleman from Georgia?

Mr. FRENZEL. Mr. Speaker, reserving the right to object, I do so in order that the gentleman from Georgia [Mr. JENKINS] can explain the nature of this request.

I yield to the distinguished gentleman from Georgia.

Mr. JENKINS. Mr. Speaker, the President in his message, the veto message, has delineated certain action that the administration intends to take in the coming months. This will

give the House, as well as the administration, ample opportunity to see if the matter can be addressed without taking up the veto message until August 6.

Mr. FRENZEL. Mr. Speaker, further reserving the right to object, I yield to the distinguished gentleman from South Carolina [Mr. CAMPBELL].

Mr. CAMPBELL. I thank the gentleman for yielding.

Mr. Speaker, as the gentleman from Georgia has stated, the President has delineated certain action. The fact is that it is a way to deal with the problems without the confrontation of the veto, and we feel that the White House is trying to deal in good faith and we would like to try to give them that opportunity.

Mr. FRENZEL. Mr. Speaker, further reserving the right to object, it is obvious that the White House and those people representing textile districts are trying to work out an accommodation which will avoid unnecessary confrontation. Those of us who support the President's veto believe that this is probably in the best interest of the country and all of the institutions.

Mr. Speaker, I therefore withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Georgia?

There was no objection.

AUTHORIZING THE SPEAKER TO DECLARE RECESSES ON LEGISLATIVE DAY OF WEDNESDAY, DECEMBER 18, 1985

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that it may be in order for the Speaker to declare recesses at any time on the legislative day of Wednesday, December 18, 1985, subject to the call of the Chair.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

Mr. FRENZEL. Mr. Speaker, reserving the right to object, could the gentleman tell us what kind of notice the Members are going to have, particularly when we are confronted with rather abrupt presentations of conference reports?

Mr. WRIGHT. If the gentleman will yield, we will give as much notice as we possibly can. That has been our practice. I think the gentleman would know that we have tried to give as much notice as is possible.

We do not know when the conferences are going to be ready to report. We do not have much business left to transact; therefore, it is meaningless to keep Members in session. We usually give 15 minutes notice.

Mr. FRENZEL. If the gentleman will assure us that we will have no less than 15 minutes, I think many of us would feel relieved.

Mr. WRIGHT. I think the gentleman can know that there would be at least 15 minutes notice given prior to resumption of the House, when the House is in recess. We ring bells.

Mr. FRENZEL. I thank the gentleman, and I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON TOMORROW

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on tomorrow.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

GENERAL LEAVE

Mr. GALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks, and to include extraneous material, on the subject of House Resolution 343, the resolution providing for the consideration of the bill, H.R. 3838, the Tax Reform Act of 1985.

The SPEAKER. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

FREE FIVE MARYLAND RABBIS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Maryland [Mr. BARNES], is recognized for 5 minutes.

Mr. BARNES. Mr. Speaker, last Friday five Maryland rabbis went to prison for conducting a peaceful vigil in front of the Soviet Embassy. They are serving a 15-day prison sentence at the Federal Correctional Institute at Petersburg, VA. The rabbis were protesting the harsh treatment of six Soviet Jewish prisoners of conscience.

I have asked the President to immediately pardon these five rabbis. And today I am introducing a resolution to that effect.

These rabbis were sent to prison before they had the chance to appeal their case or settle their affairs. The unusually harsh sentence and its excessively swift execution are matters of concern, particularly in the middle of this religious holiday season and in light of our Government's refusal to prosecute demonstrators in front of the South African Embassy.

In solidarity with jailed Soviet Prisoners of Conscience, the rabbis rejected probation. In essence, these five Maryland rabbis are, like their Soviet friends, "prisoners of conscience." It offends the moral conscience that those who protest harsh Soviet treatment would, themselves, be serving 15 days in a Federal penitentiary. This is an excessive punishment by our legal system, which, unlike the Soviet system, respects the importance of freedom of religion and conscience.

A Presidential pardon would leave the Soviets no justification for equating our actions with their abuses, but would instead be a real-life example of what true justice and compassion in this holiday season mean.

There are over 3 million Jews in the Soviet Union. They understand what it is that makes our two countries so fundamentally different. The President's signature can send these rabbis back to their families, their congregations, and their religious duties. I do not lightly ask this pardon of the President, but I believe it is the right course, the just course, in this case.

The text of my resolution follows:

H. RES. —

Resolution expressing the sense of the House of Representatives that the President should pardon the five rabbis who were sentenced to prison on December 12, 1985, for peacefully demonstrating at the Embassy of the Soviet Union on behalf of persecuted Jewish cultural activists and teachers of Hebrew

Whereas, on May 1, 1985, 25 religious leaders peacefully demonstrated at the Embassy of the Soviet Union in Washington, D.C., in order to protest the violation by the Government of the Soviet Union of the human rights of the people of the Soviet Union, particularly the violation of the human rights of Jewish cultural activists and teachers of Hebrew;

Whereas the Government of the United States chose to proscute most of the 25 religious leaders for such demonstrating, and not to prosecute demonstrators at the Embassy of the Republic of South Africa;

Whereas five of the religious leaders—Rabbi Leonard Cahan, Rabbi David Oler, Rabbi Bruce Kahn, Rabbi Mark Levine, and Rabbi H. Steven Bayar—were sentenced to 15 days in Federal prison;

Whereas the five rabbis felt a moral imperative to express in a meaningful way their solidarity with Jewish Prisoners of Conscience in the Soviet Union;

Whereas the sentences imposed on the five rabbis forced the five rabbis to spend the Hanukkah holidays in Federal prison;

Whereas in the Soviet Union there has been a sharp increase in officially sanctioned anti-Semitic campaigns directed at Soviet Jewish refuseniks, teachers of Hebrew, and cultural activists;

Whereas the United States has consistently opposed the serious problem of human rights violations by the Government of the Soviet Union against the people of the Soviet Union, particularly with respect to the violation of the right to exercise religious freedom; and

Whereas the House of Representatives is opposed to the harassment and arrests of Jewish refuseniks, teachers of Hebrew, and cultural activists: Now, therefore, be it

Resolved, That it is the sense of the House of Representatives that the President should pardon Rabbi Leonard Cahan, Rabbi David Oler, Rabbi Bruce Kahn, Rabbi Mark Levine, and Rabbi H. Steven Bayar.

RETROACTIVITY IS UNFAIR

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. DOWNEY] is recognized for 5 minutes.

Mr. DOWNEY of New York. Mr. Speaker, in the past, whenever Congress has enacted limitations on the deductibility of investment interest, they were applied in a prospective fashion only. I regret to say that in the bill before us today, that trend has been broken—extremely unwisely, in my opinion.

In the Tax Reform Act of 1976, to cite a primary example, new rules were applicable to taxable years beginning after December 31, 1975. However, prior law continued to apply to interest on indebtedness incurred before September 11, 1975—the date of committee action—or incurred after that date under a binding written contract in effect then. The point, of course, was that the effective date of the new limitations was strictly prospective.

The same decision was made in 1969, a year which also saw the passage of legislation titled, the Tax Reform Act. New interest limitations in that bill did not apply to investment interest if indebtedness was incurred before December 17, 1969—the date of conference committee action—or after that date if there was a binding written contract in effect on that date.

Mr. Speaker, I regret that today's Tax Reform Act does not reflect the same wisdom. New limitations on the deductibility of investment interest apply for the first time to existing debt, all of which was incurred by taxpayers whose investment decisions were predicated on the fact that interest would be deductible as usual. My objection to H.R. 3838 is that no taxpayer, making investment decisions several years ago, could have guessed that it would reach back to limit those transactions. Doing so is unfair. In fact, it violates the spirit of public assurances made earlier in the year, and Ways and Means tradition.

This unfortunate provision in no way affects my decision to support the hard-fought tax reform in the Ways and Means Committee bill, but in this one area, I believe our bill can be improved upon and I sincerely hope the other body sees it that way as well.

TRIBUTE TO ABRAHAM SPIEGEL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kentucky [Mr. HUBBARD] is recognized for 5 minutes.

Mr. HUBBARD. Mr. Speaker, I rise today to pay tribute to Mr. Abraham Spiegel, a man whose business acumen and pursuit of excellence have placed him and his association at the pinnacle of the savings and loan industry.

Abe Spiegel is chairman of the board of Columbia Savings & Loan Association of Beverly Hills, CA, and he is a man upon whom we can look as proof that the United States is the land of opportunity and free enterprise.

Born in Czechoslovakia, he was a survivor of two World War II Nazi prison camps, Auschwitz and Buchenwald. In 1948, he left a war-ravaged Europe to settle in the United States and made a new life for himself and his family.

During the 1950's and 1960's, he engaged in real estate development and construction and was involved in the building of some 10,000 homes in southern California. But it was in the late 1950's that Abe Spiegel developed an interest in the savings and loan industry.

His first involvement in the thrift industry occurred in 1958 when he took an equity position in a small savings and loan, which was eventually sold and merged into a life insurance company's savings and loan operations.

In 1965, Abe Spiegel bought a small, one-office association based in Long Beach, CA. The association, Aetna Savings & Loan, thrived under his ownership and leadership and was sold in 1971 to the Jim Walter organization.

In 1974, he immersed himself in the industry for the third time by acquiring more than 35 percent of a Beverly Hills thrift then known as Eastland Savings & Loan. By acquiring a majority interest, he was able to become chairman, president, and chief executive officer. Two years later, he changed the association's name to Columbia. Also in 1976 and to his pleasure, his son Tom Spiegel joined Columbia. The following year saw Tom Spiegel elected president and chief executive officer, while Abe Spiegel continued as chairman of the board.

The decade of the 1980's has thus far not been a good one for the financial industries, particularly the savings and loan industry. The industry has undoubtedly been the victim of the worst period it has ever known. Yet through the wisdom, leadership, and commitment of Abe Spiegel and his son Tom, Columbia has achieved great progress and has indeed become one of our Nation's most successful savings institutions with $7 billion in assets.

Perhaps the greatest tribute to Abraham Spiegel lies in the recognition that his business fortitude and willingness toward innovation have elevated Columbia Savings & Loan Association to a level of success in its industry which is surpassed by none during a time when many, if not most, thrifts have struggled simply to survive.

Abe Spiegel is a philanthropist, mainly in the field of education. Abe Spiegel has been recognized by several colleges and universities, including being awarded an honorary doctorate degree.

My wife Carol and I admire and are very fond of this outstanding 79-year-old resident of Beverly Hills, CA.

Carol and I wish for our friend Abraham Spiegel, his lovely wife Edita and his family, God's richest blessings now at this holiday season and during the years ahead.

NATIONAL SEED PROTECTION ACT OF 1985

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon [Mr. WEAVER] is recognized for 5 minutes.

Mr. WEAVER. Mr. Speaker, I am introducing, today, the National Seed Protection Act of 1985. This legislation will ensure that our Nation's most precious possession—our seed—are adequately protected.

Thomas Jefferson stated in 1790, "The greatest service which can be rendered any country, is to add a useful plant to its culture." With the passage of this act, I hope to guarantee that the hundreds of thousands of plant varieties on the Earth today are preserved for all future generations.

Passage of this act will protect our Nation from potentially catastrophic loss of food and fiber production resulting in widespread hunger. Historically, in the potato famines of the 1830's and the corn blight of 1970, mankind was faced with disasters that caused massive economic hardship. These disasters could have been averted had we been prepared.

Mr. Speaker, study after study indicates that the present national germplasm system is woefully inadequate to meet future needs. My bill requires the Secretary of Agriculture to construct at least three additional storage facilities geographically dispersed including at least one tropical center. These facilities must be built to ensure safe storage of our germplasm collections in the event of natural or man-made disasters.

My bill provides for the establishment of a National Animal Germplasm System to complement the Plant Germplasm System. The protection of animal germplasm has been overlooked by the Department of Agriculture. The Nation is extremely vulnerable to disruptions in milk production. Ninety-five percent of all milk produced in the United States is from a single breed, the Holstein. The emergence of a novel disease could endanger the entire milk industry.

The Secretary is instructed to report to Congress the status of existing facilities and required to address any shortcomings he discovers.

We must act while there is still time to protect and preserve for all future generations the seeds and animals essential to the production of our Nation's food and fiber. We must provide future scientists with the raw material necessary to unlock the mysteries of diseases fatal to human survival. We must protect our natural resources so future industries can produce more lasting and durable goods. Studies indicate up to 95 percent of all seeds currently stored have not been adequately evaluated. Thousands are being lost due to poor facilities and lack of trained personnel.

We must act today to ensure against an economic holocaust brought about by the extraordinarily narrow genetic base of the current U.S. agricultural system.

As we prepare to end this first session of the Ninety-ninth Congress, I urge my colleagues to join with me in this effort. There is no greater service we can render our Nation than the preservation of our seeds and animals.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. LELAND] is recognized for 5 minutes.

Mr. LELAND. Mr. Speaker, during consideration of H.R. 3363, providing for the private relief of Hamilton Jordan, I was unavoidably detained away from the Hill. Had I been present, I would have voted "yea" and ask the record to reflect this fact.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. NELSON] is recognized for 5 minutes.

Mr. NELSON of Florida. Mr. Speaker, due to official business, I was unable to be present and voting for rollcall votes on December 12 and December 16, 1985. Had I been present, I would have voted "aye" on roll No. 455, motion to approve the Journal; "aye" on roll No. 457, adopting House Resolution 328, providing for the consideration of House Joint Resolution 192, National Day of Remembrance of Man's Inhumanity to Man; and, "aye" on roll No. 460, motion to approve the Journal.

THE TAX BILL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana [Mr. BURTON] is recognized for 60 minutes.

Mr. BURTON of Indiana. Mr. Speaker, I will not keep those at the front desk here for an hour. It will be a very brief statement I want to make.

I received a lot of mail about the tax bill—I know a lot of my colleagues did, as well—from individual citizens, from businessmen throughout my district. Thousands, probably tens of thousands of people, wrote Members of Congress about this very controversial bill.

I had made a decision to vote against this piece of legislation tonight. I think it is disgraceful that the American people were denied tonight to know how their Representatives stood on the most far-reaching tax bill that has reached the floor of this House in probably our lifetime.

□ 2350

I personally feel that it was a fast gavel from the Chair; maybe I am in error, but it seemed to me that it was very rapid. I think that we on the Republican side were in error because we did not have somebody sitting at this table; we were asleep at the switch. Nevertheless, the American people were denied their right tonight to know how their Representatives felt about the most important tax measure that we are going to face probably in our lifetime.

I personally think it is going to have a very adverse impact on business, I think it will precipitate a recession, and it is going to create a lot of uncertainty in the months to come on the part of American business that provides the jobs that keeps the free enterprise system running in this country. I just want to state my personal concern that this body, the greatest deliberative body in the world, would fail to give the American people a recorded vote on an issue of this magnitude.

Mr. Speaker, I yield to the gentleman from Missouri [Mr. EMERSON].

Mr. EMERSON. I thank the gentleman.

Mr. Speaker, I would like to associate myself with the remarks of the gentleman from Indiana and to say that if I had been given an opportunity, I would have voted against this bill.

I think that for an issue of this magnitude, to let it fly on a voice vote, and there was obviously some error involved here, that Members cannot be accommodated by being on the record in an issue of this magnitude speaks very well, very well to the concern that Americans and many Members of Congress have for the need of institutional reform here. An issue like this should not pass on a voice vote. It is a travesty and a tragedy for the American people that they cannot know how their elected Representatives stand on an issue of this magnitude.

Mr. FRENZEL. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman.

Mr. FRENZEL. I thank the gentleman for yielding.

Mr. Speaker, I would say I do not think the problem lay at the podium. I think the problem lay in the Chamber. It was a terribly unruly House tonight; the House was not order. I was in the back of the Chamber trying to get forward to be recognized to call for a vote. I could not come down the aisle. The aisle was jammed with Members; I could not make any progress, and the vote passed without a vote being called.

I think that is a terrible thing. I think the gentleman is right. I think all the Members wanted to be recorded. I would have hoped that the Speaker would have exercised extraordinary, heroic procedures to see that a vote might he called for. That was not the case. But I think the problem is that we are not maintaining any kind of order in this House and running this businesslike House, particularly when we operate in the evening. I have got to believe that responsibility lies with the Speaker, as well as looking out for the interests of all the Members when they want to be recorded. I doubt it is any secret that I would have voted "no" as well. I think the gentleman is dead right, and I thank him for taking this special order.

Mr. EMERSON. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman.

Mr. EMERSON. To make a point of disagreement with the gentleman from Minnesota who said that all Members would have liked to have been recorded. It should be noted that an attempt was made to get the vote reconsidered and that that would have required unanimous consent, and that there was objection on the other side to the unanimous-consent request.

Mr. HUBBARD. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman.

Mr. HUBBARD. I thank the gentleman for yielding.

Mr. Speaker, as a Member from Kentucky who voted "no" on the rule of the tax bill, a Member who voted "yes" to recommit, and as a Member who would have voted "no" on final passage, I must say in all fairness, and I think those who watched the proceedings tonight know that the House Speaker acted in all fairness.

The Speaker of the House announced that "All in favor will say 'aye,'" there were some "ayes;" he then said "All of those against will say 'no;'" there were some "noes." He said, "The 'ayes' have it." He rapped the gavel. He looked for a few seconds, toward the Republican side. There was silence from the Republican side; there was silence from me. I was thinking about it in the back of the Chamber; that is, asking for a rollcall vote, but I did not. When my friend from Minnesota who mentioned that the aisles were jammed, I know he is referring to the aisles on his side of the aisle, which is understandable. There was a lot of commotion; there was a lot of noise. There was a lot of moving around. But again, as one who was opposed to the bill and who would have voted "no," I am among those who sat here and watched the Speaker act with all fairness in declaring that the bill had passed.

To my surprise, no one, including myself, rose to ask for a rollcall vote.

Mrs. MARTIN of Illinois. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentlewoman.

Mrs. MARTIN of Illinois. I think perhaps we will have blame enough to

go around. For the desire, whether one was for the bill and would wish to be recorded or opposed. I happen to oppose the bill. Perhaps even in a greater way than I did before, and I think the gentleman from Minnesota's point is well taken. That after a certain hour of the evening, and granted, there are times that will have to be, it is imperative that there be, near the end of votes, and we all get restless, a greater, I will not say serenity, but quiet in the Chamber.

Four hundred and thirty-four people could have asked for that vote, excluding the Speaker himself. I was one of those 434, and I did not. Like everyone else, I thought it would be someone else. I will take additional blame because as part of the group, we should have been sure there was someone else.

For those Members today and tomorrow who oppose the bill, I hope there will be just such a special time so they can assure their constituents, either of their support or of their feeling that it is a destructive bill and warranted a "no" vote.

Mr. EDWARDS of Oklahoma. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman.

Mr. EDWARDS of Oklahoma. I thank the gentleman for yielding.

Mr. Speaker, I think one of the previous speakers made an important point and that is that it was not a problem with the Speaker; I think the Speaker was trying to be fair. The problem is with the system.

I am going to introduce a House resolution to make a change in the rules of the House to provide that all votes on final passage on anything other than a bill being considered under suspension must be by recorded vote. I would hope that some of my colleagues would join me in supporting such a resolution.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman.

Mr. WALKER. I thank the gentleman for yielding.

Mr. Speaker, I am not unfamiliar with the process of getting votes around here; I have done a little of it in my time. From what I understand, the Speaker was in fact tough but fair in what he did. It may have gone quickly, but he did in fact go through the procedure as established.

The problem was that the House was not in order. I share the frustration of the gentleman from Minnesota being in the back of the Chamber, all of a sudden realizing that we were in a hurry-up procedure, and being unable to get up toward a microphone to be able to request the vote.

The fact is, though, that is our fault for not being close to the microphone. That has to be understood. But the House was not in order. I think that if we are going to have matters this serious coming before the body, and we are in a position where recorded votes are needed for the country to understand what this House is doing, then it seems to me that we have to make extraordinary efforts to assure that the House is in order at the point that those votes are going to be asked for. That certainly was not the case here this evening, and for that I am disappointed.

I am also disappointed, that when, given the circumstances of the matter, the unanimous consent was asked for so that the proceedings could be vacated and we could go to a vote, there was an objection from the other side from a member of the Rules Committee. It seems to me that that is one of the people that ought to be protecting the prerogatives of the Members of this House. Instead, there was an objection so that we could not have that particular vote.

I am disappointed that the majority would not at that point have permitted the vote which so many Members on both sides of the aisle wanted.

Mr. COBEY. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman.

Mr. COBEY. I thank the gentleman for yielding.

Mr. Speaker, I want the RECORD to clearly show that if I had had the opportunity to vote on the bill tonight, the Ways and Means tax reform bill, I would have voted "no."

□ 2400

Mr. BURTON of Indiana. Mr. Speaker, I yield to the gentleman from Virginia [Mr. PARRIS].

Mr. PARRIS. Mr. Speaker, I appreciate the gentleman yielding.

I just want to make an observation. There are six microphones in this Chamber and there are 435 of us. It is not possible for each of the Members of this body to act as minority leader or majority leader, whatever the Member's inclination may be. We cannot, each of us, each one of us, call for every vote on every bill. It is not physically possible.

So the system has got to work in some kind of an orderly manner or this will not be a legislative Chamber or a legislative body; this will be a mob.

There has got to be some kind of dignity and structure to the process.

I share the frustrations of the previous speakers before me, but I say to my friend from Oklahoma who wants to change the rules the Democrats write the rules around here. I submit to you they are not going to change them. We had a straight party vote when we adopted the rules in this Congress and the one before it and every one I have been involved with. We do not control the rules; they do. And I will submit they are not going to change them.

The next thing I would like to submit is that if we have 435 of us who are supposed to look for our individual interests, it cannot be that you are responsible for doing that unless the system is changed.

I share the frustration that we have an objection.

I think everybody should spread on the RECORD, and I now ask unanimous consent, Mr. Speaker, that my statement that had I been permitted to vote, I would have voted against this bill be inserted here in the CONGRESSIONAL RECORD just subsequent to the vote on H.R. 3838.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. CRAIG. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to my colleague.

Mr. CRAIG. Mr. Speaker, I think, as the gentleman knows and as all of our colleagues in this body know, that the responsibility for order and decorum in the House does not rest solely with the membership of the body, but with the Chair. Any rule or order of parliamentary procedure that I have ever read and studied says that the decorum of the House and the order of the House shall be set by the Chair.

This House was out of order tonight when the vote was called. No one could hear it, and, in my opinion, the microphone did not kick on. If it did, the din was so high that no one could hear.

I would have to believe that the responsible action of the chairman, and in this case this evening the Speaker was chairing the body, would have been to bring order to the House to call the vote. In my opinion, that was not done.

Now we can point fingers and we can cast blame. I suspect the RECORD will show that what I have just said would place the bulk of the blame with the chairman of the body, the Speaker, because the body was out of order.

Mr. Speaker, I would ask unanimous consent at this time that I be shown in the RECORD following the vote on the tax bill, H.R. 3838, having there been an opportunity for a recorded vote, my recorded vote would have been "no."

That opportunity was denied me. That opportunity was denied the membership of this body by the lack of decorum that was allowed to exist by the Speaker of the House.

Mr. SWIFT. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I would be happy to yield to my colleague.

Mr. SWIFT. Mr. Speaker, I thank the gentleman.

Mr. Speaker, I want to first say that I respect the restraint with which the frustration of the gentlemen on that side of the aisle have been expressing their concern. I can appreciate their concern.

Let me say a couple of things.

First of all, what a lot of people outside this body may not realize is that the Chair would expect that particular request come from the minority in that situation. I think most of the gentlemen on that side of the aisle would grant that.

The gentleman from Minnesota who said he could not get down the aisle in order to make the request, he is one of the most alert gentlemen on the floor. I think the gentleman would also agree that that aisle is rarely filled with Democrats.

Third, I think it is very important that we all understand that if that does not come in an orderly procedure and if the Chair is reasonably expecting it to come from your side of the aisle and it does not in a timely fashion, that the Chair has no alternative but to proceed.

Do we get back in order after votes as quickly as we should? No. And I have not heard anyone over there say that is a partisan problem. We all do that. You as members of the minority have not had the opportunity to chair. Would I, without giving up the majority, give you that opportunity? I would. That is a much more difficult process than you might think, and I think you have been saying that. We are all as Members on the floor at fault for not responding more rapidly to efforts on the part of the Chair to bring order back to the body.

So to the extent that you are raising an issue I agree with that we should have had a vote on something as important as that, I think it is only fair to point out that the minority holds a very large share of the responsibility for not conducting its responsibility to ask for it in a timely fashion, not having someone by the microphones at the time to ask that, for not having the aisle clear, like the gentleman from Minnesota wanted to get down the aisle to make that request, for not along with those of us on this side of the aisle coming to order more quickly. We have all become sloppy in that regard.

The vote today was denied not by rules and not certainly by one party or the other, but rather by the fact that a number of people were not watching the switch and 434 of us, as the gentlewoman from Illinois suggested, were not doing precisely what we should have been doing at the time.

I have listened with care to what you are saying. I understand your frustration. I agree with it.

To the extent there have been little examples that suggested it was somehow the majority party's role, I think that is wrong. I think it is dead wrong. But its all our responsibility to see that it does not happen again.

Mr. Speaker, I thank very much the gentleman for yielding his time.

Mr. NIELSON of Utah. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I would be happy to yield to my colleague, the gentleman from Utah.

Mr. NIELSON of Utah. Mr. Speaker, I, too, would have liked to have been recorded as no if I had had a chance to vote on the bill.

I do also agree with the gentleman who just spoke that it is the minority party's fault for not having the rollcall called for. We tend to lean on those at the desk, and those who were not at the desk had no opportunity to get to the desk because of the confusion.

My objection to the bill was primarily on the difference, the $2,000 for those who do not itemize and the $1,500 for those who do itemize. It is fundamentally unfair. Eighty percent of the people in my district do itemize, and I could no way support such a bill. I made that clear at various points. I did not have opportunity to debate on the bill. We had many very good speakers from the Ways and Means Committee, and there was no time for anyone other than that committee to speak. Had I been able to speak, I would have made that more clear to the House.

Mr. Speaker, I would ask unanimous consent that my statement be put in the RECORD just following the vote on the bill, H.R. 3838.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

Mr. ROEMER. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman from Louisiana.

Mr. ROEMER. Mr. Speaker, I thank my colleague for yielding.

Mr. Speaker, I just want to join in the statement tonight and add my disappointment to the events of tonight. I am disappointed at the fact that we did not have a recorded final vote on passage.

I am more disappointed that the bill passed, however it passed. I thought the bill was antigrowth and antijobs. I testified against the bill at every opportunity, gave one, minutes on the floor, voted for the motion to recommit, voted for the Republican substitute because I thought it was better, and I would have voted against that on final passage, quite frankly.

It has happened before in the House. I have only been here 5 years. I do not know whether these things happen deliberately or late at night, but the evidence is that the longer we stay in session toward Christmas and the later we stay in session past 9 or 10 o'clock, we are apt to get tired and make mistakes. I am disappointed.

Mr. Speaker, I ask unanimous consent that my statement be placed in the RECORD following the final passage of H.R. 3838, and be noted that I object to the bill and, if given the chance to record my vote, I would have voted no, and did vote no by voice.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

Mr. RITTER. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I would be happy to yield to my colleague.

Mr. RITTER. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I think it is a tragedy that perhaps the most important vote of the last several years in this House was not a record vote. I think it is a tragedy that the people of the United States of America watching these proceedings, reading about these proceedings tomorrow morning, will not have any idea as to how their Representative felt or would have voted on this most important issue of the last several years.

But I think the biggest tragedy of all is not the human failing of the excitement and the disorganization and indeed the chasos that followed the vote, the biggest tragedy of all is that when it was asked to vacate the proceedings, unanimous consent was asked to vacate the proceedings and have a record vote, an important member of the Democratic Party, a member of the Rules Committee, objected.

Now I ask, what was the reason for that objection? Is there some reason to hide how the Democratic Members of this House felt on this vote? Obviously none of the Republicans objected. The Republicans wanted a record vote on this tax bill. We were denied a record vote by an important member of the Rules Committee in the Democratic Party.

Mr. COMBEST. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman from Texas.

Mr. COMBEST. Mr. Speaker, I appreciate the gentleman yielding.

Mr. Speaker, I wish we would have had a rollcall vote. I am not pointing fingers at anyone. I would only like to say that coming from a district in Texas that would probably be the most negatively impacted, or one of the most negatively impacted, due to the considerations in the Ways and Means bill on the oil and gas industry, I strongly oppose the bill.

I do support tax reform in the vein in which it was conceived, and that is simplicity, fairness, and certainly in economic growth.

I opposed the rule both times, I voted for the motion to recommit, and I voted for the Republican substitute only because I felt that it was somewhat better than the other alternative. As the gentleman from Louisiana indicated, I would have voted against that on final passage had it prevailed.

I appreciate the gentleman's yielding. I wanted to go on record as having opposed the Ways and Means Committee bill.

Mr. PARRIS. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman from Virginia.

Mr. PARRIS. Mr. Speaker, I would just like to pick up the thread that the gentleman from Pennsylvania was alluding to just a moment ago, and I think the record would be less than complete here tonight—we did not concede that there are Members in this Chamber who do not want a record vote. It is technically correct under the rules that any one of the 434 of us have the right to call for that vote. As I have suggested earlier, as a practical matter it is simply not possible. We have systems and procedures and leadership and methods by which that can be done, but for some unknown and unexplainable and bizarre reason, it was not done here this evening.

That does not meet with the dissatisfaction of a number of people who are in fact politicians and would like to be able to go home to an oil district when they intended to vote for this bill which decimates the oil industry and say, "Well, gee, guys, I would have voted against it," or "I did not vote against it; it was a voice vote." How are you going to prove him otherwise? There are people from timber districts who were sweating blood. I heard Members on the floor of this House today say, "I wish I could get sick. Take me to the hospital. Do something. Get me out of this trap. I am about to take the dive here."

There are people who did not want to vote, so before we get carried away with our altruism and try to display our patriotism, let us ask the question: Why do we not put every Member on record regardless of how they vote they should be counted? For some bizarre reason in this probably the most important legislative measure that any of us will vote in this entire Congress, that will not be the case.

Mr. BOEHLERT. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I am happy to yield to my colleague, the gentleman from New York.

Mr. BOEHLERT. Mr. Speaker, I share the frustration that many of our colleagues referred to earlier in these proceedings with their remarks.

I would make this observation, that we have not been a witness to one of the finest hours in the House in its historic history this evening; but I would suggest there is a lot of blame to go around. We probably all should look within.

Tonight we debated, as the Speaker mentioned in his remarks when he took to the well of the House, one of the most significant pieces of legislation in the history of this great body. We were all witness to one of our colleagues from this side of the aisle, the gentleman from Michigan [Mr. VANDER JAGT] trying valiantly to give a very eloquent presentation so that we all would have a better understanding.

What was he greeted with? Alternate applause and catcalls, some people on the floor talking about Sunday's football, others reading the paper.

I would suggest that all of us take a personal pledge that when we come to this great Chamber we come here to do the people's business, not to read the paper, not to applaud, not to engage in a circuslike atmosphere when we have very serious business before us.

I was there as the Speaker was in the chair. I saw what happened. The Speaker very deliberately looked to the Republican side. There was no one here. It was not 2 seconds or 5 seconds. I would suggest that it was longer.

I do not think we have to point the finger at the Speaker any more than we should point the finger at any one individual here who should have grabbed that microphone and asked for a rollcall vote.

I think we should all go home after these proceedings and look in the mirror. I think we all have plenty of room for improvement of our conduct on this floor.

This is a great institution. I am proud to serve in it. I am proud of the people I see here, men and women who this week, day after day have worked 18 to 20 hours on something that is going to affect every single American, every single corporation.

We have our differences of opinion. I did not like the committee bill. I did not like the Republican alternative. I would have welcomed an opportunity to be on record, to have my name up there in lights, so that everyone would know that the Congressman from the 25th District of New York did not approve of this piece of legislation; but I would suggest to all of us that we do not need that recorded vote to be accountable to the people we represent, because every single constituent who is concerned about this bill is going to hold us to an accounting of what we did here this evening.

I would suggest that there is room for a lot of improvement. I am making a personal pledge to myself that when I come to this floor I am going to come to conduct the people's business. I am not going to applaud, except in rare instances when the Chamber joins, as we did tonight, to pay tribute to our distinguished colleague, the gentleman from Kentucky [Mr. NATCHER] for the very fair way that he monitored these proceedings.

This is not one of the House's proudest moments. There is room for improvement. I think we should all vow to be part of that improvement.

I thank my colleague for yielding.

Mr. HUBBARD. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I am happy to yield to the gentleman from Kentucky.

Mr. HUBBARD. Mr. Speaker, I would like to compliment my friend, the gentleman from New York, an outstanding Republican Member of the House, for his comments, especially agreeing with my earlier remarks.

The Congressman from New York and I were seated near each other in the back of the Chamber. We saw it exactly alike, that the Speaker of the House indeed did give the Members at least 5 seconds opportunity to ask for a rollcall vote.

One of our colleagues said that we did not get a vote because of a Democratic member of the Rules Committee; really the reason we did not get a vote tonight is because 434 Members of the House did not ask for a vote when we had a chance to.

I admit I was waiting on another Member of the House, a member of the Ways and Means Committee in opposition to the bill, to ask for a vote, so I did not ask for one. I trust that is why a lot of others in the Chamber did not.

So Democrats and Republicans who opposed the bill did not get a chance to vote "no" because we failed to ask for one.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I am happy to yield to my colleague, the gentleman from Pennsylvania.

Mr. WALKER. Mr. Speaker, I thank the gentleman for yielding.

As I stated before, I think that given the rules that the Speaker at the point that the vote was being asked operated within the rules. He was tough and the failure was in large part on this side.

I will say, however, that having gone through these procedures on a number of occasions, we do operate with somewhat of a dual standard, because there have been numerous instances where it was to the advantage of the majority party to assure that there was appropriate order in the Chamber, when the Members have literally been gaveled into their seats, where I have personally been told to sit down and not be at the microphone when a vote was coming up so that they could assure that there was absolute order and absolutely everybody was in their seats

so that there would be a problem in getting enough people to rise for a vote; so when it was in the interest of the majority to get the House in that kind of a position, the Chair has consistently been used in that manner at those times.

It was not important enough evidently tonight to get the body in that kind of order to assure that that vote got taken at that point.

In other words, what I am saying is that, yes, within the rules the appropriate and proper thing was done; however, given the seriousness of the matter before us, it seems to me that extraordinary measures not unlike those that are taken in other instances could have been taken here tonight.

The Chamber at the very least could have been brought to order to assure that what we were doing was something that everybody understood we were doing when it was taking place. That was not done and that is something which is done when, as I say, it is to the advantage of the majority to assure that.

I think the House is ill-served by this side not having someone in place to get the vote; but it is also ill-served by a process which allowed the whole thing to take place in a disorderly way and the American people were denied seeing how their Representatives voted on the issue.

I thank the gentleman for yielding.

Mr. HUBBARD. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I am happy to yield to the gentleman from Kentucky.

Mr. HUBBARD. Mr. Speaker, I would like to ask the gentleman from Pennsylvania [Mr. WALKER] where he was when it was time to ask for a recorded vote.

Mr. WALKER. Well, as I explained earlier, I was in the back of the Chamber at the moment that I realized that something was quickly taking place. I tried to work my way down the aisle. Because the House was not in order and there were more Members in the aisle than in their seats, I was unable to get down to a microphone.

I would say to the gentleman that I am very disappointed that I was not where I usually am, and that is sitting right here, standing up and getting votes.

I get an awful lot of Members from time to time who are not happy when I rise to ask for a vote. I think some of them understand now why someone has to be around once in a while to ask for a vote in this place. It just does not happen if someone is not in his place. I will take that as a lesson learned and I will try to be a little closer to the microphone in the future. It is obvious, otherwise, some of these things just do not happen.

I thank the gentleman again for yielding.

Mr. BURTON of Indiana. Mr. Speaker, before I yield to my colleague, I promised the people at the front desk, everybody is tired, that we would get out of here as quickly as possible, but I yield to my colleague, the gentleman from West Virginia.

Mr. RAHALL. Mr. Speaker, I thank my colleague for yielding. I had not planned to say anything, but listening to the comments that have been said, one can certainly understand the frustration of not being able to have a recorded vote on such an important issue.

I happened to have been prepared to vote for the bill and have so stated by insertion of remarks in the CONGRESSIONAL RECORD, as each of us can do to make our position fully clear on such an important matter.

I would say to the gentleman from Pennsylvania, who has said that he was in the back of the Chamber at the time, that the Speaker was looking for somebody on the minority side to ask for a rollcall vote, on such an important issue, though, as the gentleman has said, and he knows the rules of the House very well and knows what the procedures are that are going to take place in sequence and on such an important issue of this nature, I would have thought that the gentleman would be up front prepared to ask for a rollcall vote, as he has been on many other issues, as the gentleman has testified to this evening.

So I would say that the insinuation that perhaps it was in the interest of the majority party to not have a rollcall vote on this particular issue is not entirely fair.

I think the President of the United States who supported the Ways and Means Committee after the Republican substitute defeat would like to have seen how members of his party stood on this issue, and it would have been in his best interest to also have seen a rollcall vote on this issue; so I do not think it can be said that it was in the interest of our party to not see a rollcall vote on the issue.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I do not want to prolong this, but I yield to my colleague, the gentleman from Pennsylvania.

Mr. WALKER. Mr. Speaker, I thank the gentleman for yielding.

I would just point out to the gentleman that I will accept my share of the blame. I do not think, however, that one Member of the House, even though I do a large share of it, should be given the total responsibility for getting all the votes around here. I do my share. I think maybe some others can share in that.

I would also say to the gentleman that it was a member of the gentleman's party, a member of the Rules Committee from the gentleman's party, who denied this House a vote by denying the unanimous consent request.

The gentleman's party is responsible for that. A gentleman, one of the leaders of the gentleman's party, someone who was picked to serve on the Rules Committee, was the one who stood in the front and objected to this House having a vote on the matter.

□ 2425

So from that standpoint I can say that we can make it very, very clear that that gentleman was responsible for denying the House the vote because at that point, by unanimous consent, we could have vacated the proceedings in such a way as to go to a rollcall vote. So that surely rests on your side of the aisle, not on this side of the aisle.

Mr. RAHALL. Mr. Speaker, will the gentleman yield to this side of the aisle for a response?

Mr. BURTON of Indiana. I yield just briefly to the gentleman from West Virginia.

Mr. RAHALL. I thank the gentleman for yielding.

Mr. Speaker, I would say to the gentleman that he has already testified this evening as to the House being out of order, and I think we all will agree with that fact.

When the gentleman from the majority side stood to object, there were many other Members standing at that same time. I could not tell who was really objecting. There were Members on the gentleman's side of the aisle standing trying to seek recognition of the chair also. Perhaps they were willing to object to a vacating of the order for a rollcall. So it is hard to put the blame entirely here.

Mr. CLINGER. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman from Pennsylvania.

Mr. CLINGER. I thank the gentleman for yielding.

Mr. Speaker, I think we could go through a mea culpa here all evening. I think it is probably true that there are people on both sides of the aisle who would hope that we would have had a recorded vote on this most crucial issue, probably the most important issue that we have had all year.

I am reminded of the old line out of Pogo, "We have met the enemy and he is us." I think in this case we blew it on both sides and I am not going to point any fingers of blame but I think that the critical point is that we were denied a vote on a critical, critical issue for this country.

I happen to feel that that bill is going to be a disaster for the country if it is not changed. It is antigrowth, it is antifamily, it is anticompetitive. In my own district, it would have put at

risk 47,000 manufacturing jobs. I just think that is a debacle.

But we can agonize over it, where the blame lies. The fact is that for whatever reason, a vote was denied and I would hope that somehow we can rectify this. I think it is an appalling way to operate when we come to a vote on an issue which has been before us for months and months and months, and the American people are also denied the right to know how their Representatives would have voted on an issue which is going to be absolutely critical to this country.

Mr. BURTON of Indiana. I would just like to say that in my 3 years here in this body, and I know we do not want to cast blame on the Chair or individuals who were asleep at the switch on this side of the aisle, but I can recall cases where the Speaker said, "Does the gentleman request a rollcall vote?" From the Chair, the question was posed, "Does the gentleman request a rollcall vote?" And on an issue of this magnitude, I would have thought that the Chair would have looked around the Chamber and made that kind of a statement because I have heard it on bills of less significance in the past.

So I feel it was a tragedy. I feel the decorum in the Chamber was not what it should have been, and I think that was a big part of the problem. I think that the Republican side of the aisle was asleep at the switch. I think we were all asleep at the switch. But I also think that the Chair could have made sure that everybody was aware that we were coming to that point a rollcall should have been requested.

Mr. CLINGER. If the gentleman will yield for just one more momemt, I just would like to state that had we had the opportunity to vote, I would have obviously voted against this bill because I think it is so bad for the country.

Mr. WALKER. Mr. Speaker, if the gentleman will yield just for a moment again, and I appreciate the gentleman wants to end this special order and I thank him very much for taking the time, but I do want to make one point to clarify the record.

There was absolutely no Republican seeking to object to the unanimous-consent request at the time that the time unanimous-consent request was put to vacate the proceedings. I think that needs to be clear. The objection came from the Democratic side of the aisle. There was no Republican seeking to object to that unanimous-consent request.

Mr. BURTON of Indiana. Mr. Speaker, let me just end by saying I would like to also ask for unanimous consent to have my vote recorded right after the final voice vote on this issue, H.R. 3838. Had I been given the opportunity to record my vote, I would have voted "no."

I want to thank everybody at the front desk, for bearing with us this evening.

NEW FINANCIAL RELATIONSHIP BETWEEN THE UNITED STATES AND NORTHERN MARIANA ISLANDS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arizona [Mr. UDALL] is recognized for 10 minutes.

Mr. UDALL. Mr. Speaker, on October 21, I introduced legislation, House Joint Resolution 423, to authorize a new financial relationship between the United States and the Northern Mariana Islands. Today, I am introducing another bill for the same purpose.

The bill that I introduced earlier was introduced at the request of the Reagan administration. The legislation that I am introducing now is being introduced at the request of the elected representative of the islands in Washington.

Public Law 94-241 provided assistance for the operation of government, development of essential infrastructure, and private sector growth of the Northern Mariana Islands. It was to last through the 7 fiscal years after they became the newest member of the American political family.

The covenant that established the Commonwealth also required representatives of the President and the Governor to meet prior to the expiration of this period. They were to submit recommendations to the Congress for assistance for a subsequent multiyear period for these western Pacific islands.

The administration's bill would approve an agreement between the President's representative, the Assistant Secretary of the Interior for Territorial and International Affairs, and the Governor's representatives, the Lieutenant Governor, a member each of the Senate and the House of Representatives of the Legislature of the Commonwealth, and a representative of the island of Tinian. This agreement, which was reached in closed-door negotiations, would provide $228 million during the 7 fiscal years which began this past October 1.

The resident representative in Washington of the Commonwealth and some members of the Commonwealth's legislature have questioned the advisability of the agreement now that they have had an opportunity to study it. The representative has proposed an alternative bill to provide the same amount of assistance over the same period.

I made it clear in October that I was introducing the administration's bill to permit the consideration that the Federal and Commonwealth administration seek. I am introducing the resident representative's bill to permit the consideration he seeks as well.

Introducing either proposal, of course, should not be misunderstood as an indication of an intent to approve either. Further, even if one or the other merits approval, amendments might very well be necessary.

The chairman of the committee of the other body which has jurisdiction over insular matters and I both had hoped that the Congress could consider this matter in this session. I believe it is fair to say that we both consider action on the recommendation of the Federal and Commonwealth representatives a fundamental obligation assumed by Congress in approving the covenant.

It, therefore, remains my intent, as chairman of the Committee on Interior and Insular Affairs, to have this matter considered as expeditiously as possible. The hearing that I postponed last month at the request of the Governor will be held in the next couple of months.

Action should come early in the next session. This would include any necessary amendments.

There will be no gap in authorizations between the expiration of the initial financial relationship and the time that a law providing for new relationship is enacted, however. The law approving the covenant provides that the initial financial relationship will be maintained until it is replaced.

SENATE BILL REFERRED

A bill of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. 1174. An act to amend the Juvenile Justice and Delinquency Prevention Act of 1974 to provide States with assistance to establish or expand clearinghouses to locate missing children; to the Committee on Education and Labor.

ENROLLED BILL SIGNED

EXTENSIONS OF REMARKS

1985 ANNUAL REPORT ON THE HIGHWAY SAFETY IMPROVEMENT PROGRAMS

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. TRAFICANT. Mr. Speaker, I rise today to introduce a bill that is designed to encourage State and local governments to initiate road safety improvement projects that will produce maximum cost/benefit returns to the motoring public. To accomplish this when the project undertaken is of the type that evaluation studies of the Federal Highway Administration's Highway Safety Evaluation System have shown generally produce cost/benefit ratios equal to or greater than 1.0 per dollar invested, the Federal share of such project may be 100 percent.

The Office of Highway Safety of the Federal Highway Administration in its 1985 Annual Report on the Highway Safety Improvement Programs published a chart (table III-14-pg 37) listing those highway safety improvements with benefit to cost ratios of 1.0 or better. That chart is reproduced following this statement. Twelve types of improvements are listed. Under this legislation, they would be eligible for 100 percent funding. By this means, State and local authorities will be encouraged to undertake these high payoff types of road safety improvements. By doing so, hundreds, perhaps thousands, of lives will be saved each year after the program is in full swing. And countless injuries will be prevented altogether, or their severity will be minimized. Because of its cost/effectiveness, the 100 percent funding will promote the most efficient and effective expenditure of public moneys for road safety.

According to the 1985 Annual Report earlier referred to (page 9):

Since the inception of the highway safety categorical programs in 1974, the FHWA's Office of Highway Safety estimates that almost 30,000 lives have been saved and almost 650,000 serious injuries have been prevented as the result of highway safety improvements.

The Committee on Public Works and Transportation initiated and was responsible for enactment of those programs in the Highway Safety Act of 1973 referred to above. The 100-percent Federal funding bill will take the road safety process a further lifesaving step. Its approval and enactment will provide new, targeted focus for highway safety improvements programs. There will be a legislative incentive for States and localities to undertake those projects which contribute most to the safety of the motoring public. When they do, they will receive 100-percent funding from the Federal Government. When they do not, that is to say when they undertake projects whose benefit-to-cost ratio is less than 1, States and localities will receive Federal sharing based on the Federal-aid road system being improved (Interstate—90 percent; other systems—75 percent)

Through this new initiative, the Congress' and the Committee on Public Works and Transportation's traditional focus on and commitment to road safety can be continued and expanded in a highly responsible and effective way during this period of budgetary concern. This is so because funds allocated to projects eligible for section 120(d) moneys have already been apportioned to the States from the highway trust fund. This legislation will simply assure that obligations under this provision will produce the greatest benefits to the motoring public for each dollar invested.

For the forgoing reasons, I urge every Member of Congress interested in road safety and cost-effectiveness to support this bill, the Highway Safety Initiative Act.

A TIME FOR SHOWING THAT WE CARE

HON. JIM ROSS LIGHTFOOT

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. LIGHTFOOT. Mr. Speaker, the Christmas holiday season is a time for us to make an extra effort to give thanks for what we have, and to share our blessings with those who aren't as fortunate. For the hungry in the world, Christmas won't be full of happiness and cheer. To them, Christmas will be another cold day of wanting.

It, therefore, is an appropriate time for us to consider and pass one particular bill before us today; and that is House Concurrent Resolution 57, encouraging private sector involvement in the worldwide effort to alleviate hunger. This bill expresses the sense of the Congress that, among other things, American institutions in the public and private sectors should jointly develop commitments and a plan to end world hunger. As a cosponsor of this bill, I strongly urge my colleagues to give it their support.

Our passing this resolution today gives recognition to the problem of world hunger and helps to heighten public awareness of the need for everyone to pull together and help. It's easy to pass a bill to spend hundreds of millions of our tax dollars to fight world hunger. But what we really need to do is to create an attitude of cooperation and a lasting framework for getting the private sector directly involved in our efforts.

When world hunger is mentioned, thoughts of Ethiopia and other poor Third World countries come to mind. I support efforts to help the people in those countries, but we sometimes seem to forget that there are many people within our own borders who need help. One doesn't normally think about the Midwest when talking about hunger, but the crisis in the farm economy is forcing more and more people in Iowa to seek help in feeding their families from the local food pantries.

It was because of this growing need within the very district that I represent that I decided to see what I could do without passing any laws or spending any of the taxpayers' money. So last month I helped organize a districtwide food drive to solicit donations from the private sector to replenish the community food pantries. The result was a tremendous outpour of support from corporations, private citizens, and volunteers. Collection boxes were placed in businesses, public buildings, food pantries, and churches in all 27 counties of the district. Hundreds of cases of food were donated by concerned corporations, turning my district offices into temporary warehouses. Phone calls and letters with cash donations poured into my offices. Schoolchildren joined the effort—the student council of the Adair-Casey High School raised $127 in cash and used it to buy food for the Adair community. One company loaned a semitruck to haul the food to the empty food pantries throughout the district. Thanks to the efforts of people like Rev. Gary Haines, Mr. Joe Ricketts, and Mr. Rick Gibson, donations for the drive including cash and food totaled well over $40,000—and donations continue to come in.

In short, Mr. Speaker, the drive was a tremendous success. At the start the project was given the title "Care and Share," and I can think of nothing more appropriate.

The response this project received proves that neighbors care about each other and

are willing to give of themselves when there's a need. We, their elected Representatives, can help by providing the leadership and organization that is needed to create a framework for this sharing to take place. What happened in the fifth district of Iowa should not be considered a special occurrence. Instead, it should be seen as what it really was—a natural response to a need by people who cared enough about each other to do something about it.

It is this attitude of pulling together that the bill we have before us today seeks to encourage, and I urge my colleagues to give it their support.

A BALANCED BUDGET BILL THAT SAYS YES

HON. STEVE GUNDERSON

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. GUNDERSON. Mr. Speaker, for the past few months we have been engaged in a fierce struggle with the proponents of negativism, the advocates of "no." They say, "No, we can't balance the budget; no, we can't guarantee our children and grandchildren that they will not be saddled with trillions and trillions of dollars of debt; no, we can't assure our senior citizens that we will be responsible today so that tomorrow there will be funds for pensions and retirement programs; and, no, we can't find a way to responsibly take control of a budget process that has run wild."

Last week, Congress and the President met the pessimists head-on by passing and signing a balanced budget bill that says "yes." Yes, we can make Government work. Yes, we can solve our problems. We can ensure an economically secure Nation. We can make the hard choices and the difficult sacrifices necessary to ensure that our Nation will move forward to meet the challenges of the future, instead of sliding back into the irresponsible policies of the past.

It takes only a moment to see that those past policies would provide America with an unacceptable future. Those policies have already resulted in:

A Government spending $24 for every $19 it raises in taxes and other forms of revenue;

A national debt that would require $7,000 from every single man, woman and child living in the United States, if it were to be paid off today.

A Federal Government that removes from the private sector, because of borrowing needs, an amount every year equivalent to 5 percent of all produced and all services rendered in the United States;

$130 billion in interest payments on the debt for 1985 alone.

While there are parts of Gramm-Rudman that I am less than pleased with, the fact remains that the bill will contribute in a number of important ways to the battle against the Federal deficit:

Fiscal responsibility will be a part of the budget process from the very outset as the President will be required to submit annual budgets in which the projected deficits do not exceed specified levels. Starting with a budget proposal that is already within resonable funding limits will make it all that much easier for Congress to come up with a finished product that stays within the deficit guidelines. These specified levels will be gradually decreased, until 1991, when the maximum allowable Federal budget deficit will be zero.

The bill includes provisions establishing a new, accelerated timetable for the budget process. In recent years, Congress has dragged its feet, oftentimes waiting until as late as October to finally pass a budget. Time after time, temporary extensions must be passed so that government agencies won't have to close their doors. At this very moment, Congress is preparing to pass its fourth continuing resolution of the year, required because of its inability to complete the appropriation process in a timely manner. The results has been increased costs, inefficient expenditures, and an inability for agencies and departments to adequately plan for the fiscal year. Under Gramm-Rudman, Congress would complete action on the budget by April 15, with the House completing action on regular appropriations bills by June 30.

Up to now, there has been a lot more talk about deficit reduction than concrete action to bring down the deficit. With the passage of Gramm-Rudman, we will see more than just talk. The first major event under the budget regime will come February 1, when automatic cuts for fiscal year 1986 are announced. These automatic cuts will take effect March 1, unless Congress and the President come to terms and voluntarily enact cuts based on agreed upon spending priorities.

While it is important that the United States maintain a strong and effective military, it is also important that the Pentagon do its fair share for deficit reduction. If nondefense programs alone had to shoulder the burden of budget cuts, hundreds of worthwhile programs would have to be axed. Under Gramm-Rudman, any automatic cuts would be divided equally between defense and nondefense programs.

As long as Congress did nothing to discourage the notion that the Federal Government had a magic money tree with an infinite supply of greenbacks, there was little incentive to cut wasteful and inefficient spending practices. Why cut the fat when all you have to do is get Uncle Sam to dole out more money? The Gramm-Rudman bill makes it clear that Uncle Sam's pockets have been picked clean. Knowing that they will not be rewarded for waste with increased appropriations, agencies receiving Federal funds will hopefully have all the incentive they need to put an end to $600 toilet seats, inefficient procurement practices, and duplication of services.

In passing Gramm-Rudman, Congress is not forsaking those individuals most in need of government help. A variety of programs for children, elderly and the Nation's poorest will be protected from automatic cuts. Social Security benefits, child-nutrition programs, Medicaid and veterans' compensation are among the programs that are exempted from automatic cuts. Certain critical health programs are protected, through provisions that set maximum permissible reductions at no more than 1 percent in fiscal year 1986 and 2 percent in fiscal year 1987.

It is my hope that automatic cuts will not become necessary. Each year Congress will have at least two opportunities to do its job by making careful and rational choices about the programs that will receive cuts. Only if Congress fails to meet the deficit-reduction objectives, will automatic cuts come into play.

America today is at a turning point. For too long we've been stalled in history, repeating mistakes of yesterday because our leaders have been afraid to see a new tomorrow. That tomorrow is upon us. We must not let the pessimists convince us otherwise. The future will be ours if we dare to work for it. The people of this Nation are ready to move forward and effectively address the problem of the deficit. With the signing of Gramm-Rudman, Congress has made it known that it too is ready to do its part in moving our Nation ahead.

TRIBUTE TO GILBERT GUDE

HON. RALPH REGULA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 12, 1985

Mr. REGULA. Mr. Speaker, as a Member of the U.S. House of Representatives and as the director of Congressional Research Service, Gilbert Gude has set a standard of performance that is a challenge to all of us.

He approached his responsibilities in the Congress with an independent, thoughtful analysis of each decision. Colleagues recognize this and look for Gil for leadership.

As the director of the Congressional Research Service, he has always been very helpful to Members without any hint of partisanship.

It always has been a pleasure to call for information and have a prompt and friendly response.

I join with my colleagues in wishing Gil well in his future endeavors.

SAVIMBI'S GROUPIES

HON. HOWARD WOLPE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. WOLPE. Mr. Speaker, I would like to commend to our colleagues the following column, "Savimbi's Groupies", by Richard Cohen, which appeared in the December 13 Washington Post.

Given Mr. Savimbi's political background—two decades of authoritarian socialism—it truly boggles the mind to hear some conservatives comparing him to our

Founding Fathers. Recently Howard Phillips, the chairman of the Conservative Caucus, went so far as to suggest that "if Jonas Savimbi were an American citizen; he would be the Presidential candidate of the conservative movement in 1988". This would be akin to nominating someone like Mao Tse-tung or Gamal Abdul Nasser, two of Mr. Savimbi's erstwhile heroes, for the Presidency.

When will the far right come to its senses? Aiding Savimbi would, as virtually every United States expert on Angola predicts, play right into the hands of our Soviet and Cuban adversaries in Africa because of Savimbi's alliance with South Africa. The Soviet Union couldn't write a script more advantageous to its interests in Africa.

[From the Washington Post, Dec. 13, 1985]

SAVIMBI'S GROUPIES

(By Richard Cohen)

In his book, "Political Pilgrims," Paul Hollander called the roll of celebrated leftists who visited Russia and made memorable fools of themselves. George Bernard Shaw praised the Soviets for making "the world safe for honest men." Edmund Wilson pronounced Russia "the moral top of the world" and the Webbs, Beatrice and Sidney, toured the Gulag and found it "free from physical cruelty." Like too many others, they saw the future, but not its quirks.

Now comes yet another wave of political pilgrims, this time conservatives who find virtue approaching sainthood in anyone willing to fight either Russia or Cuba—no matter what the reason. Beatified as "Freedom Fighters," they are compared with the Founding Fathers, even though (and even bearing in mind that war is hell) they occasionally rape and pillage on their way to their own versions of Yorktown.

The latest freedom fighter is Jonas Savimbi, the charismatic leader of Angola's UNITA guerrilla movement, and—if things work out—the recipient of maybe $30 million in U.S. aid. Savimbi's main attribute is the fact that for many years he has been fighting Angola's Marxist government, which, in turn, is buttressed by some 35,000 Cuban troops. In the lexicon of today's political pilgrims, that makes him—three-cornered hat, please—yet another moral equivalent of our Founding Fathers.

It would be one thing simply to say that we are going to play hardball with the Cubans and hire Savimbi to harass them in Angola. Aside from the fact that there is not much reason to do so (Angola is our fourth-largest trading partner in sub-Sahara Africa), you could make the weak and totally cynical case that any foe of the Cubans is our friend.

But the American political right, which is to say the American political establishment, will accept nothing less than a sweeping and morally uplifting anticommunist crusade. They have given it the rubric of the Reagan Doctrine, and it holds, it seems, that anyone who for any reason fights the Soviet Union or a client state ought to be embraced as our friend.

Take Savimbi. His anti-communism, like his love for democracy, is more imaginary than real. As an important guerrilla leader, he spent a year in China and returned home describing himself as a Marxist-Leninist and his foes as "the notorious agents of imperialism." In 1970, UNITA's magazine, Kwacha-Angola, named its mentors: "great revolutionaries such as Mao Tse-tung, Gen. Giap, Ho Chi Minh, Chè Guevara and many others." Since then, this Freedom Fighter has moderated his views some, but not to the point of accepting capitalism or junking UNITA's classic Leninist structure—central committee and all.

The "ism" that probably best motivates Savimbi is opportunism. That explains his alliance with South Africa. It is from it that Savimbi gets what it takes to wage his guerrilla war, and it is from Pretoria that he takes orders. The UNITA-South Africa relationship is so cozy that Savimbi was the only black African leader to attend President P.W. Botha's inauguration. Even African leaders who appreciate that UNITA has to take support where it is offered were offended by that. Consequently, Savimbi is a pariah in black Africa—the continent's No. 1 Uncle Tom.

Little to none of that gets mentioned when Savimbi's fans in Washington describe the man. Instead, he becomes a kind of African neoconservative, someone who started on the left and then, having had an epiphany while scanning the National Review, moved right. Suspended in his case is the conservative doctrine that Marxists are all alike—genetically programmed to institute just one kind of government.

It boggles the mind to compare Jesse Helms with George Bernard Shaw or contemporary conservatives with the radicals now dead. Nevertheless, they share a willingness to look reality in the face and see fantasy.

SPR IS WORKING

HON. PHILIP R. SHARP

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. SHARP. Mr. Speaker, the Department of Energy is currently conducting a test drawdown and sale of oil from the strategic petroleum reserve [SPR]. The Congress conceived of this test to see if the SPR could work.

That is:

Could oil be successfully sold to bidders in the private sector?

Could oil be pumped out of the underground salt domes where it is stored?

Could SPR oil really be refined into usable oil products?

Could all the paperwork that has to be completed in order to sell SPR oil under Government regulations be done in a timely, efficient fashion?

So far, the SPR is passing the test.

In fact, not only were there 32 bids for the oil from 17 companies—demonstrating significant private sector interest in SPR oil—but the five successful bidders paid $28.9 million, as much as $10 per barrel more than they might have had to pay in the market. There was obviously a desire by the bidders to make sure they are prepared to deal with the physical and administrative details of using SPR oil.

The successful test of our Nation's buffer against future oil emergencies should increase the level of confidence in the SPR and should serve as a demonstration of preparedness to both our citizens and our foreign oil suppliers.

I commend to my colleagues two recent news accounts of the test sale, one, by Robert D. Hershey, Jr. in the New York Times on December 12, 1985, and the other, an editorial in The Washington Post on December 2, 1985.

[From the Washington Post, Dec. 2, 1985]

TESTING THE STRATEGIC RESERVE

The Energy Department is selling a little oil out of its strategic reserve, just to test the system. This demonstration of capability is essential, and long overdue. It's a small sale—just over one million barrels, one-fifteenth of this country's daily consumption. Sales like this one need to be a regular and routine part of managing this crucially important resource.

The strategic petroleum reserve has been carefully built up by the Energy Department in gigantic underground caverns along the rim of the Gulf of Mexico. It was first conceived as a response to the shortages that this country suffered in the 1973-74 oil embargo by the Arab producers. The idea—and it was a good one—was to build a shock absorber against sudden disruptions in the foreign oil supply and, especially, to ensure that foreign producers could not threaten the United States.

Organizing the reserve was slow work, and the department was not able actually to begin filling it until late 1977. In 1979 the department installed high-speed pumps that could retrieve the oil in an emergency. But it never quite got around to demonstrating the administrative and physical capacity to take bids on the oil, sell it and deliver it to the refineries—fast. That is the capability that the current exercise will test. Perhaps there will be a few hitches. That's why it's necessary to keep doing it and make the procedures completely familiar both to the department and to its industrial customers.

The country now has about $14 billion invested in those caverns—490 million barrels of oil, the equivalent of 100 days' imports. Since one conspicuous reason for that investment is to deter anyone who might hope to throw the American economy off balance by interfering with the flow of imports, it's essential to show that the reserve can be fed, rapidly and smoothly, into the distribution system.

This kind of sale from the reserve is like army maneuvers. The purpose is not only to keep the troops proficient, but to show that proficiency to anyone who might be watching.

U.S. TAPS ITS OIL RESERVES

FIRST DELIVERY FROM STORAGE

(By Robert D. Hershey, Jr.)

WASHINGTON, Dec. 11.—In the first comprehensive test of the country's ability to tap its vast oil stockpile in an emergency, a Texas refiner today began to take delivery on a shipment of crude oil from the Government's strategic petroleum reserve.

As the La Gloria Oil and Gas Company received the first of its 100,000-barrel order at a terminal near Nederland, Tex., Department of Energy officials said they were now confident that the United States could act efficiently to deal with a supply disruption by moving stockpiled oil into commercial channels within three weeks.

"The system works," said George Bradley, Jr., and acting assistant secretary at the Department of Energy.

CONFINED TESTS

Until now, emergency planners have confined their tests largely to the physical pumping and tranportation of oil and to theoretical "paper" exercises in which the price of oil was estimated for various shortage conditions. There are five stockpiling storage sites along the Louisiana and Texas coasts.

The current test, which began Nov. 18, is the first in which oil was auctioned off to the industry and then actually delivered. La Gloria, one of the five successful bidders, is a small Houston concern that will move the oil to its refinery at Tyler, Tex.

A total of 1 million barrels of oil has been sold from a reserve that now has 492 billion barrels.

The other companies to buy oil from the Government at a time when prices are falling in the open market were the Phillips Petroleum Company, Conoco Inc., the Amoco Oil Company and the Marathon Petroleum Company.

PLEASED WITH BIDS

Energy Department officials, who said they had worried that the industry would not participate, said they were pleased with the 32 bids they received from 17 companies. Among the nonbidders, however, were such industry giants as the Exxon Corporation, Texaco Inc. and the Mobil Corporation.

An Exxon spokesman in Houston, Leslie C. Rogers, said that his company did not bid because "we had no need for the crude oil at that time."

The stockpile, created under a law passed 10 years ago this month, is now large enough to replace all imports for more than 100 days at current demand levels. Because the United States receives most of its oil imports—averaging 5 million barrels a day during November—from Western sources, the stockpile could replace imports from Arab members of the Organization of Petroleum Exporting Countries for more than three and a half years.

During the first half of 1985, the five biggest foreign suppliers were Mexico, Canada, Venezuela, Britain and Indonesia. Saudi Arabia, No. 2 at the time of the 1973 Arab oil embargo, is no longer among the top 10.

The period for which the United States could do without foreign oil now equals or exceed the level of protection envisioned by the Government when the reserve legislation was initially passed.

The five buyers paid $28.9 million for their oil, or 96 percent of the then-prevailing price in the open market. Because of recent price declines, some of the successful bidders wound up paying as much as $10 a barrel more for the stockpile oil than they might have paid Tuesday in the market.

"It would appear we sold high," said Richard Furiga, and Energy Department official.

The department said the oil it sold came from the underground storage operations themselves rather than oil held in delivery pipelines.

"We've shown beyond any reasonable doubt that the Government and the private sector can work together in a fair and efficient test of the reserve's competitive bidding process," Energy Secretary John S. Herrington said in a statement.

AGRICULTURAL POLICY AND ECONOMIC REALITY

HON. WILLIS D. GRADISON, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. GRADISON. Mr. Speaker, the Second Congressional District of Ohio, which I have the honor to represent, provides me with a varied perspective on the farm problem. While my district is commonly thought of as Cincinnati and the suburbs of Hamilton County, I represent farmers too. Corn farmers in the district received $1,056,203 in deficiency payments in 1984, 104th in the Nation. Agriculture is critical to the economic base of Clermont and Brown Counties. Tobacco, corn, and soybean farms are the landscape in those two-thirds of my district.

Farmers in my district are as independent, skilled, and concerned as farmers anywhere else in this country. They recognize that Federal fiscal and agricultural policies have contributed to their current difficulty and they are aware of the crucial role they play in the economy. These farmers sense that this farm bill will do little to alleviate the long-term problems facing them or the farm economy generally.

When Congress convened last January, the Reagan administration was determined to move the focus of American agriculture from dependence on government subsidies to a more market-oriented policy. Moving American agriculture toward the free market, however, has proven to be politically difficult. In spite of the fact that American farmers recorded another bumper crop in 1985 for wheat, feed grains, dairy products, and other major commodities, the farm economy is experiencing its most severe financial crisis since the Great Depression. After months of debate and delay, we are now considering the conference report on the 1985 farm bill.

The approach favored by the administration is not new. In recent years, questions have increasingly been raised about the nature of government agricultural programs. Critics have charged that the system of target prices, deficiency payments, and other vehicles designed to support the income of farmers and help stabilize consumer prices have actually encouraged the overproduction of major commodities and increased the cost of most food items for consumers. These same programs have had the preverse impact of contributing to the downturn in prices received by the farmer.

Farm land values which appreciated every year for 30 years prior to 1981 have declined an average of 19 percent since then. In some States, particularly Indiana, Illinois, Nebraska, Minnesota, Iowa, and my home State of Ohio, the decline has been especially severe. Overall farm income declined by 50 percent between 1981 and 1983, rose slightly in 1984, but fell again this year. According to the U.S. Department of Agriculture, approximately 10 percent of all farmers have debt-to-assist ratios so high—in excess of 70 percent—that they may not be farming 2 years hence if conditions do not improve.

Particularly in communities acutely sensitive to the downturn in the general farm economy, these conditions have reached a critical phase. Yet, this has occurred in spite of significant Federal aid. Prior to 1981, Federal spending on farm programs averaged $5 billion per year. In 1985, commodity programs intended to stabilize farm incomes will cost the taxpayer $18 billion.

Over the life of the 1981 farm bill, the United States has spent in excess of $63 billion on agricultural support programs. This unprecedented amount is four times the original estimated cost of the legislation. Despite this multibillion dollar subsidy, the problems caused by overproduction, falling farm income, and falling land values are seemingly more intractable now than 4 years ago.

The traditional outlet for much of America's agricultural bounty has been the export market. Four out of every 10 cropland acres currently under production are devoted to the export market. The 20 to 25 percent of farm income across the Nation is dependent on agricultural trade. For grain farmers, the ability to export represents slightly over half of their income.

In 1985, American agricultural sales abroad amounted to $33.5 billion, down 24 percent from 1981. However, it should be remembered, and is often forgotten, that American agricultural exports peaked in 1979–81.

Beginning in 1971, U.S. agricultural exports increased an average of 17 percent per year through 1981. These were the boom years of American agriculture. Soviet grain purchases in 1973 led the expansion of United States farm trade in the period. Even Chinese grain purchases in 1980 and 1981, roughly equivalent to the earlier purchases by the Soviet Union, were not enough to arrest the slide from the peak of 1979–81.

By the early 1980's, overproduction resulting primarily from acreage expansion, based on an assumption that export demand would continue to expand, caused commodity prices to fall. Under normal circumstances, the decline in prices might have had a beneficial effect on farmers by making American agricultural products more competitive in the world market. Unfortunately, just as prices declined, the dollar began its upward surge. Massive Federal budget deficits that have skewed the value of the dollar have had the same negative effect on farmers as they have had on other export sectors of the economy.

The boom period of the early 1970's was a confident time for America's farmers. The value of farm land appreciated as the expansion of production and investment in land continued. In 1970, for example, 44 million acres of wheat were harvested. By 1982, wheat acreage had expanded to 78 million acres, much of it coming in the Southeast and Southwest. Current plantings and yields of corn and soybeans have doubled since the early 1970's.

In spite of the downturn in export sales, the United States continues to dominate world trade in agricultural products. Eighty percent of the soybeans, 70 percent of the corn, and 38 percent of the wheat traded in world markets is produced by American farmers.

America's market expansion of the 1970's was not lost on others. The European Community, Canada, Australia, Argentina, Brazil, and other countries have significantly increased their agricultural output. The United States faces stiffening competition from abroad. For example, foreign corn production has increased by 50 percent in the past 12 years and foreign soybean production is up 140 percent over the same period.

Furthermore, this sharpening competition is occurring amidst the successes of the Green Revolution. India and China, in particular, have made significant gains in their ability to feed their own people, thereby reducing their demand for agricultural imports. Most analysts view a strong agricultural base as a necessary feature of long-term development in the Third World. As a result, even if the dollar regains purchasing parity in international markets, America cannot expect, over the long term, to produce at recent levels.

The comparative downturn in export trade and the bumper crops brought in by U.S. farmers have triggered, under existing law, a massive increase in Federal price and income support payments and the stockpiles of commodities held by the Government. For example, 1 out of every 10 gallons of milk sold between 1980 and 1983 was bought and stored by the Federal Government. In an effort to support dairy farmers, the Department of Agriculture has stored a 2-month supply of butter, a 3-month supply of cheese, and a 2-year supply of milk for every American.

Government policies and the economic decisions made by many farmers in recent years were based on the assumption that the agricultural boom of the 1970's would continue. When the boom collapsed, the Nation was left with an agricultural sector wonderfully prolific, but dependent on Government support.

Unfortunately, economic success is not based solely on the quantity of production. Production is not the same as productivity. These facts, and more than a little politics, continue to confound the emergence of a rational farm policy.

The cumulative effect of decades of Government involvement in agriculture has contributed heavily to the current state of affairs on the farm. As a nation, we have overinvested in agriculture. Federal farm programs that continue to encourage overinvestment and overproduction can do little to reverse the trend. Tax policy exacerbates this problem by encouraging investment in agriculture that otherwise would not be made.

For many farmers, the effects of overinvestment in agriculture have been very harmful. Yet, in addressing the farm crisis, neither the House, the Senate, nor the conference committee has adequately come to grips with the problem.

Debate on effective policies to reverse the trend in the agricultural sector has run head on into politics. With congressional elections in 1986 and control of the Senate at stake, the politics that come into play when farm legislation is debated have become even more byzantine than usual. The disunity of farmers around the country and the massive $214 billion debt held by farmers have contributed to the delay.

Indeed, the debt problems in rural America have loomed over every debate on the future direction of American agriculture. The debt of the Federal Government also has had a tremendous negative impact on the farm sector. Nearly everyone agrees that the Federal budget deficit is the most pressing domestic issue we face. Last week's vote on the Gramm-Rudman proposal to eliminate the deficit by 1991 is evidence of that. Meaningful deficit reduction would, in the long run, benefit farmers as it would benefit the rest of the economy by lowering relative interest rates and the value of the dollar.

Both the House and the Senate have reacted to the difficulties facing agriculture in substantially the same manner as before by throwing more money at agriculture. The congressional budget resolution approved earlier this year called for spending on agricultural programs for the next 3 years of $34.8 billion. The $56 billion House and $58 billion Senate versions of the farm bill were passed in the knowledge they were budget busters. The final $52 billion version of the farm bill exceeds the budget resolution by spending more than $50 billion deemed acceptable by the White House.

The House voted to lower loan rates (the floor under commodity prices) on major commodity programs, except for sugar, to discourage excessive production and make American agricultural products more competitive. Yet, at the same time, the House voted for a 5-year freeze on deficiency payments—the subsidy the Government gives a farmer to make up the difference between the market price and the artificially set target price.

The House also voted to revive the Dairy Diversion Program that pays farmers not to produce. Over time, the House dairy program would have raised supports while shifting the onus for bearing the costs of the program from the Government to the consumer. The conference committee wisely chose to abandon the House position.

The Senate bill was also replete with contradictions. The Senate voted, as did the House, to lower price supports. The Senate also voted for a 2-year freeze on deficiency payments. While turning back the Dairy Diversion Program, the Senate bill would allow grain farmers to opt for higher supports if land is taken out of production.

Several positive reforms have been incorporated into the legislation. One of the most significant would reduce the price support floor under corn, wheat, and dairy products to make these commodities more competitive in the world market.

At the same time, however, the conference has circumvented real reform by retaining the peanut and sugar programs without cuts. The conference added a requirement that the administration adjust sugar import quotas downward to avoid cost to the Government. This plan will add to consumer food costs and damage our Latin American and Caribbean allies while providing only short-term protection to American sugar beet and cane growers, whose return per acre is three times the level of rice, corn, cotton, and soybeans, and five times that for wheat and oats. The overall result is a conference report that broadly continues the policy mistakes of the past, the same mistakes that have brought us to the present situation.

During the often emotional debate on farm policy, much was said, about saving the family farm and preserving a way of life. Two members of the House expressed the view that "farming is more than an occupation, more than an industry; it is a way of life for millions of Americans." They urged the membership to examine the toll the current difficulties in the farm economy take on the human spirit.

The Jeffersonian vision of the United States as an agricultural republic runs deep in our culture. There is no doubt that agriculture plays an important role in our economy and our national life. However, the United States is no longer strictly an agricultural economy. Indeed, the number of Americans working on the land has declined steadily throughout our history. As late as 1920, five times as many people lived on farms as in 1983. The farm population is currently only 2.5 percent of the population. Not even the most ambitious farm programs can reverse the trend toward fewer, larger, more highly capitalized farms.

It is difficult not to sympathize with those who have lose or will lose their farms, some of which have been in the same family for generations. But agricultural fundamentalism can only lead to policies that will provide the short-term semblance of a solution, while deepening the real problem—overcapacity. It is likely, therefore, that the problem of surplus, exacerbated by Federal policies which encourage excessive investment and production, will not be brought under control by the bill before us.

Even a casual look at current programs reveals their misguided nature. Many farmers produce nonprogram crops and are ineligible for income support payments no matter what the state of their financial distress. In 1984, 90 percent of commodity program payments were distributed to farmers of wheat, feed grains, cotton, rice, and dairy products. These commodities, however, represent only 31 percent of the total cash receipts in American agriculture.

Less than half the distressed farmers in this country—those with negative cash flow and a debt-to-asset ratio above 40 percent—are participants in Federal commodity pro-

grams. For those who are participants, 95 percent receive less than $25,000 from the Government—61 percent of all commodity program payments. The remaining 5 percent of farmers receive 39 percent of the program benefits. Seventy-two percent of the farms in the country have annual sales less than $40,000; these farms receive only 22 percent of the Federal payments. By any reasonable standard, the poorest and most needy farmers do not receive assistance of the kind accruing to larger producers.

The fact is that the larger the farm, the higher the degree of program participation, and the larger the volume of production, the larger the likely share of program benefits. Do larger farms, however, mean that the family owned farm is under attack? In terms of the percentage of all farms, the percentage of land under cultivation, and the percentage of total farm output, nonfamily corporate farming has been declining for a decade. Families are increasingly incorporating their farms for practical tax and business reasons. The family farm is not dying; rather, it is adapting, albeit painfully, to a new environment.

As a nation and as a matter of public policy, we have decided that it is desirable to subsidize agriculture. In my view, we have done so because of the belief that farming is "basic and fundamental" to the economy. But, there is no realistic threat of losing our agricultural production base. We should not make agricultural policy on that assumption.

"Saving the family farm" and "increasing farm income" are two phrases that have been used repeatedly in our debates. These are legitimate concerns, while there are obviously important economic dimensions to the farm problem, let's be honest with ourselves and admit that it is the social dimensions of the farm problem that have largely influenced this bill. At bottom agriculture policy is primarily social and not economic policy.

Ironically, programs designed to support the struggling, small farmer have clearly had the opposite effect. Simply transferring income to farmers, because they are farmers, is neither prudent nor fiscally responsible. After all, there are many other groups in our society equally deserving of transfer payments.

Deliberations on farm legislation and farm credit have indicated the desire of Congress to preserve the family farm. The difficulty, of course, is that technology, the global economy, and the increasing efficiency of farmers have rendered Federal farm programs ineffective in dealing with economic reality.

The family farm has changed. Farming is no longer simply a way of life. It is a multibillion-dollar industry. More than any other sector of the economy, Federal policy affords protection to this industry from the competitive rigors of the marketplace. The irony is that there is little reason for monopolistic concerns in an industry with over 2.3 million units of production. Congress has supported deregulation in many sectors of the economy, but not in agriculture. Indeed, the economist's model of "perfect competition" comes closest in agriculture.

Congress began 1985 with the hope that the debate on farm legislation would set the tone of American agriculture for the remainder of the century. Without question, the farm economy has been battered by many forces beyond the control of individual farmers. However, the Congress must take a large share of the responsibility for enacting programs which have encouraged overproduction in major commodities.

The legislation now before us makes a bow in the direction of changing the destructive pattern of throwing money at the farm problem. But this conference report fails to provide the needed gradual transition to a deregulated agricultural sector. When this bill expires in 4 years, we will surely be back here debating what to do about the next farm crisis. Politics and the scramble to save the farm, however, have led again to inconsistent and contradictory legislation—far from the clear policy statement on the future of American agriculture which all Americans—including farmers—deserve.

HAZARDOUS DRUG EXPORT CONTROL ACT

HON. HENRY A WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. WAXMAN. Mr. Speaker, today I am introducing H.R. 3962, the Hazardous Drug Export Control Act.

This legislation has two main features. First, it would prohibit U.S. companies from selling a U.S.-approved drug in another country with labeling which omits necessary warning language or makes unfounded health claims. It appears that many U.S. drug companies are selling abroad the same drug that is approved in the United States but with one, very important exception; they have revised the cautionary labeling. In some foreign countries, particularly those like the Philippines, Mexico, and Thailand, some United States companies change the label to remove FDA required warnings and adverse reaction information or to add uses which are not approved by the FDA. This means that the physicians and pharmacists in those countries who see the labeling are not informed about the proper use of the drug or about serious problems which FDA discovered when reviewing the drug for sale in the United States.

The other main provision allows the export of drugs and antibiotics which are not yet approved but which have completed all clinical testing and are under active FDA review. The export would be allowed to those several countries which appear to have drug approval systems comparable to ours and health care professionals who are knowledgeable about the prescribing and dispensing of drugs. This provision would allow a U.S. company to produce the drug in the United States even though it is to be sold only in those other permitted countries which have approved its sale. The export of this unapproved drug would be limited to the short, interim period before U.S. approval.

I am troubled by the proposition that unapproved drugs should be exported from the United States under any circumstances. Such a policy means we do not extend to foreign consumers the same protections we insist on for ourselves. Nevertheless, I have concluded that legislation of the type I am introducing today will contribute to a more focused and productive debate on the need to permit the export of unapproved drugs. This bill also will assure a more thorough investigation of problems involving drugs which are currently exported, such as U.S.-approved drugs with different labeling in foreign countries and unapproved antibiotics which can be exported under existing law.

A heavy burden rests on the proponents of legislation to permit the export of drugs unfit for sale in the United States. Even properly used approved drugs, which are essential to good health care, can cause severe adverse reactions. The potential for harm from unapproved drugs is obviously much greater. Proponents of such legislation must show that our reputation as the world's leader in pharmaceutical development is not compromised by the export of unapproved drugs. While the bill I am introducing contains a provision to permit some unapproved drugs to be exported, I am not yet satisfied that those provisions are needed. I expect my subcommittee's investigation and our hearings to provide sufficient information for action, pro or con, on this legislation.

Mr. Speaker, there is another bill which permits the export of unapproved drugs, but it is quite different in scope and philosophy. S. 1848 was recently approved by the Senate Committee on Labor and Human Resources. I do not support that legislation. Frankly, I am not aware of any credible evidence that the open-ended and far-reaching provisions of that legislation are either needed for justified. Also, I believe it fails to address serious deficiencies in our current export laws.

The Senate bill permits drugs which have never been reviewed by the Food and Drug Administration to be exported to countries which do not even have a drug approval system.

The Senate bill asks the Secretary of Health and Human Services to establish a list of "developed" countries which have "adequate governmental health authorities" that, in effect, protect their citizens from unsafe, ineffective, or mislabeled drugs. Is it possible for the Secretary to objectively and accurately evaluate the competence and capabilities of trusted allies? Could the Secretary suffer the international embarrassment of leaving countries like Italy or Ireland off such a list?

The Senate bill fails to place any enforceable restrictions on the reexport of drugs, from countries to which export is lawful, to countries of the Third World. The FDA has

already testified that they could not stop the illegal reexport of drugs if given the authority.

The Senate bill purports to encourage the development of drugs for tropical diseases by permitting drug companies to ship inadequately tested products directly to underdeveloped countries.

The Senate bill doesn't develop comprehensive and uniform export policy for drugs and antibiotics. Banned or unapproved antibiotics could continue to be exported to Third World countries. If all the "safeguards" in S. 1848 are needed to protect foreign consumers of U.S. made, unapproved drugs, why aren't they needed for unapproved antibiotics exported by U.S. companies?

The Senate bill fails to address and correct documented labeling abuses involving U.S. approved drugs.

Mr. Speaker, it is true that most other nations permit the export of unapproved drugs and impose few if any restrictions. Is that justification to lower U.S. standards? Or, is it cause to encourage developed nations to enact export standands similar to the United States, take responsibility for the products they manufacture and demonstrate respect for the foreign consumers they serve?

The policies of the United States affecting the international community should convey our traditions of justice, compassion, and fair play. The legacy of this Nation is too important to mirror the image and judgments of other governments. The United States should be proud of its long tradition of attempting to provide foreign consumers of U.S. drug products the same standard of safety that it provides American consumers.

This philosophy, this legal standard, affirms in the clearest sense, our Nation's commitment to human rights. It confirms our commitment to the promotion of exports based upon the quality and safety of the product rather than pursuit of economic advantage.

Mr. Speaker, I expect the Subcommittee on Health and the Environment will begin hearings on this legislation early in the second session. The hearings will be comprehensive and deal with a wide range of issues affecting the production of unapproved drug products, the fair and safe promotion of U.S.-approved drug overseas, and the effect of U.S. export policy upon world health. There are numerous, important questions which are raised by this important legislation that must be answered.

Will a change in our export policy towards unapproved drugs generate new U.S. jobs? The drug companies first said 50,000 new jobs would be created, but then changed the estimate to 8,000. We will seek objective data.

Will the drug companies really close production facilities overseas and repatriate those jobs to the United States? They say so. We will investigate.

Under S. 1848, will the export of less-than-fully tested unapproved drugs for tropical diseases and other "health conditions * * * which do not exist to a significant extent in the United States" be a boon or a curse on the Third World? The drug companies say boon. We will investigate.

Do the foreign countries listed in this bill and S. 1848 have drug approval systems comparable to ours? We will determine which do.

Does the FDA take longer to approve a drug than other comparable foreign approval systems? If so, why? Is it because companies start testing in the foreign countries first?

Do biotechnology companies have to transfer important, and otherwise unattainable technology to foreign partners because they can't export unapproved drugs? Are there deficiencies in the protection such companies receive for their innovations from our patent laws?

Mr. Speaker, it is a major undertaking to evaluate these issues, but my subcommittee will do so. Without the answers to questions like these, Congress will not have sufficient information to determine whether legislation in this area is needed.

WISCONSIN ELECTRIC POWER: A WORTHWHILE PROJECT

HON. F. JAMES SENSENBRENNER

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. SENSENBRENNER. Mr. Speaker, Wisconsin Electric Co., a company which has consistently pressed for improved efficiency and has earned a place among the leaders of its industry, has recently announced a plan for making use of the latest technologies as part of a major $600 million commitment to upgrading its efficiency and reducing its impact on the environment.

The chairman of Wisconsin Electric, Charles McNeer, has estimated that overall his company's continuing improvements will result in a cumulative 50 percent reduction in sulfur dioxide emissions, combined with an increase in generating capacity of 64 percent in the 1970 to 1992 period, when the recently announced upgradings will be in place.

Of particular interest is the pioneering use of pressurized fluidized bed combustion technology at the Port Washington powerplant, which is in my district, which is part of the company's proposed program under the Federal Clean Coal Technology Program. At the Oak Creek plant, the company plans to add four units to atmospheric fluidized bed combustion, to make it the largest such plant in the world using this technology.

The 6-year project will mean a peak work force of 875 workers at the two plants.

I am submitting for the RECORD the text of Mr. McNeer's announcement, which gives the details of this far-reaching effort.

STATEMENT OF CHARLES MCNEER

For decades, Wisconsin Electric has been an industry leader in power production technology.

Our East Wells Power Plant was the first to burn pulverized coal. Lakeside Power Plant was the first in the world built solely to burn pulverized coal. Port Washington Power Plant was the most efficient in the world for more than a dozen years. Our Point Beach Nuclear Plant still ranks at the top of the list of most efficient nuclear units in the country.

Today we are here to announce another first for Wisconsin Electric and our industry, a series of steps that will ensure reliable energy supplies for our customers and a cleaner environment.

Public concern with the environment is strong. Wisconsin Electric shares that concern. Much of what we're describing for you today represents what we believe is a reasonable and cost-effective approach to acid rain concerns.

We believe there is more to be learned about the causes and effects of acid rain. But we also share the belief of many of our state's citizens that we can take reasonable steps now to reduce our emissions even further while we wait for research results and for national legislation.

The new technologies we're proposing for our plants are surely part of the overall answer.

Last February we announced plans to demonstrate the nation's first pressurized fluidized bed combustion system at our Port Washington Power Plant. An international funding effort is under way now so that we can proceed with that project.

Today we are announcing plans to build the world's largest atmospheric fluidized bed combustion plant, converting four of the generating units at our Oak Creek Power Plant to this new technology for the clean burning of coal. The conversion will reduce sulfur dioxide emissions by 90 percent from the four units which represent 500,000 kilowatts, or about 15 percent of our coal-fired capacity. The Oak Creek Plant is Wisconsin's largest coal-fired power plant.

Construction of four AFBC units at Oak Creek along with the use of lower-sulfur coal in all other major generating units on our system will decrease sulfur dioxide emissions from our plants by 42 percent compared to 1980 levels. That's a reduction of 90,000 tons of SO_2 per year. The figures are even more significant if we look back to 1970 and compare our system then to the system we'll have in place by 1992.

We will have achieved a 50 percent reduction in SO_2 emissions despite an increase in generating capacity of 64 percent. That's a reduction of 125,000 tons of SO_2 per year.

Besides taking steps to reduce emissions, our plans call for modernizing the other units at Oak Creek and Port Washington to extend their lives.

Total cost of this modernization and clean-air effort will be about $600 million. For our investment, we'll be getting a cleaner and more efficient generating system. Further, a peak workforce of 875 construction people will be involved over the six years of work. About 700 workers will be utilized at Oak Creek; 500 for the AFBC project alone. At Port Washington, it will mean a peak construction workforce of 175 workers.

This is our blueprint for Wisconsin Electric's future, ensuring a cleaner environment and promising reliable electricity supplies for our customers. And it's less costly than other options for achieving such significant emissions reductions and maintaining adequate energy supplies.

So not only will our plan address acid rain concerns, it will also extend the lives of several of our generating units to promise reli-

able generating supplies and it will do all this without a financial burden on our customers. In other words, it will keep Wisconsin competitive in terms of economic development, improving our economic environment at the same time we enhance the quality of our natural environment.

SAVE THE FAMILY FARM

HON. JOHN CONYERS, JR.

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. CONYERS. Mr. Speaker, I along with several of my colleagues have taken it upon ourselves to write the conferees on the continuing resolution to urge them to support the Farm section in that measure. This section begins to map out a plan for recovery in rural America, something that is essential to the social and economic health of the country. At this time, I would like to submit this letter along with the relevant continuing resolution language into the RECORD.

HOUSE OF REPRESENTATIVES,
Washington, DC, December 13, 1985.

DEAR CONFEREES: Under the leadership of House Appropriations Chairman Jamie Whitten, the House approved language in the continuing resolution which would be a major step toward solving the crisis in rural America, while saving billions of dollars in unnecessary appropriations. We write to express our strong support for maintaining the agriculture provisions, sections 105 and 106, contained in the House Continuing Resolution.

Section 105 directs the Secretary of Agriculture to use existing law to implement the Commodity Credit Corporation for the loan program upon which farm commodity prices are set. This would establish a fair price based on the cost of production. It provides for commodity payment by the commodity purchaser rather than by Committee appropriation. It has been the law for the past forty years, and has been proven effective in promoting a prosperous agriculture in America.

Section 106 recognizes the burden placed upon the family farmer by the embargoes during the past decade and, in that regard, requires the Secretary to adjust principle and interest on outstanding loans on a case by case basis depending on the extent to which the farmer was unfairly hurt due to foreign policy. Also, this section modestly establishes a 12 month moratorium on foreclosures until the Secretary determines the exact amount due to the farmer.

In the midst of our nation's severe budget crisis, we can no longer afford to have farmers depend on the Treasury for survival. At best that is only a band-aid solution. The farm dollar should not come from the Appropriations Committee: it should come from the market. Twenty-two million rural and urban jobs are ultimately at stake.

Maintaining sections 105 and 106 in the continuing resolution will return prosperity to rural America. This historic legislative initiative is essential to the survival of our nation's farmers.

Sincerely,

JOHN CONYERS, Jr.,
JAMES WEAVER,
EDOLPHUS TOWNS,
MICKEY LELAND,
Members of Congress.

H.J. RES. 465

SEC. 105. In view of the financial crisis facing many farmers, resulting from embargoes and suspension of exports in 1973, 1974, 1975, and 1980, and failure to use the Commodity Credit Corporation for a loan program which led to a fair price from the user, the Secretary of Agriculture shall use his authority under existing law to provide for nonrecourse loans on basic agricultural commodities at such levels as will reflect a fair return to the farm producer above the cost of production, and to issue such regulations as will carry out this provision and as will provide for payment by the purchaser, rather than by appropriation, for basic commodities sold for domestic use and the Secretary of Agriculture shall issue such regulations as will enable producers of any basic agricultural commodity to produce the amount needed for domestic consumption, to maintain the pipeline, and to regain and retain by competitive sales our normal share of the world market.

REINSURANCE KEY TO INSURANCE CRISIS

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. FLORIO. Mr. Speaker, in the current crisis in the unavailability of liability insurance, an important factor is the availability of reinsurance. Reinsurance is not subject to the same degree of State regulation as is insurance, and foreign companies play a significant role in the reinsurance market. Members who are concerned about the insurance crisis should be aware of the reinsurance situation. It is a matter my subcommittee will be examining in our insurance inquiry. An article on this subject from Business Week follows.

NOW EVEN INSURERS HAVE A HARD TIME GETTING COVERAGE

Property and casualty insurers, after six years of debilitating cutthroat competition, have finally been able to post higher premiums and make them stick. But now they're finding themselves with a supply-side crisis. They can't write as much new business as their corporate customers want to buy, and some can't even renew existing policies. The trouble this time: They, too, are being faced with the equivalent of a supply squeeze in the amount of reinsurance they can buy.

Little-known and even less well-understood, reinsurers are insurers of last resort who back up the primary policy-writers and one another. By turning over a portion of their premium income to reinsurers, insurance companies can spread their risks and increase their capacity. Last year the reinsurers' share was $11.3 billion, 10% of premium income.

In recent years, however, reinsurers have paid out much more to primary insurers and to each other than they ever expected, producing large losses on some accounts and overall declines in their performance (chart, page 129). Fed up, they are demanding price increases ranging from 50% to 500% this year. And both reinsurance and primary insurance prices, predicts Thomas R. Tizzio, president of the domestic brokerage division at American International Group Inc., "will go up even farther in the first six months of 1986."

NASTY SURPRISES

Despite steep price hikes, reinsurers have shrunk from the risks of taking on much new business—or have withdrawn from the U.S. market altogether. Among those turning their backs are some foreign reinsurers, including members of scandal-shaken Lloyd's of London, the world's main reinsurance exchange (BW—Nov. 25).

Reinsurers cite skyrocketing court judgments in the U.S. as the main reason for walking away. They also claim that they are being forced to shell out for damages they never thought they were covering—those related to products such as asbestos and Agent Orange that weren't seen as massively hazardous at the time the policies were written. "We cannot price for future generous court awards," says Michael G. Fitt, chairman, president, and chief executive officer at Employers Reinsurance Corp., a U.S. company that has abandoned a number of high-risk lines of insurance. "And we cannot price for future social goods decided by the courts."

Faced with new uncertainties, a lot of reinsurers are abandoning the business. That is particularly true on the product liability side, where "fifteen months ago 120 companies were writing reinsurance. Now there are only 50 to 60 left," says David J. O'Leary, research director for Fox-Pitt, Kelton Inc., a stock brokerage firm specializing in insurance.

As reinsurers pull back, insurers are finding it harder to meet the insurance demands of commercial clients. "A lot of good industrial companies used to easily get $200 million to $300 million in liability coverage," says Donald A. Thomas, executive vice-president of Crump Cos. "Now they're lucky to get $50 million, and even then we want more money up front in premiums."

Union Carbide Corp., for one, had an estimated $300 million in liability insurance before the Bhopal disaster, which has let loose a flood of lawsuits. Now, industry sources speculate, Carbide might find its policies impossible to renew.

GIANT GAP

Even companies with much better records are having trouble. The Insurance Services Office, an industry trade group, estimates that the gap between insurance offered and the coverage corporations ought to have will be as high as $62 billion over the next three years. Even at steeply escalated rates, the group calculates, the industry's premium income in 1987 will fall 18% short of the amount business customers would be willing to pay.

As one response, primary insurers and reinsurers alike are engaged in an allout assault to reduce their exposure in the courts. They're also trying to institute new types of policies limiting future liability. Several are backing federal legislation being drafted by Senator John C. Danforth (R-Mo.) that would cap court awards. Whether these approaches will work is an open question. "There's a lot of talk, but our judicial system is very flexible. I don't see it changing," says Wolfgang J. Buettner, president of American Intermediaries Inc.

THE DUMB FACTOR

A number of industry experts are less quick to lay exclusive blame on the courts. "The capacity shortage is a direct result of

reinsures failing to do our job and underpricing our product, [while] the losses are piling up," says Crump's Thomas. He traces the problem to the mid-1970s, when high prices and market opportunities attracted a flock of new entrants to the reinsurance business—ranging from small companies to traditional insurer and even huge corporations such as Phillips Petroleum Co., which set up a foreign insurance-writing subsidiary.

The lure was easy money—premium income that could be invested in the high-yielding bonds of the time. Reinsurers often seemed cavalier about the risks that they were helping to underwrite. After all, a reinsurer pockets premium income from a primary insurer up front, and loss claims usually don't start rolling in until years later.

In the ensuing competitive fracas, however, "Many of the new players cut prices, grabbed for market share, but didn't understand the risks," says Joseph R. Aspland, general manager of the reinsurance division of Allstate Insurance Co. "I call it the 'dumb factor.'" Most established reinsurers were equally guilty of price-cutting, however, as they fought to preserve market share.

Stung by unexpected losses, a number of companies, including Phillips, left the business. More worrisome, about 31 insolvencies have been recorded in the past two years (page 134). Most recently, Mission Insurance Co., a unit of Mission Insurance Group Inc., was declared insolvent by the California Insurance Dept. in October, largely because of its reinsurance woes. "It became a more significant player in the reinsurance business at the wrong time," notes Richard M. Haverland, a Mission director and executive vice-president at a unit of American Financial Corp., which owns 49.9% of Mission. State regulators are negotiating with AFC—itself controlled by investor Carl H. Lindner—to bail out Mission.

With even a big company like Mission insolvent, insurance companies have grown as queasy about their reinsurers as the reinsurers are about sharing risks with insurance companies or each other. So insurers have embarked on a wholesale flight to quality. And that is aggravating the capacity crunch. The trend is "benefiting the big reinsurers," says John L. Gilbert, a New York reinsurance broker. "They know it, and right now they're charging a high price to do business with them."

No one expects large amounts of new supply to close the insurance gap anytime soon. Reinsurers familiar with the situation in the U.S. are just too nervous to begin another round of aggressive marketing. But a new batch of foreigners has begun to evince that old fatal attraction for the U.S. market. Now that reinsurers have jacked up prices so high, reinsurers from Finland, Sweden, and West Germany have made tentative forays here. Meanwhile, a few domestic manufacturers have begun setting up self-insurance units.

For some industry watchers, these new entries are evidence of a suicidal flaw in the market. In the rueful view of American Intermediaries' Buettner, "Reinsurers can't stand prosperity, and every time prices improve, someone tries to raise their market share by cutting prices." But until that day comes again, the outlook is for a continuing capacity shortage and costlier coverage for U.S. businesses—whose need for insurance is growing all the time.

MEDICAL MALPRACTICE: COSTING US ALL

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. PORTER. Mr. Speaker, our expensive, inefficient, and inequitable system of medical malpractice insurance and recovery is a problem which already significantly affects the cost and quality of health care throughout the country and mounts in seriousness every year.

Even with recent tort reforms in many States, including my home State of Illinois, the costs of malpractice insurance coverage are going through the roof. With yearly insurance premiums up to $80,000, no wonder that many fine doctors are asking themselves if they can afford to continue using their talents and training to deliver babies, to set broken bones, and to perform neurosurgery.

The consumer ultimately pays the bills for malpractice insurance as well as the hidden costs, amounting to billions of dollars annually, of defensive medicine and expensive tort litigation. These costs must be controlled.

We must focus simultaneously on quality control of those few unprofessional doctors and tort lawyers whose actions ultimately hurt everyone.

New data being collected for Congress by the GAO should help guide our policy decisions on a package of reforms to insure the continuing availability of good medical care for everyone.

NEW GI BILL ALREADY A SUCCESS

HON. G.V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. MONTGOMERY. Mr. Speaker, although the new GI bill has only been in effect since July 1, 1985, it is already doing what so many of us said it would do—that is, bring more high quality young people into the National Guard and Selected Reserve. The following letter from Col. Claude Holland of the Military Department of the State of Mississippi, is typical of those I have received since the July 1 startup date for this new educational assistance program. The word is out that in exchange for a 6-year commitment in the Guard or Reserves, a young man or woman will receive $140 a month for 36 months in education benefits.

The National Guard and Selected Reserves are the initial and primary source for augmentation of the Active Forces in any future emergency requiring a rapid and substantial expansion of the Active Forces. As such, it is critical that the Guard and Reserves stay fully manned by high quality personnel. As reflected by the letter from Colonel Holland, the availability of the new GI bill is already enabling the Guard and Reserves to achieve this goal.

STATE OF MISSISSIPPI,
MILITARY DEPARTMENT,
Jackson, MS, December 3, 1985.

Hon. G.V. MONTGOMERY,
House of Representatives, Rayburn House Office Building, Washington, DC.

DEAR MR. MONTGOMERY: Your recent contribution to the National Guard, "The New G.I. Bill", has proven to be a most effective recruiting incentive for the Mississippi Air National Guard. With the aid of this program, the recruiters from the three Air Guard bases throughout the state are enlisting above average young people to bear a proud heritage.

On June 11, 1986, more than fifty of these individuals will depart Mississippi for Lackland AFB, Texas, to begin basic training. From that point forward, they will carry the distinction of being a member of the "Mississippi Magnolia Flight".

A luncheon is being planned for the day of their departure to honor members of the "flight" and their families. The local media will also be invited to attend.

This event would be greatly enhanced by your presence as guest speaker. If this request can be worked into your busy schedule, the program will remain flexible to accommodate your needs.

Thank you for your consideration into this matter, and as always I remain.

Sincerely,

CLAUDE A. HOLLAND, Col, MS ANG,
Executive Support Staff Officer.

FAREWELL TO MR. SABA QURAISHI

HON. MERVYN M. DYMALLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. DYMALLY. Mr. Speaker, for the past 4 months Mr. Saba Quraishi undertook an internship in my Washington office. I wish to take this opportunity to share with the membership of this House my appreciation of this young man's services.

Mr. Quraishi is a student at the University of California, Santa Barbara campus. He chose to learn about the operations of Congress on a voluntary basis in lieu of a semester in school. That is a sacrifice worth noting, and one that earned him a position on my staff.

Unfortunately, all good things end at some point. It has been a pleasure, however, for me and my staff to have worked with this student during his internship. His contributions to the constituents of the 31st District of California are greatly appreciated. Mr. Quarishi was responsible for gathering support for a minority business piece of legislation I offered. In addition, he assisted in responding to constituent requests and correspondences, and monitored the operations of the House Subcommittee on Asian and Pacific Affairs.

Mr. Speaker, since coming to Congress I have established a reputation for constant employment of congressional interns and

fellows. I am proud to say that most of them have been of top quality. Mr. Quraishi certainly added to that record. The faculty and administration at the University of California-Santa Barbara should be pleased with the efforts of this student, and I commend them for the education they have provided to this individual. He certainly will be a welcomed addition to the University of California-San Diego where he was transferred. My service in Congress has benefited from him, and I hope that this internship has benefited his education.

Mr. Speaker, I urge Members of this body to join me and my staff in thanking Mr. Quraishi for his contributions to this Congress, and wish him all the best in his future endeavors. Thank you Saba and best wishes.

ORTEGA'S MINIONS CENSOR THE POPE

HON. BOB LIVINGSTON

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LIVINGSTON. Mr. Speaker, the Sandinista regime in Nicaragua continues its repression of the church in Nicaragua and of those who try to speak and print the truth, rather than the party line established by the Marxist Sandinistas. The Sandinista regime's edicts require that everything to be published in Nicaragua be reviewed by the censors in the Sandinista Government's communications office. You can print only what they let you print and only when they let you print it. The decisions are completely arbitrary—today you cannot print it, or maybe tomorrow you can print it, or maybe you cannot print it, but you can read it on the radio once, and so on. The Boston Globe of December 12, 1985, carried an article which shows just one example of the arbitrary repressiveness of Daniel Ortega's Sandinistas censors.

The article follows:

[From the Boston Globe, Dec. 12, 1985]

NICARAGUA CENSORS LETTER FROM POPE, THEN RETRACTS AND ALLOWS PUBLISHING

MANAGUA, NICARAGUA.—Government censors deleted most of a letter from Pope John Paul II about tensions between the church and state, then allowed its publication and broadcast in full, radio and newspaper spokesmen said.

The letter, sent by the pope for Monday's celebration of the Day of the Immaculate Conception, urged church leaders to not be discouraged by "intimidation and criticism of ministers" in Nicaragua.

The manager of Radio Catolica, Alberto Caraballo, said the letter "was mutilated by censors last Dec. 7 and we decided not to transmit it that way, since our interpretation was that the government did not want the people to know the true message from the pope."

Caraballo said the government censorship bureau, known as the Office for Communications Media, later ordered that the letter be broadcast in full "but only one time, which we did Tuesday at noon."

Sources in Radio Catolica, who spoke on condition of anonymity, said Nicaraguan bishops had protested to President Daniel Ortega over the censorship and insisted that the letter be made public.

Capt. Nelba Blandon, director of the communications office, said Tuesday, "We have not prohibited publication or diffusion of the letter from the pope."

But she added that by law anything that is to be published in the country must be reviewed by her office.

Jamie Chamorro, director of the opposition newspaper La Prensa, said the newspaper sent the letter to the censorship office last Saturday with material to be published that day.

He said the government then closed the newspaper for two days because it disclosed to other journalists material that censors had eliminated from the newspaper. The letter was published in Tuesday's paper, he said.

The pope said in the letter that "in recent weeks difficulties in pastoral action . . . have increased." He added that he holds "the firm hope that the existing problems can be resolved soon in a satisfactory manner."

PERMANENT SOLUTIONS TO TOXIC WASTE MUST BE FOUND

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. FLORIO. Mr. Speaker, one of the most important initiatives contained in the Superfund reauthorization legislation (H.R. 2817) recently passed by the House is language mandating the implementation of permanent treatment technologies for cleanup of toxic wastes whenever such solutions are feasible and achievable. As we prepare to go to conference with the other body, the importance of retaining these provisions in the final legislation cannot be underemphasized.

A recent incident in Charlevois, MI, provides an excellent example of the need for the Congress to require the Environmental Protection Agency [EPA] to undertake permanent solutions to such toxic hazards. Some 30 years ago, a spill of the deadly chemical trichloroethylene [TCE] began to seep into the town's ground water. The site of the spill was eventually placed on the Superfund national priorities list.

Unfortunately, when it came time to formulate cleanup plans for this site, EPA announced that it planned to simply allow the chemical to be gradually absorbed into Lake Michigan rather than undertaking any measures to remove it from the ground water. This inadequate remedy has been vigorously protested by Michigan's Governor and other State officials.

The inadequate remedy proposed by EPA at Charlevoix is just the kind of proposal that would be prevented by the Superfund legislation we recently passed. I commend a recent article from the New York Times describing the controversy to my colleagues' attention.

[From the New York Times, Nov. 29, 1985]

MICHIGAN CHEMICAL HAZARD LEADS TO DISPUTE

CHARLEVOIX, MICH., Nov. 28.—A chemical believed to cause cancer has been seeping into underground water supplies here, and Gov. James J. Blanchard and the Federal Environmental Protection Agency are disputing how the problem should be handled.

Traces of the chemical, trichloroethylene, or TCE, which is used to dryclean clothes and degrease machinery, were found in the Charlevoix water system four years ago.

The amount of material did not present an immediate health hazard, Federal officials said, but they decided an alternative water source would be necessary.

The environmental agency designated the town's water problem as No. 359 on its list of 538 contaminated sites around the nation eligible for special cleanup funds. Under that program, the agency is financing a $3.5 million plant that is to provide this resort town with clean, treated water from Lake Michigan.

POINT OF DISPUTE

Although the Governor and the agency agreed on the need for the water treatment plant, they disagree on what should be done with the contaminated ground water that remains.

E.P.A. researchers said a drum of the chemical was apparently dumped on the grounds of the Charlevoix Middle School about 30 years ago. It seeped into the ground and eventually reached the well that supplies the town with drinking water. The well is about 400 yards west of the school and 100 yards from Lake Michigan.

In June the environmental agency recommended that the chemical be left to seep naturally into Lake Michigan and called for regular monitoring. Jack Kratzmeyer, remedial project manager in the E.P.A.'s Chicago office, said the process would take about 50 years. He said the chemical would not pose a health hazard so long as no one drank from any wells in the area between the school and the lake. The program would cost $160,140, the agency said.

GOVERNOR'S CRITICISM

Mr. Blanchard opposes the agency's plan. He says it is the first time the E.P.A. has decided not to remove a hazardous chemical from a cleanup site in the Great Lakes region.

"Letting the contaminant remain until it is finally sponged up in the lake sets a dangerous precedent for the Great Lakes basin," he said in a recent interview. "I will go to Washington myself to exert all the influence I have in Congress, where I served four terms, to persuade the E.P.A. to change this decision."

David Dempsey, the Governor's environmental specialist, said in a telephone interview from Lansing, "It means nothing that the TCE can't be detected in the lake now because it will show up in the fish eventually."

"But it isn't just a question of public health," he added. "The real question is whether we have a clean environment in and of itself, for its own sake."

PLAN IS DEFENDED

Mr. Katzmeyer of the Federal environmental agency defended the E.P.A. plan.

"I think our decision is entirely consistent with the law which governs cleanups," he said in a telephone interview. "The levels of TCE that reach the lake now are not detect-

able by any means now available, because the plume is so wide and diffused.

"We have been running tests constantly in the area out in front of the present well and where we are installing the intake for the new system," he added, "and at no time have we been able to detect any TCE."

He said it would cost $4.4 million to pump up all water containing any trace of the chemical and clean it.

A FIRST STEP IN GUATEMALA: WE SHOULD HELP THE DEMOCRATIC PROCESS

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. BROOMFIELD. Mr. Speaker, I am hopeful that progress along the road to democracy in Guatemala will continue. Given the fragile nature of this first step, however, that problem-plagued country needs our help in many respects. We must do all that we can to ensure that the flame of democracy continues to burn in Guatemala. Helping Guatemala is a risk worth taking.

The recent election of Marco Vinicio Cerezo Arevalo bodes well for the movement toward democracy in Guatemala. The elections were free and the voter turnout was impressive. He is a brave Christian Democrat who is determined to make Guatemala a better country. The military, however, is still a powerful force in that poor country.

Over the years, human rights violations in Guatemala have been numerous and regrettable. The Indians in the highland areas of Guatemala have suffered much. In that region, leftist guerrilla groups operate against Government security forces. Thousands of innocent Indians have died in that insurgency. The indiscriminate use of force and insensitivity to the human rights of the mountain people by both parties in that struggle have been the cause of severe problems in that area. Guatemalan police have also created problems in the human rights area. Exposure to U.N. antiterrorism techiques and giving human rights sensitivity training to police units will help reduce some of the problems in that long-suffering country.

Earlier in the year, the administration sent to the Congress H.R. 3462, the Central American Counterterrorism Act of 1985. It provides counterterrorism training for civilian police and military antiterrorism units in certain Central American countries to include Guatemala. The Senate version of that proposal eliminated training for military units. Aid to the Guatemalan police is severely restricted.

The proposed legislation requires that the President certify to Congress that an elected civilian government is in power and that the new Government in Guatamala has made progress toward controlling the military and ending human rights abuses by security forces. The proposal also requires that the President report to Congress that the security forces in Guatemala and countries in Central America are not engaged in systematic human rights violations. Also included is a provision that the concerned governments are making progress in creating law enforcement agencies and judicial systems that investigate and prosecute criminal acts, and that the aid will achieve the purpose of professionalizing independent police agencies.

Given, the history of repressive military rule in Guatemala, some conditions on assistance of this nature appear to be appropriate. While there are certain inherent risks in providing aid of this kind to Guatemala, the planned training program will serve to reform the security forces whose present performance and behavior leave much to be desired. It is essential that the military and police units in that country be part of this reform effort. Of great importance is the fact that the program has a large human rights component in its training schedule.

We must do all that we can to encourage the ongoing democratic trends in Guatemala. Guatemalan security forces need our help. They have a long way to go. Although we cannot be absolutely sure of the final outcome of this training effort, we must take a chance and work with Guatemala in this important area of counterterrorist training. It is a risk worth taking.

I urge my colleagues to support the Senate version of the President's Central American Counterterrorism Act of 1985 when it is considered in the House.

With these comments in mind, I commend the following New York Times editorial on democracy in Guatemala to my colleagues in the Congress.

[From the New York Times, Dec. 12, 1985]

A NEW CHANCE IN GUATEMALA

For Guatemala, now comes the hard part. The military, in power for most of 31 years, has honored its promise to permit the free election of a civilian president. The vote seems to have been fair. The victor, with the highest vote total in history, is an attractive center-leftist, Marco Vinicio Cerezo Arévalo, and he pledges to take charge without vengeance against the military for its murderous rule. If he succeeds, it will be a tremendous advance for democracy in Central America's largest, most developed country.

Success is far from certain. Mr. Cerezo plainly does not lack for courage; three assassination attempts failed to deter his candidacy. "The only way they are going to get me out of the palace is to carry me out dead," he defiantly proclaims. But in fact he has trimmed a bit, running a conservative campaign. His Christian Democratic Party promised to respect landowners and financial interests, to try no one for human rights violations and to let the military manage counterinsurgency. A new Constitution leaves the armed forces in control of local government and legalizes the resettlement of Indians into "model villages" and their conscription into civilian patrols. Human rights abuses against urban citizens may now decline, but what relief can be expected in the countryside?

Swollen military budgets and endless warfare have contributed to a severe economic crisis. Foreign lenders and donors will feel more comfortable about helping a civilian Government, but until priorities are reordered, new money may not make much difference. Mr. Cerezo, an admirer of Clausewitz, suggests that his deference to the military is part of a grand strategy, yielding to realities. That judgment, backed by the voters, should not be second-guessed from afar. Americans join in hailing his victory, and his promise.

A PICTURE OF AN ECONOMY WITHOUT MASSIVE DEFICITS

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. PORTER. Mr. Speaker, the Commerce Department estimates that our Nation's GNP grew 3.3 percent in the third quarter.

New car purchases and Government spending led the rise. The auto companies offered below market interest rate financing and consumers responded.

Of course, Mr. Speaker, the auto companies can't offer cut rate financing forever. Eventually they will be forced to return to our still relatively high market rates. Those rates are the price that our Government must pay to convince free people to invest with Uncle Sam. They are the price of financing a $2 trillion national debt increasing by over half a billion dollars a day.

With a balanced budget, Mr. Speaker, those rates would drop and the growth we have just seen in auto sales would occur throughout our economy.

Congress, however, has avoided painful deficit reduction, preferring the politically safe approach of deficit stimulus even during a period of relative prosperity. Our economy, Mr. Speaker, wallows in mediocrity because of high interest rates, and Congress is to blame. We have met the enemy and he is us.

CONGRESSMAN AUGUSTUS F. HAWKINS COMPLETES 50 CONTINUOUS YEARS IN ELECTED OFFICE

HON. MERVYN M. DYMALLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. DYMALLY. Mr. Speaker, in 1935, 249 Members of this 99th Congress has not yet been born. Franklin D. Roosevelt had recently replaced Herbert Hoover as President, and Roosevelt had begun many of the programs that for the past 50 years have shaped U.S. domestic policy; 1935 was the first year of Social Security. Back then each Member of Congress represented about 280,000 people rather than the approximately 550,000 each of us now represent. The fastest passenger plane, the new DC-3 could get a person to California in about 18 hours of flight time. If you wanted to go to Europe you took a dirigible. Mass produced automobiles had been around the United States for only 27 years,

and the assembly line was only 22 years old.

In fact, the automobile itself was less than 50 years old. It was 12 years before Gen. Chuck Yeager first broke the sound barrier, 22 years before humans first put something in space, and 34 years before a human being walked on the Moon. The Presidential likenesses on Mount Rushmore were still being sculpted. There was no atom bomb. Martin Luther King, Jr., was 6 years old. We are often so caught up in the rush forward that we take little time to look back and realize just how many changes our world has undergone in 50 years. A milestone event occurred in this year of 1985 that has given me pause to look back. You see, this year marks the 50th continuous year that our respected friend and colleague AUGUSTUS HAWKINS has held elective office. He has never lost an election.

He won a seat in the California State Assembly on his first try, defeating a Republican incumbent who had held the seat since 1919. Congressman HAWKINS served in the State assembly for 28 years before coming to Congress in 1962. He was during those 28 years the author of many ground breaking pieces of legislation. And those outstanding legislative accomplishments foretold the mission of advocacy for laborers that would mark his career in the U.S. House of Representatives. Among other things, those important pieces of legislation set a minimum wage for women, created workman's compensation for domestics, disability insurance, low-cost housing for the poor, fair housing practices, an old age pension, fair employment practices, and child care centers.

In the assembly, Mr. HAWKINS rose to assume key chairmanships that made him one of the most powerful members of the assembly. He was chairman of the rules committee as well as chairman of the senate and assembly joint legislative organization committee, the primary committee position in the State legislature. His decision to seek a seat in Congress was especially significant for me. I won the seat he vacated. In effect, I owe the beginning of my political career to AUGUSTUS HAWKINS, and I am thankful for the long and warm friendship I have shared with him.

In the Congress, AUGUSTUS HAWKINS' name is associated with legislation that has provided opportunity for the disadvantaged of the country. Congressman HAWKINS was a primaray author of the Comprehensive Employment and Training Act, the major Job Training Program of the Federal Government from 1978 to 1982. He also guided the Job Training Partnership Act, the successor to CETA to final passage in 1982. Each year when we debate the budget on the House floor, time is set aside to discuss the ideals reflected in the Humphrey-Hawkins Full Employment and Balanced Growth Act. Mr. HAWKINS is the HAWKINS of Humphrey-Hawkins. The law, Public Law 95-523, has served for nearly a decade to define the ultimate Federal goal in the jobs area: full employment and balanced growth. Based on legislative accomplishment in the field, no Member of Congress is more qualified to hold the chairmanship of the Education and Labor Committee than is Chairman HAWKINS.

As a member of the Congressional Black Caucus, I think it significant to point out to my colleagues that AUGUSTUS HAWKINS, with 22 years of congressional service, has served the people of the country longer than any other present black Member of Congress. He is the 27th black person in our Nation's history to serve in the House of Representatives. I hope to have the good fortune to be a Member of this body on that day in 1990 when the members of the Black Caucus will raise a toast to celebrate the fact that AUGUSTUS HAWKINS, in his 55th continuous year in elected office, will have served in the Congress longer than any other black person in history. If I am here on that day it will be in large part because I have tried to live up to an ideal defined by Congressman HAWKINS' own view of public service:

The leadership belongs not to the loudest, not to those who beat the drums or blow the trumpets, but to those who day in and day out, in all seasons, work for the practical realization of a better world—those who have the stamina to persist and to remain dedicated. To those belong the leadership.

U.N. CONDEMNS TERRORISM

HON. JOE BARTON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. BARTON of Texas. Mr. Speaker, on December 9, 1985, 118 members of the U.N. General Assembly voted in favor of a resolution condemning terrorist acts as criminal. The only dissenter was Cuba; a haven for airline hijackers for years. Although the U.N. resolution is symbolic in nature, it is noteworthy in that this is the first time the United Nations has fundamentally condemned terrorism.

The U.S. Ambassador to the United Nations, Gen. Vernon Walters described the resolution as, "a symbol of new times." With 70 percent of International acts of terrorism in the last year directed at U.S. citizens, it is time to turn symbolism into action. The people of this great Nation deserve to be protected when outside of our borders and should not be at the mercy of barbarous thugs who commit acts of terrorism. Countries who support and encourage terrorism should not be treated as our friends.

The representatives of such criminal governments as Iran, Syria, and Libya all of whom voted for the resolution, need to demonstrate their commitment to fight terrorism. My colleague from the other side of the aisle, MORRIS UDALL and I have introduced H.R. 3661, the Anti Terrorism Trade Preference Act of 1985, which will put teeth into our rhetoric on combating terrorism. The bill would deny trade preferences to countries that support terrorism.

International terrorism and atrocities aimed at Americans must not be tolerated and the countries responsible must be punished. I encourage my colleagues to support H.R. 3661.

The following is the Washington Times article on the U.N. vote to condemn terrorism:

[From the Washington Times, Dec. 10, 1985]

U.N. OKs ANTITERROR RESOLUTION—ITS FIRST

(By Narayan Keshavan)

NEW YORK.—The U.N. General Assembly yesterday approved by consensus a resolution that condemned terrorist acts as "criminal"—the first time the world body has unequivocally passed such a resolution condemning terrorism.

The resolution was hailed by U.S. Ambassador to the United Nations Vernon A. Walters, who said it was "a symbol of new times."

"Every country has felt this in its flesh," Gen. Walters said.

The U.N. text loosely defined terrorism as "acts . . . in all its forms which endanger or take innocent lives, jeopardize fundamental freedoms and seriously impair the dignity of human beings."

Yesterday's vote in the General Assembly came after the assembly's legal committee on Friday overwhelmingly approved it by a vote of 118 to 1, with Cuba voting against it.

A Western diplomat, speaking privately after yesterday's vote, said he understood other members of the 101-member Non-Aligned Movement had been furious with Cuba, which apparently found its isolation in Committee "not so splendid."

After the assembly adopted the anti-terrorism resolution yesterday, there was a sharp exchange of words between the Israeli delegate and other Middle Eastern representatives.

Israeli Ambassador Benjamin Netanyahu charged that terrorists have continued to murder people "because for years they have gotten away with murder."

"Some of the states that voted for resolution are the worst offenders," Mr. Netanyahu said. "They don't prosecute terrorists, they defend them. They don't prevent hijackings, they encourage them. They don't extradite terrorists, they give them villas and cash bonuses."

Mr. Netanyahu deplored the attempt to legitimize terrorism by linking it to "a struggle for self-determination."

Israel had abstained on the voting in the committee because the resolution referred to self-determination. However, Israel yesterday joined other member nations in unanimously approving the resolution.

The resolution's preamble reaffirms the "inalienable right to self-determination and independence of all peoples under colonial and racist regimes and other forms of alien domination" and upholds "the legitimacy of their struggle, in particular the struggle of national liberation movements."

However, the paragraph says the struggle must be "in accordance with the purposes and principles of the [U.N.] Charter."

Zehdi Labib Terzi, the observer from the Palestine Liberation Organization, praised the resolution and claimed that his organization was against terrorism. He then urged the international community to force Israel to halt "its terrorist activity against the people in the occupied territories."

It was "ironic," as one Western diplomat put it, to hear Iran, Syria, Libya, the PLO and Iraq—all at one time or another sus-

pected of backing terrorism—speak out against acts of terror.

Israel's Mr. Netanyahu stated that he could not but chuckle when hearing statements from delegates of those nations who are "pioneers of terrorism."

HOUSE OF REPRESENTATIVES
Washington, DC. November 1, 1985.

DEAR COLLEAGUE: Terrorism against the United States and her citizens is a cruel reality that must be addressed. Recently we have witnessed the hijacking of a TWA airliner and an Italian cruise ship. In both instances, terrorists selected innocent Americans for torture and murder. According to the FBI, 50% of the international terrorist incidents since 1968 were directed at Americans.

In some cases, the criminal acts of terrorism are the work of individuals and organizations that have little support in the world community. Their acts properly receive the condemnation of civilized people throughout the world.

However, the specter of state-supported terrorism has arisen in recent years. There are nations that support terrorism and the time has come for the U.S. to take direct action to force them to cease their support for terrorist organizations. The U.S. is a nation of great economic power and we feel that it is entirely appropriate that to use our economic power as a weapon against international terrorism.

The legislation that we propose would repeal trade preferences to nations that support terrorism. We were both surprised and disturbed to discover that some of the most criminal governments in the world, including Iran, Libya, and Syria, enjoy Most Favored Nation (MFN) status with the U.S. Our legislation would repeal MFN status for nations that support terrorism and subject them to higher tariffs and trade restrictions. This is the very least our nation can do to punish these criminal governments. Special trade preferences should be reserved to our friends and allies, not nations that are attempting to murder our citizens.

H.R. 3661, the Anti-Terrorism Trade Preference Act of 1985, would do three things: First, require the Secretary of State to maintain a list of countries that support terrorism and notify Congress whenever a country is removed from or added to the list. The Secretary already maintains such a list for other purposes. Second, deny trade preferences to any country on this list. Third, grant the President authority to waive this proscription if he finds that it is not in the national interest.

Senator Lloyd Bentsen (D-Texas) has introduced identical legislation in the other body. This is important legislation that should become public law. We believe that this bill could be a first step in the formulation of a broad strategy to combat terrorism against Americans.

Any Member who wishes to be a cosponsor of H.R. 3661, the Anti-Terrorism Trade Preference Act of 1985, should call Joe Kelliher at extension 5-0486.

Sincerely,

JOE BARTON,
MORRIS UDALL,
Members of Congress.

BLACK AMERICAN WEST MUSEUM

HON. PATRICIA SCHROEDER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mrs. SCHROEDER. Mr. Speaker, the December issue of Odyssy West magazine has a profile on the Black American West Museum in Denver.

The museum was started by Paul W. Stewart, who has a collection of over 35,000 pieces of black American history. It is a truly outstanding collection, and I am pleased Odyssy West has given it the recognition it deserves.

DENVER MUSEUM LINKS THE PAST WITH THE PRESENT

(By Mary Jackson)

During the two years with Lincoln, the two became very close. "We drink from the same canteen," is the inscription on a pin Lincoln gave to him. During the Civil War, several mines and "watering holes" were owned by Blacks, where Black and White men stood side by side toasting the fruits of their labor.

When you walk into the Black American West Museum you can't help but get lost in the past, in the rich history and heritage of Black Americans. You can't help but wonder what life must have been like for those who helped to shape this country. You can't help but wonder how it took the sweat of their brows to harvest the land, and the ingenuity of their spirit to deal with Indians on a long, lonesome wagon train across barren land to a better life. And you can't help but feel what we take for granted would have been a luxury for them. After all, much of this history has been deleted from America's history books and much of this history has remained untold.

But much of this history has been the pride and joy of one man, and is on display in the Five Points area of Denver.

The Museum began as the personal hobby of Paul W. Stewart, who after meeting a Black cowboy in his early years vowed to uncover all the material he could on other Black pioneers. His search has taken him to nearly every corner of the West, gathering personal artifacts, memorabilia, newspapers, legal documents, clothing, letters, photographs and oral histories. The collection consists of over 35,000 pieces of Black American history, and although the current collection has been 30 years of Stewart's work, the story is still growing, and the Museum is still collecting memories.

The collection found its way from boxes to its first home in 1964 in Stewart's East 34th Avenue barber shop. From there, it was moved to donated space at Denver's Clayton College on Martin Luther King Boulevard in 1974. Presently, the collection is housed at 608 26th Street at Welton.

The Museum has two main galleries and a multi-purpose room. The latter show-cases the works of visiting artists from around the nation. An interesting exhibit now on display is dedicated to LeRoy Wiley, owner of LeRoy's Electronics and for many years the only Black Larimer Street businessman. Wiley also collected hats of all shapes and sizes—over 2,000 in fact. He would have celebrated 32 years as a businessman this fall; but, on April 11, 1985, robbers shot and killed this man who had such a zest for life. The exhibit is really a memorial to The Hat Man of Larimer. In his own words: ". . . Without God I couldn't have done anything."

Gallery No. 1 showcases findings of Blacks in the early West from the 1700's to the 1800's. Remember the Buffalo Soldiers? They were mappers, interpreters and guides for White fur traders. The Indians called them Buffalo Soldiers because their hair reminded them of buffalo fur.

The 1800's were the formative years for Blacks—a time to escape slavery and the Homestead Act. Black wagon trains crossed the continent in search of a home to call their own. Blacks established self-sufficient towns, two of which were Nicodemos, Kan., and Dearfield, Colo. The latter is widely known for Bill Pickett, the most famous Black cowboy, and the first Black to be named to the Cowboy Hall of Fame. Pickett invented the trick of bull-dogging, by roping the bull and biting its lip so hard, the pressure would cause it to succumb. He was a self-promoter and often was featured in movies in the early 1920's.

Blacks were also in the military, taking San Juan Hill with Teddy Roosevelt in the Spanish-American War of the late 1800's. It is a little known fact that the all-Black 10th Cavalry should really be credited for that victory.

Gallery No. 2 showcases mostly Denver history from 1800-1925. Blacks held every profession from musician to lawyer, from doctor to entrepreneur—they covered the gamut. The Colorado Statesman was the first Black newspaper, established in 1881. Dr. Justina Ford was Denver's first Black woman doctor. Dr. Joseph Westbrook was instrumental in infiltrating the Ku Klux Klan, and because of his negotiations, the Black community turned back the march of an angry Klan group.

In August of this year, Epsilon Nu Omega chapter of Alpha Kappa Alpha Sorority, Inc., hosted a reception for the grand opening of the Museum. Denver Councilman Hiawatha Davis kicked off the three-day event by cutting the ribbon to the Museum's entrance.

"The Museum is a vital part of our cultural heritage, and it is up to us to support its efforts," Davis said during the ceremony. Several dignitaries joined in the festivities, including Denver district Attorney Norm Early, State Senators Regis Groff and Dennis Gallagher, Building Developer Leroy Smith and Denver City Councilman Bill Roberts. The event netted over $18,000 in contributions, but this is only a fraction of the moneys needed to keep the Museum's programs going.

On September 21, nearly 100 people gathered at the City and County Building to show their support for both the Museum and the Justina Ford House, at a meeting of the Mayor's Advisory Council for community development block grants. The Board of Directors of the Museum will receive a grant for $197,000 to turn the Ford House into a community center to serve the Five Points area. Dr. Ford practiced out of her home for 50 years, providing a haven for the care and nourishment of many of Denver's residents and delivering as many as 7,000 babies during that time.

The Board has raised the money from private donations to more the house from its original site to a lot on 31st and California. It has been declared an historic landmark, and with the help of the moneys from the block grant, they hope to transform the

house into a satellite of the Black American West Museum.

The plan is to exhibit the rich history of the Five Points area on the first floor of the house. In the 1870's, Five Points was one of Denver's wealthiets areas, and by the 1930's was the jazz capital of the West. The second floor rooms will be turned into areas for meetings and classes. Basic living skills, such as winterizing your home, nutrition and health, will be taught; these are not found at other local community centers such as the Glenarm Recreation Center and the Five Points Community Center.

It was the work of Stewart and Councilman Davis a year ago which saved this house from demolition. "It is phenomenal that in twelve months, the Black community has seized a major victory for all Blacks in this city," Davis commented. This grant is the first of its kind to be awarded to a Black historical project like this in the grant's ten-year history.

If you haven't taken the time to delve into your historical past, there's an abundance of Black American heritage waiting for you. The Museum—at 26th and Welton—is open Wednesday through Friday from 10 a.m. to 2 p.m., Saturday from 10 a.m. to 5 p.m., and Sunday from 2 p.m. to 5 p.m. Admission for adults is $1.00; seniors, students and children under 16 pay only 50¢. Group rates and tours are also available.

The Museum conducts various workshops for the community. Recently, Dr. Dent Williams, noted genealogist from Washington, D.C., held a workshop on tracing ancestry. The Museum also provides classroom education and collaborates with many local events during Juneteenth, the Bill Pickett Rodeo and Black History Month.

The Black American West Museum is still growing and influencing others across the country. The Museum has been commissioned to host the American Museum Association's convention next year.

ASBESTOS INDUSTRY EXPERIENCE POSES LESSON FOR CHEMICAL INDUSTRY

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. FLORIO. Mr. Speaker, one of the most important developments for the American court system in recent years has been the filing of thousands of lawsuits by those who have contracted fatal diseases as a direct result of their exposure to hazardous asbestos. A detailed history of this litigation was recently published by Pantheon. Entitled "Outrageous Misconduct: The Asbestos Industry on Trial," and authored by Paul Brodeur, this interesting commentary was reviewed by Business Week and I commend the review to my colleagues' attention.

Mr. Brodeur's description of the asbestos industry's travails contains some important object lessons for other industries that have not yet been hit with such challenges. For example, the asbestos industry, overwhelmed by the prospect of victorious plaintiffs' lawsuits, has finally come to endorse the concept of an administrative compensation system which would decrease the transaction costs of such awards. But other industries faced with the same potential exposure to toxic tort cases still vigorously resist both compensation systems and toxic tort law reform.

It may turn out that other manufacturers of toxic substances will find themselves in the same position as the asbestos industry in the next couple of decades. We can only hope that such industries do not wait until litigation has gotten out of hand to face the issues posed by alternatives to the resolution of such disputes.

AN UNSPARING LOOK AT THE ASBESTOS TRAGEDY

Paul Brodeur is a talented journalist. One of his talents is the ability to rouse indignation in the reader without raising his voice as a writer. If you doubt it, read any dozen pages of *Outrageous Misconduct*, Brodeur's detailed history of the decades-long effort to hold the asbestos industry liable for the illness and death of thousands of asbestos workers.

The magnitude of the public-health problem is difficult to overstate. From 1940 to 1980, some 21 million Americans were exposed to microscopic fibers of asbestos from insulation and other building materials. The fiber entered their lungs and, in a high proportion of cases, caused cancer. From that group, the best estimate is that in each year until the turn of the century, 8,000 to 10,000 people will die of asbestos disease.

What Brodeur demonstrates from court records, corporate documents, and interviews is that the asbestos industry in general, and Manville Corp. in particular, was aware since at least the 1930s of the dangers to their employees and to the employees of their customers, but knowingly suppressed that knowledge. For years the manufacturers contended, often successfully, that industrial medicine was not sufficiently advanced to diagnose asbestosis until the 1960s. Thus the defendants could not be held liable for failing to warn workers of danger. The drama of the book is in the laborious process by which the victims' lawyers destroyed this defense. So thoroughly did they do so that juries began to award not only compensation but also punitive damages running into the hundreds of thousands of dollars. Thus Brodeur's heroes are not the victims but the plaintiffs' lawyers who took their cases and, in increasing numbers, won them.

The irony is that these are trial lawyers of the unromantic sort who deal in personal accident and negligence suits, workers' compensation law, and product liability actions. Many work for fees contingent on winning a judgment and are held in low regard by colleagues in big corporate law firms, who call them ambulance chasers and worse.

Few of the protagonists in Brodeur's book attended Ivy League law schools. Ward Stephenson, for example, whose zeal started Manville's endless skein of troubles, was graduated from Southern Methodist University. Stephenson developed the strategy that, says Brodeur, triggered "the greatest avalanche of toxic tort litigation in the history of American jurisprudence." By the end of 1982 about $600 million had been paid out in claims, and one study estimated that perhaps $40 billion would eventually be paid. Manville itself ended by seeking protection under the bankruptcy laws.

Stephenson's first asbestos client was a pipe insulator who used asbestos in his work. In most states, workers' compensation laws bar a worker from suing his employer for damages beyond the compensation award. But Stephenson rightly judged that liability suits against the suppliers of the insulating material—the asbestos manufacturers, who failed to warn of danger—would stand up.

If the heroes are the plaintiffs' lawyers, the villains are legion. Among them are *The New York Times* and *The Washington Post*. Their record illustrates what happens when editorial writers take on issues that they know little about—issues that appear straightforward but that are complex and problematic. That happens a lot, and it's of concern to journalists such as Brodeur.

In 1983, *The Washington Post* ran an editorial on asbestos based on a report by Rand Corp. (Brodeur stops just short of asserting that the research for the report was paid for by asbestos makers and their insurance carriers.) The *Post* argued that the tort system was an inefficient way of compensating asbestos victims, largely because it was so expensive. Brodeur points out that the newspaper failed to grasp that the largest part of the cost resulted from the manufacturers' intransigence. "When asbestos victims were allowed to use the supposedly inefficient tort system," he writes, "it appeared to be compensating them at a splendid rate. . . ."

Several politicians, notably Senator Gary Hart (D. Colo.), in whose state Manville has its headquarters, also come off badly. Hart twice introduced bills designed to bail out the asbestos companies by closing the court system to victims of asbestos disease and setting up instead a less effective compensation system partly supported by tax dollars.

Brodeur calls such bills cynical and unconscionable, and he's persuasive. But his grasp of the politics of the issue, especially the question of political-action-committee contributions, is shaky. No one can accurately predict from Federal Election Commission PAC reports how congressmen will vote. Indeed, as Brodeur notes elsewhere, several senators who voted against Hart's bill received corporate PAC money, including Ernest F. Hollings (D-S.C.), who led the fight.

Brodeur also discusses Manville's efforts to achieve Chapter 11 protection. The struggle turned on statistics: How many people exposed to asbestos-fiber inhalation are likely to contract asbestos diseases between 1982 and the end of the century? How many are likely to sue? How much could they collect? Manville's goal was to shape the estimates of experts so that the numbers were large enough to justify to the bankruptcy court protection under Chapter 11, but not, so large as to force involuntary bankruptcy under Chapter 7.

Manville succeeded, which makes Brodeur unhappy. He believes that the bankruptcy and the inadequate settlements it will force are bad public policy. One reason is that he never allows the story of corporate and big-time legal maneuvering to detract from the true center of gravity—the suffering of the people who contracted asbestos disease.

Periodically throughout the book, Brodeur stops the action to tell the history of an individual worker and the nature of his illness and death. These episodes are sobering. At the end of the book, Brodeur pulls together extracts from letters collected by a medical researcher from the widows of asbestos workers. The composite cry of dis-

tress and loss is worth pondering in an age devoted to cost-benefit analyses and statistics. As Brodeur notes: "Statistics are human beings with the tears wiped off."

PROGRESSIVE REFORM: "THE UNDERPINNING OF A STABLE DEMOCRACY"

HON. RICHARD J. DURBIN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. DURBIN. Mr. Speaker, Eleanor Holmes Norton of the Georgetown University Law Center was this year's recipient of the Center for National Policy Award. Her acceptance speech deserves our attention and reflection, particularly those seeking to shape progressive public policy for our country's future.

Ms. Norton tells us that progressive reformers cannot now sit back and simply bask in our accomplishments. While we must remain rooted in the principles that have guided us, we should not cling to the agenda of the past without looking to the needs of the present and the future.

Leaders such as Eleanor Holmes Norton give us the spirit and direction to meet those challenges and move forward. I commend her timely remarks to my colleagues.

REMARKS OF ELEANOR HOLMES NORTON

Always embarrassed at the thought of being honored, my instinctive reaction was to offer to accept posthumously. The declination of that offer by the Center accounts only partly for my presence here tonight. I am here as well to turn the tables and do honor to the Center which has excelled in its first four years and which I have had the privilege to serve as a founding board member. I come also to honor the Center's first three presidents, Terry Sanford, Cyrus Vance and Edmund Muskie, who with grace and hard work have born the startup human costs of presiding at the birth of a new institution. And if I may shamelessly carry through that metaphor, I come to do honor to the Center's midwives, its first two staff members, Ted Van Dyke, its estimable and energetic First President and Maureen Steinbrunner, its able research director. Their contributions are beyond both description and gratitude.

The Center has suggested that in these brief remarks, I might focus on the future. Actually I am unable to focus elsewhere. Public policy is not like Modiglianis or Gregorian chants, the artifacts of civilization that survive because of their splendor. Unrevised public policy is apt to grow not only gray but weak with age, unable to attack robustly problems necessarily unforeseen when these policies were new and young. Gwendolyn Brooks, the great Pulitzer Prize winning poet, said it best: "Time upholds or overturns." In politics, it more often overturns.

That is not to say that there are no policies worth keeping. Many do and should enjoy longevity. Indeed occasionally such policies represent a quantum leap forward and embed themselves into the national fabric. This occurred, for example, when Americans embraced the notion of collective responsibility for the disadvantaged through the New Deal. But policies which are truly lasting are rare. Even the wisest policies need timely revision to avoid the damp surprise of mildew.

These are not thoughts I offer for conservatives, particularly those in power today. They have not been about the task of policy reform. Their mission has found perfect expression in the recent musings of that eminent constitutional scholar, Attorney General Edwin Meese III, on the "jurisprudence of original intention."

Rather I direct my concern about the impermanence of public policy at the likes of myself, the liberals who have had such important effects on the public weal for 50 years. And I do so in the spirit of perhaps the most thoughtful reformer of our time. Martin Luther King, Jr., the great crusader, refused to rest on his truly historic achievements. Rather, he said, "It is not a sign of weakness but a sign of high maturity to rise to the level of self-criticism." To be sure, what we have accomplished has given some of us something to defend for the first time—a social revolution begun by Roosevelt and revised by Truman, Kennedy, Johnson and Carter, an enlightened and vigorous trade union movement, a foreign outlook that rejects multiple standards for human rights, and a domestic imperative that gives a central place to human rights for the historically excluded here at home.

With so much that is good to defend, our historic role as bearers of change could be in jeopardy. Yet we still fancy ourselves as players for the offense. We still see ourselves as changemakers. In recent years, though, our role as reformers has been mightily tested. In the face of a wholesale attack on all we have achieved, we have been forced to defend and repel, to protect and preserve. It is an ironic posture, especially for the change agents of the 1960s and 70s.

It must not lead to comfort with the status quo, even a status quo of our own making. All that we have won, even the best of it—from affirmative action to food stamps—needs not only our protection, but our critical scrutiny. If there needs to be reform in our reforms, let it come from us.

For yesterday's reform held to uncritically is today's conservatism. Brilliant as our changes have been, they need caring and continuing change. For we achieved them before the present administration created structural deficits and built an unprecedented and dangerous debt. We achieved them before the balance of payments showed erosion in our trade position. We achieved them when the manufacturing sector was still vigorous. We achieved them when the country preferred the risk of reform to the caution of the familiar.

What we have won we shall defend. I have no doubt that we will prevail. But even the best of our reforms cannot alone meet brand new problems. The equal employment statutes it was my great privilege to administer cannot create jobs for the permanently unemployed. The civil rights laws cannot house the homeless. The great aid to education laws cannot by themselves bring excellence to the public schools or assure that the disadvantaged are not left further behind. The Great Society programs cannot alone restore the black family to its historic strength.

Yet we understand that changes of the kind we have pursued are not the luxurious fruits of intermittent periods of social activism. Progressive reform is the essential underpinning for a stable democracy. It was Shakespeare who wrote, "The smallest worm will turn, being trod on. And doves will peck in safeguard of their brood."

We have done our work well and accomplished much. But glorious as it was, it was yesterday's work. It is no surprise that there are still hungry children, unequal women, disadvantaged blacks, poor Hispanics and unemployed workers. We never promised the millenium in a generation—or even two! What we promised was to fight until we got it right. What we promised was never to substitute the shield for the sword.

AN IMMIGRANT'S SON BUILDING A CITY

HON. CHARLES E. SCHUMER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. SCHUMER. Mr. Speaker, today, I would like to bring to my colleagues' attention the outstanding work of David Minkin, the president of the Kingsbrook Jewish Medical Center, who was recently honored at a dinner marking the 60th anniversary of that important medical facility in Brooklyn. In addition to his efforts on behalf of the Kingsbrook Jewish Medical Center, Mr. Minkin has been active in numerous charities, such as Bonds for Israel, the United Hospital Fund, the United Jewish Appeal, and the Catholic Bishops' Law Committee of the Diocese of Brooklyn. Mr. Minkin's achievements as a philanthropist and as a builder have improved Brooklyn for all of us, and I am enclosing an article that appeared in the New York Times, which describes his outstanding work on behalf of his fellow citizens and community.

The article follows:

AN IMMIGRANT'S SON BUILDING A CITY

(By Lawrence Van Gelder)

The secret of real estate? "Buying future development."

So says 80-year-old David Minkin, who divides his time between Forest Hills and Sands Point. He is not without experience to justify his assertion. "I am a developer, builder, owner and manager of real estate for over 50 years," he said. And he has been successful at it, too.

He has built and owned apartment houses and other properties in such places as Jackson Heights, Rego Park, Forest Hills and Jamaica Estates in Queens; in the Flatbush section of Brooklyn, in lower Manhattan and Washington Heights, in New Rochelle in Westchester County, and in Hackensack, N.J. And these days, he is holding some vacant land in Florida for development.

Mr. Minkin has lost count of the number of properties he has constructed, but of them all he seems proudest of the Bernard and Rose Minkin Pavillion and the David Minkin Rehabilitation Institute constructed under his supervision at the Kingsbrook Jewish Medical Center, a 930-bed hospital in East Flatbush section Brooklyn. Mr. Minkin has been the institution's president for 13 years and is a major benefactor.

The pavilion is named for Mr. Minkin's parents, and it was through his father, an immigrant from Russia, that Mr. Minkin entered the real-estate business. Mr. Minkin, who was born in Manhattan, where his father owned some real estate, moved with

his family to Brooklyn in 1907. "My father was a builder as well as an owner of sorts—residences and apartment houses, and also, I believe, store property in Brooklyn and Queens."

While growing up, he said, "Naturally I used to go out with him here and there, and it opened up my eyes to a great number of things. He looked at buildings, construction, and, of course, I had to learn the blueprints and study them and layouts, and became a professional builder."

In 1922, after graduating from Commercial High School, Mr. Minkin joined his father in business, taking charge of construction, performing general supervisory duties and renting apartments. Four years later he went into business for himself.

With a partner, Mr. Minkin put up two apartment houses in Jackson Heights between 1926 and 1929. "The first property was a six-story apartment house on 90th Street, corner of 37th Avenue," Mr. Minkin said, "The building is still there. But I don't own it.

"Jackson Heights," he said, "was just getting started. It was in the very early stages. A lot of streets weren't even paved yet." His father, he noted, had built there in 1923. "It was a good, clean new neighborhood and it had a lot of future attached to it.

When it comes to a comparison of construction costs then and now, Mr. Minkin offers only laughter as comment, but he notes that in those days the five-and-a-half-day work week and eight-hour workdays were the norm. "Today it's a five-day week, and instead of eight hours, it's seven hours," he said.

Mr. Minkin went right on building through the Depression and the post-World War II era, and through his mother, who had become active in raising money for the Kingsbrook Jewish Center in 1925, be began supporting the institution as well, donating millions of dollars. Earlier this month he was guest of honor when the hospital celebrated its 60th anniversary with a banquet.

Mr. Minkin, who is not married, has also been active in such charities as Bonds for Israel, the United Hospital Fund, the United Jewish Appeal and the Catholic Bishops' Law Committee of the Diocese of Brooklyn.

As a builder, he said, "I always looked at areas where the future was enticing, to a point where there was what they call a follow-through of growth. You could foresee growth coming. It may take a few years before this happens, but that's the time you purchase. You buy cheap. When it materializes, it goes up 4, 5, 10 times in value. That's the secret of all real estate—buying future development."

These days, he said, such sites still exist in parts of Queens, Staten Island and the Bronx.

Looking back over his own career, he said "I feel that I have made a great contribution to the City of New York by creating properties people live in. They're still existing. They're still there, and they're full taxpaying properties. They're making a contributions to the City of New York."

THE MURDER OF A POLISH PRIEST: COMMUNISM IN ACTION

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. BROOMFIELD. Mr. Speaker, I suggest that all of my colleagues read an revealing article in the December 1985 Reader's Digest by John Fox, a constituent, concerning the tragic murder of a young, Polish priest by Polish security agents.

In 1984, Father Jerzy Popieluszko was murdered by state security agents in Poland. He was tortured to death for his beliefs and his activist role in supporting the Solidarity Union. He was a moral challenge to the growing Communist power in that country. Polish and Soviet authorities believed he had to be silenced. The death of that brave man symbolizes to me the essence of what freedom means to all of us and what communism does to crush individual liberty. This is a story we in the free world must remember.

Father Jerzy was born in a small village in Poland to a poor peasant family. He was a sickly child who knew hard work and grew to love the Polish people and his country. As a young priest, he grew in popularity as a hard-working and dedicated man who gave much of himself to his people. That self-sacrificing man became the workers' priest and actively supported the Solidarity Union which had won limited rights under the Polish Government in power at that time.

In spite of death threats from the Polish security service, Father Jerzy maintained his support of the union and ministered to the poor in his parish. After the declaration of martial law in Poland and Solidarity's decision to move underground, Father Jerzy came under increasing threats, and staged accidents planned by the Polish secret police.

His elderly parents were harassed and his car and apartment were electronically bugged by state security personnel. Even though he was fearful of his life, he refused to abandon his commitment to the Polish workers. He knew that scores of Solidarity supporters had died from beatings, in police custody, and that others had died in mysterious accidents and arranged suicides. After agents tried to kill Father Jerzy by bombing his apartment, they planted arms and propaganda in his home and arrested him.

After being released, he was subjected to more efforts to silence him. He clearly became a dangerous symbol in a Soviet empire that was experiencing religious ferment. Even the Soviet daily Izvestia criticized him. In 1984, he was subjected to 13 interrogations. His car was nearly rammed in a staged accident shortly before his death.

Finally in 1984, Polish security officers, on instructions from the Polish Government, beat and tortured the young priest until he died.

While he always tried to calm the Polish workers' antiregime anger and stressed the need for a peaceful solution to Poland's problems, the totalitarian government that was set up in Poland by the Kremlin could not tolerate the truth which that activist clergyman spoke. That frail and poor young priest was a threat to godless communism.

Throughout his life, Father Jerzy talked about and deeply believed in the ultimate triumph of good over evil. While a totalitarian and brutal regime took his life, communism in its many forms will not snuff out the love of freedom that so many people in the oppressed nations around the world cherish. In the end, good will triumph over the darkness of evil. His life symbolizes that struggle and that triumph.

With these thoughts in mind, I commend to all of the Members John Fox's article in the December 1985 Reader's Digest on the life of Father Jerzy Popieluszko. It is an inspirational story that is worth reading.

POSSIBLE INSURANCE BOYCOTT PROBE

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. FLORIO. Mr. Speaker, I am inserting in the RECORD an article discussing allegations regarding suggested links between insurance premium hikes and policy cancellations and efforts to get legislators to change our tort system to limit victims' rights. This is a very serious issue, and in our insurance inquiry, my subcommittee will be following this matter closely.

FTC PROBES POSSIBLE INSURANCE BOYCOTT

(By Julie Kosterlitz)

In the wake of skyrocketing premiums and cancellations of some kinds of casualty insurance—including medical malpractice and product liability policies—the Federal Trade Commission (FTC) is conducting an investigation of the property and casualty insurance industry for possible violations of federal antitrust laws.

While the insurance industry is exempt from most federal regulation and federal antitrust laws under the 1945 McCarran-Ferguson Act, that law does not cover boycotts, in which companies agree among themselves to withold goods or services, usually unless certain conditions are met. Such agreements would violate the Sherman Act governing restraint of trade.

The FTC would not confirm or deny an investigation; confirmation comes from informed sources. A clue about theories the FTC is considering comes from the National Insurance Consumers Organization (NICO), a nonprofit Washington-area consumer advocacy group that the FTC has contacted during the investigation.

NICO has charged that the dramatic increases in premiums and policy cancellations are not justified by the claims experience of the companies. Instead, it contends, the actions were taken to offset declining earnings within the industry, which NICO says is because of premium price wars in the early 1980s, and to create pressure for

changes in tort laws, which govern personal injury claims.

"I believe what we are witnessing is joint action by insurers to create an atmosphere where rates can be put too high and legislators will be intimidated into action designed to take away victims' rights and allow wrongdoers to go unpunished," said NICO's president, Robert Hunter, at a recent hearing of a House Small Business Subcommittee on Energy, Environment and Safety Issues Affecting Small Business.

The insurance industry considers NICO's allegations a case of "conspiracy theory run rampant," said Marc H. Rosenberg, vice president of the Insurance Information Institute, a New York City-based clearinghouse supported by insurance companies. He agrees that some of the problem stems from a price war, but said that much of it reflects increases in the number of lawsuits and the size of awards to plaintiffs—factors that couldn't have been foreseen at the time some low-cost policies were issued.

NICO argues that the alleged boycott may originate with reinsurance companies, which sell insurance to insurance companies, generally to protect them in the event of unexpectedly large or numerous claims. In some cases in which insurance firms have requested higher rates or canceled policies, they have cited trouble in obtaining reinsurance.

The reinsurance industry says it has been experiencing losses because of declining investment income and the higher number and size of court awards. "It's not a conspiracy, just a recognition of the marketplace," said Andre Maisonpierre, president of the Reinsurance Association of America in Washington.

NICO concedes that it may be hard to prove that industry actions were concerted and deliberate, and not a reflection of the herd instinct.

Some groups that are caught in the crunch share NICO's view that insurance industry actions sometimes seem unrelated to their claims experience. In May, Mutual Fire Marine and Inland Insurance Co. of Philadelphia notified the American College of Nurse Midwives in Washington that Mutual would not renew the midwives group's malpractice insurance policy, and the group was unable to find another insurer. According to the group, the insurer said the policy was being canceled, not because of malpractice claims (a relatively low 6 per cent of nurse-midwives have been sued for malpractice compared with 73 per cent of obstetricians and gynecologists) but because of the unavailability of reinsurance.

"We have not been able to get insurance from anyone, seemingly not based on our actual experience, so we wonder what it is based on," said Mary Rita Prah, director of the group, which has talked to the FTC.

Whether or not they are the result of a boycott, the premium hikes and coverage denials are putting political pressure on the states and the federal government to change malpractice laws. In several states, including California, Florida and New York, surgeons and obstetrician-gynecologists are refusing to accept new patients or perform risky procedures. Many physicians have been lobbying state legislatures to change malpractice laws, and most states have taken steps to do so.

Five bills have been introduced in Congress that would change federal malpractice laws, including an American Medical Association-backed measure introduced by Sen. Orrin G. Hatch, R-Utah, that would encourage states to rewrite tort laws, including reducing attorneys' contingency fees and limiting court awards.

FCC DECISION CONCERNING COUNTY PUBLIC SAFETY NEEDS

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LEVINE of California. Mr. Speaker, Los Angeles County Sheriff Sherman Block and his department have been petitioning the FCC since 1981 for the use of ultrahigh radio frequency channels to meet the growing public safety needs of the area's citizens. Last week the FCC granted their request by allocating UHF-TV channel 16 to the sheriff's department.

As a result of the FCC decision, the fifth largest police agency in the Nation will finally be able to utilize a modern communications system to better aid the public. For the first time, the Los Angeles County sheriff's patrol officers can be equipped with hand-held portable radios. Also, the department will be able to implement a high-speed mobile digital system and a comprehensive mutual aid communications system for law enforcement agencies.

In addition to granting Los Angeles County these new frequencies, the FCC is currently engaged in developing a plan to meet the long-term radio needs of the entire Nation's public safety services. I applaud these FCC actions and wish to commend Sheriff Block and his department for their successful efforts in obtaining channel 16.

Mr. Speader, I wish to submit my congratulatory letter to Sheriff Block for the RECORD.

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, December 11, 1985.

Sheriff SHERMAN BLOCK,
County of Los Angeles,
Los Angeles, CA.

DEAR SHERM: I am very pleased that the FCC has allocated UHF-TV Channel 16 for use by your Department. The high speed mobile digital system, the portable radios, and the mutual aid communications system provided for by these new frequencies will be invaluable in helping to meet Los Angeles County's public safety needs.

I wish to take this opportunity to compliment your team for their outstanding work on this project. Chief Ken Cable, Lt. Bud Wenke, and Sgt. Bob Elson were marvelous to work with and deserve special recognition for their tireless efforts.

Congratulations and best regards,

Sincerely,

MEL LEVINE,
Member of Congress.

OVERSEAS PIRACY OF U.S. BOOKS

HON. THOMAS J. DOWNEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. DOWNEY of New York. Mr. Speaker, the piracy of U.S. books overseas results in more than a staggering $2 billion yearly loss to U.S. authors and publishers, according to industry sources. Some of the most flagrant pirating nations are our major trading partners in the Far East—Taiwan, Singapore, South Korea and the Phillipines, with whom we are running substantial balance-of-payments deficits.

I am glad to see that the U.S. Trade Representative has initiated a section 301 trade complaint against South Korea for violation of U.S. intellectual property rights in all areas of copyright protection, including literary works.

We must continue to act with determination to be certain that pirate nations begin to recognize the seriousness of the problem, and that they will not be allowed to enjoy the large trade benefits they receive if they pursue the path of piracy.

In this regard, the December 16, 1985, issue of Newsday, which is widely distributed throughout my Long Island district, carried a comprehensive analysis of the book piracy problem titled, "Print Pirates Pillaging Book Trade."

I commend this article to my colleagues.

PRINT PIRATES PILLAGING BOOK TRADE

(By Richard Sandomir)

The Il Won Books Center in South Korea lists 8,000 books in its eclectic catalog. The selections range from John Steinbeck's "Of Mice and Men" to the textbook "Treatment and Disposal of Wastewater Sludges."

But neither Bantam Books nor Butterworth Publishers nor any American publisher with books in the catalog earn a dime of royalties from Il Won's sales. The books are pirated versions of the real things—copied, sometimes translated and sold in violation of U.S. copyright laws, according to the Association of American Publishers.

It's a cheap, easy and growing business, one where the pirate publishers have no development, editorial, or marketing costs. They even use the U.S. copyright seal.

"Once a book becomes popular, they're out pirating it," said Nak Chong, vice president of the international division of Harper & Row in Manhattan. "The best sellers are copied right away. I suspect they must have people here."

The publishers association estimates the cost of piracy at $2 billion annually—$1 billion from books whose pages are photographed and used to print nearly-identical offset copies and $1 billion from editions made on photocopying machines. The estimates, however, are based on the price of the pirated books—10 to 15 percent of the legitimate price.

Pirating takes an enormous toll on the $8-billion industry, restricting publishers to sell few if any copies of legitimately-published books in countries where counterfeits flow like Stephen King's word processor. Some small publishers without an interna-

tional presence sometimes are unaware their books are being copied.

Says Alexander Burke, senior vice president of Manhattan-based McGraw-Hill, Inc., a major publisher of textbooks: "There are more units of pirated books selling around the world than legitimate units of American books sold."

Stories of literary Jolly Rogers abound: Pirated books shipped from Taiwan to Nigeria disguised as boxes of crash helmets or automotive parts. Stores that sell only illegally copied books. Trade missions dispatched from developing countries to Singapore to order pirated medical textbooks.

"The organization of pirating is so great," says Richard Snyder, chairman of Simon & Schuster in the city, which publishes general-interest trade books and textbooks by its Prentice-Hall subsidiary, "that international pirates have a better distribution system than American publishers do."

Improving copying technology is also a factor. Book quality varies: some are barely detectable counterfeits made on high-grade paper; other are the shoddy kind made on thin bond. Few, if any, can duplicate four-color book jackets, and use black-and-white covers. Nevertheless, appearances don't seem to count; best sellers and engineering textbooks alike are selling in vast numbers at cheap prices.

"Countries see how profitable this is," said Don deKieffer, general counsel of the International Anticounterfeiting Coalition. "Pirates have no risk. They just watch to see what books are selling well, and bang, they copy them."

Publishers have found little recourse in retaliation. Rare is the pirate country with copyright laws, or effective enforcement on existing statutes. Court fights in countries like Singapore aimed at collecting royalties are inevitably futile.

So the fight has turned to government action. The publishers association, along with the record, film, computer and software industries banded together two years ago to form the International Intellectual Property Alliance to press for action against the pirates, many of whom receive duty-free trade treatment for products entering the United States.

In an August report to the U.S. Trade Representative, the alliance estimated book piracy in 10 selected countries at $427 million, led by $118 million in Taiwan, $110 million of which is in exports to other nations. Singapore followed at $107 million. At least 20 others are suspected pirates.

On Nov. 1, U.S. Trade Representative Clayton Yeutter opened a formal inquiry under Section 301 of the Trade Act of 1974 into South Korean violations of U.S. intellectual property rights in all areas of copyright, patent and trademark protection.

The investigation—which sent a delegation of industry and government officials to Seoul last week—could result in sanctions against Korea, a most-favored nation trading partner, unless strong laws with enforcement teeth are enacted.

"We're hoping that before there is trade retaliation, we can get the countries to improve their legal systems to let us have access to the courts," said Carol Risher, director of copyrights for the publishers' association. "Up until now, we haven't had much access."

Burke, head of the publishers' association's International Copyright Protection Committee, who accompanied the delegation, said he had encouraging discussions with Korean publishers. But any agreement would need Korean government approval.

Young Ahn, senior press attache for the South Korean Embassy in Washington, said he expected "tangible conclusions" for the Seoul talks, but was unaware of a major piracy problem.

Meanwhile, Taiwan has passed a new copyright law, which features some stiff penalties; Singapore has a draft bill in its legislatures. Said Burke: "It's inadequate. They've been saying they'd pass one for 10 years. Progress is not just having a bill in the legislature."

Several publishers were pleased by the government action. Simon & Schuster's Snyder said; "The government is the only way to win. We've got to tell the Koreans: no more VCRs unless you stop this. Going through the courts is ridiculous. I want to be alive when this is resolved."

BILL NELSON: OUR MAN IN SPACE

SPEECH OF

HON. DANTE B. FASCELL

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday 16, 1985

Mr. FASCELL. Mr. Speaker, I note with particular pride the selection of an esteemed colleague and friend, Congressman BILL NELSON, to be the first Member of this body to be sent into space. He certainly has earned the right with his dedicated and effective service on the Science and Technology Committee, overseeing our space program, and I am confident he will do an excellent job as Our Man In Space.

As an outstanding representative of Florida's 11th Congressional District, which includes Cape Kennedy, BILL has helped make our space program what it is today.

Knowing BILL, I am confident he will perform his duties in an exemplary fashion.

BILL's journey into orbit will give him new insights into our space program, and enable him to perform his oversight functions more effectively. I am anxious to hear his report upon his return.

I wish BILL bon voyage and every success. And I have only one bit of advice for him: "Please don't touch anything."

OPPOSITION TO GRAMM-RUDMAN

HON. WILLIAM O. LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LIPINSKI. Mr. Speaker, I did not have an opportunity to speak the other night in opposition to the Gramm-Rudman bill but I did wish to express my views so that they would be on the record.

First of all, Gramm-Rudman is an abdication of our responsibilities as Congressmen and Senators to the computers, staffers, and bureaucrats in the Office of Management and Budget, the Congressional Budget Office, and the General Accounting Office. Appointed civil servants will be making decisions instead of elected public officials. I don't think that the Founding Fathers had this in mind when they wrote the U.S. Constitution; if they had, I don't think they would have bothered to include elections. Because of the transfer of responsibility, I believe that there is a very strong possibility that this legislation will be declared unconstitutional and our exercise in regards to Gramm-Rudman, thank the Lord, will be null and void.

This catastrophic legislation has the potential to bring America's defense effort, that Ronald Reagan stated just a short time ago was standing tall, to all knees. Our first priority, as Members of Congress, is to protect the citizens of Republic from enemies, foreign and domestic. I believe it will be impossible for us to do this underneath this legislation. We may have trouble finding financing for bullets and rifles, let alone personnel, missiles, and submarines. There are many in Washington who believe this legislation will mean the end of the volunteer Army and cause the draft to be reinstated. This legislation creates the first ever income test for veterans using VA hospitals. Those with income exceeding $25,000 annually would receive care if space was available and if they paid a new fee.

And that is going to happen to our domestic programs that so many, many Americans participate in and benefit from? Where is the safety net for our poor, ill, and disadvantaged citizens? This legislation rips that safety net, that is often talked about, to shreds. Medicare will be reduced. Meals on Wheels will be cut and Urban Development Act programs may be terminated. This package turns its back on educating our children and thereby endangers our Republic's future.

This legislation may very well destroy, and I do mean destroy, our American cities, particularly those of the Northeast and Midwest. In the last 5 years, cities have lost 46 percent of their Federal aid. There will be cuts in the funding for the Nation's infrastructure: streets, bridges, sewers, and water plants. Fire and police assistance will be cut, so will community development programs. Deep cuts will be made in mass transit funds, and a lower cap put on highway trust funds. FAA operating assistance will be cut thereby jeopardizing air traffic safety and air traffic control services. Amtrak subsidies and the Small Business Administration will be terminated.

The Republican mayor of Cleveland said this legislation may cause rioting in the streets, and Mark Israel of the National Center for Municipal Development said the impact on cities he represents ranges from disastrous to more disastrous.

Gramm-Rudman should not have been passed and I believe those who voted for it, someday very soon, will say that it is the worst piece of legislation they ever supported.

EDUCATION VOUCHERS ARE A COPOUT

HON. AUGUSTUS F. HAWKINS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. HAWKINS. Mr. Speaker, the Secretary of Education, Mr. William Bennett, has once again introduced a misbegotten clinker to the American public called education vouchers. They are designed to give Federal tax moneys, in the form of a voucher, to parents whose children are receiving compensatory educational services. Mr. Bennett claims that vouchers will ail what is wrong—in his view—with public education. Since Mr. Bennett has been so wrong on so many issues concerning public education, there is a question about whether the public will accept another one of his education resolutions. According the November 10 editorial in the New Orleans Times-Picayune Bennett's vouchers are not only a copout, they are coming at the wrong time when public education reform programs are being implemented all over the country.

I urge my colleagues to read the very insightful editorial of the New Orleans Times-Picayune, for a clear view of how bad an idea vouchers really are.

VOUCHERS ARE A COPOUT

A voucher system is the last thing the nation's struggling public schools need. It is surprising and dismaying that President Reagan and federal education officials and others are promoting a government-paid voucher system as an answer to the problems of public education in this country.

While frustration with the progress of public education is understandable, a voucher system that would enable students to choose between private and public schools would almost certainly sound the death knell of public education in the United States. Public schools need more support from federal and state government, not less.

The voucher idea was given strong support at a Baton Rouge education conference last weekend by John D. Klenk, director of planning and evaluation for the U.S. Education Department. Earlier this year, we defended Mr. Klenk's right to speak on the voucher system or anything else after he had been discouraged from speaking his mind at a Baton Rouge meeting by state Education Superintendent Tom Clausen's office. But we believe strongly that a voucher system is a copout, not the solution of the problems of public education.

In his Baton Rouge address, Mr. Klenk said he believes the competition for students caused by a voucher system will improve the public schools. That notion strikes us as illogical. The basic argument for vouchers is that many parents are unhappy with public schools and should have a government-financed choice to send their children elsewhere. Public schools are already suffering in part because many parents, even without a voucher system, have elected to send their children to private schools, thus diminishing financial and community support for public schools.

Vouchers would almost surely hasten the process—indeed, seem almost designed to do so—and further reduce support for public education in the United States.

If enacted in the near future, a voucher system would be all the more regrettable because it would come at a time when public education reform has already begun to take hold in many states. While Louisiana is yet to be counted among states that have made sweeping reforms in public education, some local school boards in Louisiana, as elsewhere, are making progress. There remains hope that Louisiana, which made some improvements at last summer's session of the Legislature, will fully join the growing reform movement at the state level.

While the poor are sometimes mentioned as among the parents favoring a voucher system, the freedom of choice implied in the program depends on ease of transportation. And many poor students, particularly in inner city neighborhoods, would be restricted in their choice of schools for lack of mobility.

Vouchers have obvious politcal appeal, offering a simple solution to a complex problem. But they could be fatal to a public education system that, historically, has served this nation well.

OPPOSITION TO FAVORED-NATION STATUS FOR SOVIET UNION

HON. BARBARA A. MIKULSKI

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Ms. MIKULSKI. Mr. Speaker, I rise today to voice my strong opposition to recent Moscow requests asking the United States to grant to the Soviet Union "most-favored nation" trading status.

I don't think the Soviets should be one of our top trading partners if they're not also going to be one of our top negotiating partners on arms control, the solving of regional conflicts, and the improtant issue of human rights.

Yes, the Geneva talks were useful in bringing about a thaw in United States-Soviet relations—but there's still a lot of ice. There are still several unresolved problems between our two nations.

Before we take any concrete steps to open trade gates between our two countries, we should make certain the Soviets open their emigration gates.

When they agree to let Soviet Jews out of their country, then we can agree to let more of their products into our country.

When they agree with us to stop the spread of nuclear weapons, then we can agree to share some of our high technology with them.

But until these agreements are reached, I say let's keep our trading status right where it is—maintain the Jackson-Vanik amendment. I say, before we reach any new agreements on trade with the Soviets, they've got to live up to the agreements they've already signed on human rights.

PERSONAL EXPLANATION

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. PORTER. Mr. Speaker, I have never before cast a "present" vote, but I did so on Senate Joint Resolution 238, and wish to explain it. My understanding is that the time limit for Congress to reject or modify the terms of the sale of nuclear technology and materials to the People's Republic of China under Senate Joint Resolution 238 expired several days ago. This means that Congress, by failing to take up this matter in a timely fashion, has lost any control over the terms of the sale and that the vote on Senate Joint Resolution 238 is meaningless. My "present" vote is cast, therefore, in frustration and in protest of the failure of House leadership to schedule a substantive vote on time on a matter of such great importance. The spread of nuclear technology available under this agreement could lead to weapons production by a nation whose government embraces little of our Nation's values and provides so great a threat to other nations which do.

PERSONAL EXPLANATION

HON. WILLIAM F. CLINGER, JR.

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. CLINGER. Mr. Speaker, I was absent for the first vote on the House floor on December 16, 1985. Congressman THOMAS J. RIDGE and I were in Meadville, PA, conducting a hearing as a result of the terrible destruction which was caused by 17 tornadoes which hit our congressional districts on May 31. The following groups provided testimony at this function: the National Weather Service; the Federal Emergency Management Agency; the Pennsylvania Emergency Management Agency, local government and emergency management officials.

Had I been present, I would have voted in the following fashion: Rollcall No. 460: Journal, the House voted to approve the Journal of Thursday, December 12, "yea."

FARM CREDIT SYSTEM'S CAPITAL CORPORATION NEEDS TO BE INDEPENDENT

HON. NORMAN D. SHUMWAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. SHUMWAY. Mr. Speaker, on December 10, 1985, the House passed H.R. 3792, a bill to amend the Farm Credit Act of 1971, and for other purposes. The Senate enacted a comparable bill, S. 1884, on December 3, 1985. I voted in favor of the House bill despite my already expressed concerns with

both the haste under which the bill was considered and the absence of a cap on the amount of public assistance which could be made available to the Farm Credit System through the Secretary of the Treasury.

One part of H.R. 3792 would create a Capital Corporation for the Farm Credit System as a federally chartered vehicle by which the system would be required to utilize its substantial financial resources before obtaining any public moneys. There are a number of significant differences between the House and Senate bills concerning the structure of that Capital Corporation. The House bill would establish a five-person board of directors, four to be elected by the banks of the Farm Credit System and one to be appointed by the new Chairman of the Farm Credit Administration. The Senate bill would also create a five-person board, but would have the system appoint two members, the FCA elect two members and authorize the Secretary of Agriculture to appoint the fifth member.

I firmly support, and urge my colleagues to support, the provisions of S. 1884 on the structure of the Capital Corporation board. The Senate bill has taken an enlightened approach in assuring that a majority of the members of the board of directors of the Capital Corporation will be individuals appointed from outside the System. Such an independent board approach is critical to the success of our efforts to resolve the crisis facing the system and must be retained in any final legislation.

The Capital Corporation will face a very difficult task in causing the system to utilize its resoures and to manage problem loans. Those efforts will require a tough-minded, disciplined approach and atitude on the part of the Corporation's directors, and a specialized expertise to deal with the problems confronting the Farm Credit System. An independent board comprised of a majority of directors appointed from outside the Farm Credit System is necessary to overcome parochial interests to assure equitable treatment of both contributing and distressed banks, and to protect the public interest. While the Capital corporation will oversee transfer and management of system resources, the overriding interests to be protected are those of the public whose support and funds created and nurtured the System over the years, and whose additional support and contingent funds are being sought by the system in its time of need.

Congress has required the use of independent oversight and controls when it has provided assistance to other private sector firms such as Chrysler Corp., and that approach has been responsible in large measure for whatever success those efforts achieved. I strongly urge the adoption in any final farm credit legislation of the approach taken in S. 1884 in requiring an independent board of directors for the Capital Corporation to be established to assist the Farm Credit System.

JAPAN TO SUBSIDIZE SMALL BUSINESS EXPORTERS

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. SKELTON. Mr. Speaker, as the U.S. trade deficit has surpassed $100 billion increasing our exports is of even greater importance. As chairman of the Small Business Subcommittee on Exports we have learned that there are several factors hindering increased exports by small businesses. At the top of the list is the high value of the dollar.

According to a recent Wall Street Journal article the Japanese Government has reported that their small business exporters are being affected by the rising yen. As a result, the Japanese Government is preparing to offer a $500 million low-interest loan program for small exporters. The loans are available at 6.8-percent interest. And it is expected that the Government will relax credit rules such as not to require collateral for loans.

The Government Accounting Office estimates that more than 20,000 new-to-export businesses have the potential to export which could add $4.2 billion in goods and services to our export tab. Mr. Speaker, this emphasizes to me our need to encourage our small businesses to export. I'm not saying we need a $½ billion subsidy for our small businesses such as Japan's. But we must encourage our small businesses to be more aggressive in the field of international trade and assist them in overcoming the many barriers.

CONGRESS DRAGGING ANCHOR ON STRATEGIC HOMEPORTING ISSUE

HON. JIM COURTER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. COURTER. Mr. Speaker, as the attached editorial from the Wall Street Journal contends, Congress has once again intervened in the military decisionmaking process and voted "maybe" on the strategic homeporting of America's naval fleets. The fleets are currently concentrated in Charleston, SC, and in Norfolk, VA, which boasts the largest military installation in the world. When the Secretary of the Navy had the good sense to propose the dispersal of these valuable assets to avoid a modern-day Pearl Harbor situation, he ran into force five gale of protest from the Congress. Naval ports are big business for the neighboring civilians, but it does little good to have vessels in port if they cannot make their way to the open sea because of Soviet submarine blockades. Strategic homeporting made good military sense, and the Congress should lift its own blockade of the Navy's plans.

The editorial follows:

SHORE DUTY DANGERS

Congress acted this week to delay the Navy's plan to disperse its growing fleet of ships to 15 new home ports in New York and on the Gulf and West coasts. A House-Senate conference committee said that the dispersal program "could make modernization of our existing bases unaffordable," and ordered the Navy to submit a detailed report within three months. The Pentagon yesterday said that previous information supplied to Congress already meets those requirements. Regardless, any final decision to wreck the Navy's program would not only be financially foolish but strategically dangerous.

No matter what, the expansion to a 600-ship Navy requires the construction of new harbor facilities—whether at the 15 proposed home ports or at the three main existing facilities in Charleston, S.C., Norfolk, Va., and San Diego. Congressmen and senators from these districts, fearing a loss of federal funds, are the primary challengers of the dispersal plan. Their parochial criticisms, however, show little concern about overall budgetary savings or the defense of the fleet.

Navy Secretary John Lehman's primary strategic reason for adding 15 home ports is to avoid a repeat of Pearl Harbor. Soviet submarines lying off our coasts could easily attack our highly concentrated port facilities using nuclear-tipped ballistic and cruise missiles. Such weapons can reach their targets within a few minutes. Even conventional missiles could set off a firestorm in these tightly packed harbors. Dispersing the fleet, therefore, would improve its chances of surviving an attack and permit quicker response to trouble in a broader variety of geographical areas.

Besides, as a recent Navy report points out, the cost of building home ports is only marginally more expensive than modifying the existing ones. Estimates of the additional costs range from $55 million to $217 million. "Not surprisingly, the total cost of establishing new bases is slightly more costly," the report added. "But in the Navy's judgment, the strategic and tactical advantages make the investment worthwhile."

By comparison, Mr. Lehman's competitive procurement process has already brought down the cost of the new Aegis cruisers from an estimated $1.2 billion in 1981 to about $900 million. The Navy plans to build some 30 of these advanced ships, which are capable of protecting naval battle groups at sea using highly sophisticated electronics equipment. The savings on just one Aegis cruiser would more than pay for the added cost of dispersing the fleet.

Given the need to reduce government spending, we would be the last to advocate profligate expenditures. there are plenty of obsolete military installations that could be closed. In the case of new naval bases, however, the spending is affordable and necessary. When Congress gets around to making a final decision in three months or so, we hope it approves the Navy's program. Otherwise the nation's huge investment in a 600-ship Navy might wind up at the bottom of Chesapeake Bay.

INTRODUCTION OF A BILL TO HELP LOCAL COMMUNITIES FIGHT NARCOTICS TRAFFICKERS

HON. FORTNEY H. (PETE) STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. STARK. Mr. Speaker, today I am introducing legislation to provide assistance to creative programs designed to improve the criminal justice system with respect to combating the illegal narcotics industry. My bill would authorize $50 million a year over 5 years. It would be allocated at the discretion of the Attorney General to supplement existing State appropriations of direct financial aid to units of local government for specific programs designed to combat drug-related violent crime. It would both assist existing worthy local programs and encourage local governments to focus more directly on this drug epidemic and to develop creative, effective programs of their own.

Mr. Speaker, the problems we are confronting in this area are huge in scope and magnitude. Our drug enforcement officers are engaged in a multifront war in which they are outspent, outmanned and outgunned by their adversaries, and it is a wonder that they accomplish as much as they do.

What we need to do now is recognize that we won't be able to solve this entire problem at once and that it's time for us to start tearing off chewable bites. Rather than dreaming up grand Goldbergian schemes at the Federal level, we need to go to the local level, to those people who are most closely in touch with the issues, and support efforts there to eradicate these problems in the communities. Rather than trying to smother this problem with a blanket thrown down from the top, we need to eat away at its supports from the bottom until it topples under its own weight.

Many such programs are being developed at the local level. There are programs designed to improve the local criminal justice systems to ameliorate the problems of violent narcotics-related crime, to reduce backlogs in the courts which allow dealers and other criminals to remain on the streets to commit additional crimes while they await trial for their first offenses, and to streamline cumbersome interagency organizational structures which hinder communication and hamper efforts to develop an efficient, official response system to the problems which arise. These programs, though, are being funded with insufficient State and local resources and are therefore probably not as effective as they could be. It is in situations like this that the Federal Government has a clear responsibility to step in and provide the money to fill in these shortfalls.

Why should we spend $50 million a year on these programs?

First, because they are, on their own merits, valuable programs and they need additional support. Second, and more importantly, because the benefits from these programs can be shared by others, and when externalities such as these exist, it is appropriate for all citizens, through the Federal Government, to participate in their funding. We need to experiment with novel approaches to this monumental problem and the costs of that experimentation should be shared by all who could potentially benefit.

Mr. Speaker, this is not an expensive program. Fifty million dollars is small change compared to the money we give away for jojoba bean tax shelters and defense contractor extravagances. I have to believe that money spent on worthwhile drug enforcement programs, which have already been approved and funded by State legislatures but which need additional assistance, is better spent than the money we give to develop exotic, fragrant shampoos or to house pedigree dogs in luxury accommodations while their owners are vacationing at government expense in elegant resorts.

I urge my colleagues to support this legislation so that we can take some very important steps towards eliminating this drug disease that is plaguing our society.

HATS OFF TO MADD

HON. ROMANO L. MAZZOLI

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. MAZZOLI. Mr. Speaker, as we enter the Christmas season, I think it appropriate to commend the supporters and members of Mothers Against Drunk Drivers (MADD) on their success in the March Across America.

The 115-day transcontinental march, which started in Los Angeles and ended at the Capitol steps on December 9, attracted thousands of participants—mothers, fathers, students, celebrities, and everyday citizens—from all walks of life. They pooled their efforts to bring to the national forefront a message of concern for the well-being of America's families.

MADD—which was started by one concerned woman, Candy Lightner—has in 5 years, blossomed into a nationwide organization that has just staged the largest event ever of its kind to draw attention to drunk driving. It has numerous other successes to its credit.

Since 1981, more than 400 laws have been enacted at Federal State, and local levels to counter drunk driving and to give more sensitive handling to the victims and the survivors of drunk drivers within the ciminal justice system.

Youth education programs—Students Against Drunk Driving—affiliated with MADD have developed in almost every State. And resolutions have been adopted by Congress each of the past few years designating a week in December as "National Drunk and Drugged Driving Awareness Week."

Christmas is a time for reflection. So in a country in which 25,000 lives are claimed yearly by drunken drivers, 20 percent of whom are teenagers, we must continue to take the strongest meaasures to stop this national carnage. Hats off to MADD for doing just that.

ELOQUENT VOICE FOR AGRICULTURE

HON. THOMAS A. DASCHLE

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. DASCHLE. Mr. Speaker, I read letters every day from farmers and ranchers in trouble, serious financial trouble. Unfair trade practices, huge deficits, and the highest real interest rates in decades have combined to push family farmers and ranchers into the greatest depression since the 1930's.

The most eloquent voices for agriculture are not in the Congress. They are among the family farmers of this Nation, whose strength in the face of the adversity before them is a tribute to their courage and forebearance. It is time for us to offer our own tribute to those who have fed our country and served as the backbone of our export economy. It is time for fair prices for the family farmer. John Block has been able to convince many in the Congress that the answer should be "no."

Mr. Speaker, following is a letter written to me and all Members of Congress by Mrs. Nancy Ekroth of Dallas, SD.

LETTER FROM NANCY EKROTH, DALLAS, SD, TO THE MEMBERS OF CONGRESS

We've had our farm operation for 13 years. Our goal was not to become rich and have it all; but our goal was and still is to be able to remain with our small operation and to proudly pass it on to our children someday. But, the chances of reaching our goal are grim, because of the poor mishandlings and ignorance of those making the wrong decisions on our behalf.

Can the farmer survive on the House farm bill? Absolutely not! And for those of you who think differently, I personally invite you to come and run our operation, and let's see what you feel would be a fair finishing price for your wheat, corn, feed grain, beef, pork, dairy and/or other. But, only when you've calculated all you've done to get it there. And then dare anyone to call you poor managers, because you couldn't cut it!

Then when you've hit rock bottom, one more time, the government offers low interest money; disaster payments at low interest; putting the shirt on our back again. But for how long? Oh probably until our debt payments are due and we can't possibly make payment. We are caught in a vicious web of self destruction. It's getting damn hard to look a farmer in the eye and see fire and determination there anymore, only defeat and very little hope of surviving as farmers.

I refuse to blame ourselves for being the incompetent ones. The ones who incurred a national debt of trillions of dollars in a very few years. I'm well aware there is so much I don't understand. I also know I wouldn't want the job of running a nation. But, agriculture does need the attention of our nation, immediately. Even if the future of

agriculture were promising, it will not happen soon enough to save very many of us.

What approaches would do the most to help family agriculture?

(A) Definitely mandate livable prices.

(B) Yes, get tough on trade.

(C) Affordable credit? That's questionable, considering we can't live without it. but I'm sure most farmers would rather be more debt free and independent. Credit will always mean money owed.

(D) No way will they ever get government out of the process, they're too deeply involved, but, they do need to do something immediately, to better our chances of surviving in agriculture.

We realize we represent a small percentage nationwide, but, we're expected to feed a nation, doesn't that make us important enough to save?

I think you could compare us to dominoes, we are so positioned (at the beginning) that should we fall, all others will fall in turn. If the destination of agriculture is not dealt with immediately and done so in a positive direction, it will be the fate of more than just agriculture; should we fall. Especially in a community the size of ours. Small businesses, schools, even towns will be forced to shut down. So, we all stand to lose . . .

CONGRATULATIONS TO HELEN SMADES FOR HER ACCOMPLISHMENTS IN FRESNO

HON. CHARLES PASHAYAN, JR.

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. PASHAYAN. Mr. Speaker, I should like to call to attention of my colleagues the accomplishments of Helen Smades during her term as president of the Fresno County and City Chamber of Commerce.

Ms. Smades oversaw the completion of a visitors bureau, which opened its doors in April 1985. The creation of a visitors Bureau has been a major goal for the chamber, and represents a response to a $5 million campaign for tourism in the State of California that was initiated by Governor Deukmejian.

Ms. Smades also presided over the creation of a small business hotline to encourage community economic development. The purpose of the hotline is to provide prospective businesses with information about Fresno and to encourage them to consider Fresno when making a decision on where to locate their firms.

Ms. Smades worked diligently and successfully to market the chamber and to increase its visability in the community.

To increase community involvement, a community calendar hotline was developed under her leadership, which began functioning on October 1, 1985.

To increase the opportunities for local businesses to network and to display their products and services to the community, a Business After Hours Program was launched under Ms. Smades' leadership.

Under her guidance, the chamber has taken a leadership role on issues that affect the community, including environmental issues.

Several changes and improvements within the chamber were undertaken by Ms. Smades to increase its reponsiveness and efficiency. The changes include the expansion of the executive board to increase the representation of the minority community, the establishment of modern record-keeping, and the chamber's own production of the Membership Directory and Buyer's Guide to increase accuracy and decrease costs.

I wish to commend Helen Smades for her outstanding contributions to the chamber and to the city and county of Fresno. It is through the diligent efforts and forsight of people like Helen Smades that our community has progressed and will continue to do so.

Mr. Speaker, the enthusiasm and dedication that Helen Smades has given to our community makes us very proud. I offer her my congratulations for a job well done, and my best wishes for continued success in her future endeavors.

TRIBUTE TO SGT. JAMES C. KENNON, WALNUT CREEK, CA, POLICE DEPARTMENT

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. MILLER of California. Mr. Speaker, I rise to pay tribute to Sgt. James C. Kennon, who will retire this month after 28 years of dedicated service with the Walnut Creek, CA., Police Department.

Sergeant Kennon began his career in the department on September 30, 1957. He has served in many capacities within the department, and in each assignment he has distinguished himself by his exemplary performance.

He is a professional law enforcement officer, Mr. Speaker, and he has served as an outstanding role model for other officers. He and his efforts will be missed by the Walnut Creek Police Department in particular, and by all of California's Contra Costa County law enforcement agencies in general.

I know that my colleagues here in the House join me in extending to Jim and his wife, Bonnie, our best wishes and our congratulations and thanks for a job well done.

PRIVATE EDUCATION

HON. BERKLEY BEDELL

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. BEDELL. Mr. Speaker, recent press reports in Iowa have indicated that our former colleague Shirley Chisholm was highly critical of private education in a speech in Iowa.

It was my pleasure to serve with Mrs. Chisholm, and I hope that these remarks were taken out of context. I am advised that one of those in attendance has so indicated.

Mr. Chairman, I have both a private education advisory committee and a public education advisory committee within my congressional district with whom I meet.

While these committees do not always agree with each other, let me assure everyone that both are firmly committed to the best possible education of our young people. Both schools serve our children well, and both have staff firmly committed to quality education.

I sincerely hope that Mrs. Chisholm's remarks were not as reported in the press. We need to work together, private and public educators, towards a common goal—the best possible education of our youth.

THE "WE LOVE CHILDREN" FUND IN GREATER FALL RIVER, MA, ESTABLISHED TO HELP FAMILIES IN NEED

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. FRANK. Mr. Speaker, I bring to the attention of my colleagues the efforts of a group of dedicated citizens in the Fall River, MA, area that have organized the "We Love Children" Fund. At a time of year that is traditionally associated with charitable giving, I thought the work of the "We Love Children" Fund would be of particular interest.

This nonprofit all volunteer organization was founded to help keep families together during medical crises. Founded by Irene and Joe Cassidy and with the untiring efforts of Isaiah and Eliza Avila, this organization now boasts over 1,800 members and is growing every day. There is a serious need for this kind of assistance because of the extraordinarily high costs of medical care today. I am enclosing a list of people who make up the "We Love Children" Fund Committee because I believe their efforts deserve special recognition. I am also enclosing an article about the group that appeared recently in the Providence Journal which describes the fund's origins.

"We Love Children" Fund Committee: Isaiah and Eliza Avila; Louis and Yvette Almeida; Joe and Irene Cassidy; Pauline Travers; Dee Therrien; Julie Rapoza; Don and Eva Nolan; John and Lorraine Richardson; Rita Bohun; Elaine Mello; Lucy Moniz; Cathy Murphey; Bill Whitty; Attorney Dennis Poole; Attorney John Mitchel; State Senator Tom Norton and aide; Isabel Lopes; Ken Fiola; State Representative Joan Menard and aide; Dave Augutino; City Councilor John Medeiros; Mr. Raposa, L.A.S.A. President; and Kathy Castro, O Jornal.

FUND AIDS PARENTS IN TIME OF NEED

CASSIDYS SEE PLEADING DAD, START GROUP

(By Dan Durand)

FALL RIVER, MA.—Putting a worthwhile idea into action isn't always the easiest thing to do.

Joe and Irene Cassidy found that out when they came up with the idea of starting the "We Love Children Fund."

The Cassidys began about three years ago while watching a father plead for help during a local television newscast.

Mikey Almeida was dying and his only hope for a healthy future was a new liver. Medical costs were astronomical, and Mikey's father needed money.

The Cassidys wanted to help. But how?

They knew the needy family lived in the greater Fall River area, but they had no clue on how to contact them.

They began by calling every Almeida in the phone book. After many calls without result, the Cassidys finally reached the sick boy's grandfather, Louis Almeida.

The Cassidys explained how they were moved to help Mikey after they saw the boy's father pleading for help. They also requested that they remain anonymous while helping the family.

Mikey's transplant operation was performed in Pittsburgh. The Cassidys discovered medical insurance does not pay a parent's food, lodging or transportation costs to the hospital. And they learned that there is no on-going social agency or charity to help the parents with the costs to be near when the child must receive medical treatment away from home.

So they got an idea. Why not launch an on-going charity to fill the gap? They sought support for their cause from friends, family members and strangers. They held fundraisers. They sent out letters. They got their message across on radio.

The organization now has about $2,800, and its headquarters are in the Cassidy's home at 539 Divison Street.

"There have been special funds formed to help parents defray medical costs and related expenses, but they were set up only on a case-by-case basis, only to be disbanded after the child received medical treatment," Joe said.

"The cost to parents staying in a hotel near the hospital where their sick child is being treated in some cases can amount to over $100 daily," Joe said.

This year the "We Love Children Fund" made an attractive agreement with the Holiday Inn on Charles Street, Boston, next to Massachusetts General Hospital.

The hotel agreed to provide rooms to the organization at a reduced price, an agreement that was coordinated by State Rep. Joan Menard of Somerset. It charges the organization about $75 a night for a room that normally costs about $102 nightly.

Any parent whose child is treated in a Boston hospital will be allowed a maximum of three night stays at the hotel at the organization's expense.

The parents need meet only two requirements to qualify: proof that the child is under 18 and proof from the child's doctor that the child needs treatment at a Boston hospital.

The organization also is planning a program whereby city emergency medical technicians or local hospitals will be able to call the Cassidys on the day of an accident and they in turn would contact the hotel and arrange for a room on the same night of the accident, Joe said.

The organization has about 23 members who help with fundraising and membership drives. It costs $1 to join.

Joe points out that everyone in the organization is a volunteer.

So far the "We Love the Children Fund" has helped Mikey Almeida's parents and the parents of Mark Gousie, who is scheduled to undergo a bone marrow transplant at a Boston hospital.

Although the organization is still in it infancy, donations are starting to come in daily.

"We're on our way," Joe said.

UNITED NICARAGUAN OPPOSITION LEADERSHIP SPEAKS OUT FOR FREEDOM

HON. DICK CHENEY

OF WYOMING

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. CHENEY. Mr. Speaker, the United Nicaraguan Opposition represents the only chance that Nicaragua will know freedom in our lifetimes. The Sandinista regime of Nicaragua, under Soviet-Cuban tutelage, imposes a totalitarian state on the Nicaraguan people. If the United States continues with its half-hearted response of providing just enough aid to keep the Opposition alive in Nicaragua, but not enough aid to help them liberate the Nicaraguan people, the price will ultimately be paid by the American people, in large sums of blood and treasure. The United States cannot afford to let the Communists consolidate their foothold on the mainland of the Americas. We should restore full aid to the Nicaraguan Democratic Resistance, represented by the United Nicaraguan Opposition.

The United Nicaraguan Opposition stands for the values of freedom, democracy, and human rights which we cherish. The Opposition's leadership made its views clear in the following article in the New York Times of December 13, 1985:

"CONTRAS" ARE ON THE RIGHT TRACK

(By Adolfo Calero, Arturo Jose Cruz and Alfonso Robelo Callejas)

Public opinion in the United States has a passion for "balance"—for believing that both sides in any conflict are at fault and blaming both in equal measure. In the case of the Central American conflict, this is leading many people astray.

There has been increased recognition in the United States of the fraud perpetrated by the Sandinistas. People hear increasingly urgent expressions of concern from the elected leaders of Nicaragua's neighbors, and there is growing awareness of the danger that the Sandinistas pose to peace and democracy.

This recognition is all to the good. The problem is that many North Americans worry that it is one-sided. They don't like the fact that it may lead Washington to support the Nicaraguan opposition—and so they look for a "balancing" argument. They suggest that, while the Sandinistas are bad, there are also grave problems with the anti-Sandinista fighters known as the "contras"—an incorrect label first pinned on them by the Sandinistas.

This is an easy way out: No political movement is above reproach, and one can always point to disagreements and unsavory elements in the opposition. In truth, however, the facts do not justify the charges.

We in the United Nicaraguan Opposition, an umbrella group known as U.N.O., are the first to admit that there are differences among our leaders. We respect our differences and are proud we do: That is what distinguishes us from the Sandinistas. U.N.O. has brought together a wide range of democratic groups—from all across the spectrum of those who joined in the revolution against Anastasio Somoza Debayle—struggling to prevent the consolidation of Sandinista rule, and we are proud to be united behind this objective. The organization was designed to preserve differences of opinion on economic and social questions and to preserve the groups that represent each point of view.

There is, however, one issue on which we brook no disagreement—human rights. Our commitment to respect human rights applies even while we are fighting against those who systematically violate the rights of others, innocent Nicaraguans. We agree across the board about the need for systematic procedures to insure that this commitment is implemented by our troops and that violations are punished. Such procedures have been in place for some time. They are continually tested and will continually be improved.

Only the very innocent imagine that we could fight a guerrilla war with no misconduct by our troops. But a large share of the "atrocities" of which we are accused are either fabricated by the Sandinistas or are in fact atrocities committed by the Sandinistas.

Beyond this agreement, the U.N.O. leadership is also united in its goals—peaceful solutions and national reconciliation. All the groups in the organization have repeatedly offered to stop fighting and start negotiating. That offer is still open.

The leadership of the Nicaraguan opposition has the right to disagree about many things, but we agree on the important points. We recognize that the only legitimate source of power is a free electoral process. We agree completely on the need to overturn the Sandinistas' totalitarian control of Nicaragua. We prefer to do so by negotiation, but we recognize the need now to fight for this objective. We are determined to respect human rights even at the height of the struggle, and we hope to establish a genuinely democratic system under which every Nicaraguan has the right to participate in the political process.

The Sandinistas have failed historically because they are an instrument of foreign interests. We are not, and will never be, the instrument of a foreign power.

The Nicaraguan opposition is the genuine voice of the people of Nicaragua. It does not threaten a return to Somocism. Its strength comes from tens of thousands of Nicaraguan peasants and other young people from every social class who are willing to risk their lives to fight for it—to fight for pluralism and freedom and the protection of human rights.

NEW ZEALAND AND PORT ACCESS LEGISLATION

HON. GUY V. MOLINARI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. MOLINARI. Mr. Speaker, I was disappointed to learn last week that New Zealand's Prime Minister David Lange has introduced legislation which would put into law the current government's policy of not granting port access to nuclear powered or armed ships. The legislation also bans nuclear-armed aircraft from landing in New Zealand.

Relations between the United States and New Zealand have been strained since February of this year when New Zealand first implemented this policy by refusing to allow the U.S.S. *Buchanan* entry into a New Zealand port. New Zealand claims that in its legislation it is attempting to accommodate the United States policy of neither confirming nor denying the presence of nuclear weapons aboard our ships by assigning that responsibility to the Prime Minister, who will make the determination based on all relevant information and advice available to him from various sources.

The U.S. State Department has made it's feelings about this legislation quite clear. In order to maintain our alliance under the ANZUS Treaty, full cooperation of all three parties is necessary. The State Department has stated that a full review of our security obligations to New Zealand under the ANZUS Treaty will be undertaken if such legislation is enacted, with the possible result that our longstanding treaty alliance with New Zealand would be terminated.

Mr. Speaker, New Zealand has always been a true and loyal friend of the United States and it would be unfortunate if the port access issue would force the United States to make any change in our alliance relationship. It is my hope that New Zealand will reconsider the advisability of the port access legislation and return to a policy of full cooperation under ANZUS—an alliance that an overwhelming majority of the New Zealand public supports. In the event that this is not the case, however, I would hope that the Congress would support the State Department in actions it may view as necessary as a result of the enactment of such legislation.

PANAMA "BEHEADED"

HON. MICHAEL D. BARNES

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. BARNES. Mr. Speaker, the following editorial from the Washington Post pretty well reflects the frustrations of the Congress and the American people with the perversion of democratic government in Panama under General Noriega. Panama is part of a not-very-select group of countries in Latin America—Cuba, Nicaragua, Haiti, Chile, Paraguay, and a few others—that are not making progress toward democratic government. I believe we need to look very hard at future aid allocations for Panama so long as current political trends continue. Particularly at this Christmas season, I know that all of us in the House join in hoping that the new year will progress toward democracy for the Panamanian people.

The editorial follows:

[From the Washington Post, Dec. 6, 1985]

PANAMA "BEHEADED"

According to a report from the police in Ciudad Neily, Costa Rica, witnesses last saw Dr. Hugo Spadafora alive reading a newspaper at a Panamanian National Guard border checkpoint, where he was being detained after having been removed from a bus, about noon on Friday, Sept. 13. The next person the Costa Rican police could find who had seen him was the young man who found his body, "completely decapitated," in La Vaquita River just across the border from Panama the next afternoon.

Dr. Spadafora was known, among other things, for having formed a battalion in Panama to fight against the Somoza family in Nicaragua. He was also known for being a keen critic of, among other things, the alleged drug trafficking connections of Gen. Manuel Noriega, strongman of Panama

The murder and its manner stunned Panama, which is not one of those Central American places where the killing, let alone the evident torture and beheading, of critics is routine. In an important sense, however, Dr. Spadafora was not the only victim. There is reason to believe that the elected president, Nicolas Arditas Barletta, was planning to launch an inquiry into the crime upon his return from a trip to the United Nations in October. While he was still in New York, Gen. Noriega forced his ouster; actually, President Barletta, struggling to maintain a thread of constitutionality, "separated" himself from office under an obscure article and technically remains president.

The story was put out that the Barletta economic policies were largely to blame, but knowledgeable Panamanians look more to the Spadafora affair. Panama's painful progress toward democracy was thereby "beheaded" too.

In Panama these days, the atmosphere reeks of police intimidation, but large numbers of citizens have come out in the streets calling peacefully for an inquiry into the Spadafora murder. Meanwhile, the armed forces are bringing under their direct control a whole range of functions—ports, railroads, customs, immigration—previously and more properly under civil administration. The Barletta economic policy, which had been sanctioned by the political parties, threatens to go by the boards, with immense potential costs to the country's economic viability and credit worthiness.

Gen. Noriega is well known in Panama. He is becoming well known outside Panama as an impervious leader who fears to let independent investigators examine the Spadafora affair and to let independent citizens control their government. Almost every country in Latin America is going the democratic way except Nicaragua and Panama. Gen. Noriega is an embarrassment to his country, and to the integrity of the Panamanian armed forces.

A TRIBUTE TO TOMMY WINEBRENNER

HON. CARROLL A. CAMPBELL, JR.

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 11, 1985

Mr. CAMPBELL. Mr. Speaker, after 30 years on Capitol Hill, Tommy Winebrenner is leaving. To say that he will be missed is an understatement.

How do you say goodbye to an institution? I remember very clearly my first days here as a freshman Congressman and the invaluable help Tommy provided. His knowledge of the House schedule, the legislative calendar and process, Jefferson's Manual, Roberts Rules of Order, and just the everyday comings and goings of the House were at that time rumored to be legendary. And, I can honestly say that the legend proved to be true. Tommy has always been there to provide just the right parliamentary stroke and keep us on the right track. His honesty and professionalism are recognized by both sides of the aisle and he will certainly be missed. It has been a pleasure to work with him and I wish him the best of luck.

A TRIBUTE TO TOMMY WINEBRENNER

HON. CHARLES PASHAYAN, JR.

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 11, 1985

Mr. PASHAYAN. Mr. Speaker, in paying tribute to Tommy Winebrenner, I shall not make comment on Tommy's parliamentary prowess, which, I take it, has been done abundantly by my colleagues. Rather, I shall dwell on what on first blush seems a small point, but is really important to Members in a practical way.

No parliamentary body such as ours can perform without the presence of a sufficient number of Members. Short of an extreme situation, the attendance of Members of the House is voluntary. The people elect Members to attend and to vote, but they also elect Members to perform a whole host of other duties.

There is no Member of this body who feels that 24 hours a day are too many to succeed in the numerous tasks given by those who elect us. Meetings in committees and in Members' offices on the Hill are important, but on occasion meetings off the Hill are also of significant importance.

Now Mr. Speaker, it is often no small matter to determine when it is safe to leave the Hill for such a meeting, when a Member can do constituent business at a department or agency without missing votes.

The same holds true when deciding whether to fly to the district on this day or that.

When we stop to think about it, Mr. Speaker, deciding when to leave the Hill can be one of the important things Members decide countless times during the legislative year.

Mr. Speaker, the advice given to several generations of Members by Tommy Winebrenner on this small but important item as well as his constant and sage counsel on parliamentary procedures on the floor will be sorely missed by us all, and by that, Mr. Speaker, I mean by both Democrats and Republicans. None of these decisions can be made competently except by complete mastery not only of parliamentary details but of the political strategies occurring at any moment throughout the parliamentary day. We cannot count the number of times that we have taken comfort in Tommy's judgment, "Be back by such a time."

I am sure that my colleagues join me when I say, Tommy, thanks for your wise advice given countless times on whether to stay on the Hill or to do business elsewhere, or whether to stay in Washington one more day or to leave for the district. Tommy, your advice and your humor will be missed by us all, and your contributions to parliamentary procedures and events in your three decades on the Hill have been brilliant and immense. I wish you the best fortune in you next endeavor.

DANTE FASCELL AND THE MIRACLE OF DEMOCRACY

HON. BILL RICHARDSON

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. RICHARDSON. Mr. Speaker, there are giants in the U.S. Congress. One of these is DANTE FASCELL—little in height but enormously tall in stature and accomplishments for this country.

There is also another side to FASCELL. When I was a young, struggling, aspiring public servant, he was always there with a kind word and willingness to help. I will always consider him as one of my mentors.

This article captures the FASCELL style and character.

THE MIRACLE WORKER

(By Joel Achenbach)

"Where'm I going? Where'm I going?

No one answers.

"They're not listening to me, they never listen to me," says Dante Fascell, feigning self-pity. They always listen, of course. He jams a wad of Captain Black into his pipe, and turns up the volume.

"Where'm I going?"

"Rules," a press aide says from across the room.

Rules Committee.

"Let's go!" the congressman says, and he charges out of the office and down the hall, staffers and supplicants in tow. It is a Tuesday morning and the King is coming to town, the one from Jordan, Hussein. But first there is business to conduct, deals to make, meetings to attend. Fascell is in overdrive, power-walking like an Olympian, gaining speed from liberal use of the forearms. He would be believable as a plumber or a Navy mechanic. Old Southern congressmen are supposed to have distinguished white hair, mellifluous voices, distractingly articulate speech, but Fascell is gruff, jowly, blunt, a bulldog among the swans. He is built low to the ground, for better cornering.

After a quick left and a quick right he rides the elevator to the sub-basement, cuts through the boiler room—he hates to waste time—and then loads himself into a cart that looks a tad like the Conch Train down in Key West. An attendant throws a lever and the cart goes humming on train tracks down a curved, gloomy tunnel. A little subway for congressmen. This is the first thing that seems a little strange.

At the end of the ride he finds himself deep beneath the United States Capitol. An escalator and another elevator take him to the Rules Committee room. The entire trip avoids any contact with sunlight and, and more importantly, tourists, thousands of whom roam the Capitol, driven by a thirst for the symbols of democracy. This is the second thing that seems a little strange. You just can't believe that the Congress actually works here, that it continues to operate the government of the United States above and below and around these innumerable busloads of people from Dubuque and Akron and Montgomery.

In the Rules Committee room, a surprisingly small and cramped chamber with fancy curtains, Claude Pepper calls the meeting to order. Eight Democrats sit to his left. One Republican sits to his right. A few other Republicans wander in and then quickly leave. They know they don't have a chance against Fascell, who heads the Foreign Affairs Committee, and who is such a powerful congressman that he once pushed through a foreign aid bill that included millions of dollars *for Miami.*

Fascell and several Republicans trade turns arguing about a nuclear test ban resolution. Fascell wants the Rules Committee to prohibit amendments. The Republicans easily win the day from a rhetorical standpoint. Fascell starts to leave, but then pauses and cocks one ear, to catch the vote. Nine to one. As expected. He had called them all the day before, just to make sure.

Fascell has barely made it back to his office when a bell rings on the wall. Two bursts, loud and raunchy. Fascell drops everything and rushes back into the hall and charges once again down the corridor. A bell. They use a bell, just like school. This is the third thing that seems a little strange.

As Fascell marches on the Capitol he is joined by other congressmen, but they can't keep up with the 68-year-old from Kendall, In Congress, 68 isn't old. Some of the gentlemen appear in need of pure oxygen.

"It's a stupid vote, really," Fascell says. The House is voting on the previous day's journal. Kind of like approving the minutes. "You're not going to vote down the journal. It's a technicality. We should abolish it, but we won't."

Two bells means a floor vote. Three bells means a quorum call. Four bells means go home for the day. Twelve bells means that in a few moments everyone will turn to vapor. Years ago, the 12-bell alert would be tested at 11 a.m. on the first Wednesday of every month, and all the congressmen would ignore the noise. Eventually someone realized that the Russians might learn about the test and attack precisely at that moment, dusting the leaders of the Western World in the middle of a committee meeting, rather than, say, in the elevator leading to the garage.

Eventually you get accustomed to the bells, the subway, the votes, the jokes, the Capitol, and then you begin to discern the entire arabesque process, the unnatural division of responsibility among the authorization committees, appropriations committees, budget committees, revenue committees, conference committees . . . You marvel at the explosion of staff, the pandering to television, the breakdown of the seniority system, the frenzy of campaign fund raising, the rapidly growing clout of the big-money Political Action Committees (called PACs, like some electronic game demons), and of course the traditional red-ink spending, pork barrel projects, the grandstanding, the back-slapping, the palm-greasing . . .

And you begin to wonder.

What is going on here?

What is happening to Congress?

Is this any way to run a government?

The Founding Fathers, the Framers, they had a very good idea—good enough to survive two centuries of sometimes moronic stewardship—but the simple fact is that the Constitution is a document of principles, with a basic sketch of the structures of government, and it does not say anything about subcommittees and budget making and deficit spending and PACs and TV, it does not say anything about the freaking *Rules Committee* . . . vague and high-minded, the Constitution leaves unanswered the question of how the decisions will be made, how the bridges will get built, how the money will be taxed.

So for nearly 200 years, Congress has been . . . well, winging it.

When you realize this is when you begin to appreciate a man like Dante Fascell, career congressman, master of the game.

No one—it's almost sad—no one will ever build a big marble Lincoln Memorial-style monument in honor of Dante B. Fascell, D-Fla., representative of the 19th congressional district, going on 31 years in Congress.

He deserves something. Maybe a good, solid statue. It would not have to be a tall statue. In fact it could be rather squat. Stubby. Oblate. The countenance would have a lot of . . . character, shall we say. and instead of a scroll in his left hand, it would be a pipe. And a Captain Black pouch sticking out the back pocket. The inscription, the one glorious quotation to remember him by, could be simply: "You have to have the votes."

In a way Fascell already has monuments everywhere, particularly in his district, which runs from Coconut Grove to Key West and once covered all of Dade and Monroe counties. Radio Marti is a monument to his anti-Castro passion. Biscayne National Park is a monument to his stubborness and refusal to cave in to developers. The new bridges in the Keys, and the new water main to Key West . . . those were Fascell. The new beach on Miami Beach . . . Fascell. The War Powers Act, the establishment of the Consumer Protection Agency, the Department of Housing and Urban Development, the Department of Education, the extension of the principle of government-in-the-sunshine to Congress . . . Fascell had his thick hand in all that.

Yet, even though he's by all estimates one of the 10 most powerful and respected men in Congress, maybe one of the top five, he's still . . . well, he's still just a congressman. And he is an intentionally low-key one at that. A mangler of language, he is definitely not an orator. ("I wish I could speak seven languages, fluently," Fascell says. "I speak one language. Badly.") He has built up a

reputation as a behind-the-scenes smoky-room dealmaker—although Fascell protests unconvincingly, "I've never made a deal in my life." He doesn't like the smoky-room allusions, and notes that he doesn't smoke cigars and "gave up pinching women."

Some liberal Democrats think Fascell is too willing to compromise with the Republicans. But rather than ram through legislation with a brute Democratic majority, Fascell likes to get everyone on his side. He just wants to get the job done.

DBF, as his staffers call him, isn't even ambitious, at least by the standards of Washington, that roiling pit of megalomania. It's hard to retain much humility and restraint inside the Beltway, where thousands of people who are big shots back home but mere rodents here in the Center of the Universe are competing for influence and searching for the ultimate Power Lunch. They are the kind of people who are so competitive they won't share a recipe.

Fascell, to his credit, has never been one of these lowly dust-eating gerbils. Of course, he will never be the House Majority Leader or the Speaker. He got off that track years ago. He's no Jack Kemp or Bill Bradley or Peter Ueberroth, he's not trying to ride into power on some kind of Great Man Plan.

"I made a conscious decision then that I would stick to my knitting, that I would pay attention to my district and work on my committee," Fascell says.

He has a distinguished position as chairman of Foreign Affairs, but for the most part, Congress is just tagging along on foreign policy—the constitutional province of the Executive Branch.

Which is not to imply that Dante B. Fascell is a nobody, or a failure. The Republicans know otherwise. Fascell has been an immovable object as far as the GOP is concerned. He has won 16 straight elections in the 19th congressional district. Won big almost every time. In a time when more and more congressmen have the blow-dried hair, freeze-frame smiles and mechanistic delivery of TV newscasters, Fascell had endured and triumphed. In fact, in 1982 the local GOP went so far as to run an actual TV newscaster against Fascell. The man was Glenn Rinker, from Channel 10, and Fascell beat him by a mile.

What is perhaps most remarkable is that Fascell has prospered and grown powerful despite a reformist upheaval that has made life a little harder for many of the old-line breed.

The greatest change during his 31-year tenure has been the ditching of the seniority system, which essentially gave power to whoever could live the longest. Old Southern congressmen dominated the committees, created or disbanded subcommittees at will, picked themselves to chair all important panels, hired all staff, scheduled all meetings, stepped on any and all challengers. The Constitution, of course, didn't explicitly say that Congress had to be *fair*. The younger congressmen would arrive in Washington and discover that they had been more or less disenfranchised. Naturally they couldn't tell this to the people back home. They were supposed to be cheeses. And they knew it was suicide to buck the system and cross a committee chairmam. So they all sucked in their guts, queued up and waited their turn.

Fascell waited 28 years. When he first got to Washington he was assigned an office in the basement next to the elevator shaft. "He couldn't talk on the phone because the elevator made so much noise," remembers Fascell's longtime campaign chairman, Pontiac dealer Burton Kahn.

Fascell was patient. His staff expanded. Congress changed. By the time Fascell took over Foreign Affairs, the seniority system had given way to a centrifugal dispersion of power, and an explosion of subcommittees. For example, the Agriculture Committee now has eight subcommittees, such as the Cotton, Rice and Sugar subcommittee, the Wheat, Soybeans and Feed Grains subcommittee, and the Tobacco and Peanuts subcommittee. These have become fiefdoms for younger congressmen. According to a report in the Atlantic last December, there were 47 meaningful Mr. Chairman positions in Congress in 1964. By 1984 the number of Mr. Chairman positions had risen to 326. There was a Mr. Chairman glut.

The number of congressmen has not changed, but the size of the whole corporation has mushroomed. The Foreign Affairs Committee staff went from 14 people in 1960 to 85 by 1983. Rules Committee staff went from 2 to 47. Nowadays staffers are often busy just trying to cope with other staffers. Staffer gridlock.

The House held 73 floor votes in 1955, and 498 votes in 1983. And yet Congress is passing less than half as many bills. It turns out that the seniority system was the grease in the wheel.

Fascell admits that it is now harder to pass legislation. But he defends the system like Cerberus at the Gates of Hades.

"In the old days of the seniority system, all that was required was a meeting of the leadership," he says. "That is no longer true. Some people don't happen to like that. I happen to think it's great."

Allen Weinstein, president of a nonpartisan think tank called the Center For Democracy in Washington, says, "I don't know a single other member of Congress who has bridged the gap as successfully as Fascell between the older political culture of Washington and the newer culture. He is respected by every young turk I can think of."

In his tenure Fascell has seen seven presidents, seven governors of Florida, six mayors of Miami and 13 city editors of The Miami Herald.

There is a bridge named for him in the Florida Keys. And there is a park named for him in Kendall.

A few years ago he decided to go to Dante B. Fascell Park to play tennis. He forgot his ID card. The attendant didn't recognize the fellow. Made him pay a nonresident's fee.

Fascell is drinking coffee in the House dining room, telling war stories about his days in the Army (in essence, he defended California from the Japanese horde and invaded his ancestral homeland of Sicily). The room is as noisy as a college cafeteria, packed with congressmen, House officers, lobbyists, reporters, dignitaries and sycophants, and as Fascell talks, a man at the next table stands up, points at Fascell and says very loudly, apparently for the benefit of the people he is sitting with, "That man is one of the most powerful men in Congress—if not the most powerful."

The guy's a young congressman. Maybe he's trying to score points. Fascell just laughs and shouts back, "I keep trying to tell people that, but they won't listen."

A few yards away is George Washington, who is sticking his hand out at Cornwallis, who in turn is suing for cessation of hostilities under the flag of truce. The fresco had been walled up in the Capitol for years, and found during a remodeling. The Capitol has that slightly mysterious air that cloaks all old buildings, as though perhaps it is full of early 19th Century secrets, lots of little passageways and tunnels and bookcases that spin around, ghosts.

Fascell knows of a tiny prayer room. He sometimes goes there to pray.

"We pray for forgiveness," he jokes, taking a sip of coffee.

"Or pray that your bill will pass," someone suggests.

"And do you know what God says? God says—"Fascell pauses theatrically—" 'Do you have the votes?' "

He believes in votes. The one who gets the most, wins. Simple.

And the consensus around the Hill is that there's no one better than Fascell at getting them. Fascell is what is known around the Capitol as "a player." Unlike a lot of the 535 representatives and senators, he matters.

Consider his foreign aid feat. Producing a foreign aid bill has historically been the single most important task faced each year by the House Foreign Affairs Committee, and yet, under the lame leadership of ancient Clement Zablocki of Wisconsin, the committee hadn't managed to put together a foreign aid bill for several years. Foreign aid has never been politically popular, even though it's a great way to implement and regulate a foreign policy. It means giving money to people who are not Americans. This doesn't go over well with the folks in the cheap seats. Zablocki couldn't even get a bill out of committee.

Then Fascell took over in January 1984, knocked heads, kicked tail, and within a few months he had rammed the bill through the House. Judging from the incredulous reaction of the Congress-watchers you'd have thought Fascell had single-handedly balanced the budget.

What does this stocky old guy know that others don't? What is The Secret?

The answer isn't obvious. Or maybe it's so obvious it's invisible. Mostly, Fascell talks to people. He pulls them aside in the hall, whispers something in their ear, and they nod, and the next thing you know there's a bridge going up. The strange thing is that if you sneak up next to him and try to detect what it is he's saying, to surreptitiously catch those few precious words, you hear something like, "Natcher says two hours, OK?"

It's all so . . . mundane. But then that's the system. The oratory, the "I regret I have but one life to give for my country," that's just the wrapping, part of the marketing. Democracy is riding elevators and finding out if Natcher wants one or two hours, whoever the hell Natcher is.

Here are some rough notes from watching Fascell at work, some journalistic ore, if you will:

Fascell gets on Capitol subway next to congressman from Oklahoma.

Fascell: "I just told someone you still make buggy whips in your country"

Oklahoman: "That's right. It's so poor there, my brother'n'I went out the other day to shoot the pig between the eyes, but he was so thin we had to smother him to death."

HA HA HA HA HA HA HA HA HA HA HA

Fascell goes to office, three men waiting.

Silver-haired man: "We're Barnett Bank for Better Government."

Younger guy (correcting): "Barnett *People* for Better Government."

Fascell: "You the PAC, are you?"

They talk about an interstate banking bill.

Fascell: "Hold on, let me call my legislative assistant and get a reading on that. Marcia?

The national trigger bill, still in committee?

Dying? And where am I on it?"

Fascell sees congressman in hall.

Fascell: "Hello, Mr. Chairman."

Congressman: "Hello, Mr. Chairman."

Fascell gets briefed about world events.

Fascell: "George, hurry up!"

George: "I just wanted to give you an update on the Israeli bombing of the PLO headquarters in Tunisia."

Fascell: "The people who allegedly murdered the Israelis are back in jail."

George: "Yes, in Cyprus."

Fascell: "So the attack on the PLO headquarters was gratuitous."

George: "Gratuitous."

Fascell: "And exacerbated an already . . . exacerbatable situation."

Fascell receives a clipping frm the morning paper.

Fascell: "What's this?"

Aide: "Today's paper."

Fascell: "Did they quote me?"

Aide: "Yes."

Fascell: "Is it accurate?"

Aide: "Yes."

Fascell: "Is it good or bad?"

Aide: "it's fine."

Fascell (to reporter): "That's how we read the paper."

So there it is. An actual congressman in action! You have to wonder: Are we missing something? In a word: Yes. There are things happening out of sight, in the staff offices, in the cloakroom behind the Speaker's podium, in the private conferences. But at least on the surface, big-time representative government is a lot like . . . smalltalk.

The scene on the House floor itself is not particularly riveting. Often, protocol gets in the way of any serious discussion. They are constantly "yielding" and "not yielding" to each other. Here is a sample from the Farm Bill debate:

Rep. Rose: You can produce peanuts in California.

Rep. Brown: Nonquota peanuts, yes.

Rep. Rose: And do you know that, if there is any shortage in the domestic—

Rep. Brown: Did the gentelman ask me if I would yield to him?

Rep. Rose: I thought the gentleman did yield. I apologize.

Rep. Brown: No, but if you will ask, I will.

Rep. Rose: Well, will the gentleman yield?

Rep. Brown: I am happy to yield to my friend.

Rep. Rose: I appreciate it . . . Do you know that exports of those peanuts have gone up 40—

Rep. Brown: I continue to yield to my friend.

Rep. Rose: Do I have to say that every time I speak with you? I will get my own time, but I thank the gentleman for what appeared to be yielding.

When everyone goes home for the day, a few people stick around to make speeches in an empty room, for the benefit of who ever might be watching out there on C-Span. One night William Dannemeyer of California got up and spoke for half an hour about AIDS, blaming it on the existence of homosexuality: "God's plan was for Adam and Eve, not Adam and Steve . . ."

This is Congress. Somehow—and this is the miracle—it works.

There's still the question of The Secret. Maybe it's just that everybody likes Fascell, because he's so straight-ahead, so raw and real and honest. That's not exactly common in Washington. He's just a Heckuva Guy.

Even the Republicans admire Fascell, though he doesn't vote with them like some of the Democratic "boll weevils" from the South. "He is well-liked on our side of the aisle," says California Republican Robert "B-1 Bob" Dornan, who flies as far right as anyone in the House. "Personal warmth goes a long way. Fairness goes even farther."

Maybe The Secret is that Fascell is a true patriot. He is an old-fashioned anti-Communist liberal, a disciple of the New Frontier. He is one of the leading forces in Congress to extend the message of America overseas, lobbying hard for the Voice of America and, of course, Radio Marti. He was never one, not even in the darkest hours of Vietnam and Watergate, to lose faith that we are the good guys.

"I haven't found a better system," he says, staunchly.

Maybe The Secret is just hard work. He's got some kind of internal energy source that isn't normal—it makes nuclear fusion look like static electricity. This is a man who once literally staggered into the House chamber with a blood clot on his brain, stumbling around and nearly paralyzed on his right side, but doggedly determined to vote against Reagan's tax cut. The next day the doctor drilled two holes in Fascell's head and he's been better ever since.

Most likely The Secret is nothing more than a special attitude about government. Fascell is viciously pragmatic, willing to compromise in a pinch. He beelines for the common ground with the unerring instinct of a sea turtle.

"You got umpteen people on the committee. Every member has a different idea about something. The first thing you go to do is get all those people moving along the same railroad track. You might not be able to get them on the same car, but you got to at least get them on the same train."

Be it from coincidence or contrivance, Fascell's philosophy is usually in step with the politically attainable. He also doesn't forget the electorate. In his district, one of the most eclectic in America—including the military personnel in Homestead. the vegetable farmers in the Redlands, the Yuppies in Kendall, and the uncharted ground in Key West and Coconut Grove—it is quite a balancing act. Into the mix goes a sizable number of conservative Latin exiles. His staunchly anti-Communist votes, particularly his hawkish stance on Cuba and Central America, nicely match the beliefs in his district. He is a politician.

"The main thing is being a known quantity," Fascell says of his success.

That's about all he says. He doesn't seem very thrilled to talk about himself. He could be making phone calls instead. Getting votes.

Fascell's drive and pragmatism date back to his scrappy youth. A first-generation American, he was born in Bridgehampton, N.Y., and moved with his Italian immigrant parents to Miami in 1925. He helped his father deliver milk and eke out a modest income. His mother, 90-year-old Mary Fascell of Coral Gables, remembers Dante, who she named after the poet, as a rule-abiding, untroubled boy who lived school. He didn't move out until he got married, in 1941, to Jeanne-Marie Pelot, a marriage that thrives today. Fascell earned a law degree from the University of Miami, and, backed by the local Young Democrats and Jaycees, won a spot in 1950 in the Florida Legislature. When U.S. Rep. William Lantaff retired four years later, the 37-year-old Fascell cruised into the vacancy with the slogan "Ring the Bell for Dante Fascell."

Fascell says that if he hadn't gone into politics he "would've done something else great." He winks when he says it but there's a fat streak of truth there. Ultimately Fascell believes that his success is the product of an unmeasurable and indefinable greatness. And he does have a certain air about him—like many men and women of unusual achievement, he is at all times the perceived locus of energy in the room, the axis of the magnetic field, the monopolizer of power. Everyone present is either listening to Dante Fascell or speaking to him.

"Attaboy!"

The congressman springs from his chair and balls his fist and slugs the air, as the radio crackles news of a Miami Hurricane touchdown. This is a Saturday, in Kendall.

"Hey. Hey Stan? Stan. This guy went 90 yards on a screen pass. Alonzo Highsmith."

Stan Strother, Fascell's son-in-law, shakes his head. The congressman sits down and his 10-month-old granddaughter Stacy comes pounding into the room, teetering on her impossibly small feet.

"Hi Sweetie Pie! Lookadat. Yeh, she's got a biiiig smile all the time. She's a cutie-pie. What you grinning at, punky?"

The phone rings and the congressman gets it.

"Yeah. Right. Yeah. Don't wo— Don't worry, we'll catch up with each other. You bet. Bye."

He scowls.

"Man! He was determined to come over here tomorrow."

"Who was that?"

"Constituent."

A visitor says the congressman is a very important man. Stan nods, says to his father-in-law, "It's like when you were doing the foreign aid bill. I sorta knew it was major. But I didn't know how major it was until I started watching C-Span."

Interception.

"I can't believe it. Yuck," Fascell says.

The congressman fields another phone call, then answers the door and is handed a stack of papers by a woman who immediately vanishes, and then he sits down.

"Who am I? Y'know, I'm a public office holder, y'know. I'm a family man. Y'know. I try to live in the community. Try to have some kind of private life. I like to fish. I'm a Renaissance Man. I like music. Don't write that. Don't write that! It's presumptuous to use the term Renaissance Man. I'm not a poet or a writer or anything."

He loads his pipe.

"Christmas is a big thing for us. It's a big deal. We have a tree, right here where we're sitting, and everybody has fun."

His voice grew somber.

"We have a good family. Good family."

Dante and Jeanne-Marie Fascell have two living children—Toni, Stacy's mother, and Sandra Jeanne.

On Feb. 9, 1984, barely a month after he finally became chairman of the Foreign Affairs Committee, Fascell was presiding over a hearing and listening to Defense Secretary Caspar Weinberger testify when he was summoned into a back room. Two of his aides, Bob O'Regan and Barbara Burris, were waiting. They told Fascell that his only son, Dante Jon, called "Deej" by the family, had been killed in a collision on the Seven Mile Bridge.

"It's just a big blur right now," he says as he shifts in his armchair. "Somebody got

me, said it was an emergency call. My son had been killed. I don't know. Maybe I talked to my wife. It's just a big blur.

"You go on doing the best you can. You never really get over the loss of a child or a loved one. But it makes you realize philosophically about life and how quickly it can change. It also makes you realize how beautiful people are. We got correspondence from all over the country. There was a tremendous outpouring of sympathy and support. You know that there's just worlds of good people out there."

His sister Vera says later. "It's like a part of him is gone. There's a certain sadness there that was not there before. You would have to know him to know it was there."

It is late morning on a Friday in Washington, and Fascell has to catch a plane in an hour, to go home to Kendall. Every Friday, thousands of people abandon Washington and return to various corners of the United States. Fascell goes to Kendall because Kendall is where he lives. He doesn't live in Washington, he says. He spends most of his time in Washington, but he says "You couldn't give me this city."

Part of his loyalty to South Florida has to do with the water, he says. He likes to fish. One suspects that his loyalty also has to do with the voters. After all, he is a congressman, which means that he is supposed to be "closer to the people" than a senator, which means that he has to run for office every two years, which in the modern age of long campaigns means that he is always running for office. He is always raising campaign funds, some of which pay for his annual Labor Day picnic, a legendary cook-out that draws thousands of people. His longtime campaign treasurer, insurance agent George Korge, notes that Fascell won his first race in 1954 on a total budget of $10,000. "If we got a $25 contribution, we'd go out and celebrate," Korge remembers. Times have changed: Fascell already has $239,000 in the bank for his 1966 race.

Altogether it's not the best system imaginable, but it beats the way they do it in, say, Paraguay.

In any case, it's another Friday, and Fascell has to catch a plane, though first he must attend to details, phone calls, meetings.

"Never seems to be enough time. Should be 40 hours in the day. All right. I got the speech. Schedule. Travel arrangements. Reporter's telephone number . . ."

An aide hands him a letter and Fascell says, "Do it over, because that's not too good."

Pounding through the office, Fascell catches a scent and grimaces. "Jesus! What is that stuff that Jack smokes? Holy . . ."

Then he settles down in his chair and rubs his bleary eyes, his wise old barnacle eyes.

"This week just suddenly caught up with me," he says to no one in particular. "I'm tired . . . I hope no one shakes me."

Which means he hopes no one shakes him awake on the plane. They do that. They sneak up to him and grab his shoulder and shake and say "Are you asleep?" And he has to say no, because congressmen are always running.

Fascell loads up his briefcase and descends to the basement to his Pontiac 6000, and in a minute he is up on the Capitol Expressway. He dodges slower cars as he picks up speed, his right hand working the gearshift like a drag racer even though his Pontiac is an automatic (he says he likes to "use the engine"). He passes the Smithsonian, where a marble George Washington sits on a throne in a toga, nearly barechested, one God-like finger pointing skyward. He passes vast dizzying tracts of federal office buildings, horizontal skyscrapers, so many that you can't believe the government could be that big. And then on the right, rising above the cherry trees near the bank of the river, appears a familiar neo-Classical temple.

"There's the Jefferson Memorial!"

The congressman's saggy old face turns happy and reverent.

"There's Jefferson, standing in the middle of all these thoughts and words. Jefferson-ain. I think the monuments really capture the individuals."

Thirty years he's been in Washington and he still gets a charge from it all, a sensation. To think: He is part of it. He is one of the chosen, picked from among the teeming minions to be a leader, his only boss the Constitution. He is part of it: Checks and balances. Representative government. The Grand Continuum of Democracy!

"It's still not lost on me, I still get tingles," he says at one point. "Y'know, looking at the flag flying over the Capitol, and the dome is lit and you're walking through the halls and you're looking at Washington and Lincoln and Roosevelt and Stevenson and all the rest of the great figures in American history . . ."

The Pontiac passes within a few hundred yards of Jefferson, who stands embronzed under the rotunda, a scroll in his left hand, his words on the walls, words that, in the intoxicating seriousness of the nation's capital, lose their rote quality, their elementary school obviousness, and become something immediate and important and even real.

"Lincoln's is so dramatic, it has such a somber impact on you," Fascell says, noting the even more massive temple in the distance, at the end of the Mall.

Then: "Look at the Potomac River!"

Just as he says this another car nearly smashes his front right fender, and he slaps on the brakes and downshifts and shrieks, "Jesus Christmas! YiYiYi!"

He gets off the expressway and onto the George Washington Parkway, winding along the western shore of the Potomac River. Fascell says he doesn't think George Washington actually threw a silver dollar across. Too far.

On the outskirsts of the airport a cop standing in the roadway signals Fascell to pull over. Fascell does, and leans out the door.

"What'd I do?" he says with an impish grin.

"Forty-six, sir," says the cop, who shows no sign of recognizing the chairman of the House Foreign Affairs Committee.

"Well, I'm sorry, I was just trying to catch an airplane."

"Well, the airport's busy today," the officer says. The cop has ticket written all over his face. But for some reason—maybe it's the body language of this stubby little guy hanging out the door of the Pontiac, maybe it's his spunky "What'd I do?" maybe it's something in his eyes, a glowering that suggests both friendliness and power, maybe it's the negotiable smile—for some ultimately unknown reason the cop pulls back a little and says simply, "Please slow down, sir."

"OK!"

The deal is struck. The congressman drives away. He shows no sign of slowing down.

TRIBUTE TO TOMMY WINEBRENNER

HON. CHALMERS P. WYLIE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 11, 1985

Mr. WYLIE. Mr. Speaker, may I add to the many expressions of respect and compliments said of Tommy Winebrenner. I want to commend Congressman JOHN MYERS and Congressman BUD HILLIS for taking special orders so that we may put in the RECORD our warm regards for Tommy Winebrenner. Thanks to the technology of television and the fact that the House proceedings are broadcast on C-SPAN, Tommy's mother and sister were able to see the enthusiastic expressions of praise by Members of Congress on Tommy's behalf. The proceedings were even broadcast all the way to Texas so that his brother could see them. I know it meant a lot to Tommy that his mother, sister, and brother were able to hear those wonderful remarks about their son and brother. Tommy is one of those public servants who goes about doing his job in a very professional way without fanfare, who feels his reward is in doing a good job. He has been rewarded richly. I came to know Tommy early on in my time in Congress when he was introduced to me by Harry Brookshire who had his position before Tommy. Harry said if you want to know anything about what has happened on the floor or is about to happen, ask Tommy Winebrenner. I have found that to be good advice over the years. Tommy is not only knowledgeable however elementary or mundane the question might seem. But the information he imparts is always reliable and useful.

It would be hard to estimate the impact he has had on legislation and the deliberations of the House, but they have been considerable by being available to give advice as to how you go about being a part of the process, especially for us as we came in as new Members. I have never heard an unkind or uncomplimentary word said about Tommy Winebrenner. He is held in high esteem by Members on both sides of the aisle.

Tommy was most overwhelmed when the Republican conference gave him a standing ovation on learning of his early retirement and afforded him the rare privilege of asking him to address the conference. His humbleness and appreciation were evident. Tommy is one of those persons who will be truly missed when he leaves his job on the House floor. Majorie joins me in wishing for Tommy, his wife Barbara, his daughter Pat, who is a nurse at Duke Hospital and his son Mark, a junior at Chowan College, success and happiness in their life after Congress.

TRIBUTE TO TOMMY WINEBRENNER

HON. FLOYD SPENCE

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 11, 1985

Mr. SPENCE. Mr. Speaker, Tommy Winebrenner has drawn so much praise and accolades in the past few days from both sides of the aisle until I am not certain what more can be said. But when it all has been said, I feel that the summary must include words like dedication, intelligence, competence, loyalty, and honesty. The truth of the matter is that Tommy possesses all these good traits and more.

When I came to this body back in January 1971, Tommy was already a fixture. In fact, you sometimes felt that like the title of the late Secretary of State Dean Atcheson's book, he was "Present at the Beginning."

But regardless of when my colleagues—Republican and Democrat—took the oath, everyone of them knows that Tommy Winebrenner is the definitive source of knowledge about the House of Representatives and its workings.

Of course, one of Tommy's greatest characteristics is that he does not attempt to ingratiate himself. In short, he knows his business, and in a thorough, concise way he provides advice and counsel without a lot of extraneous verbiage. Members of the House and their staffs totally trust Tommy, because they know that he does not cut corners, and he knows what he is talking about. As General Lee observed upon hearing that his cavalry commander, Gen. Jeb Stuart, was seriously wounded, "he never brought me bad information."

It is for certain we will all miss Tommy Winebrenner. He came here as a page during the Eisenhower administration, and he leaves as one of the most respected staff officials in the history of Congress. His tenure is such that only a dozen sitting Members of the House were here when he first came to work as a staff member. After seven Presidents and four Speakers of the House, it is safe to say that Tommy has been a vital part of the history of the legislative branch of government for the past 30 years.

Tommy, we wish you well. We admire you, and we thank you for the long hours and hard work that you put forth in our behalf. You made us look good, but more important, you made our country look good.

THE NEED FOR A TEST BAN TREATY

HON. JOHN F. SEIBERLING

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. SEIBERLING. Mr. Speaker, as a cosponsor of House Joint Resolution 3, I strongly support the resumption of negotiations between the United States and the Soviet Union toward a Comprehensive Test Ban [CTB] Treaty.

The United States and the Soviet Union have already initiated a step-by-step approach to the completion of a complete halt to nuclear testing. In 1963, the Limited Test Ban Treaty, which prohibits nuclear tests in the atmosphere, outer space, and underwater, was signed by President Kennedy and Premier Krushchev and ratified by the Senate. In 1968, the Nuclear Non-Proliferation Treaty was signed and ratified. The United States and the U.S.S.R. completed negotiations on the Threshold Test Ban Treaty in 1974, and on the Peaceful Nuclear Explosions Treaty in 1976. These two treaties prohibit all nuclear tests with yields in excess of 150 kilotons, and include important provisions for successful monitoring and compliance verification. Unfortunately, these two treaties have not been ratified, and CTB negotiations are on hold.

Ratification of the Threshold Test Ban and Peaceful Nuclear Explosions Treaty, and the prompt successful conclusion of negotiations on the CTB would inevitably facilitate the difficult job of arms reductions to which the President and Secretary General Gorbachev committed themselves, at least in principle, at the Geneva summit. A complete halt to nuclear testing would place considerable restraints on the development of new and more deadly nuclear weapons systems by both countries. As such, the CTB offers a strong foundation for mutual and verifiable arms reductions.

The Reagan administration has deferred CTB negotiations, asserting that a moratorium on further testing would leave the United States in an inferior position to the Soviet Union. Tom Gentry, an Akron resident and a constituent of mine, put the administration's assertions in perspective in a December 4 letter printed in the Akron Beacon Journal. As Mr. Gentry notes, "since the beginning of the nuclear age in 1945, the United States has conducted 200 more tests than the Soviet Union (756 to 556) and technologically holds a firm lead in nuclear weapons development." Mr. Gentry concludes that a test ban would be "a significant step toward stopping the arms race." I agree with his sentiments, and am convinced that it is time we got on with the business of resuming CB negotiations.

Mr. Gentry's letter is reprinted as follows:

[From the Akron Beacon Journal, Dec. 4, 1985]

WE HAVE A TEST-BAN FOUNDATION

(By Tom Gentry)

It's possible that there never will be another U.S. or U.S.S.R. nuclear explosion. I wonder how many people know that on Aug. 6, 1985, the Soviet Union began an unconditional five-month halt to the testing of nuclear warheads.

The moratorium would be extended if the United States joins in and could result in a comprehensive test-ban treaty a significant step toward stopping the arms race.

The media in general and the Beacon journal in particular have done an unbelievably bad job in reporting the Soviet Union's action or commenting about it editorially.

I've asked a newspaper editor, business executives, pastors at a convention, friends and acquaintances if they know about the Soviet testing halt. The editor and most of the others didn't know.

Why a test ban? A warhead testing moratorium such as the Soviets have enacted represents a significant step toward a comprehensive test ban and stopping the arms race.

There is no truth to the Reagan administration assertion that the Soviets have "accelerated their testing in recent months, putting them in a position not to need further testing this year."

This year the Soviets conducted seven tests; the United States nine. This a lower rate of testing by the Soviet Union than in recent years, hardly a spurt in testing. The U.S. Department of Energy announced 10 Soviet tests in the first seven months of 1984.

Since the beginning of the nuclear age in 1945, the United States has conducted 200 more tests than the Soviet Union (756 to 556) and technologically holds a firm lead in nuclear weapons development.

The administration also asserts that the Soviet testing moratorium is no more than a hollow propaganda ploy. This deludes the American public into thinking that the moratorium was merely an offer, not the concrete action that it is.

The quick U.S. dismissal of the merits of the moratorium ignores the national security aspects of a halt to testing. A warhead test ban would enhance security by stopping much of the technology needed to develop first-strike weapons.

A comprehensive test ban would block testing of warheads for MX, Pershing 2, cruise and Trident II missiles, all of which are designed to increase our ability to strike first and fight a nuclear war.

Equally significant, a comprehensive test ban would block tests of the nuclear explosions designed to power the x-ray laser on "star wars" battle stations, part of a first-strike strategy to provide a shield against a weakened Soviet second strike.

I wish the Beacon Journal would give this issue its consideration, present the facts to the people in its area, and let us hear its editional comments soon. I don't know why President Reagan didn't make a test-ban agreement in Geneva.

I hope people let our administration and Congress know how they feel. It would be nice to end nuclear explosions in the United States and the Soviet Union.

GENERAL DYNAMICS IS EMBLEMATIC OF A LARGER PROBLEM

HON. JIM COURTER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. COURTER. Mr. Speaker, As the following editorial from the Newark Star-Ledger declares, General Dynamics has had more than its share of criticism recently, as a result of the DIVAD cancellation, the nuclear submarine programs, and the indictments of present and former officials. But

perhaps the most enduring lesson from the General Dynamics affair is that America needs a broader, more capable defense industrial base. Otherwise, all the threats of contract denial and other penalties will ring hollow, because the Government will have nowhere else to turn for important major weapons systems. In the case of General Dynamics, they are our sole supplier for ballistic missile submarines and main battle tanks, and one of only two suppliers for nuclear attack submarines. It is simply not credible for the Navy or the Defense Department as a whole to threaten penalites for misconduct under defense contracts when there is nowhere else to turn. This situation needs to be corrected, in the interest of peacetime efficiency and wartime effectiveness.

The editorial follows:

[The Newark (NJ) Star-Ledger, Dec. 10, 1985]

DIVAD AND GOLIATH

General Dynamics, the nation's No. 3 defense contractor, has not been on the best of terms with the Pentagon in recent times.

False claims on expense vouchers submitted to the Navy got the corporation in trouble last summer. The disagreeable matter was settled in August with a $111 million package of renegotiated overhead expenses and $658 million in contracts for a new Trident submarine and other military goodies.

The reconciliation with the Navy, however, was short-lived. That same month, Defense Secretary Caspar Weinberger called a halt to further work by General Dynamics on the Sgt. York anti-aircraft gun—also known as DIVAD, for Division Air Defense.

DIVAD was—and continues to be—a major embarrassment for Pentagon brass, a project on which $1.8 billion had already been spent. Despite the huge expenditure, one major flaw persisted: The weapon did not work.

Now an equally embarrassing sequel to the DIVAD fiasco is being written. James Beggs, administrator of the National Aeronautics and Space Administration, has been indicted with three others on charges of hiding overrun losses on the Sgt. York when they held executive posts at General Dynamics between 1978 and Aug. 31, 1981.

The alleged crime is said to have involved mischarges of $7.5 million, losses diverted to other government contracts. As a result, the government reports that it suffered a net loss of $3.2 million. Mr. Beggs had been corporate executive vice president of General Dynamics until he left that post on July 10, 1981, to take over the top job at the federal space agency.

Mr. Beggs has wisely decided to take a leave of absence from his command post at the space agency, pending disposition of the charges against him. And General Dynamics, for the second time this year, has been barred from receiving government contracts. This time the suspension applies not only to defense work, but all government orders. How long the punishment will last, however, is anyone's guess, given the historic chumminess between the military supplier and the military.

Other investigations are continuing against General Dynamics, whose executive vice president, George Sawyer, was indicted Oct. 31 on a charge of lying to the government about his job-hunting trips while serving as assistant Navy secretary.

General Dynamics, the recipient of some $6 billion in military contracts, seems to be no better at managing its internal affairs than it was at turning out a working anti-aircraft weapon. Little wonder the public suspects that it could be getting much more for its defense dollars if the Pentagon did a better job monitoring its favorite contractors.

TAX BILL

HON. ROBERT W. DAVIS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. DAVIS. Mr. Speaker, my vote today in favor of the Ways and Means tax bill is reluctant and conditional.

I labored over my decision on how to vote on this legislation. I remain committed to the ideals of true tax reform which results in simplicity, fairness, and growth. This bill does not embody these ideals. It does, however, allow the effort to continue. I agree with my colleagues who predict that the defeat of this bill will dash all prospects for tax reform in 1986 and in the foreseeable future.

Two of the principal industries in my northern Michigan district are forest products and mining. The treatment of these industries in the Ways and Means bill is unnecessarily punitive. Natural resource and basic manufacturing activities, which are the foundation from which all goods are produced and national wealth is created, involve highly risky and enormously costly capital investment. This investment has been encouraged by income tax incentives. Loss of these incentives portends serious consequences for the industries and the communities that rely on their economic health. Basic industries and their employees that are already suffering because of unfair trade practices by foreign competitors will have to absorb a tax burden shifted from service and low capital intensive industries that are prospering.

Individual taxpayers fare extremely well in this bill. The American taxpayer will find his or her income taxes reduced by an average 9 percent over current law. The personal exemption allowed for each dependent will be raised from $1,080 to $2,000 for nonitemizers and to $1,500 for those who file the long form. Lower tax rates will result in more after tax dollars for American workers. These are certainly changes for the better.

Mr. Speaker, I am relying on the Senate to take a more informed and realistic look at the effect loss of capital incentives will have on basic industries and American jobs. I also am hopeful that the other body will allow the full $2,000 personal exemption for all taxpayers. I must count on the other body so that the effort for true tax reform may continue.

This bill is neither simple nor fair, but it is a vehicle for further consideration. However, if the conference report is not a considerable improvement over the bill we passed today, I will withdraw my support.
